The marbles within the ring
And the dirt that clings to the small boy's knees

At the garden gate at night.

CAPT. KEARNS.

Mr. W. W. Plympton from Gananoque was in town on Wednesday and amused himself mightly by racing his trotter up and down Main street. He seemed to be considerable under the weather, which may account for his seeming to think that that thoroughfare was a public race course.

Mr. George Johnson of Elbe Mills has a sap boiler which works something like dropping a penny in the slot. The sap is run in atone end and after traversing through devious byways, comes out of the other end in rich syrup. Any member of the society wishing to offer any suggestions regarding additions, changes &c., in the prize list should send the same to the secretary before that date, when it will be considered by the board.

Toronto may be a great and growing city but its water works is a disgrace to it. One hydrant last week gave out water containing catfish and sand, another gave up beetle heads, another a selection of straw and dead wood atoms. By adding a little salt and pepper the boarding-house mistress might serve it up as regular orthodox soup.

Another old landmark has passed over to the great majority, James Carss, who has resided with his son John, on Wellington street, Athens, for several years died this am., aged 82 years and 8 months. Funeral, Wednesday at 2 30 at Methodist church. As our forms were about ready for press when we received notice of the death we will give a more extended obituary notice in our next.

An old resident of Addison passed over to the great majority on Wednesday evening last, in the person of Mrs. Prudence Monroe, wife of Chittenden Monroe. Mrs. Monroe was a daughter of the late James Wiltse of Yonge township and was in the 72nd year of her age. Her funeral which took place at the Methodist church, Addison, on Friday was largely attended, testifying to the respect in which she was held by her neighbors and friends.

Mr. H. R. Knowlton a former well known resident of this village, who has been in Toronto since last fall, where he has been perfecting himself in the more intricate parts of the watchmakers' trade, was in Athens this week. He has decided to again open business here and will be ready to commence opening up his new stock of watches, clocks and silver plated ware, as well as carry on repairing in all its branches, about the 1st of July next.

The Sugar Social in connection with Christ church tock place last Wednesday. evening in the high school lecture rooms. Owing to other attractions on that night the hall was not as well filled as it would otherwise have been. The program consisted of recitations by Miss Maud Addison and Mr. Kennedy, solos by Mrs. Singleton and Miss Bertha Pierce, instrumental music by Misses Wright and Berney, and by the orchestra. Maple sugar was served during the evening. The proceeds amounted to $30.

Mrs. S. Weightman of Chicago gave the Reporter office a pleasant call yesterday afternoon and renewed her subscription for another year. She is a near relation of the Wiltse and Parish families of this section and will spend several weeks visiting amongst them and other friends in this section. Her long residence in the States has made her an enthusiastic American and she is loud in her praises of the land of her adoption.

But now let us see what the compositor can do and does do every day of his life. He takes a manuscript the chirography of which would make the lid of a Chinese tea chest blush with envy, translates it into the vernacular as he goes along, corrects the spelling and the grammar, and oftentimes the rhetoric and turns it out, not as the author wrote it, but as he intended to write it. He sets up better English than most men can write; he can detect errors of fact as well as of style; he can give the horse editor points on sporting matters, and the religious editor on theology; he can appreciate even the merits of a discussion on the tariff, and detect the fallacies in a profound leader on economics, and he can do more hard and intelligent work in a given time, if he has to, than any other sort of handicraftsman.

Many of our readers will remember that last fall Fishery Inspector Hicks, had Geo. A. Bulford of this village summoned for illegal fishing in Charleston Lake. A lengthy and somewhat burlesque account of the proceedings at the trial appeared in the Reporter at the time. The Inspector concluded to try the case himself and after hearing the evidence imposed a fine of $20 and costs. Mr. Bulford claimed that he had been illegally fined and instructed Mr. M. A. Everitts his attorney, to place the matter before the Minister of Fisheries and after a correspondence pro and con that lasted until last week that official decided that the conviction was bad, and that Mr. Bulford should have his fine remitted, and the same day a check for the amount was received by him.

The young women of Alymer, Ont., have organized and pledged themselves not to "keep company" with any young man who drinks, smokes or plays cards. An exchange says:—This is surely sweeping, but you should have gone a little farther, sisters, and protected yourselves against young men who swear, are addicted to the bad habit of dirty finger nails, who don't keep their boots polished, who scorn clean linen, and go unshaved half the week. Then let the young men organize and pledge themselves not to "keep company" with maids who affect the soul-destroying bang, who chew gum, wear bustles, corsets, high-heeled boots, red parasols, big hats, smoke cigarettes, say "darn" "great Scott," "holy-fly" and "isn't that cute," I'll be dinsquizzled, I connip, my laws, by George, play hob, who make bread as heavy as pig iron and pie paste like lead, who fry beefsteaks and mutton chops instead of using the grid-iron, who read novels while mother does the week's washing, and who always have holes in the heels of their stockings.

The "war correspondent" of the Recorder was in town yesterday. He looked somewhat battered, and in answer to our inquiry as to the cause, referred us to the item in Friday's Times anent the little unpleasantness that occurred between himself and the proprietor of the Windsor Hotel, Brockville. The Times says John, better known as Parnell, appeared at the clerk's office on Friday last and swore out a warrant for the arrest of Wm. Gillerlain on a charge of assault and battery. The scribe of the Times accuses John of bringing the trouble on himself by being a little too previous in attempting to cull a few notes for the Recorder. John and a companion are said to have had a drink together and then John lingered a moment and interrupted a conversation between the defendant and another man, and was ordered away, but refused to go claiming that as a reporter for the Recorder, he had a right to listen to conversations. Finally John took off his coat, and calling the landlord a coward, dared him to fight. The result that there was a sudden fall in Parnell stock and John came out of the melee somewhat shook up, hence the charge before his honor the P. M. The "War Correspondent" should remember that he is not fooling around a printing office when he tackles a full grown Irish landlord. On Monday the P. M. gave a decision dismissing the case without costs.

Week before last the local of the Reporter wrote the following note "We have to thank Mr.——for a nice piece of new maple sugar. We will fill in the name when we get the sugar." On Friday last the opportunity occurred for filling in the sought-for name. A fine covered carriage drove up to the door of the editor's dwelling and a polite invitation was extended to the family to go down to the residence of Geo. H. Johnson, near Elbe Mills for the coveted chunk of warm sugar. Ye editor was from home and it was well that he was for carriage springs are not supposed to hold up more than two persons, especially if one of them tips the scale within four lbs. of two hundred. Of the quantity of warm sugar and wax made way with by our better half we will say nothing, but when we reached home on Saturday evening the smell of boiling sugar on the kitchen stove brought the paragraph very forcibly to our remembrance. The local, the foreman, the intelligent comp. and even the Devil were soon helped to sugar. After the feast we felt like exclaiming with the "Ancient Mariner," with the words slightly changed sugar, sugar, all around but not a drop to drink. There was sugar on the mouth, sugar on the chin, sugar on the nose, hands, table and floor, and still there were lots to spare, in fact George's liberality was such that after all had been provided for, their were several great "Gobs," of wax and a half dozen small cakes made from the remnants of the feast.
