COLLEGE CULLINGS.

Prof. Maurice Hutton has returned from his pleasure trip to Georgian Bay in splendid trim to examine the mass of examination papers in his department.

Prof. MacCallum has gone to England, where he will read a paper before the British Association. He will also act as secretary for one of the departments, his experience as local secretary for the association last year eminently fitting him for the work.

Professor Goldwin Smith visited the College grounds and corridors yesterday afternoon.

The University library is open daily from 10 a.m. till 1 p.m. Miss MacKing, the courteous librarian, is in charge.

The Varsity museum in the Biological Building is open to visitors from 2 to 5 every afternoon. It is worth a visit.

The Varsity Board of Examiners met yesterday in the president's room and prepared the papers for examination. They also got part of the class lists ready for the printer.

The tower of the main building or varsity is open at all times. Its top is reached by a spiral staircase of 150 steps. But the view of the city obtained from the parapet is well worth the toil of climbing.

The refectory of residence is closed for the term. Several students are, however, still occupying their rooms till after convocation.

William Berry, the colored porter, who took charge of the laboratories, is summering in Buffalo.

Mr. E. C. Jeffrey, lecturer in biology, intends spending a year at Columbia University in order to gain his Ph.D. degree.

A Varsity Visitors' Book.

The magnificent University buildings are being visited daily by numerous Americans and others. A visitors' book in which to register is asked for, but none is on hand. This is a point in which Varsity is behind other universities. By all means let a book be provided, for a visit is always impressed by the visitor's registering.

The Warden on the Decision.

Warden Tinsley, seen by The World yesterday, said that the Privy Council's decision re Ontario's fisheries was another example of Ontario fighting the battles of the other provinces. He did not think the granting of fish licenses would come under his jurisdiction, as he had enough to do now. The fisheries of Ontario are at present taken charge of in the Attorney-General's Department. In the opinion of the Warden, some time would elapse before the full force of the decision could be estimated and acted upon.

An Interesting Event.

Mr. Gilbert Parker will address the members of the Women's Canadian Historical Society on Monday evening next at 8.30 o'clock, in the library of the Canadian Institute, 58 Richmond-street east. Members and friends are invited to be present, as this is the last meeting of the society for this season.

As a preparation of Malt and Hops, combined with the least percentage of alcohol, Hofbrau stands first. True, Hofbrau has been copied and pirated by many respectable (?) concerns, but it still stands as the Leading Malt Extract of the day. Nothing more wholesome can be found for the convalescent, the invalid, the nursing mother or the bon vivant, or any who may require a helpful, healthy and hearty malt tonic. Try it. It is not a drug, yet you can get it at any first-class drug store. Wine and liquor merchants all keep it.

WHEAT IS GROWING WEAKER

Declines in American and European Markets.

American Visible Expected to Show Another Increase This Week—Large Clearances—Excellent Crop Prospects—Corn, Oats and Provisions Decline Sympathetically.

Friday Evening, May 27.

Wheat continued to show weakness on the wheat markets of the world to-day. The lack of foreign buying, the probability that the American visible supply will show an increase for the week, and the continued excellent prospects of bountiful harvests, combined to create a bearish situation in Chicago, with the result that the July option declined to $1.05 on that board, September to 84¼c, and December to 80⅛c. A slight reaction caused the three futures to close at $1.06⅛, 84⅝c and 80⅞c, representing, respectively, losses of 3½c, 1⅝c and 1⅛c per bush for the day.

Other American markets proved correspondingly weak, and at Toronto Ontario red was nominally quoted down to about $1.05 to $1.07, middle freights.

In Liverpool, spot wheat fell 3d per cental, July ¾d, September 1⅜d and December ¾d for the day.

At Paris, wheat closed at a decline below previous close equal to 2½c to 2¾c per bushel. At Antwerp, the cereal advanced 25 to 30 centimes.

In sympathy with wheat, corn declined ¼c to ⅝c per bushel on the Chicago board, and ⅞d to 1½d per cental at Liverpool.

Provisions were weak at Chicago, pork selling down 15c, lard 15c and ribs 10c.

Flour declined 6d further at Liverpool.

Peas declined ½d in Liverpool.

White cheese is 1s lower in Liverpool.

It is calculated that the American visible supply of wheat will show a slight increase for the present week. Duluth stocks are expected to-morrow to show an increase of 200,000 bush, and Minneapolis stocks a decrease of 450,000 bush. This would mean a net decrease for the two points of 250,000 bush, as compared with an increase of 356,000 bush last week.

The French Government report estimates incoming crop largely above requirements.

Argentine wheat shipments for the week have been 800,000 bush, against 1,152,000 bush last week and 64,000 bush the corresponding week last year. Corn shipments 312,000 bush.

This week's clearances of wheat at Atlantic ports total 3,750,000 bush of wheat, against 5,000,000 bush last week.

Total clearances to-day: Wheat and flour equal to 954,000 bush; corn, 604,563 bushels.

Receipts of wheat at Minneapolis and Duluth to-day, 415 cars, as against 407 cars the corresponding day of last year.

Car receipts of grain at Chicago to-day: Wheat 232, corn 1025, oats 480. Estimated for Saturday: Wheat 268, corn 1225, oats 100.

Receipts of wheat at Liverpool the past three days were 106,000 centals, including 77,000 centals of American. Corn same time, 206,100 centals.

Exports at New York to-day: Flour, 14,334 barrels and 9127 sacks; wheat, 486,697 bush.

Live stock receipts at Chicago to-day: Cattle, 3000; hogs, 17,000.

Live stock receipts at Toronto to-day: Cattle, 1400; hogs, 2500; sheep, 175; calves, 75.

An English Opinion.

The Liverpool Corn Trade News says: "Crop outlook for wheat fair and generally satisfactory; statistical position now likely to become very strong, floating supply will be likely to decrease 16,000,000 bush during next three months. English wheat will be very scarce till middle of August. Indian wheat at present very plentiful, but Calcutta is beginning to tire already, besides, European millers cannot use more than 40 per cent. of Indian wheat. Present position of the trade very interesting, pending free deliveries of new winter wheat. Russian shipments may be depended on to fall off decisively during June and July."

GRAIN AND PRODUCE.

Flour—Quiet and steady. Straight rollers in barrels, middle freights, are quoted at $3 to $3.15.

Wheat—This has been a very quiet day on the local market. There is no export demand, and millers are not anxious. Prices are, therefore, nominal, with No. 2 red Ontario around $1.05 to $1.07, middle freights. Spring may be quoted a cent or two higher, and goose a couple of cents lower. There is little change in Manitoba hard wheat, which is held at $1.33 to $1.34 afloat at Fort William.

Barley—Feed at 39c to 40c north and west and No. 3 extra at 41c to 42c west. Dull.

Oats—Choice heavy were quoted at 34c to 34½c north and west.

Bran—Sells at $11 middle freights and shorts at $12.50 to $13 middle freights.

Corn—Canadian, 36c west and 43c on track here.

Rye—Nominal at 46c to 48c west.

Buckwheat—Nominal at 46c to 48c west.

Peas—Dull at 58c north and west.

Oatmeal—Car lots of rolled oats in bags on track at Toronto $4.20; in bbls., $4.30.

ST. LAWRENCE MARKET.

Receipts of grain to-day were fair—2100 bushels.

Wheat easy; 800 bush sold as follows: White $1.08 to $1.08½ standard, red $1.12 to $1.13, goose $1.04 to $1.04½.

Barley steady, 200 bush selling at 40c to 42c.

Oats firm, 1000 bush selling at 38c to 39c.

Peas steady; 100 bush sold at 60c.

Hay easy; 20 loads sold at $7 to $8.50 per ton.

Straw dull, three loads selling at $5.50 to $6.00.

Potatoes sold at 75c to 85c per bag, the latter price being for single bags.

The market was slow for butter, eggs and poultry; prices unchanged.

LOCAL LIVE STOCK.

Receipts of live stock to-day were not nearly so large as on Friday of last week—56 loads in all, composed of 1400 cattle, 175 sheep, 2500 hogs and 75 calves.

The cattle were composed largely of exporters and Buffalo stockers.

Trade was more active than on Thursday, but there was little change in prices. Export cattle sold at $3.90 to $4.35, with an extra 10c for one or two lots of choice picked cattle, the bulk going at $4.10 to $4.25.

Light export bulls sold at $3 to $3.25; heavy, $3.40 to $3.60.

Butchers' cattle were firm on account of light run, not enough to supply demands; prices unchanged.

Buffalo stockers sold well at $3.75 to $4, with the bulk going at $3.90, which is equal to prices paid for the best heavy feeders.

Milk cows sold at $25 to $45 each; market slow, and inclined to be weak at these prices.

Calves in good demand, selling at $3 to $6 for general run, with a few choice heavy veals at $7 to $8 each. More good calves wanted.

Sheep were slow of sale; prices easier. Ewes sold at $3 to $3.50; bucks, $2.75 to $3; yearlings, $5 to $5.50 per cwt. for unclipped sheep. Spring lambs, $3.50 to $4.50 each.

Hogs—Deliveries were fair—2500. Prices unchanged; market fairly steady.

William Levack bought 110 cattle at $3.60 to $4, and several export bulls at $3.25 to $3.50.

Joseph Gould bought three carloads exporters, 1270 lbs. each, at $4, and 12 choice cattle, 1400 lbs. each, at $4.35.

S. Smith sold 28 cattle, 1320 lbs. each, at $4.30.

W. H. Dean bought one load exporters, 1325 lbs. each, at $4.45; six cattle, 1400 lbs. each, at $4.40; also 11 cattle, 1300 lbs. each, at $4.30.

J. & J. W. Dunn bought 20 exporters, 1380 lbs. each, at $4.25; 20 cattle, 1325 lbs. each, at $4.25; 6 cattle, 1230 lbs. each, $4.25; 11 cattle, 1300 lbs. each, at $4.30 per cwt.

Brown & Snell bought eight carloads at $4.15 to $4.40.

George Beale sold one load butchers' cattle, 1100 lbs. each, at $4.

Craig & O'Leary bought seven butchers' steers, 950 lbs. each, at $4; nine steers, 1050 lbs. each, at $3.90, and four cattle, 1000 lbs. each, at $4.

A. M. Buck bought 4 feeders, 1180 lbs. each, at $3.85; 9 butchers' cattle, 1030 lbs. each, at $3.80; 10 exporters, 1200 lbs. each, at $4.

J. & J. W. Dunn shipped three cars exporters, and A. W. Maybee one car of butchers' cattle, to St. John, per C.P.R.

William Levack shipped three cars of exporters to Liverpool and two cars to Glasgow, per G.T.R.

Messrs. A. J. Stevens, U.S. Customs Inspector of Live Stock at Buffalo; John Gillise and Tim McCarty, commission merchants, of the same place, paid a visit to the Cattle Market to-day. Mr. Stevens was surprised to find a 10 months' calf, weighing 1020 lbs., which convinced him that weights must not always guide him in decisions, while appraising cattle at his port of entry. Mr. Stevens stated that Canadian cattle were very healthy, as he had never found anything wrong with them, excepting one or two cases of lump jaw. The visitors took a drive through the principal residential parts of the city, and expressed their delight at its beauty and cleanliness.

Chicago Gossip.

Henry A. King & Co., 12 King-street east, received the following despatch to-day from Chicago:

Wheat—There has been a repetition of the weakness to-day which developed during the latter part of yesterday's session. The heavy selling by brokers who usually represent a large local professional trader supplied the wants during the early part of the session, but the demand was only moderate. It is very likely that the decline during the past two days has struck the market at a time when the short interest was light. While the trade has been very bearish, there has, however, been a tendency to keep off the short side until after the May delivery is out of the way, the fear being that a quick spurt in the cash month might have a very bullish effect on the deferred futures. Consequently, with a small short interest and heavy liquidation by holders, the decline met with no resistance. The character of the news from abroad is also against the long side, cable advices being to the effect that cash wheat in the markets is very heavy and that the present outlook for the new crop is such as to discourage further speculation during the present range of prices on the bull side. Continental markets were quoted from 25c to 60c lower, while Liverpool was off 3d on spot and from ¼d to 3½d on futures. About the only encouraging signs the holders had were the heavy clearances, 954,000 bushels, and some falling off in primary receipts, but these were fully offset by the weak foreign advices. We notice that from last July up to the present date primary receipts have aggregated 219,500,000 bushels spring and winter. During the past 10 years these figures were exceeded only twice, in 1891 and 1892. News from the Northwest relative to the flour trade and the demand from the millers is quite bearish, and the markets up there are feeling this condition of affairs. The Modern Miller also reports a poor demand for flour through the Southwest in sympathy with the decline in wheat. The change in the weather to-day has also not been without effect. With the ground well saturated with moisture now and warm weather during the next few weeks, the yield of winter wheat will undoubtedly come up to and perhaps exceed expectations. Present conditions in the spring territory are excellent. We have had a considerable break, however, and a reaction ought to be in order.

There was a fair speculative demand for corn from shorts around the opening, but this buying had little more than a steadying influence, and the market later declined in sympathy with wheat and on the large estimated receipts for to-morrow. Cables were weak and holders are generally disposed to lighten their loads.

Notwithstanding the light receipts of hogs, provisions have been weak under free selling by packers and holders. The weakness in grain discouraged outside support. The heaviest selling seemed to be of pork and lard. Still lower prices in hog products seem probable.

East Buffalo Cattle Market.

East Buffalo, N.Y., May 27.—Cattle—About all consigned through to-day, and there was very little doing, owing to the absence of sale stock.

Calves and Veals—The receipts were liberal and the market ruled active and higher with tops at $6.25 to $6.50; others $4.75 to $6.

Hogs—Receipts were light. The demand was fairly active and prices were stronger; good to choice Yorkers, $4.25 to $4.30; fair to good light Yorkers, $4.15 to $4.20; mixed packers' grades, $4.35 to $4.40; medium weights, $4.40 to $4.45; heavy hogs, $4.50 to $4.75; roughs, $3.90 to $4.10; pigs, $3.80 to $3.90; stags, $3 to $3.50.

Sheep and Lambs—The receipts continued to be very moderate, and about four loads held over from yesterday's late arrivals. The market was fairly active and stronger for all grades. Native clipped lambs, choice to extra, $5.30 to $5.40; fair to good, $5 to $5.25; culls and common, $425 to $4.90; yearlings, $4.25 to $4.50; native clipped sheep, choice to selected wethers, $4.25 to $4.50; good mixed sheep, $4.20 to $4.30; common to fair, $3.75 to $4.15; culls to common sheep, $3.25 to $3.50.

Dun's Trade Review.

Following is from an advance proof of R. G. Dun & Co.'s financial review for the week:

The week has been a somewhat broken one as regards business at Montreal; few points of any special interest have developed in the trade situation since a week ago. The money market seems as if it were about to take an easier turn, and the banks are more ready lenders on call. There has not as yet been any change in the local rate of 5 per cent., but the Bank of England rate is lower, and there seems an expectation that call funds may be available on spot in the course of a few days at 4½ per cent. The cheese market continues inactive for the season, with a weaker tone. Receipts of new cheese have been yet small, and shipments quite materially behind those of this time a year ago, but country advices indicate that pasturage is good, with the flow of milk increasing, and the make of cheese is likely to show rapid increase from this out. The country is looking very well, recent rains and generally favoring weather conditions having brought on vegetation well. There have been few noteworthy changes in merchandise prices for the week, but the general trend in values is towards stiffness. Sugars are firmer abroad, and would probably show some advance on spot but that refiners report a comparatively slack demand from jobbers at the moment. Molasses is also occupying a very strong position; first arrivals of new crop are now discharging in the harbor, but supplies available for this market have so far been small. Some fair amount of business is reported in pig iron, orders for about 2000 tons of domestic pig iron having been booked at fair prices; Scotch pig iron is quite neglected, and imports this spring have been very small. Leather values are steadily held, and there is good export demand, some tanners reporting English orders sufficient to keep them busy several months at almost better prices than are available here. Hide dealers report very light receipts of beef hides, but of calfskins there is almost a glut.

The wholesale trade at Toronto this week has been less active, the movement being restricted in a measure by the holiday. The business situation, however, has undergone no change. There is a feeling of confidence, and the general tone of the markets is firm. A very satisfactory trade is being done in nearly all lines, with the volume in excess of former years at this season. Orders are coming in freely for autumn goods, and the sorting up trade is good. Woolens are very firm. Offerings of new fleece wool are increasing, but dealers evince a desire to keep down prices owing to large quantities of foreign wools. The demand for agricultural implements is active, while building materials are selling more readily. More activity in building operations in Toronto is noticed. In groceries there is a fair trade, and leather dealers report a moderate business at good prices and hides are ½c higher. Hog products are firmer, while butter and cheese are easier. Wheat is higher, with business, however, small owing to the high prices asked. Stocks throughout the province are comparatively small, but prospects are good for a large yield this season, and it looks as if the harvest will be early.

Cucumbers and melons are "forbidden fruit" to many persons so constituted that the least indulgence is followed by attacks of cholera, dysentery, griping, etc. Those persons are not aware that they can indulge to their heart's content if they have on hand a bottle of Dr. J. D. Kellog's Dysentery Cordial, a medicine that will give immediate relief and is a sure cure for dyspepsia, etc. ed

Death of Rabbi Phillips.

Rabbi Herman Phillips died on Friday at his home in New York. He was born in Germany, and educated in Berlin. He was predecessor to Rabbi Lazarus at the Holy Blossom Synagogue of this city, and was very highly respected, both for his talents and his kindly personality. At the time of his decease he was a teacher in the Hebrew Sheltering Guardian and Orphan Asylum, New York city. His death was heard with sorrow by his brethren in Toronto.
