SMITH SILVER BLACK FOX COMPANY LTD.

Presents Excellent Opportunity to all Classes of Investors — Company Welcomes Investigation by all Interested

There is now no doubt as to whether the black fox industry has caught the fancy of the investing public. Not only the monied man and woman, but the investor with the small capital have come to realize that the industry has come to stay, and that it is quite possible to receive a very high rate of profit with perfect safety.

As far as fox ranching is concerned the investor must assure himself of two essentials in his investment. These are high class foxes of proved breeding capacity and careful experienced managers. By assuring himself of these, and that the capitalization of the company represents actual value in tested breeding high grade foxes, he can rest satisfied that he will receive the same high returns on his investment which have hitherto gone into the pockets of the private breeders.

The Smith Silver Black Fox Company Limited, on examination, will be found to fulfil all these obligations, which can be verified by investigation at the provisional secretary's office at 93 Prince William street.

The Smith Silver Black Fox Company Limited know that they have a good proposition, and the officials are all the more ready to exhibit its strong points to the intending investor. Call or write to C. H. McLean, provisional secretary, 93 Prince William street, St. John, N. B.

Tax the Land.

Ex-Ald. Potts is not one of those who thinks the city commissioners should go to the expense of $12,000 for an expert to come here and straighten out the assessment system. "The thing to do," he said to The Standard, "is to adopt the land tax. If that is done, if the burden of taxation is placed where it ought to be, then the assessors will have to put proper valuations on the land. They are quite able to do that if they are given a mandate. The trouble is that instead of regularly revising land values, when they wanted to get more money, they have looked around for new improvement or people with incomes to levy the additional tax on."

POLICE ACTIVITIES.

Policeman Addison Saturday evening arrested William Moore for being drunk on Smythe street and violently resisting.

Michael Dooley was given in charge Saturday evening by Mrs. Rose Mcdonald on the charge of being drunk and assaulting her in her house 168 Union street.

No less than eight drunks were gathered in by the police on Saturday night.

A hat found on Brussels street, and a key found on Union street, Saturday evening, await owners at the central police station.

Joshua Peters.

Moncton, Feb. 23.—Joshua Peters, a leading resident of Moncton, and for many years until ill health caused his retirement, actively identified with the Record Foundry and Machine Company, died on Saturday evening in the 63rd year of his age.

Deceased was a native of Kent County but for the past forty-three years had been a resident of Moncton. He is survived by three sons, Seymour, Charles and Joshua, who are connected with the Montreal branch of the foundry. Messrs. Alfred L., Oswald J., and Frank Peters of Moncton are brothers and Mrs. Keswick of Vancouver and Mrs. B. F. Reade of Moncton are sisters.

Death of a Child.

Much sympathy is extended to Police Officer Orland C. Ward and Mrs. Ward on the death of their 17 months old son, Ralph Colwell Ward, who died yesterday. The little fellow was a favorite in the household and is a great loss.

Undesirables at Millidgeville.

Officers Totten and Jones were called into McCluskey's shop, Millidgeville, on Saturday, to eject a number of men who were making themselves obnoxious.

Will Discuss Water and Sewerage.

About the principal business before the meeting of the city council today, will be the official ratification of Com. Wigmore's programme for water and sewerage extensions and renewals.

THE WEATHER.

Maritime—Strong Northwesterly winds; fair and colder, with snow flurries.

MARRIED.

HUGHES-ALLEN—At the Baptist parsonage, Fairville, Tuesday afternoon, Feb. 18, by the Rev. Henry R. Boyer, Edwin L. Hughes of St. John West, was united in marriage to Mrs. Cora C. Allen of Fredericton. Mr. and Mrs. Allen will reside in this city.

DIED.

WARD—In this city on Feb. 22nd, Ralph Colwell, son of Orland C. and Mary A. Ward, aged 17 months.
Funeral from 261 Duke street, Tuesday at 2 p. m.

LOVE—In this city on the 22nd inst., Doris G. M., beloved daughter of Arthur L. and Margaret Love, aged 5 years and 8 months.
Funeral from her parents' residence, 102 Exmouth street, on Monday, 24th inst., at 2.30 o'clock.

BARRETT—On Saturday last, February 22nd, Joseph Kenneth, infant son of Frederick L. and Mary Sabina Barrett.
Funeral Monday at 2.30 from 301 Brussels St.

INDIAN ARCHITECTURE NOW PLEADED FOR IN BUILDING NEW DELHI

London, Feb. 23.—A petition signed by the Duchess of Bedford, Lord Glenconner, Walter Crane and others, has been presented to Lord Crewe on the subject of the building of the new city of Delhi.

The petition brings forward the question as to the method by which the new city of Delhi is to be built. Are its plans to be devised in a modern architect's office, separated from craftsmen, materials and site, and binding the builders with details and specifications. Should not rather the method be that which has produced Westminster Abbey, St. Sophia, St. Peter's at Rome, the Taj in India, the palace of Akbar and Shah Jahan, as well as the great public works of former times, the method which allowed of the master builder and his craftsmen working in accustomed materials, upon the site from simple instructions as to accommodation or arrangement, such as would have been given to a master mason or a master carpenter by a medieval king who required a palace or a castle.

This is the method that has produced all the great buildings of the world, and no modern buildings warrant the assumption that it can be safely departed from. The petition urges that living craftsmanship should be saved from extinction by a right method of employment, and that in the building of Delhi native Indian architecture be left to its own inspiration, for the product would then be living art. The possibility of work upon these lines is now so rare that its value can hardly be exaggerated.

Happy Elmira.

(Medicine Hat Call.)

A wonderful record comes from Ontario. The municipality of Elmira has been incorporated for twenty-eight years, and in all that time there has not been one cent of arrears of taxes, the whole being paid before December 14 of each year. We believe this constitutes a world's record. Of course there are no multi-millionaires in Elmira, and in consequence no poor. Happy Elmira!

NEW PICNIC GROUNDS.

Gordon A. Watters, No. 44 Kennedy St., North End, has cleared his grounds at Grand Bay, is erecting pavillions, etc., to be available for picnics the coming season. The grounds front on the river and will no doubt prove a beautiful spot when completed.

CARLETON VS. ST. ANDREW'S.

The Carleton and St. Andrew's clubs will compete this afternoon and tonight, eight rinks aside.

PERSONAL.

Mrs. M. A. Laskey returned on Saturday from Fredericton where she was visiting her son Wm. W. Laskey.

Ease That Sore Joint Nerviline Will Do It

The Champion Clog and Pedestal Dancer of Canada Tells How to Keep in Trim.

Few men in his profession are better known than Mr. Thomas Hogan, of 27 Fortification Lane, Montreal, who writes:—"To limber up a stiff joint, to remove every sense of soreness from tired muscles I can tell you nothing compares with Nerviline. It is really a wonderful liniment, and I use it continually, simply because I find it keeps the muscles and joints supple and entirely free from pain and stiffness. I earnestly recommend Nerviline to every person that requires to use a strong, penetrating, pain-subduing liniment.

For Rheumatism Nerviline is a wonder; for Sciatica it cures where others fail; for Lumbago, stiffness and cold, nothing surpasses it. Keep Nerviline handy—it's good to take inwardly, destroys internal pains quickly, and is just as good for outward application. Large family size bottle, 50c.; small size, 25c., at all storekeepers and druggists or The Catarrhozone Co., Buffalo, N. Y.

SUFFRAGISTS HEAR SOCIALISTS SPEAK

Opinions Not Especially Complimentary to Present Day Women, Expressed at Socialists Mass Meeting.

Some of the St. John suffragettes evidently do not intend to accept the advice given them at Fredericton and confine their interests to the home. Instead of stopping at home some of them attended the meeting of the socialists last evening and even took part in the discussion which ranged round the world and back again, though it occasionally gave opportunity for a word in favor of the suffrage movement. One of the socialist speakers tried to justify the militant tactics of the English suffragettes, pointing out when men went after suffrage last century they had to destroy a great deal of property, and burn the castles of many landlords before the government recognized that they really wanted the franchise.

Another speaker said that the backward state of New Brunswick industrially, the fact that the census figures showed that labor here was neither so productive or so well paid as in other parts of Canada, accounted for the indifference of the great majority of women to the suffrage movement. He pointied out that with the progress of the modern industrial revolution the old industries carried on by women in the home had been transferred to the factory, and that women, if they were to do as much of the world's work as they used to, should work in factories.

The modern woman was rather pampered; she did not have the rigid training of the era of home industry, and might be somewhat deficient in intelligence on that account. A survival of an old sentiment made the average man think it a disgrace to have his wife work outside the home. But there would be no grounds for such a sentiment if conditions in factories, hours of work, etc., were made reasonable. It was the mission of socialism to establish such conditions as would make it possible for the modern women to do something more than merely spend a man's money, spoil his digestion by poor cooking, and make herself a slave to bourgeois ideals of housekeeping; to allow many of them to follow the arts which kept their great great grandmothers busy and healthful into their new habitat, the factory.

Those who had a penchant for housekeeping would be given an opportunity to manage apartment houses where the industrial workers and their industrial wives would live.

Y. M. C. A. TO PLAY McADAM.

The McGill College basketball team wired the Y. M. C. A. that they will not be able to come until late in the season, the Y. M. C. A. at once got in touch with the McAdam team, and they will be seen here on next Wednesday night. The McAdam team is made up of fast players, their captain, Stanley Seely, having played basketball in St. John with the old Algonquin team. This will be the first appearance of McAdams in St. John and as they are said to compare with the U. N. B. team which played the Y. M. C. A. on Friday last, the game will be very fast. They have been playing basketball with the fast Maine teams and the players are all in good condition. In 1909 the old Portland team made a trip to McAdam and were defeated, the score being 18 to 12. The local Y. M. C. A. team had a workout Saturday night and with a practice called for tonight, they will be ready to meet the best, on Wednesday night. The game will start at eight o'clock, and seats will be reserved for the ladies until that hour.

THE FINAL GAME.

Tonight the Thistle rinks skipped by W. A. Shaw and W. J. Brown will curl the final match for the first prize in the Royal Caledonia single competition and this will finish the bonspiel.

That "SKUNKY" Taste in Some Beers

is caused by the action of Light.

This is the deliberate opinion of no less an authority than Philip Dreesbach, German expert and scientist in the Wahl-Henius Institute of Fermentology. He says:

"Beer acted upon by light soon takes up the very disagreeable, so-called 'light taste,' and also a repulsive skunk-like odor. Beer so affected is offensive to the palate of most consumers, and there is probably nothing that will influence them more against any brand of bottled beer than to have once tasted beer possessing this 'light taste' to a marked degree. The presence of this defect, however, is not always the bottler's fault, as the consumer himself very often lets the beer stand in the light. But the consequences must usually be borne by the bottler."

Schlitz is sold in Brown Bottles to protect its purity from the brewery to your glass.

In our brewery we spend more in purity—in time, in skill and in money—than any other cost.

Why don't you, too, demand the pure beer—Schlitz in Brown Bottles?

See that crown or cork is branded "Schlitz."

Record Passenger List.

There is a record crowd of passengers coming from the old country this week to arrive at Sand Point. The Donaldson liner Cassandra left Glasgow on Saturday with 264 passengers. The C.P.R. steamer Empress of Ireland is due here on Friday with 126 saloon, 465 second class and 885 third class' making a total of 1496 passengers. This passenger list is about twice as large as the steamers are taking into New York at the present time.
