SABBATH SCHOOL ANNIVERSARY.—The Grafton St. Church Sabbath School Anniversary, held on Tuesday evening of last week, was a highly interesting service. There was good speaking by several Ministers and others, and choice singing by the children. The school is prospering.

OBITUARY.—Within a comparatively short time we have had to record the death of several of the Allison family of Newport. Another is now added to the number, Mrs. Sargent of Barrington, widow of the late Winthrop Sargent, Esq., a Christian lady of great excellence.

We are pained to record also the demise of John S. Thompson, Esq., of this city, after a few days illness; held in estimation by all who knew him as an upright and highly useful member of the community.

Appointed by Her Majesty as members of the Senate of the Dominion of Canada.

YOUNG MEN'S WESLEYAN INSTITUTE.—A meeting introductory to the Winter Session of this Institute was held in the basement of Brunswick St. Church on Monday evening last. In addition to devotional exercises, accompanied by choice music afforded by the Church choir, addresses were delivered by James B. Morrow, Esq., and by the Rev. J. Rogers; by the former on "Personal Piety as essential to Christian usefulness," and by the latter on "The importance of Biblical studies." At the close of the Meeting about forty young persons, of both sexes, enrolled their names as members of a Bible Class, to be conducted by the pastor.

On Friday an Express Locomotive, forwarded from the Richmond Depot, to overtake the Truro train at Windsor Junction, came into collision with a trolley loaded with railway iron, near the four mile house, and both were thrown off the track. Both Locomotive and Trolley were much damaged, but fortunately no person was injured.

On Saturday morning a horse belonging to a countryman took fright and ran at high speed down George street, and in turning into Hollis street a shaft of the cart to which he was attached struck and entered the side of a horse belonging to Mr. William Trider, which a boy was driving along, and killed the animal almost instantly.

OUR NEW GOVERNOR.—General Hastings Doyle, the newly appointed Governor of Nova Scotia, arrived in our city on Saturday evening last. His Excellency has the good fortune of being a favorite with all parties; and every confidence is cherished that his administration will be marked by wisdom and impartiality, and conduce to the advancement of the best interests of the Province. General Williams will leave our shores for Great Britain to-morrow evening. May blessings attend him throughout the remainder of his life-course.

SACKVILLE ACADEMY.—We call attention to the advertisement announcing the opening of the next Term at Mount Allison.

KINGS COLLEGE.—The Calender of this venerable Institution affords proof of the place it still holds in the estimation of its many friends. The generous aid rendered to it, in so many forms is gratifying evidence of the deepening interest of the public in the highest interests of education.

A complimentary address was presented to the Rev. G. W. Hill, by the vestry of St. Paul's Parish, previous to his departure for England.—*Rec.*

A farewell meeting, preparatory to the departure of the Rev. John Morton and Mrs. Morton for the Trinidad mission, will be held in the Poplar Grove Church on Thursday evening.

On Friday last the body of a child was found in the Admiral's field. It had been so mangled by dogs that the sex could not be ascertained. An inquest was held before Coroner Jennings, but except the bare fact that the child was found there was no evidence for the consideration of the jury.

A serious disagreement has arisen between Mr. Cartier, Minister of Militia, and Col. McDougall, Adjutant-General—the latter believing, it is said, that he has a certain jurisdiction without consulting the head of the department. Mr. Cartier holds that as the responsible head of the department, nothing must be done without his sanction. It is thought quite probable that Colonel McDougall may resign his position.—*Toronto Globe.*

United States.

A tremendous row took place in Philadelphia the other day. The Revenue Inspectors made a raid on the unlicensed whiskey stills in the Irish quarter of the city, when they were attacked by crowds of men and women, who succeeded in recovering the distillery apparatus which the officers had seized, and severely wounded the latter with bricks and pistol shots.

Mrs. Lincoln's wardrobe, jewels and other personal property are still on exhibition in New York. Nearly all the auctioneers of the city have volunteered to sell the goods without any expense to Mrs. Lincoln. The lady is said to intend publishing a book entitled, "Five years in the White House," which is to contain "startling revelations."

THE UNITED STATES DEBT.—The monthly statement of the United States debt for October has been published. In place of the usual decrease there is an increase in the total amount of "debt, less cash, in the Treasury" of nearly two millions and a-half. This is attributed to an unusually small month's receipts and excessive payments on several accounts. The exact amount of debt, less cash on hand, upon the first day of October was $2,495,277,446. The Secretary of the Treasury is still availing himself of the authority given him by Act of Congress, to reduce the amount "legal tender" notes or greenbacks in circulation at the rate of $4,000,000 per month. During the month of October he has withdrawn the full amount of four millions. A good deal has been done, too, in the way of funding the 7-30 bonds and converting the debt into the 5-20 gold-bearing bonds. The amount of 7-30's has been decreased this month to the extent of over $35,000,000 while the amount of 5-20's has increased nearly $30,000,000.

European.

LONDON, Oct. 15th, (evening.)—The Weekly returns of the Bank of England shows an increase of bullion in the vaults of £847,000 since tha last statement on Oct. 10th. A large amount of specie has been shipped from London to Paris during the week.

A long editorial in the London *Times* to-day on the Roman question, says that Prime Minister Rattazzi must order the Italian troops to Rome. The article concludes by declaring the boldest policy the best. News from the South continue favorable to the party of action.

PARIS, Oct. 16th.—The Emperor called a general council of his Cabinet to meet him at St. Cloud, to consider the condition of affairs in Italy, and decide what action France should take in the matter. The Council was held yesterday, the Emperor presiding. The result of its deliberations was the resolution that France should immediately intervene for the settlement of the Roman question, but without acting in conjunction with the Italian Government. To that end the *Moniteur* of yesterday, in a leading editorial, reproaches the Italians for violating the laws of nations in refusing the obligations of a solemn treaty, and fostering the dangerous spirit of republicanism in Italy.

Owing to continued disturbance in Italy, and the prospect of French intervention, financial depression prevails on the Bourse, and Rentes are steadily declining.

LONDON, Oct. 17.—Emperor of Austria has referred to his Council of Ministers for their consideaation the address received by His Majesty from the congregation of Roman Catholic Bishops of the Austrian Empire. The address protests against the adoption of a new corcordat, and strongly urges the Emperor not to make any revision in the sacred treaty now established between Austria and Rome. In his communication to the Ministerial Council the Emperor reproves the Austrian bishops for adopting a paper so liable to create public excitement at a time when tranquility is indispensable for the restoration of the country; and he takes occasion to remind them that the Emperor of Austria is a constituted prince as well as a true son of the Church.

The Paris *Moniteur* this morning asserts that the inhabitants of Rome and Papal Provinces are loyal to the Pope, and only want assistance to drive the Italian invaders from the soil.

LONDON, Oct. 18.—The following despatch has been received from Florence direct, dated to-night. It is reported that Gen. Garibaldi has again escaped from Caprera, and that he left the Island on board an American ship. Garibaldians have appeared in the Western district between Rome and the sea, and have taken posession of the Railway running between the city of Rome and the sea port of Ostia, and torn up the rails, preventing all communication. It is still believed in Florence that the Government of Italy and France have an understanding with each other, and are really associated together in the treatment of the Roman question. At a dinner to Earl Derby at Manchester last night, Derby defended the action of Government on the Reform question, and replied to some of the attacks on the Reform bill. Lord Stanley, Secretary of foreign affairs, spoke of the disturbed condition of Europe, but declared that, notwithstanding the threatened condition of affairs, he still entertained hopes that peace would be preserved. In referring to the present relation of Great Britain with other powers, he spoke of the controversy with United States, regarding claims for indemnity arising out of the late war in that country. This controversy, he said, still remained open, but he entertained the hope of amicable arrangements, and that time is already soothing the feelings which might have arisen on the other side of the Atlantic.

PARIS, Oct. 18.—Napoleon has made an imperative demand upon the Italian Government for a strict observance of the Convention of September. The expedition of Toulon is ready to sail for the relief of Rome. It is believed the Italian Government will yield.

FLORENCE, October 18.—Reinforcements of volunteers raised in France and Spain for the defence of the Pope have arrived in the city of Rome. When last heard from General Minotti Garibaldi, with a considerable force under his command, had succeeded in reaching the frontier of Rome, and was still advancing.

PARIS, Oct. 18.—It is reported that a fleet of transports and Ironclads at Toulon has already received orders to sail for Rome. The actual departure of the expedition has not yet been announced. The troops of King Victor Emmanuel are still guarding the frontier, to prevent persons who have the appearance of Garibaldians from crossing the boundary line.

It is reported that a plan for insurrection within the walls of Rome had been exposed, and that the leaders had been discovered, arrested, and thrown into prison.

PARIS, Oct, 20th.—All the official journals of Saturday concur in declaring that within twenty-four hours Italy must announce her determination either to support the Revolutionary movements on Rome, or to faithfully execute the provisions of the September Convention. France must decide for peace or war accordingly.

FLORENCE, Oct. 20th.—A delegation, consisting of the Roman Municipal Council, and headed by a Senator of Rome, has had an interview with Pope Pius IX., at which a petition, signed by 12000 citizens of Rome, was presented, praying His Holiness to give his consent to the occupancy of Rome by the troops of Victor Emanuel.

LONDON, Oct. 19th.—It is understood that arrangements are perfected between the Anglo-Saxon Company and the Atlantic Company, whereby the present rates by cable will be reduced fully 50 per cent. This reduction will go into effect on the 15th November next. The Fenian alarm does not abate. Last evening repeated efforts were made by the Fenians to burn the Police Station at Manchester, and thus release some of their comrades there confined. The fire was extinguished before any damage was done. The Government is on the alert, and precautionary measures are everywhere taken to guard against surprise.

LONDON, Sunday, Oct. 20th, 2 p. m.—Official despatches received from Rome report two battles have taken place between the insurgents and Pontifical troops, in which the latter were victorious. The towns of Herola and Orte, which had been taken by the insurgents, were assailed by the Papal forces and retaken by storm. It was reported at Rome that the Italian Prime Minister Ratazzi has resigned.

PARIS, Oct. 20.—It is reported to-day that the leading European Powers will unite with France in joint intervention for the settlement of the Roman question and preservation of peace. The French Cabinet has addressed a circular note to its representatives at foreign courts, solemnly pledging France to enforce the stipulations of the treaty of September. The excitement and anxiety created by the rumors circulated here are very great.

AN EFFECTUAL WORM MEDICINE.
Brown's Vermifuge Comfits,
OR WORM LOZENGES. MUCH SICKNESS, undoubtedly, with children and adults, attributed to other causes, is occasioned by worms. The "VERMIFUGE COMFITS," although effectual in destroying worms, can do no possible injury to the most delicate child. This valuable combination has been successfully used by physicians, and found to be safe and sure in eradicating worm, so hurtful to children.
Children having Worms require immediate attention, as neglect of the trouble often causes prolonged sickness.
Symptoms of Worms in Children are often overlooked. Worms in the stomach and bowels cause irritation, which can be removed only by the use of a sure remedy. The combination of ingredients used in making BROWN'S "VERMIFUGE COMFITS" is such as to give the best possible effect with safety.

From L. J. RACINE, Esq., of *La Minerve*, Montreal. "Having experienced the most gratifying results from the use of *Dr. Wistar's Balsam of Wild Cherry*, I am induced to express the great confidence which I have in its efficacy. For nine months I was most cruelly afflicted with a severe and obstinate cough, accompanied with acute pain in the side, which did not leave me, summer or winter. The symptoms increased alarmingly, and so reduced was I that I could walk but a few steps without resting to recover from the pain and fatigue which so slight an exertion occasioned. At this juncture I commenced taking the Balsam, from which I found immediate relief, and after having used four bottles I was completely restored to health. I have also used the Balsam in my family and administered it to my children with the happiest results. I am sure that such Canadians as use the Balsam can but speak in its favor. It is a preparation which has only to be tried to be acknowledged as the remedy *par excellence*."

During the epidemic of intermittents in the West this season, the whole immense stock of Ayer's Ague cure became exhausted, and the producing power of his Laboratory was found inadequate to meet the demand. Many who knew its extraordinary virtues for the cure of CHILLS AND FEVER, paid exorbitant prices for it to those who were fortunate enough to have a supply on hand. Some of our neighbors paid ten dollars for a bottle, while the regular price is but one, and assure us it was on the whole the cheapest remedy they could buy, even at that figure. They praise it for two qualities: first, that it cures, and last that it leaves the health unimpaired.—*Iowa Standard.*

In the numberless nostrums of the day that profess to eradicate the root of each disease to which the flesh is heir, we have little faith. Like Peter Pindar's razors—they are made to *sell*—and the purchaser not unfrequently finds himself *shaved*. We have, however, the honor of a long and intimate acquaintance with Dr. Knights, of Melrose, whose researches in Chemistry have made his name familiar in the Scientific world, and we are prepared to endorse, heartily and fully, any preparation which may come before the public bearing his name. Dr. Larookah's Pulmonic Syrup and Dr. Larookah's Sarsaparilla Compound, emanating from his laboratory are approved and prescribed by the faculty, being the best as well as the cheapest remedies of their class which have been placed within its reach. For the speedy cure of Coughs, Colds, Bronchitis, Croup and all affections of the throat and lungs we always provide by the timely use of Dr. Larookah's Pulmonic Syrup, while in the spring we purify the blood, stimulate the sluggish appetite by a fewes of Dr. Larookah's Sarsaparilla Compound. Strange, but True.
THAT till within eighteen months all attempts to prepare a suitable and safe Combination for Leather, which could be used with satisfaction as a Dressing for Harness, Coach and Carriage Tops, Boots, Shoes, Yoke Straps &c., &c., and act as a Water Proof, Softener, Leather and Stitching Preserver, as well as to renovate the article dressed, have failed.
It is Equally Strange & True
That eighteen months ago, Ephraim Mack, of Mill Village, Queens Co, N. S., discovered and prepared and is now manufacturing and circulating as fast as possible, a Combination of 13 ingredients, known as E. Mack's WATER PROOF BLACKING, which is warranted to accomplish all the above objects, or money refunded, as agents and venders are instructed to return the money in every case of failure, when satisfactory evidence is given.
That this is true, who will doubt when they read the following Certificate!
We the undersigned having used E. Mack's Water Proof Blacking on our harness, boots, shoes, coach tops, &c., and having proved it to be superior to any preparation of the kind we ever used, cheerfully recommend it to all who require a Leather Dressing as a convenient, safe and valuable combination.
