List your properties with me quickly. Purchasers, buy one of the following choice homes and avoid paying high rents. Reasonably priced homes in London will increase in value, as London is destined to become a great manufacturing and wholesale distributing centre and should reach 200,000 people within 20 years and 100,000 within 5 years. These are the figures set by those interested in building up and boosting our banner city.

4 beautiful bungalows, every appointment in the homes, all modern, ideal locations, ranging from $4,500 to $8,000. These are simply beautiful.

6 charming 7 to 10-room large brick homes of the finest interior design and charming locations, from $6,500 to $15,000.

4 modern brick and frame, centrally located, can be bought at a price as an investment and some of them turned into duplex homes which would net fine dividends to the purchaser, who, if desired, could live in the same home and rent the other part of it 10 to 15 per cent on the investment. Some of the above homes have garages.

6 modern cottages in all four corners of the city, from $2,200 to $4,500.

4 of practically the best building lots in the City of London at reduced prices for a short time. Other large and small attractive homes in all parts of the city. A few choice small acreage properties joining the city.

Don't delay as these are attractive. Call and get particulars of whatever class of properties you are interested in and you will receive prompt attention.

Simple Exercises One Way To Win Muscular Control

By DR. LEONARD KEENE HIRSHBERG,
A. B., M. A., M. D. (Johns Hopkins University).

DR. HIRSHBERG

To be lord and master of yourself as well as others, your muscles and other senses ought to be trained, sharpened and made alertly sensitive—ready to take in objects and to give forth precise action.

Men of unsound senses and flabby muscles are in the vast majority. Those who lock up agitation in their hearts, who exert self-control, who exhibit courage, who perceive clearly and make judgments correctly are usually to be found with quick, staunch muscles and trained senses.

Merely to rest well, to bathe once or twice daily, to live in the open sunlight and to have proper food, is not enough to store up energy and to keep you really productive and of fine earning capacity. You need not expect to have a well equipped intellect and capitalistic muscles if you do not dance, swim, ride, row, play tennis or otherwise exercise.

Some Fine Exercises.

If all persons who live quietly and non-muscularly, yet gluttonously, will interest themselves in the proper exercises they will not be so apt to die between 61 and 67 as they are today.

Stand beside an open window, spread your feet about fifteen inches apart and place the hands upon the hips at the sides. Now move the body from the hips up so that the head will describe a circle about two feet in diameter. Make three motions to the left and then three to the right. Breathe as usual. Repeat until slightly fatigued.

Enjoyment in sports is unlikely to come from flabby, soft muscles. The most accomplished and the most graceful dancers are those whose muscles, trained properly, are very strong and still very elastic. Indeed, the right kind of dancing is in itself a good exercise, and has proved very beneficial to many.

Stand erect and let the arms drop loosely at the sides. Now gently sway them to and fro like a pendulum until the hands complete an arc level with the shoulders. Repeat ten times. Then working with each arm separately describe complete circles.

Let the arm drop loosely from the shoulder. Oscillate the arm to and fro slightly, so that the hand will dangle at the end like a tassel. Repeat very rapidly and stop at the first sign of fatigue.

Prof. Allan J. Eastman, a piano virtuoso, advises exercises of all the muscles in order properly to train the fingers and hands.

"Anyone who has had an opportunity to see or feel the shoulders of the piano virtuoso is usually amazed," says Prof. Eastman. "One very famous pianist before the public, whose playing is noted more for its extremely delicate effects than for great and powerful climaxes, has shoulders which might well be compared with those of an ox. Very few people realize that the pianissimo effects in piano playing are the result of strength. Indeed, more muscular control is required in very soft passages than in very loud passages—paradoxical as this may seem.

Shoulder Exercises.

"This, like all exercises, should be practiced before open windows. The arms should be held straight out from the body at the shoulders, making the form of a cross. Hold the palms upward. In this position clench the fist ten times. Then touch the shoulders with the tips of the fingers ten times. Then with the fingers on the tips of the shoulders bring the elbows around so that they point directly front ten times.

"A second back and shoulder exercise is to hold the arms front straight out from the shoulder. Drop the arms to the side and repeat ten times. Resume first position with palms together in front. Go through the motion of swimming ten times.

"A third back and shoulder exercise, often recommended by professional strong men, is to grasp an ordinary kitchen chair at the top of the back and lift it straight out from the body very slowly until the back is parallel with the floor. If this exercise is too much of a strain, avoid it until the other exercises so strengthen your shoulders, arms and back muscles that you are enabled to advance in this one."

Doubtless a large number of ailments of men and women between 25 and 55 could be avoided if they climbed trees, fences, played bullfrog, caddy, kick stick, baseball, football and otherwise used their muscles as they did in their teens. In lieu of this they must carry on in a tamer way.

Answers To Health Queries.

J. H.: Q.—How can I enlarge my bust

A.—Massage your bust with a little cocoa butter.

M. M. K.: Q.—Why is it that I cannot breathe through the right side of my nostril as well as the other?

A.—You must have an examination of your nose and throat by a nose and throat surgeon to find the exact cause.

A SUBSCRIBER: Q.—What shall I do to get rid of pimples?

A.—Apply a little of the following to the affected parts:

Sulphur precip .....3 drams
Pulv. camphora .....15 drams
Pulv. tragacanth .....½ dram
Liquid albolene ..... 3 ounces

G. M.: Q.—What can I do for a catarrh?

A.—Often an examination of the nose and throat by a nose and throat surgeon will reveal deflected bones, tumorous growths, adenoids, tonsils, etc. You should have an examination made

M. B. G.: Q.—What can I do for superfluous hair?

A.—Remember that there are few if any methods to kill the roots. Most expedients are, like cleaning the teeth or washing the face, to be frequently repeated. About twice a week or when needed, try a little of the following:

Calcium sulphide .....2 parts
Zinc oxide .....1 part
Starch .....1 part

When you are ready to use this make a paste with water and apply to the parts. Let it remain on the skin for about five minutes, and then wipe off gently with a soft cloth.

Dr. Hirshberg will answer questions for readers of this paper on medical, hygienic and sanitation subjects that are of general interest. He cannot always undertake to prescribe or offer advice for individual cases. Where the subject is not of general interest letters will be answered personally, if a stamped and addressed envelope is inclosed. Address all inquiries to Dr. L. K. Hirshberg, in care of this office.
