HAMILTON NEWS

POLICE LET TWO BURGLARS GO THRU A VERY STUPID BLUNDER

Set One Man to Catch Two, and the Two Walked Away—Inquest Into Death of G.T.R. Yardman Shows He Disregarded Rules—Death Was Accidental.

Hamilton, July 11.—(Special.)—It leaked out to-night that the police officials last evening thru a bungle allowed two desperate burglars to escape. The department was notified that another visit was to be paid to the residence of Sidney Mewburn, 262 West Main-street, from where a lot of stuff had been carried off while the family was at Burlington. Instead of sending a posse of police there to wait for the robbers, one aged officer, P. C. Knox, was detailed to watch the place. The thieves, two in number, came sure enough. When they went to enter, Knox, who was unarmed, ran from his hiding-place and the robbers escaped. Mr. Mewburn, it is said, is very vexed at the way the case was handled and something more may be heard of it.

Disregarded Rules.

The inquest on the death of Richard Callon, yardsman at the G.T.R. station, was continued to-night. Evidence given by train hands showed that Callon disregarded the rules of the company by going between cars without giving a signal to stop to the engineer. He went between them to adjust a chain and the engine moved. The jury returned a verdict of accidental death with no blame attachable to any person.

Anonymous Letters.

For some time anonymous and signed communications have been sent to the license inspectors and commissioners, and also to police officers regarding alleged violations of the liquor act by hotel keepers. It has been learned some of these have been forgeries, and the detectives are trying to locate the guilty one. The letters were written by a woman, and a resident of Stuart-street has been suspected.

Muddle Result.

As a result of the muddle over the payment of a furniture account with the Ontario government, the Board of Education this evening resolved that henceforth the treasurer and secretary of the board must inform the chairman of the Finance Committee when cheques in payment of accounts due the board are forwarded. William Clucas, who has been a member of the board since 1875, will be 80 years old to-morrow, and on motion of W. Bell and H. S. Brennan the board warmly congratulated Mr. Clucas on that fact, expressed its high appreciation of his services and wished him many more years of service on the board. The trustees will not meet again till Sept. 12.

Reception Committee.

A meeting of the committee to arrange for the reception of the Duke and Duchess of Cornwall was held to-day. Several plans were discussed, but in the absence of definite information as to how long the visitors will stay here nothing could be done. The committee adjourned to meet again next Tuesday.

He Made Sure of Death.

David Sharp, a well-known farmer, living on the stone road, about three miles west of Ancaster, committed suicide yesterday. He was seen to leave his house about 9 o'clock and walk towards the barn. About 11 o'clock his young daughter entered the barn and found her father hanging by the neck to one of the rafters. In addition to partial strangulation by the rope he had sent a bullet thru his brain. The shot was fired from a revolver, the bullet entering at one ear and passing thru his head and out just below the other. The revolver was found on the floor of the barn below the body.

Deceased was about 54 years of age, and of late has suffered much from melancholy. Last year he built a new house, and the fact that it cost him much more than he had expected preyed upon his mind. During the past week he has been very low-spirited.

Stove Mounters in Session.

At this morning's session of the international convention of Stove Mounters and Steel Range Workers, it was decided to make an organized effort thruout the trade to have a nine-hour working day adopted as the standard, the change to take effect Jan. 1 next. Some of the unions in the International have already got a nine-hour day, but in most of the stove towns ten hours is the rule.

The convention decided to establish International headquarters, and Detroit, Chicago and St. Louis are being considered as locations. Hamilton will have a Canadian supply depot for the distribution of stationery, etc.

Efforts will be made this fall to establish unions in Toronto, Brantford, Montreal, Sarnia, St. John, N.B., and other foundry cities.

A resolution was passed approving of the formation of a National Metal Trades Federation and agreeing to affiliate with it when such is formed.

A Nasty Fall.

James Minnie, a boarder at the Belmont Hotel, Market-street, had a narrow escape from being killed about 1 o'clock this morning. He found it rather hot for sleeping in his bed-room, so decided to slumber on the fire escape. After a while he rolled off the platform and fell to the sidewalk, a distance of 23 feet. His spine and one of his legs were injured, and his right wrist was dislocated. He is doing well to-day.

Police Points.

Mrs. Mary Landers, at to-day's Police Court, pleaded guilty to several charges of victimizing merchants. At Chief Smith's request she was remanded till Monday, as he suspects there are more sins to be laid at her door.

Edward Steer, butcher, has been summoned for not taking out a dog license. He protests the bylaw is defective and will fight.

Constable Hasselfeldt, while wheeling yesterday, ran against a fence and was painfully injured.

Death of Mrs. Broadfield.

Mrs. Broadfield, widow of the late George Broadfield, died at her residence, No. 112 South Emerald-street, this morning, after a lingering illness. She leaves one son, George E. Broadfield, of the firm of McMahon, Broadfield & Co., Toronto. The funeral will take place on Saturday afternoon.

Minor Mention.

W. H. Mott, formerly of the Thirteenth Regiment, and son of V. Mott, Bartonville, has been promoted to be corporal in the South African constabulary, eastern division, now located at Boksberg.

A. Craig, formerly cemetery superintendent, will remove to Chicago, where he will reside.

Thomas M. Maisey, Greig-street, died rather suddenly about midnight last night.

Dr. Peters has been paid $420, $10 a day for 42 days, for his work as physician of the smallpox camp.

STEEL STRIKE CONFERENCE

Yesterday's Session in Pittsburg Not Productive of Satisfactory Results So Far.

THE COMBINE MAKES AN OFFER

Will Accept Scale, But Declines to Unionize Plants Heretofore Operated as Non-Union.

Pittsburg, Pa., July 11.—Surface indications point to the settlement of the strike in the mills of the American Sheet Steel Company and the American Steel Hoop Company, at the conference between the Amalgamated Association officials and steel combine representatives, which began to-day at the Hotel Lincoln in this city. The conference was called for 10 o'clock this morning, and an hour before that time the national officials' advisory board, trustees and district vice-presidents of the Amalgamated Association met at their headquarters to outline their attitude before conferring with the representatives of the steel combine.

President Shaffer said that, if an agreement was not reached to-day, he favored a continuance of the conference to-morrow and Saturday, but that the present conference must be final. Under no circumstances would he agree to a postponement for a week or more intervening between the meetings.

Mr. Shaffer said further that the Executive Committee was clothed with discretionary powers with respect to the nature of the settlement, but the intimation was that no deviation whatever would be made from the original stand.

It was 10.35 o'clock a.m. when the conference opened. The combine conferees present at that time were Warner Arms, vice-president of the American Tin Plate Company; Veryl Preston of the American Steel Hoop Co. and William Leeds of the American Sheet Steel Co.

The workers' organization was represented by the General Executive Committee, the highest body in the association. President Shaffer was chosen chairman of the joint conference.

No Settlement Yet.

The conference adjourned until to-morrow without having reached a settlement. At the conclusion of the session President Shaffer was seen, and he refused to intimate by even a word what had been done. Other conferees seen were equally reticent as to the proceedings. It is, however, authoritatively stated that the combine offered to sign the Amalgamated scale for all the plants, and make the wages uniform, but declined to unionize the plants operated as non-union for years. Trustee Morgan of the Amalgamated said the proposition would not be accepted.

Strikers Heavily Fined.

York, Pa., July 11.—In the County Court to-day Judge Stewart rendered his opinion in the contempt cases growing out of the moulders' strike here, in which George W. Test, corresponding representative of the Iron Moulders' Union of North America; John P. Frey of Worcester, Mass., fourth vice-president of the union, and Howard Wilmer of the local union, were adjudged guilty of contempt of court in violating the court's injunction restraining them from picketing and otherwise interfering with the York Manufacturing Company. Test and Frey, the leaders of the strike, were sentenced to pay a fine of $250 and costs, and undergo imprisonment for 30 days, and Wilmer was fined $25, which he paid and was released. Test and Frey, being unable to pay, were sent to jail.

Another Strike at Malone.

Malone, N.Y., July 11.—About 600 men employed in saw and planing mills at Tupper Lake are out on strike, demanding a nine-hour day instead of eleven hours. The trouble was occasioned by a factory inspector insisting that a dozen boys under 18 years old should not be compelled to work over ten hours. Threats to burn the mills have been made, and some disturbance was created by drunken men, but at noon to-day everything was quiet. However, there was no prospect of a settlement in sight. No attempt has been made to start the mills.

Too Late for Arbitration.

New York, July 11.—It was decided by R. M. Easly, secretary of the National Civic Federation, who has been here for several days trying to arbitrate the strike of the machinists, that all attempts at settling the strike thru the Federation are useless. He has just left New York, and before he went away expressed regret that his efforts to bring about a settlement had to be abandoned. At the headquarters of the National Metal Trades Association it was said that it was now too late for arbitration, and that employers all over the country were getting all the men they wanted. Henry F. Devens, secretary of the association, has received advices from business centres thruout the country, saying that the strike was breaking up. At the Dickson Locomotive Works in Scranton the men were returning to work without concessions.

Strike Off at Newport News.

Newport News, Va., July 11.—At a meeting to-night of machinists the strike at the Newport News shipyards was declared off by unanimous vote.

SAYS HE SHOT GEORGE PRICE

Myles MacDonnell on Trial on a Murder Charge Testifies in Own Behalf.

TELLS A THRILLING STORY OF FIGHT

Used His Revolver Because He Thought He Was About to Be Killed.

New Yor, July 11.—Myles B. MacDonnell, who is on trial before Justice Fursman for the murder of George Price, testified in his own behalf to-day and told a dramatic story of the shooting of Price. MacDonnell was the first witness to say that it was he who had killed Price.

He began by saying that for several years before the shooting he had been in the gambling business. He had had some trouble with "Tom" Kennedy, and had been told that J. Kennedy intended to shoot him. On the night of the shooting MacDonnell went to the Onawa Cafe, where he found Kennedy and several friends, among them Price.

A quarrel began immediately. According to MacDonnell, he said to Kennedy: "You have come here to do me, but you won't do it at that. I am not afraid of you and your crowd, but I don't like that thing in your pocket, and I don't want you to pull it."

Then, according to the defendant, Kennedy drew his revolver and said to MacDonnell: "I've got you cinched.

"I pulled my gun," MacDonnell testified, "and I caught Kennedy's hand and forced it into the air. I knew what was coming. I put my gun against Kennedy's heart, and the moment I did so he ceased to make any effort to struggle or get his hand down, and I said, 'Tom, I've got you cinched now, but I'll spare your life for the sake of your wife and children.' Then my arm was pulled down and I tried to shoot whoever was pulling at me, in the foot. I got my arm up and fired again thinking to hit Kennedy in the stomach.

"As Kennedy pulled around, Price changed his position, and fired at me, and I raised my gun and shot Price before he could shoot again. Then I shot at Kennedy, aiming low, and then shot again at him as he fell.

"I saw Kennedy rise and go in a stooping position to the end of the bar, and I aimed at him, but found my revolver empty."

There was a stir in the courtroom when MacDonnell said he shot Price. The prosecution had been unable to establish that point. MacDonnell, on cross-examination, said he shot Price because he thought he was about to be killed himself. The case went over until to-morrow.

IRISH LEAVING IRELAND.

Government Asked to Take Measures to Check the Emigration.

London, July 11.—Mr. Field, one of the Irish members of Parliament, has suggested an inquiry into the causes of the enormous emigration from Ireland at present. He states that 8665 persons left Irish ports last month, against 8105 for the corresponding month of the previous year, and that the total for the five months of the present year was 18,197. Of these emigrants 96 per cent. went to America. Mr. Field asks whether the government intends to propose legislation calculated to keep the people in Ireland by giving them an opportunity to own the land they cultivate, and whether it will consider the propriety of reducing taxation in the same ratio as the population has been reduced. The government will pay no attention to them, in accordance with its general policy not to notice anything the Irish members do or say.

The recent census, taken on March 31 last, shows that the population of Ireland is dwindling. The total is now 4,456,546 persons—2,197,739 men and 2,258,807 women. This is a decrease of 248,204 during the last ten years, or 5.3 per cent. In three counties—Dublin, Down and Antrim—there was a slight increase. In every other county there was a falling off of from 13.6 per cent. in Monaghan to 5.1 per cent. in Londonderry.

As Mr. Field states, there is an increase in emigration, but it is quite as rapid from Great Britain as from Ireland. The total number of emigrants leaving the United Kingdom during the first five months of the calendar year was 111,596, as against 103,922 during the corresponding period of the previous year, of whom 74,104 went to the United States, 17,243 to Canada, 5369 to Australasia, 7594 to South Africa. The larger number of these were English.

The Bell is heard in the stately homes of Canada.

From Factory To Parlor

That is the way to transfer a piano. Thus you are sure of getting it at "first hand" and at first cost. There's no shipping it from place to place, no paying an extra middleman's profit. When you get a Bell Piano you have the aristocrat of the piano family, and it holds this high position by virtue of its long-tried merits. It doesn't need "boosting" or "blowing." It just needs trying. Try it.

The suggestion to try it before committing yourself to some other is merely common sense.

Wireless Telegraphy.

Boston, July 11.—It is now proposed by the Chamber of Commerce to use lightships for the wireless telegraphy system. The station will be established a little to the southwest of Sable Island. In winter the station would have to be changed a little further south. A station will have to be built on some kind of a vessel, probably after the lightship pattern.
