WHEAT FUTURES RALLIED

Advance Yesterday at Liverpool and Chicago.

Corn Also Stronger on Both Markets—Budget of News Regarding the Crop Situation in Europe, America and Australia—Increase in the Visible Supply Not Large—Notes and Gossip.

Monday Evening, Oct. 10.

Liverpool futures to-day were strong, this month's delivery closing 1¼d per cental higher than on Saturday, and the December and March options 1½d and 1⅜d per cental higher, respectively.

The strength of the Liverpool cables caused the Chicago market to open about 1c per bushel above Saturday's close, and after a temporary decline, brought about by profit-taking sales, the small increase in the visible steadied all deliveries, so that they closed with the following net gains for the day: Oct. ⅝c, Dec. 1⅛c, May 1c.

Liverpool maize closed steady to ¼d per cental higher, Chicago corn prices improved ¼c per bushel to-day on good export demand and in sympathy with wheat.

Lard eased off 3d to-day at Liverpool.

Bacon advanced 6d at Liverpool.

Russian corn shipments last week, 200,000 bushels; Danish, 56,000 bushels.

The English wheat visible increased 880,000 bushels last week, against an increase for the corresponding week of 1897 of 493,000 bushels.

New South Wales Chamber of Commerce estimates a crop of 15,000,000 bushels of wheat this season, with 5,000,000 bushels for export.

Ocean rates from Atlantic ports are very firm, and further advance is looked for.

The Chicago Daily Bulletin says that the stocks of wheat in the interior elevators of the Northwest increased 3,493,000 bushels during September. It also says that the wheat crop along the Northern Pacific has hardly commenced to move.

The flour output of the mills at Minneapolis, Superior, Duluth, Milwaukee and St. Louis during the past week aggregated 581,185 barrels, as compared with 444,140 barrels in corresponding week of last year.

The Liverpool Corn Trade News attaches considerable weight to an estimate of Col. Rodgers of Minneapolis, who claims that, in order to reconstruct the reserves of the United States to their average quantity, 75,000,000 bushels of this season's wheat crop will be required, and, if so, only 180,000,000 bushels will be available for export out of a crop of 665,000,000 bushels.

Broomhall cables that the arrivals of wheat in the United Kingdom will now exceed weekly requirements.

Mail advices from Germany say that American wheat will be required in that country during October in considerable quantity. After that, their own crop is expected to move freely.

The light offerings at and shipments from Danubian ports are owing to small stocks and low water in the Danube, which curtails arrivals of the new crop.

Considerable advance in the price of wheat has taken place at Buda Pesth, from which it is inferred that the Hungarian millers attach a good deal of credit to the reports of failure of Russian crops.

The Corn Trade News, Sept. 27, publishes the estimate made by Marche Francais of the world's wheat requirements and surpluses for present crop year. The former is given at 44,150,000 quarters; the latter, 60,200,000 quarters. The News considers that the requirements will prove fully 2,500,000 quarters larger than is there estimated.

The Odessa correspondent of The News, in referring to the small arrivals of Russian wheat, says: The general view is that arrivals must come sooner or later, but the question is, when?

The Austrian harvest is officially reported: Wheat and rye over average in quantity and very satisfactory in quality; barley, average quantity but not satisfactory quality; oats, very good; maize, not a good crop in general.

The News is advised by its Paris correspondent that the official estimate of the French wheat crop gives the yield as 131,050,000 hectolitres, against the finally revised figures for 1897, 86,900,000 hectolitres. The weight equivalents are: For this year, 46,351,000 quarters, of 480 lbs., against 30,282,000 like quarters in 1897. During crop year 1897-98, France imported for consumption 81,700,000 bushels wheat. The rye crop is estimated at 24,000,000 bushels over that of 1897, and is about an average crop.

Nearly all of the correspondents of The News report that all over the Continent of Europe great difficulty is experienced in fall plowing and seeding.

Total clearances to-day: Wheat and flour, equal to 328,000 bushels.

Exports at New York to-day: Flour, 2550 barrels and 9463 sacks; wheat, 73,880 bushels.

New York reports 40 loads of wheat taken for export to-day.

Receipts of wheat at Minneapolis and Duluth to-day, 1482 cars, against 1470 cars the same day a year ago.

Car receipts of grain at Chicago to-day: Wheat 497, corn 1364, oats 687. Estimated for Tuesday: Wheat 270, corn 915, oats 430.

Primary receipts to-day, 2,148,000 bushels, against 2,847,384 last year. Corn receipts, 816,000 bushels, against 1,633,766.

December wheat puts, 63¼c; calls, 64½c. December corn puts, 31⅛c; calls, 32⅛c.

Visible and Afloat.

As compared with a week ago, the visible supply of wheat in Canada and the United States has increased 947,000 bushels, that of corn has increased 796,000 bushels, and that of oats has increased 22,000 bushels. Following is a comparative statement for the week ending to-day, the preceding week and the corresponding week last year:

	Oct. 10,98	Oct. 3,'98	Oct. 9,'97
Wheat, bu.	12,210,000	11,263,000	22,794,000
Corn, bu.	22,202,000	21,406,000	37,704,000
Oats, bu.	5,469,000	5,447,000	13,383,000

There are now on passage to the United Kingdom 12,080,000 bushels of wheat and flour and 5,040,000 bushels of corn. There are on passage to the European Continent 8,800,000 bushels of wheat and 6,880,000 bushels of corn. Thus, the total quantities of cereals afloat to-day, with comparative figures for a week ago, are:

	Oct. 3.	Oct. 10.
Wheat, bush.	22,880,000	20,880,000
Corn, bush.	11,600,000	13,920,000

Thus, the wheat and flour on passage decreased 2,000,000 bushels during the past week, and corn on passage increased 2,220,000 bushels. Wheat and flour on passage some day last year were 20,040,000 bushels.

To recapitulate, the visible supply of wheat in Canada and the United States, together with that afloat to Europe, is 33,080,000 bushels, against 34,143,000 bushels a week ago and 42,834,000 bushels a year ago.

World's wheat shipments during the past week totalled 7,981,000 bushels, against 8,335,000 bushels the previous week and 7,322,000 bushels the corresponding week of last year. Shipments by countries were:

	1898.	1897.
Canada and U.S.	5,397,000	4,836,000

Rise in the Berlin Money Rates and Talk of Foreign Complications, Illness of the Queen and Yellow Fever in the South All Used as Bear Arguments—Notes.

Monday Evening, Oct. 10.

This has been another bears' day upon Wall-street. Talk of international complications abroad and an advance in Berlin money rates were used to depress prices, and a rumor that Queen Victoria was seriously ill was also brought into service. Sugar broke 4 points, and there were losses of about one point in B.R.T., Northwestern, Rock Island, Manhattan, Omaha, Southern Railway, Union Pacific, U. S. Leather, Western Union and T.C.I. N.P. receded about 1½ points on continued talk of a disagreement in the management. A factor that unsettles the whole situation is the pending electoral contest in the States.

Canadian securities were rather dull, weakly inclined and on the whole featureless to-day.

American rails in London closed ⅛ to ¾ lower than on Saturday. C.P.R. rose ⅛.

Consols closed ⅛ lower in London.

In Paris, 3 per cent. rentes were at 102f 27½c.

French exchange on London, 25f 31c.

Bullion gone into Bank of England on balance to-day, £10,000.

Sugar is now talked of as sure to go below par. The fight is increasing in dimensions.

The Imperial Bank of Germany to-day raised its discount rate from 4 to 5 per cent.

Earnings of C.C.C. for the fourth week of September were $432,212, an increase of $50,951.

At New York, U.S. bonds closed: U.S. threes, 105½; U.S. new fours, reg., 127; do., coup., 127; U.S. fours, 110½; do., coup., 111; do., seconds, 99; U.S. fives, reg., 112½; do., coup., 112½.

London cables: The failure is announced of Ernest Orger Lambert, a financier, of Trafalgar Building, this city. His liabilities are estimated at £1,000,000.

A cable from London to Messrs. A. E. Ames & Co. gives the following quotations: G.T.R. fours, 70⅝; G.T.R. seconds, 45.

Money Market.

On the local market call loans are at 4 to 5 per cent. In New York call loans to-day were at 2½ per cent., the closing loan being at 2½ per cent. The Bank of England discount rate is 3 per cent., and the open market rate 2 11-16 to 2¾ per cent.
