Chicago Gossip.

J. P. Bickell & Co. say at the close: Wheat—Lower—Weak cables, liberal receipts and light cash demand were arguments in favor of lower values, closing market 1c to 1½c lower, with tendency still downward. As long as favorable harvesting conditions prevail and receipts continue liberal no sustained advance is likely and all advances pressure will be encountered. We expect rallies on oversold spots, and continue to expect trading market with moderate profits to be accepted.

R. B. Lyman & Co. wired R. B. Holden at the close:

Wheat—Market opened ⅜c to ⅞c lower. The two prominent commission houses were heavy sellers. The local sentiment continues very bearish. There is no export business of note. Weather continues perfect. Situation at present suggests lower prices.

Corn—There was considerable nervousness. The local bears hammered the market, forcing a setback of a cent.

Oats—Have acted in sympathy with corn. We see nothing to encourage bulls at present. Would wait for hard spots to sell on.

Provisions—We would wait for a reaction before making purchases.

Bartlett, Patten & Co. (Beaty & Glassco) wire:

Close—Wheat. The market opened lower and easier in tone, with the selling general and buying chiefly on scale orders by commission houses for short account. Minneapolis received 445 cars wheat and prices for cash No. 1 northern were quoted at from 15c to 20c decline from last quotations. Receipts in the southwest were heavy and cash prices 4c to 5c lower. We will likely get a temporarily oversold condition from time to time, but the ultimate outcome as we view it must be lower prices.

Corn—The map showed light or no rain of consequence over Sunday, but during the session rains were reported at various points west of the Mississippi and especially in Nebraska. There seemed to be less fear regarding damage done, or to be done and even the local professionals who have been aggressively bullish of late, acted as tho a calamity had at least been deferred.

Oats—Prices were on the down grade all thru the session. It seems to be a question of cash property, which is making the price decline and speculative buying and support are not great enough to prevent it.

Market Notes.

The Union Stock Yards shipped out 121 car loads of export cattle last week while Chicago only shipped 64 car loads, which is a favorable showing for the West Toronto yards of nearly double the number. Another contract has been entered into by the Union Stock Yards Company for the erection of 86 more cattle pens, on the south side of the main alley, which will provide room under cover for 1500 more cattle, or ample space for all receipts during the coming winter.

The 86 cattle pens that have been under construction during the past two months are nearly completed, many of them being in use to-day, for the large run of export cattle now at the yards.

When these yards are completed there will be space for 3000 more cattle than there was this spring and when completed they will be the most up-to-date in construction of any on the continent.

A new scale with the capacity to weigh 2 car loads of cattle is under construction on the south side of the alley in front of the present scale building. This is to accommodate all cattle stabled on the south half of the yards.

Dunn & Levack topped the market for butchers' cattle, having sold one lot of 10 picked butchers, 1060 lbs. each, at $5.45 per cwt.
