Ayer's Hair Vigor,

For restoring to Gray Hair its natural Vitality and Color.

A dressing which is at once agreeable, healthy, and effectual for preserving the hair. *It soon restores faded or gray hair to its original color, with the gloss and freshness of youth.* Thin hair is thickened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed; but such as remain can be saved by this application, and stimulated into activity, so that a new growth of hair is produced. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. The restoration of vitality it gives to the scalp arrests and prevents the formation of dandruff, which is often so unclean ly and offensive. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can only benefit but not harm it. If wanted merely for a HAIR DRESSING, nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts long on the hair, giving it a rich, glossy lustre, and a grateful perfume.

Prepared by Dr. J. C. Ayer & Co., Practical and Analytical Chemists, LOWELL, MASS.

PAT. FEB 17 1874 "44" A NEW THING AND A GOOD THING

THE invention of the paper collar was of positive benefit to the world, furnishing as it did, a neat, clean, and most economical article of apparel. But it never did answer all the purposes for which it was designed, owing to the frail nature of the material. The problem has been to make a cloth collar as cheap as paper that would last longer and could be made always fresh and bright. The new "44" collar, now upon the market, fills these requirements perfectly. It is made entirely of cloth, three thicknesses being used; it so closely resembles the finest linen that it might be sold anywhere for linen; and, no matter how much it may be soiled, it can be cleaned and made as bright as ever by the application of a damp sponge or cloth.

LEGISLATURE OF NEW BRUNSWICK.

(*Special Telegram to the Tribune.*)

HOUSE OF ASSEMBLY.

FREDERICTON, April 5.

Hon. Mr. King recommitted the bill relating to Mount Allison Wesleyan Academy, Burns in the chair. Agreed to.

The Attorney General recommitted the Assessment bill, Butler in the chair. After a general discussion of the clause defining the duties of Assessors it was finally agreed to as it originally stood in the bill.

LEGISLATIVE COUNCIL.

FREDERICTON, April 5.

Bill relating to St. Paul's Church, Fredericton, and to the churches in New Brunswick in connection with the Church of Scotland. The bill provides that after the passing of the act the trustees and elders may proceed to call and nominate, and induct a candidate as successor to Dr. Brooke, Dr. Brooke to retain his connection with the church and be empowered to solemnize marriage, and administer sacraments in the church when requested. As explained by Hon. Mr. Hamilton the bill had been agreed to by Justices and members of the congregation, and was necessary to enable Dr. Brooke to draw an annuity from the Church of Scotland.

Hon. Messrs. Lindsay and Hibbard raised an objection to the bill, which finally passed with slight titular amendment.

The bill to authorize the town of St. Stephen to sell certain lands, and a Bill to amend an act relating to the Albert Railway, authorizing the Company to issue bonds to raise money, passed.

Anchor Line—Movement of Steamers.

The Columbia, which sailed from Glasgow on the 13th ult., and from Liverpool on the 19th, arrived at Halifax this morning at eight o'clock.

The India sailed from London on the 26th ult. for Halifax and this port.

The Sidonian sailed from Glasgow March 27th, and from Liverpool on Saturday last, April 3rd, also for this port via Halifax.

Messrs. Scammell Bros. have received the Glasgow manifest of the Columbia, which can be seen at their office.

Work Well Done.

The steamship Australia steamed out of the harbor on Saturday evening at 7 o'clock, having on board a full cargo of deals and other lumber as well as a considerable amount of light freight, among which were some six hundred barrels of apples, 126 bundles leather from the Salisbury tannery, and a carriage, built at the establishment of Messrs. Crothers, Henderson and Wilson, which is to be forwarded to a gentleman at Arbroth, Scotland.

The Australia was in fine trim, and, under the guidance of such an efficient commander as Capt. McKay, will doubtless soon report herself at Glasgow.

The agents, Messrs. Scammell Bros., express themselves much pleased with the manner in which Mr. McDermott with his rebel crew, has conducted the discharging and loading, and they feel convinced that outsiders can handle steamers just as effectually and satisfactorily as those who have made a specialty of such labor. This will be satisfactory intelligence to those who have deemed the employment of laborers a doubtful measure; and the success of Messrs Scammell in this effort will probably be of a permanent nature. So far, they have worked alone, and their success has exceeded their best anticipations.

Evils of Club Tyranny.

To the Editor of the Tribune.

By constant and daily increasing impositions the Society or Club to which many laborers are attached have brought upon them the condemnation and disapproval of all right thinking people, not only in this particular city but in every shipowning community throughout the world. The formation of the Laborers' Benevolent Association, as a means of protection to the laboringman to enable him to demand his daily wages at the expiration of each week, and for its charitable and benevolent objects, is certainly quite a laudable and praiseworthy enterprise, but when it becomes necessary as a means of protection to monopolize the work, and force men of business to employ their labor whether they will or not, dictating to these men of business the number of hours they *must* work, the men they *must* employ and the rate of wages they must give, then this society should cease to receive the sympathy or support of all employers of labor, and united efforts on the part of our shipowners and mercantile men are only required to check the operations of a class of men whose law-making has only tended to seriously injure the reputation of our port.

Nothing but joint action and the absolute refusal of our ship owners to employ society labor will accomplish the much desired end.
