SMALLPOX IN HULL.

Ottawa, July 2.—Hull, Que., has another case of smallpox. This time the person affected is J. B. Bouillen, of Regina street. His house has been quarantined. Most of the other people in Hull affected with smallpox have recovered.

SO THEY MARRIED!

Man and Woman Quarreled Over a Pig, But Decided to Keep It in the Family.

Wilkesbarre, Pa., July 3.—A 3-weeks-old pig brought about a marriage here yesterday. The bride, Madila Parkerson, is 52 years old. The bridegroom, Hiram Johnson, is past the half-century mark. Both have known each other since children. A few days ago Miss Parkerson noticed the pig in Hiram's pen and she claimed the ownership, but Johnson protested. Miss Parkerson brought the matter before Squire Conahan. After the alderman had heard both sides of the case he directed that the pig be killed and divided equally. Both sides protested, but neither would yield the ownership.

"The only way to settle this case," the squire said, "is to get married and keep the pig in the family."

After some hesitation the pair concluded it was a good idea. A marriage license was procured and the alderman performed the ceremony.

TORRID HEAT IN ARIZONA!

Temperature on Tuesday Rose to 106 Degrees in the Shade.

The Century Mark Reached in Philadelphia and Nearly Touched in New York---Away Up in Nineties in Many Places---Appalling List of Deaths and Prostrations.

Washington, July 2.—Reports received at the weather bureau in this city from throughout the entire area affected by the intense heat show a continuation of very high temperatures save in a few favored localities. Generally speaking, the thunderstorms which have come have been what is known as "dry storms," so that very little rain has accompanied them. The indications for the next twenty-four hours for a large portion of the heated area point to cloudy weather with showers, which, because of their local character, will bring only a partial relief from the heat. The predictions of the officials here is that the temperatures for the next 24 hours will show a fall of probably four or five degrees, but that they will still climb above the 90-degree mark in most places. The Atlantic coast will get some relief from a West Indian disturbance which is now moving northward.

106° IN THE SHADE.

Phoenix, Ariz., had the highest temperature today, the thermometer registering 106, while at Philadelphia it was again at 102, at Atlantic City 96, Boston 94; Chicago, where over an inch of rain fell, 86; Cincinnati, 92; Davenport, Iowa, 92; Des Moines, 94; Indianapolis, 94; Kansas City, 100; Little Rock, Ark., 96; Memphis, Tenn., 94; New Orleans, 92; New York, 98; North Platte, Neb., 93; Pitsburg, 92; Springfield, Ill., 96; Vicksburg, 94.

At Washington the maximum was 100, but during a gust in the afternoon the thermometer fell 15 degrees in as many minutes.

Numerous prostrations and deaths were reported from heat, and many industrial plants were forced to suspend operations.

SCORES OF DEATHS.

At Pittsburg, 50 deaths and 70 prostrations were reported up to 9 p.m.

At St. Louis 4 deaths and 33 prostrations had occurred up to 9 p.m.

At Newark, N. J., 31 deaths and 66 prostrations were reported up to 9 p.m.

In Hoboken, N. J., 8 deaths were reported and 52 prostrations.

Jersey City escaped lightly, with less than half a dozen deaths and about 20 cases of prostration.

Six deaths took place at Elizabeth, where there are 15 cases of prostration reported.

Troy, N. Y., six deaths and seven prostrations; temperature 100.

Syracuse, two death; temperature 97.

MINIMUM TEMPERATURES.

Washington, July 2. — Almost as interesting as the temperature for today is the showing the weather bureau reports make for the minimum temperature during the past 24 hours, indicating the sweltering conditions during the night. At Baltimore it was never less than 84 during the night; Philadelphia, never less than 86; New York, 82; Washington, 80, and St. Louis, 82. St. Louis showed the highest minimum temperature in the west. Fortunately the humidity throughout the heat wave region, according to the weather bureau, has remained proctically normal. The weather bureau holds out some hope for temporary relief in sections, but vouchsafes no assurance of an immediate permanent break anywhere.

102½ IN THE SHADE.

Philadelphia, July 2.—At 3 p.m. the weather bureau official thermometer registered 102½, breaking all records.

NEAR THE CENTURY MARK.

New York, July 2.—At 2:15 the weather bureau thermometer touched 99, within one degree of the highest on record in this city. At 3 o'clock the temperature had receded one degree, registering 98 at that time.

12 DEATHS, 60 PROSTRATIONS.

Pittsburg, July 2. — Twelve deaths and sixty prostrations from the heat were reported between midnight last night and 11 o'clock this morning, making the number of fatalities 42 in 24 hours.

127 IN SUN AT SAGINAW.

Saginaw, Mich., July 2.—Thermometers registered 102 in the shade here yesterday afternoon and 127 in the sun.

THE CHILDREN DIE.

Montreal, July 2. — The mortality statistics for the last week show that in the city 212 infants died out of 250, the total number of deaths for that period. This is a record breaker in that line, and shows what terrible effect heat had on the little ones. The mortality for the most part took place in the most densely crowded sections of the city, where there is very little opportunity to afford babes fresh air. The lack of nourishment and ignorance of many mothers as to the proper care of infants is put down as contributing to the large number of deaths.

The hot spell has largely increased the mortality among children in Quebec City. The interment there average about a dozen daily, while the mercury soars in the eighties.

Leland Battley, the three and a half year old son of Mr. and Mrs. E. P. Battley, Sarnia, died suddenly Monday evening from heat prostration, says the Observer. The child had been sitting on the veranda, and, showing signs of weakness, was carried into the house by his father and laid on a couch and expired in a few minutes afterwards.

Arthur Minniefly, a well-known farmer Plympton township, and an ex-member of the township council, died on Saturday last, very suddenly, while at school picnic at Gustin's Grove. He had been out for a boat ride, and on landing dropped dead.

Current News.

Mr. J. W. Bell, M. P., for Addington, is not expected to live.

Mr. John Young, of West Zorra, was elected warden of Oxford.

The Liberals of East Simcoe will hold a nominating convention at Orillia on Tuesday, July 9, at 1:30 p.m.

Rev. Prof. Worrell has been appointed Archdeacon of Kingston, succeeding the late Archdeacon Bedford-Jones.

Mr. Thomas Birkett, Conservative M. P. for Ottawa, was examined in connection with the petition to set aside his election.

The militia department has received a check covering imperial arrearages of pay for about 75 members of the Royal Canadian Dragoons.

William John Lee, a British army pensioner, about 60 years of age, was instantly killed by a large trolley car at Toronto on Tuesday, in front of the Queen's Hotel.

At Isle Royal, Man., Mrs. James Woodside, of Port Arthur, strayed away from a party of excursionists and was found some time afterwards by a searching party, dead. Cause of death thought to have been a fit.

On Sunday Miss Marjorie (Madge) Murray, a former popular young lady of Hamilton, lost her life in Buffalo. Miss Murray, who was wheeling near the cemetery turned out of the way of a rig and wheeled right in front of a car. She had no time or opportunity to save herself and was struck and so severely injured that she died soon after being admitted to the Sisters' Hospital.

DISASTER TO A C. P. R. FREIGHT TRAIN.

Owen Sound, July 3.—As a heavy through freight train from Toronto on the C. P. R. was approaching Chatsworth about noon yesterday, eight cars were thrown down an embankment. The engine and several cars passed over the spot safely, but six cars of freight, an empty passenger coach and the van went over the bank. No one was injured.

BURIED UNDER CAVING WELL

Narrow Escape of Robert Howard of 570 Horton Street.

Removing Curbing From Well and Sides Fell In, Burying Him for Nearly Two Hours.

Robert Howard, a man about 30 years old, was buried by the caving in of a well about 11:30 this morning, and although underground for 1½ hours, escaped serious injury. Howard was employed as a teamster by Geo. Rendell, the coal dealer, and this morning was sent by the latter to his former residence at the southeast corner of York and William streets to take the brick curbing out of an unused well. Howard was working at the bottom of the well, when the loosened earth caved in, crushing him between the wall of the well and a ladder by which he had descended. S. R. May, who was with Howard at the time, gave the alarm, and willing hands undertook the task of freeing the imprisoned man, which was accomplished about 1 o'clock. Howard was taken at once to his home, at 570 Horton street, where Dr. English attended him. It was found that no bones were broken, his injuries consisting of severe bruises and a strained shoulder. Dr. English says the sufferer will be around in a few days. Howard is married and has two children.

ONLY SLIGHT RELIEF FROM THE HEAT!

Ninety-One Deaths Due to the Hot Wave at Philadelphia.

New England Credits the Thermal Wave With Causing 100 Fatalities—Mercury Climbing Up Again.

Washington, July 3.—Louisville and Baltimore were the two hottest cities in the United States at 8 o'clock this morning, according to official figures, the thermometers at that hour registering 84 degrees in both places. Their closest competitors for first honors are Boston, New York, Philadelphia and Scranton in the east; Charleston and Savannah in the South, and Cincinnati and Kansas city in the west, all with 82 recorded at that early hour of the day.

The mercury is crawling steadily upward through the Middle Western States, the only fall it has sustained being in the section between here and New York, varying from 6 to 10 degrees for the day, as compared with yesterday, due to storms that swept over portions of that territory. These thunderstorms under the present conditions of extreme heat are likely to occur anywhere within the field of the hot wave, at any time, but they will be local, according to the weather bureau, and will bring but little relief.

No permanent break in the hot spell can yet be predicted by the weather bureau officials. In Washington, at 10:45 this morning the official thermometer pointed to 90, with a prospect of continued rise.

Troy, N. Y., July 3.—A severe thunderstorm prevailed in the section east of Troy last night, during which William Findlay, who conducts a candy stand at Averill Park, was struck by lightning and killed. The storm cooled the atmosphere, and at 10 a.m. 88 degrees was the record in this city. This is 5 degrees lower than at the same time yesterday.

St. Louis, July 3.—At 8 a.m. the weather bureau thermometer registered 82 degrees. This was 6 degrees cooler than at the same time yestrday, but thre is about 15 per cent more humidity.

NO COOLING BREEZE.

Kansas City, Mo., July 3.—At 8 a.m. the mercury registered 89, or 5 degrees more than at the same time yesterday, without a breath of air stirring last night the suffering was great. Four prostrations, one fatal, were reported.

Chicago, July 3.—Although the temperature at 8:30 a.m. today was down to 73, the humidity showed 85 per cent, the weather conditions were rather depressing, despite a cloudy sky and a fair breeze.

91 DEATHS DUE TO HEAT IN PHILADELPHIA.

Philadelphia, July 3.—The total number of deaths from heat in this city since the beginning of the present hot spell is 91.

Washington, July 3.—The mercury is again climbing upward, and at 9:45 o'clock this morning the official thermometer at the weather bureau registered 86, a rise of 6 degrees since 8 o'clock. The weather bureau reiterated today its announcement that there is

NO PERMANENT BREAK IN THE HOT SPELL

in sight. Sixteen deaths in the past six days have been either directly or indirectly attributable to the heat.

100 DEATHS IN NEW ENGLAND.

Boston, July 3.—During the six days of excessive heat, which have prevailed in New England, nearly 100 deaths have occurred, which have been attributed to the weather conditions. Of this number 22 have died in Boston. The number of prostrations in New England have reached several hundred. In Boston there have been nearly 150.

A LITTLE RESPITE.

Philadelphia, July 3.—A cool breeze from the south tempered the heat slightly this morning, but a jump of 8 degrees in one hour indicated another scorching day. Th eminimum temperature during the night was 81 degrees, and at 8 o'clock today the weather bureau thermometer registered that figure. At 9 o'clock the mercury had risen to 89, 4 degrees cooler than at the same hour yesterday. Up to 9 o'clock 11 deaths had occurred, and the hospitals reported about 35 prostrations.

Boston, July 3.—This city entered upon its seventh day of oppressive heat with the thermometer at 86 at 8 o'clock a.m., and the wind light from the southwest.

New York, July 3.—It was not as hot in this city this morning as it was yesterday, but the percentage of humidity was much greater. At 9 o'clock the weather bureau thermometer showed a temperature of 85 degrees, as compared with 93 at the same time yesterday. The percentage of humidity was 72. Yesterday morning it was 59.

From 2 to 9 a.m. seven deaths due to heat were reported in New York and Brooklyn.

Pittsburg, July 3.—Eighty-six deaths directly attributable to the excesive heat have occurred in Pittsburg since last Wednesday. Of these number 64 were reported since Sunday night.

A New Era In Baking

No heavy, soggy, impure, unhealthful biscuit, cake or pastry when "Purity" Baking Powder is used, but instead healthful, nourishing food—food that makes life and strength—the kind you need to properly nourish the body. "Purity" being free from alum makes the pastry light, white, tender, delicious; and all foods that require a leavening agent, pure and strengthening.

The best things to eat are made with "Purity" Baking Powder.

Only 20c Pound.

ASST. SUPT. BEGG GOES TO PT. HURON

London Man Will Be Superintendent and Agent at Port Huron.

Assistant Superintendent A. S. Begg, of the Grand Trunk, here, has been appointed superintendent of the St. Clair tunnel and terminals and agent at Port Huron tunnel, vice C. S. Cunningham, transferred to Island Pond, Vt. Mr. Begg has been in London only a short time, but he has made many friends, who will be pleased to hear of his advancement. He has already gone to Port Huron. It is not yet known who will succeed him.

THE DOMINION'S CUSTOMS REVENUE.

An Increase of $81,000 for the Fiscal Year.

Ottawa, July 3.—The actual amount received at the accountant's office, Ottawa, as customs revenue for June last was $2,340,201, an increase of $148,463 over the same month of last year, when the receipts were $2,191,737.

For the fiscal year ending June 30, the revenue was $81,236 in excess of the preceding twelve months. The figures are: 1901, $28,990,254; 1900, $28,909,018. The receipts from customs duties at outlying points, which will probably amount to $100,000, have yet to be received. When these are in hand they will make the aggregate increase of revenue for the year $200,000.

This is an excellent showing, more especially when it is remembered that there was an 8 per cent decrease in the duties on British goods last year, as compared with the year previous.

The customs revenue has increased by about $9,000,000 since 1896. In that year the customs receipts were $26,219,637, in 1897, $19,891,996, in 1898, $22,157,788, in 1899, $25,734,228, in 1900, $28,909,018, and 1901, $28,990,254.

THE TWELVE MONTHS TOTALED $390,000

Year's Excise Collections in London Show an Increase Over 1900.

The excise collections for London during the year ending June 30, amounted to $390,007 95, an increase over the total for the previous twelve months of $12,503 36. According to months the returns were as follows:
