Lawrencetown Items.

Miss Lillian Starratt, of Manhatten, is the guest of Miss May Hall.

Mr. Guy Manser is the guest of Mr. and Mrs. J. W. Whitman.

S. B. Hall returned from Yarmouth on the 24th and proceeded to Kentville with his horse "Sambo" on Saturday, the 25th.

The ladies of this town, with those of Clarance and Paradise meet this afternoon, Wednesday, in Temperance hall, for the purpose of organizing a W. C. T. U.

J. H. Balcom occupied the pulpit in the Baptist Church on the 26th. The Rev. J. T. Eaton was able to be present.

All are looking forward for another victory for our town to-morrow, when we expect *the old horse* to bring back the laurels. Large numbers are going from here to witness the race. Success to "Sambo."

The river bridge is being repaired by the contractor, Wm. Whitman, and will soon be as good as new.

J. H. Whitman, Esq., has imported a brood mare. A good judge says she is a beauty.

We are sorry to chronicle the death of Mrs. H. Gardner, which occurred on the 28th inst. at the Alms House. She, it is said, has been at every birth, death and marriage in our town for the last fifteen years.

Belle Isle Bits.

Farmers are very busy securing the hay crop—a good average.

The potato-beetle is becoming legion here, and it will be a contest between them and the farmer, which will get the crop.

Our respected citizen, John W. Wade, Esq., has been clothing his domicile in a new coat of paint. His artistic taste has beautified his residence very much.

Mrs. David Wade who has been visiting her daughter, Mrs. Alfred Lang of Boston, returned home last week, much benefited by her visit.

A large congregation assembled at St. Mary's church last Sunday to welcome the new Rector, the Rev. Mr. Cunningham, but had to go home dissappointed as the rev. gentleman did not get there.

Springfield Notes.

The clanging of the mowing an' raking machines may be heard in various directions, indicating the fact that the cutting of the hay crop is in full progress.

Work has been temporarily suspended in the mill of M. C. Roop, lessening business activity to some extent in that vicinity. Several new buildings may be seen dotted here and there. A large residence belonging to the above-named gentleman is fast nearing completion

As the season advances warm weather is upon us, rapidly making vegetation advance in its endeavor to yield a bountiful harvest. Potato crops on some farms are looking comparatively well, notwithstanding the regular potato pest can be found in no small numbers by many farmers.

Very little serious illness has manifested itself in the community for some time. Occasionally some have returned from their homes in distant cities to rest and regain lost health in the invigorating air of their native land,—the convenience of the Central railway making the facilities of travelling one of safety, comfort and speed. The many summer tourists sojourning in the Annapolis Valley and vicinity would find it an agreeable completion to their otherwise pleasant vacation to take a tour over the N. S. Central line before returning to the din and bustle of city life. Pleasant, commodious accommodations may be found at the N. S. Central hotel, the locality of the house affording an excellent view of lakes, woods and fields.

Melvern Square Items.

Crops are looking well at present, promising an abundant harvest.

We notice quite a number of visitors in town. They add a liveliness and interest to the place.

Our nine applicants have returned from the examination at Bridgetown. Some feel happy; some feel sad. "What will the harvest be?" For the end is not yet.

In spite of the haying season and the consequent weariness of the members, "Enterprise" Lodge, I. O. G. T., still maintains its reputation for interesting entertainments. Last Saturday evening a choice programme was rendered, prominent parts in which were taken by Bros. S. S. Spurr and C. J. Spinney.

We regret to mention the departure from our midst of one of Melvern's fair daughters, namely, Miss Jessie McNeil, who left recently for California in company with relatives who had been visiting this place. She will be greatly missed by her many friends, but especially from her accustomed place in the Sabbath-school and Methodist church choir. All join in wishing her a pleasant visit and a safe and speedy return.

Clarence Chips.

Farmers are very busy haying and report a very fair crop.

Clarence is now looking very beautiful and quite a number of visitors stopping among us say that it is one of the loveliest places in Nova Scotia, if not the Maritime Provinces.

Miss Hattie C. Marshall, of Boston, is now visiting among her friends here.

Mrs. Spurr and daughter Miss Zebbie, of Round Hill, are visiting at Mr. M. C. Marshall's.

The Misses Smith and Mrs. Robinson of St. John and Mrs. Kinney of Cambridge, Mass., are also stopping for a few days with friends here.

Our Sunday-school is in a very flourishing condition this summer, under the efficient management of S. N. Jackson. The average attendance is very large and a good interest is shown by both officers and scholars.

Two students from Clarence Centre and one from Clarence school attended the examinations at Bridgetown last week.

The new school-house in Clarence section is being rapidly pushed forward towards completion. We think that it will be a handsome building.

Clarence Division seems to flourish in spite of the busy season. The literary entertainment is very nice, and on last Saturday evening we had initiation.

We are very glad to hear that there is talk of organizing a W. C. T. U. in Lawrencetown on Wednesday. We think that this is just right and should have been done years ago. We hope that a large number will give it their hearty co-operation and support.

The children of our schools are now enjoying their summer vacation.

Cherries are quite plentiful this summer and cherry parties are the order of the day.

Lower Granville Notes.

Haying is in full blast. The crop is below the average.

The Episcopal friends intend holding a tea-meeting after haying, and we trust they will be equally well patronized.

Several summer visitors are here visiting relatives and friends, amongst whom we observed Mrs. D. E. Tauch and daughter and Miss Elvie Johnson of Salem, and Mrs. A. W. Quereau and daughter of Lynn.

The new tern schooner was launched on Saturday and glided majestically into her native element, making a low bow to the admiring crowd as she dropped off the end of the ways and her bow plunged deep in the water. It was pronounced a very pretty launch. She is named *Bartholds*, and is a very pretty craft on the water. She will remain here to be rigged and finished and partially loaded with piling for Boston. We congratulate Capt. Delap upon his successful launch and hope the *Bartholds* may be a very profitable investment to her owners. An immense crowd witnessed the launching and then repaired in large numbers to the grounds of B. W. Shafner, Esq., where a tea-meeting was being held in the interest of the Baptist church. Some complaint was made that ample provision had not been made for the gastronomical demands of those who attended, but as the number present was unusually large our Baptist brethern may be excused if they found the demand slightly exceeding the supply. The receipts, clear of expenses, amounted to seventy-five dollars.

Mining News.

Mining experts note that cholera never attacks the bowels of the earth, but humanity in general find it necessary to use Dr. Fowler's Extract of Wild Strawberry for bowel complaints, dysentery, diarrhœa, etc. It is a sure cure.

Some laugh at old school remedies. Do modern ones equal Johnson's Anodyne Liniment!

Round Hill Jottings.

Miss Elsie Smith, of Yarmouth, is visiting here.

B. S. Banks is attending the summer school of Science at Antigonish during the vacation.

The hay crop in this section of the county is a fine one, being especially large on the marshes.

A few pupils of this school attended the examination at Bridgetown during the past week as applicants for teachers' license.

The Round Hill Episcopal Church is undergoing thorough repairs both in the interior and exterior, in the way of paint, etc. This, when completed, will be a decided improvement, and shows the spirit of the parish.

Victoriavale.

The farmers are most done haying, and the hay crops are good.

Among the visitors that have been visiting in the place we may mention Mrs. Lemuel Nichols, of Torbrook, and Mr. E. G. Phinney, of Boston, Mass.

Mr. R. F. Craig, who has been on a short visit to his son's, I. C. Craig, of Parrsboro, returned on Wednesday last, accompanied by two of his grandchildren, Master Colin and Miss Muriel Craig.

Miss Venie O. Ward, teacher at this place, is spending her vacation at her home in Melvern Square.

Since our last writing from this place, death has visited our Vale and claimed for its victim one of our most highly esteemed residents, Mrs. J. S. Parker. She died on the 15th and on the 18th an excellent sermon was preached in the church on the hill by the pastor, L. J. Tingley, at the close of which a large concourse of mourning friends followed the remains to their last resting place at Pine Grove, where all that was mortal of an affectionate friend and kind neighbour and loving mother was laid to rest.

Miss Laura A. Parker of Maynard, Mass., is spending the summer at the residence of her brother, Ira D. Parker.

Mr. J. M. Cropley, of Marblehead, Mass., paid a flying visit to his sister, Mrs. O. G. Bowlby.

Clementsport Items.

Crops are looking fine. Hay will be an average.

Roop Bros. are loading the schr. *Sandolphin*, Capt. Walker, for Boston.

Schr. *E. E. Potter*, Capt. C. LeCain, has been in dock painting and repairing.

Last Sabbath, in the Methodist Church at Clementsport, an event was noticeable that does not often take place, viz., four generations in one pew: Great-grandmother, grandmother, mother and son. Names of the parties are Mrs. Gilbert Parker, Mrs. John Garney, of Boston, Mrs. William Hargrave, of Boston, and Master John Hargrave.

Quite a number of Boston ladies and gentlemen are now in Clementsport, seeking the quiet and enjoying the beautiful scenery that surrounds this locality. What place more adapted; I think none. Clear, health-giving air, good fishing almost at the door, beautiful walks and drives, bathing with all health giving properties, etc. All that's required is more hotel accommodation.

At last the "Missing Link" is nearly completed. On Monday last the first passenger train went through to Annapolis, and many availed themselves of the half-fare ticket, and expressed themselves delighted with their trip. The road is easy running, and will be of great benefit to the inhabitants along the line. Through the efforts of our Warden, J. P. Roop, quite a display of bunting was waving to the breeze in honor of the W. C. R. R.'s first through train. We failed to notice any display at Annapolis, save one flag on Mr. Clark's grocery store.

An Interesting Budget of Boston News.

[From our regular correspondent.]

The hot season in the city is usually barren of items for newspapers, and of all summers this seems to be, in Boston at least, the most uninteresting.

The exciting pursuit of the two murderers, Alny and McArthur, has been the only material of late from which to manufacture attractive headlines for the daily newspaper bulletin boards.

The next "big" day in this city will be in September, when the toilers are to form in line of procession for the celebration of Labor Day. The appointment of officers and the making of other arrangements for that holiday have already begun.

The condition of the laboring classes has not been a favorite topic in the city pulpits, but there are exceptions, and one pastor, Rev. Louis Albert Banks, of the M. E. Church, Broadway, South Boston, is an outspoken champion of the poor man, and is fearless in his denunciation of the abuses that mark our present industrial system. The "sweat shop" and the chattel mortgage "shark" have been among the subjects of his sermons of late. He even calls on all true men to cease patronizing the dealers in the cheap goods which are manufactured in the "sweat shops" at starvation wages and under conditions of ventilation, etc., utterly destructive to health, or worse still, made "by the piece" in the midst of the filth, misery and disease of New York tenement houses. He gave in a sermon recently the case of a Boston family in which the woman earned a living by making overalls for five cents a pair. At a time when the husband was out of work, they were obliged to hire ten dollars from one of the "sharks" and gave in security a chattel mortgage on all their furniture. The rate of interest was two dollars a month, and after paying that usury and fees besides for fifteen months, amounting in all to forty dollars, their furniture was about to be seized for the original loan, when a kind hearted police officer on that beat stepped in and agreed to stand good for the amount. Labor reformers have frequently come to be in bad savor by the company they keep. The presence of hot-headed or anarchistic foreign agitators in the ranks of legitimate and reasonable reformers, has done more to injure the labor cause than all that the efforts of its open enemies could have accomplished.

In order to get a glimpse of the pleasing features of social and industrial reform movements, go to the meetings of the Nationalist clubs of this city. Here you will find educated, wealthy and refined American citizens side by side with representatives of the middle and poorer classes, discussing in a calm and reasoning tone the great social and industrial questions of the day. Foreigners are welcomed to their ranks, for the Nationalist knows every man as his brother. The Nationalists do not deal in words alone. They are pressing practical measures upon the attention of the government. Under the influence of Nationalist reasoning many towns in Massachusetts have municipal street lighting, and are looking forward to municipal ownership of street railways, etc., instead of placing these matters in the hands of capitalists. That "the destruction of the poor is their poverty," is in nothing more plainly shown than in the matter of fuel. The man who has the money to spare lays in his winter supply at a cost from one to three dollars less than it can be purchased for by the single ton in cold weather. But the extremely poor have to obtain their fuel by the basket, paying for it at the rate of ten, twelve and even fifteen dollars per ton. The latest move of the Nationalists is to induce the corporation of the city of Boston to establish municipal coal yards where any citizen can obtain supplies of fuel at cost. The movement is thoroughly benevolent, or rather it is in the interests of justice to humanity, and this unselfish effort of the Nationalist reformers merits success.

Services for Sunday, August 2nd.

PROVIDENCE (METHODIST) CHURCH.—Rev. F. H. Wright, Pastor. Service at Bentville, 10.30 am.; Granville, 3 p.m.; Bridgetown, 7 p.m.

BAPTIST CHURCH.—Rev. F. M. Young, Ph.B., Pastor. Bridgetown: Bible Class and Sabbath School 10 a.m.; Preaching Service, 11 am.; Young People's Prayer Meeting, 7 p.m. Preaching service at Centreville in the afternoon. Prayer meeting at Bridgetown Friday evening.

GORDON MEMORIAL CHURCH.—Rev. W. M. Fraser, Pastor. Service at 3.30 p.m. Bible Class and Sunday-school at 2 p.m. Young Peoples' Society of Christian Endeavor every Tuesday evening.

LAWRENCETOWN CIRCUIT.

METHODIST CHURCH.—Rev. J. R. Downing, pastor. Inglesville, 11 a.m.; Lawrencetown, 3 p.m.; Mount Hope, 7.30 p.m.: class meeting Tuesday evening; Prayer meeting, Friday evening.

BAPTIST CHURCH.—Rev. J. T. Eaton, Pastor. Lawrencetown, 11 a.m.; Williamston, 3 p.m.; Prayer meeting Thursday and Sunday evenings.

The Egg Trade.

The trade with England in eggs grows on apace and the London correspondent of the Montreal Trade Bulletin writes:—"Eggs have been quiet, owing to the excessive supplies; but prices keep up, and no change has been recorded. Russian still keep at the bottom of the list at 5s. 4d. to 5s. 10d. per 120 and French at the top at 7s. 9d. while Canadians in the north fetch 6s. 9d. to 7s. From the Dominion we imported last month over half a million great hundreds. This looks as if the trade had been established on a firm basis, and bodes well for the future, as there is naught but praise for the arrivals from Canada as yet. It is to be hoped shippers will give no cause for an alteration of the good opinion thus gained."

A Dispute Settled.

A dispute has occupied the attention of the Imperial Goverment of Great Britian and Venezuela for some time. Lord Salisbury has at last effected a settlement with that country. The question at issue was the boundary of Guiana.

By the new treaty which has been made England secures the control of the Oronoco waters. The control of the Oronoco gives England a route to every point in the interior of the continent of South America. The waters of the Oronoco connect with those of the Amazon, and the waters of the Amazon connect with those of the La Plata. It is possible to sail in at one of those rivers, and come out at either of the others. And Lord Salisbury has secured control of the one nearest to England. All this has been brought about without the general public being aware of what was going on.

And, now, Mr. Blaine, and many of Uncle Sam's leading papers, are grumbling a good deal about it. There is indignation among a portion of the American press at the attitude of some South American States towards the United States. Some of those States of South America decline to take American gold, or bank notes from United States men of war and others, and ask for English gold, or Bank of England notes. It is to be hoped that the growing predominance of England, in the affairs of South America, will greatly help that important continent in attaining to a higher grade of civilization and general prosperity.

England and France.

The completion of the census of the United Kingdom now makes it possible to show with a reasonable degree of certainty when the population of Great Britain and Ireland will be equal to that of France. The figures for the United Kingdom are as follows:—

England and Wales	29,001,018
Ireland	4,706,162
Scotland	4,033,103
Isle of Man, Channel islands and army, navy and seamen abroad	356,634
Total	38,096,917

The increase between 1881 and 1891 was 2,855,435, or at the rate of 285,543 a year.

The population of France in 1886 was 38,218,903, and the increase in the previous five years had been 548,855, or at the rate of 109,571 a year. The surplus of births over deaths in France during these five years was 466,497 or an average of 93,299 a year, so that about 16,000 of the annual increase of the population of France must have been from immigration. Since then the annual birth rate of France has declined so much that the surplus of births over deaths has fallen to an annual average of 59,878, so that the probable population of France at the present time should be about 38,590,000. At the end of the century the population should be about 39,280,000 while that of the United Kingdom should be 40,670,000. The population of the United Kingdom should be equal to that of France in the beginning of the year 1894. Yet in 1801 the population of France was almost twice as great as that of the United Kingdom.

Provincial Paragraphs.

William Kennear, an old resident of Sackville, N. B., was gored to death by a bull on Wednesday.

Fire on Thursday last destroyed all of the Harbor View hotel and two other buildings at St. John.

Prof. Keirstead is supplying the pulpit of the Main street, St. John, Baptist church for a few weeks, during the vacation of the pastor.

A telegram from Montreal announces the sudden death there last week of Herbert Cowans, mechanical engineer Springhill mines and brother of the manager. He has been suffering lately from neuralgia in the head.

Mr. John Thurston, of Brooklyn, Yarmouth Co., says he saw four moose near his place last Friday morning. He tried to approach them but they ran into the woods. He says he was within gun shot of them at one time.

A man's skeleton was discovered in the woods near Jackson's railway crossing, Digby county, on Thursday, which is supposed to be that of Ed. H. Sypher of Digby, who mysteriously disappeared from home last August. Coroner Daley held an inquest.

An unknown, fine appearing gentleman, about 60 years of age, jumped from the stone parapet of the state reservation and went over the Niagara Falls about 4 o'clock on Tuesday afternoon. J. T. Rickerby, of St. Louis, was near by as the man jumped, and attempted to stop him, but he waved his hand and said "Good-bye."

In the races on the Halifax Riding Ground last Tuesday, Gladstone won the 2.40 race with Nelly Bashaw, driven by H. C. Lydiard, second. Nelly Bashaw got in ahead in first two heats, but Gladstone took the next two; the fifth heat was a dead one, both horses neck and neck. Gladstone won the sixth heat and the race. The best time was 2.41¼.

Baroness Macdonald of Earnscliffe has received an autograph letter from the Queen, a distinguished mark of imperial favour perhaps never before accorded to a Canadian lady. Her Majesty expresses her deep sympathy with Lady Macdonald in her affliction and her high appreciation of the services to Canada and the empire of her late distinguished husband.

Mr. Colin DeWolfe, of Canning, lost a valuable horse last Wednesday under peculiar circumstances. He hitched his horse to a fence near the brook, about midway between Chipman's Corner and the Middle Dyke road. While Mr. DeWolfe took a stroll among the grass he was about purchasing the horse became loosened and in walking about became entangled with the rope and reins and fell, his head getting into the water where he was unable to extricate himself and the horse was drowned.

BODY FOUND.—The body of the Allen girl who, with a girl named King, was drowned in April last off Reed's Point wharf, St. John, about three o'clock in the morning by the capsizing of a boat while crossing from Carleton, was found on the beach at Red Head, about three miles away, last Thursday afternoon. The body was in an advanced state of decomposition—head, arm and leg gone, and the hand off the other arm. The body was identified by the sacque worn.

Edward Linlef of St. Peters, C. B. says—"That his horse was badly torn by a pitchfork. One bottle of MINARDS LINIMENT cured him."

Livery Stable men all over the Dominion tell our agents that they would not be without MINARD'S LINIMENT for twice the cost.

—All Chronic Dyspeptics are nervous and most of them sleepless. "Dyspepticure" quiets the nerves and causes sleep, by acting directly on that great Nerve Centre—the stomach. Dyspepticure is sold by all druggists at 35c. and $1.00 per bottle. Prepared by Charles K. Short, Pharmacist, St. John, N. B. 13 9i.

—Grasshoppers are causing great devastation in the Northern and Western counties of New Mexico. They are moving east and north in two principal swarms. They will keep moving in this way, it is said, and lay billions of eggs in Texas and Kansas for next season's hatching.

Telegraph Flashes.

CHINA RIOTS.

San Francisco, California, July 23.—The U. S. steamship *Palos* arrived at King Kiang, China, June 6th. Lieut. Commander Marthon reports that missionary Argent and customs house officer Green were murdered by a mob at Wasisch. The British gunboats *Porpoise* and *Viper* are at Hankok and should a riot occur there they, together with the large foreign population, could defend the place without difficulty.

BARQUE SYRINGA BURNED.

Philadelphia, July 24.—Pilot H. C. Maull reports having passed at 1 o'clock this morning the wreck of the British barque *Syringa*, which, loaded with oil, caught fire yesterday morning in Delaware Bay. The pilot reported that the wreck when he passed this morning was still burning fiercely. Tugs were lying off, being unable to get near her. Oil casks were exploding continuously and flying high in the air. Everything is burned above deck.

—The first instalment of the Canadian census may be looked for within the next few weeks. In the meantime speculation is rife as to the result. It is expected that the population of the Dominion will slightly exceed five millions, and that the increase will be as great as that of the preceding decade. Such a result is as favorable as can be reasonably looked for, considering that the rate of increase in the neighboring republic is less than that of some previous decades, while that of Great Britain is the smallest reported within a century.

—Scotland is having a very backward season. The usual east winds of April and May prevailed in June. The nights have been chill and often frosty, hail and snow showers were not unknown in May, and rain fall increased, but still fell far short of the quantity required. A heavy drouth is now upon the land and crops are three weeks later than last year. The grass crop will be the lightest cut for years. Cereals have a most unpromising aspect. It is hoped that the farmers' prospects may yet improve.

SHIP BUILDING IN GREAT BRITAIN.—At the close of the quarter ended June 30, there were 530 vessels of 769,300 gross tons under construction in Great Britain. Of these, 401 were steam and 129 sailing craft. This is against 464 vessels and 739,914 gross tons one year ago. There is a decrease of 36,546 tons from the tonnage being built March 31. One steam vessel of 450 tons and one sailing vessel of 1,500, intended for the United States, are included in the June 30 list.

—A Heath Point, Anticosti, despatch of July 20th, says: Steamer *Circe* parted amidships in yesterday's gale and became a complete wreck. Captain Jennings, first and second engineers, first steward and storekeeper were drowned. The bodies of the captain, chief officer and storekeeper have been recovered. The *Snow Queen* saved the rest of the crew, who are now at Heath Point, all well.

—Two young men of Monangahela city, Pa., Harry Boyd and John Myford, quarrelled over the ownership of a young lady, and decided to fight for the claim yesterday. In the third round Boyd struck Myford on the neck and killed him.

What Your Great Grandmother Did.

She hetcheled the flax and carded the wool, and wove the linen, and spun the tow, and made the clothes for her husband and ten children. She made butter and cheese, she dipped tallow candles, to light the house at night, and she cooked all the food for her household by an open fire-place and a brick oven. Yes; and when she was forty years of age, she was already an old lady whose best days were over. Her shoulders were bent and her joints enlarged by hard work, and she wore spectacles and a cap. Her great granddaughter, with all the modern conveniences for comfort, refinement and luxury, may be as charming and attractive at forty-five as at twenty. Especially is this true if she preserves her health and beauty by the use of Dr. Pierce's Favorite Prescription, which wards off all female ailments and irregularities, cures them if they already exist, keeps the life current healthful and vigorous, and enables the woman of middle age to retain the freshness of girlhood upon brow and cheek, the light of youth in her eyes, and its elasticity in her step. Sold by all druggists.

$500 for a Needle.

Our Homes, a thirty-two page monthly magazine, devoted to house building, home furnishing, house decoration, fashions, general literature, etc., is the best publication of its class in America. The publisher, in order to increase the circulation of their magazine, offer large cash premiums to those of their subscribers, or intending subscribers, who correctly answer the following question: Where in the New Testament are the words, "*a needle*," first found? Cash daily and weekly rewards given while the competition lasts. The publishers will give away thousands of dollars among those correctly answering the question—the leading reward being *$500 in gold*. Send ten cents in stamps or silver for a sample copy of *Our Homes* and complete rules governing the competition. Address, *Our Homes* Publishing Co., Brockville Canade. 47 1y

—If you are going to the United States why not go with a good business training; a training that will help you (as it has others) secure employment, that is, should you want it?

Here is a good practical school with American methods. Isn't this a well timed suggestion? We gladly send circulars free.

SNELL'S BUSINESS COLLEGE, Windsor, N. S.

Births.

GESNER.—At Belleisle, on the 25th, the wife of John Gesner, of a son.

Marriages.

ILLES—CROPLEY.—At the residence of the bride's father, on 22nd inst., by the Rev. F. M. Young, Robert J. Iiles, of Dalhouse West, to Augusta Maud, daughter of Mr. Russell Cropley, of Granville.

Deaths.

SPURR.—At Lequille, May 21st, of consumption, Timothy, second son of John and Agnes Spurr, aged 27 years, 3 months, leaving a wife to mourn his loss.

BAUCKMAN.—At the Alms House, May 25th, Lucy Bauckman, aged 70 years.

GARDNER.—At the Alms House, July 27th, Mrs. Hannah Gardner, aged 71 years.

RAMEY.—At Bridgetown, on the 27th inst., Archibald, youngest son of Mr. George Ramey, aged 24 years.

Summer Boarders!

TOURISTS and Summer Visitors desirous of spending a few weeks in a most comfortable and well-appointed house on the shores of the Bay of Fundy, can be accommodated at the house of Mr. John Hall, Hampton. Mr. H., who has spent many years in the neighboring republic, is well aware of the requirements of pleasure-seekers, and has fitted up a fine residence for the express purpose of accommodating those seeking quiet rest and the beneficial effects derived from a stay at the seaside.

For further particulars, terms, etc., address JOHN HALL, Hampton, N.S.

July 15th, 1891. 15 4i

KENTVILLE DRIVING PARK.

MATCH RACE FOR $200.

Thursday, July 30th, 1891.

A Match Race for $200.00 a side will be trotted on the Kentville Driving Park on Thursday, the 30th day of July, at 2 o'clock in the afternoon, between the horses known as "Troublesome," owned by E. G. Langley, of the Grand Central Hotel, Bridgetown, and "Sambo," owned by Mr. Stanley Hall, of Lawrencetown.

Parties desirous of attending will take the regular morning freight at one first-class fare for the round trip. Arrangements have been effected for a special train to run west as far as Annapolis after the race, leaving Kentville at 6 o'clock, p.m., standard time.

ADMISSION, 25 CENTS.
