THE CANADIAN BANK OF COMMERCE

SIR EDMUND WALKER, C.V.O., LL.D., D.C.L., President
JOHN AIRD, General Manager H. V. F. JONES, Ass't. General Manager

CAPITAL, $15,000,000 RESERVE FUND, $13,500,000

SAVINGS BANK ACCOUNTS

Interest at the current rate is allowed on all deposits of $1 and upwards. Careful attention is given to every account. Small accounts are welcomed. Accounts may be opened and operated by mail

Accounts may be opened in the names of two or more persons, withdrawals to be made by any one of them or by the survivor.

A SENSATIONAL RISE IN SILVER METAL

Each day it becomes more and more apparent that there is a keen contest on for silver, and one which can only be settled by much higher prices. Several of the European and some Asiatic countries are in the market for the white metal and sellers are scarce. There is a growing impression that in the settlement of the war obligations, silver payments will play an important part, and purchases of the metal are now being made in anticipation. The most sensational advance in the price since the low of last year occurred yesterday, the overnight rise being from 69 cents to 71 3-8 cents an ounce. It was learned yesterday that at least two Cobalt companies are refusing to sell their output, as they consider the cost of carrying the metal a mere bagatelle to the amount that will be made by holding back offerings. History reveals the fact that previous wars have resulted in remarkable advances in silver metal, and the present conflict promises to bring about like results. Silver shares again reflected the rise in the metal in yesterday's market. Before the opening of the exchange one local broker received an order to buy 5000 shares of Beaver from Chicago. The increased earnings of the Cobalt companies can only mean larger dividends for shareholders, and the market is just beginning to take cognizance of this. The principal advances yesterday were made in Nipissing, which sold up to $7.85; Coniagas to $5; Timiskaming to 73 1-2 cents; Beaver to 46 1-2 cents; McKinley to 63 1-2 cents; Peterson Lake to 30 cents; Trethewey to 26 cents; La Rose to 79 cents, and Crown Reserve to 57 cents.

COBALT STOCKS RUN INTO BULL MARKET

Transactions Amounted to Almost Quarter of Million Shares.

Cobalt silver stocks were booming yesterday at the Standard Stock Exchange, and with sales of close unto 250,000 shares it was the biggest day's transactions since before New Year's.

As predicted at various times the public came to some realization of what the advance in silver has done and is doing for the Cobalt stocks. The movement was really commenced on the day previous when the price of the metal jumped almost 2 cents per ounce to 69. When a further jump of 2 3-8 cents occurred yesterday things began to hum around the stock exchange. Selling orders were canceled and buying orders put in in their stead. As is usual everybody seemed to want to buy at once, and the demand for practically the whole list of the silver issues was enormous. Naturally there was only one result—prices responded and advanced several points all down the line. So heavy was the demand for stock that brokers claim they were unable to fill the orders.

The buying from American sources was again a feature of trading. It begins to look as if the Americans who have been accumulating stocks for the past few days had some justification. But the rally in the market has been very slow in coming.

It has taken an advance of almost 30 per cent. to bring it about.

Trading was confined almost exclusively to the Cobalt list, the Porcupine being badly neglected for the more active silver issues.

In the Cobalts Timiskaming was perhaps the stock most heavily traded in. It opened at 70, advanced to 74, and closed 1-2 point lower at 73 1-2. There seemed to be buying orders for an unlimited quantity of the issue around 73. The New York pool is said to have been accumulating all stock available, and 75 was bid on the floor for a block of 25,000 shares. Manager Culver states that he has just shipped 500,000 ounces of silver from Timiskaming and Beaver from New York, to be held in store at London. Mr. Culver stated that he had been holding the metal since the price was down around 46 1-4.

Beaver was a big seller, too. It opened higher at 42 and sold up to 48 1-4 closing slightly lower at 47. Peterson Lake advanced from 27 3-4 to 30 on large trading. This stock appears to be a great public favorite. New York was in the market as a purchaser again.

A substantial gain was showed by La Rose, which went up from 74 to 80, but sold off again to 75 on profit taking. A few days ago this issue was selling around 62. Nipissing came into the limelight opening at $7.60 and selling up 20 points to $7.90, closing easier at $7.80. Coniagas jumped up from $4.75 to $5.00. McKinley-Darragh followed the general trend upwards, advancing from the opening at 60 to 63 1-2. Trethewey, which was traded in around 18 the previous day, opened at 22 and sold up to 26, closing at the top. Crown Reserve at 55 to 57 was stronger.

Adanac was another feature, selling up to 64 on the close. It looks as if quite a number of traders were unsuccessful in getting some of the first issue of the stock and were compelled to scramble for it in the market.

A strong enquiry for Chambers Ferland shot the price up from 27 to 29 3-4 on the close.

In the smaller issues Bailey came into the limelight with transactions on a larger scale. The stock opened at 8 1-2 and sold up to 12, and closed at 11. There is said to be a tremendous short interest in this issue, and the shorts will have some difficulty in covering, as the major portion of the stock is tied up in litigation.

Porcupine issues were quiet. Dome Ex. sold between 36 and 36 1-2. Big Dome changed hands at $25.50. Holly was firm at $29.50, and McIntyre held around 96. Vipond weakened from 55 to 51. West Dome Consolidated sold at 23.

PRICE OF SILVER.

LONDON, April 28.—Bar silver is up 1⅛d, at 34⅝d.

NEW YORK, April 28.—Commercial bar silver is up 2⅝c, at 71⅝c.

Mining Notes

F. L. Culver, manager of the Timiskaming and Beaver, received word yesterday from Kirkland Lake that a find had been made on the McCane property, which is under option to the Beaver Consolidated. The report stated that the main vein, which dipped out of the shaft at the 140 foot level, had been picked up again by a crosscut from the 175 foot level. The vein is six inches wide. Mr. Culver, who just returned yesterday, was quite elated over the news.

The Dominion Government has taken over the investigation work in connection with the establishment of a pine oil industry in Canada, says The Nuggett. The work is being done thru the forestry department at Ottawa. The government will appoint a qualified man to look after the experimental work and an endeavor will be made to produce a grade of oil suitable for the flotation of ores, from Canadian wood products.

The metallurgical testing of these oils after they are produced will be undertaken by the mines branch of the department of mines at Ottawa.

The shortage of pine oil for oil flotation of ores has been primarily responsible for the starting of the investigation. The demand is great and likely to become greater, while at the same time the supply is small.

R. E. Kemerer in his weekly market letter says: Assuredly the north country itself is not bothering over international affairs. There is a greater degree of activity in all the camps than there has been for a long time past and already we begin to hear of work begun on our new properties and of new developments on partially opened up properties. This is particularly the case in Deloro and in the Boston Creek district, and, according to report, the first bullion from the latter camp will be shipped this month from the Miller-Independence. One of the most gratifying features attendant upon the opening up of the newer districts is the absence of the usual wild-cat promotions with their preposterous advertising of impossible profits and the resultant victimizing of the public, to the detriment of the whole district. There is a vast territory in the north which has only been scratched, and there will be ample opportunity for investment in thoroly legitimate mining ventures without regarding flotations of "paper mines."

Strong Coinage Demand In London for Silver

LONDON, April 28.—Money was plentiful today. Discounts were a shade more active, altho treasury bills and exchequer bonds received the most attention.

The stock market was quiet, pending the clearing of the Irish situation. There was no weakness, but the dealings were restricted. Speculative issues sagged from lack of support, while foreign rails and bonds and gilt-edged shares were steady. American securities were marked higher in sympathy with the recovery in Wall Street. Very little trading was done afterwards, and the closing was dull.

Strong coinage demands for bar silver advanced the price 1⅛d, to 34½d per ounce, the highest price in ten years.

LONDON METAL MARKET.

LONDON, April 28.—Spot copper, £132, unchanged; futures, £125, unchanged. Elec., £143 10s, up £1 10s. Lead, spot, £34 10s, off 5s; futures, £34 12s 6d, off 7s 6d. Spelter, £105, up £2; futures, £94, up £1. Bar silver, 34½d, up 1⅛d.

WHY SILVER ADVANCES

At current price of 71 3-8c an ounce silver metal has advanced 25 cents an ounce over the low price of September 15.

What is advancing silver?

Are the higher prices stable?

Will there be further gains?

How does the advance affect the earnings per share of the silver, silver-lead and silver-copper producers?

We have endeavored to answer these questions in an extensive and thoughtful analysis, containing valuable statistics, in the current issue of our

WEEKLY MARKET LETTER
(April 28, 1916.)

This letter should be read by every investor interested in securities of Mining Corporations producing silver. It will be sent to you on application without charge.

Boom in Silver Stocks

Silver 71⅝, and going higher. This means immensely increased earnings to the following companies:—

NIPISSING BUFFALO
KERR LAKE TEMISKAMING
CONIAGAS McKINLEY-DARRAGH
LA ROSE PETERSON LAKE
CHAMBERS-FERLAND BEAVER
AND ADANAC

Buy these stocks for considerable advances, as present prices have not nearly discounted the use in the silver metal.

An Interesting Proposition In Silver

PRACTICALLY IN THE CENTRE OF THE COBALT CAMP, ALSO GOOD GOLD PROPERTIES.

No. 1.—We control and offer for sale forty acres, patented, adjoining the Drummond Mine, a few rods from the Kerr Lake and Crown Reserve Mines, at Cobalt. The location is of the best. Several prominent veins are known to exist. This property has a good chance to make a mine with a little further development.

No. 2.—We control and offer for sale eighty acres, patented, a few rods west of the Big Dome Mine, and adjoining the West Dome. This is centrally situated in the Dome zone at Porcupine. Considerable development has been done, mine buildings erected, etc.

No. 3.—We control and offer for sale two patented claims adjoining the celebrated Croesus Mine, formerly the Leyson-Dobie, in Munro Township. It is only a short distance from the workings of the Crocsus Mine to the south line of these two claims. It is stated that over one million dollars' worth of ore is blocked out on the Croesus Mine at the present time, and they are now shipping.

Consult us re maps, reports, etc., on any of these properties. Can arrange on stock and cash basis, if required.
