Day's Doings in **YORK COUNTY** West Toronto North Toronto East Toronto

SCARBORO PLOWING MATCH

The East York branch of the Ontario Plowmen Association held their plowing match at the farm of P. W. Patterson, Kennedy road, Scarboro, yesterday. Notwithstanding the drenching rain of the day and night before and the mud ankle deep, fully 1200 spectators turned out to see the sons of the soil turning around the sod and the stubbles. The fields were in excellent condition and some extra fine plowing was done.

The ladies of the East York Women's Institute busied themselves with providing meals, and they did a rushing business.

Among the spectators were noticed: Alex. McCowan, M.L.A.; John Little, Alex. Baird, J. L. Wilson, Col. Robinson, Robert J. Gibson, Mr. Chisholm of Milton, R. S. Duncan of Port Hope, R. Purdie, George Green Andrew and Adam Hood, Robert Canning, James Patterson, J. W. Kennedy, A. J. Reynolds, Robert McCowan, Norman Malcolm, Thomas Jackson, James Torrens, Fred Fisher, W. W. Thomson, W. W. Young, W. A. Young, some members of the Hunt Club with a pack of hounds, and others.

The officers, directors and committees are as follows: Hon. presidents, W. F. Maclean, M.P.; Alex. McCowan, M.L.A.; Capt. Thomas Wallace, M.P.; William Milliken, Lyman Kennedy, Alex. Doherty, Adam Bell, J. Little, Simpson Rennie, E. Abraham, Andrew Heron. Directors, Robert Ormerod, Alex. Doherty, V.S.; W. H. Paterson, W. A. Kennedy, W. G. Rennie, W. H. Munro, James Cornell, James Stewart, W. B. Little, W. A. Paterson, George Scott, Alfred Steers, Charles Morrison, Walter Hood, H. Ley. Committee on class 1, Thomas Shadlock and James Hood. Committee on class 2, William G. Rennie and G. B. Little. Committee of class 3, Alfred Steers and Robert Ormerod. Committee on class 4, William A. Paterson and James Stewart. Committee on class 5, W. H. Munro and George Scott. Committee on class 6, Walter Hood and W. A. Kennedy. Committee on class 7, Thomas Weir and Herb. Ley.

There were 42 entries all told and the competition was a keen one in same cases. The judges had a difficult task in awarding the different prizes in their respective classes.

The judges in class 1 and 4 were Andrew Hood, W. Hawstrenser, R. Canning.

In classes 2 and 3, James McLean, Robert McLean, Arthur Little.

In classes 5 and 6, D. Yeomans, N. Malcolm, Arthur Hood.

On horses, Fred Fisher, H. A. Clarke, Sam Eastwood.

The following were the prize winners:

The prize for the best plowed land by men under 21 years of age was awarded to Chas. Clubine, and for best plowed land in sod, to Bert Kennedy.

CROTHERS FIRM IN HIS REFUSAL

Conciliation Board in C.P.R. Dispute Wholly Impracticable, He Maintains.

OTTAWA, Nov. 7.—(Special.)—Whatever the outcome of the strike of the Brotherhood of Railway Employes along the C. P. R system, Hon. T. W. Crothers, minister of labor, will not recede from the position which he now holds. While Mr. Crothers gave no official statement he made it plain in an interview this afternoon that no conciliation board will be granted. The minister of labor made the point that a board had been refused because the act did not apply to the peculiar conditions attached to the claims involved in the dispute.

He maintains that to have appointed a conciliation board would be to defeat the very ends which the men and the department are seeking to attain.

"I have been negotiating with the C. P. R.," he said, "for some months in an effort to secure better terms and conditions for the men. The company met me in a sympathetic way, and has already given material increases to some of the men. The appointment of a conciliation board could only have resulted in the company refusing to grant the increases and terms that they were already considering favorably, and the men would as a consequence be deprived of their increases at least until a board could report on the whole question."

Costly and Impracticable.

An investigation, he said, would require sittings by the board in every province in the Dominion, with enquiries into the cost of living in various towns and cities along the system, as well as a number of other matters, which would necessarily have to be probed if an intelligent and fair award was to be given. This would result in a tremendous cost to the country, simply to obtain a result which the department was already in a fair way to obtain and in a very short period of time.

Mr. Crothers treats the statement that he would have granted a board if it were the Grand Trunk instead of the C. P. R., which was involved as "not worthy of serious attention."

Ordinary Freight Goes by Express

Lack of C. P. R. Men at Galt Causing Inconvenience—Strikers Not Well Organized.

GALT, Nov. 7.—(Special.)—To fill the places of a dozen men on strike at the C. P. R. freight depot, members of the staff of the Toronto department are now engaged. Station Agent Campbell told The World correspondent today that while somewhat inconvenienced, the situation was not at all a tie-up. A look into the Dominion Express Co.'s quarters at the railway station, however, shows piles of merchandise, much of it heavy stuff, going out express that ordinarily would have been sent freight. Thus the express office is overtaxed and the men are grumbling at enforced overtime and hard labor.

A local railway official, not entirely out of sympathy with the strikers, says the strike was doomed to fail because of lack of organization of the brotherhood. The whole thing was badly handled,otherwise victory would have been scored for the men.

SHERBROOKE MEN QUIT UNION.

MONTREAL, Nov. 7.—(Can. Press.)—C. P. R. officials today received the following letter, signed by the men who went on strike at Sherbrooke:

"In view of the fact of our positions being returned to us, as per conference this afternoon, also on account of the way in which we have been led astray by the leaders of the so-called organizations and the misrepresentations that have been made to us by them, we have decided that we will withdraw from it and agree not to again become members of this particular organization."

The men have been reinstated and work is going along in proper order at that point.

Richmond Hill

Richmond Hill's appeal to the Ontario Railway Board, asking for permission to annex 17 acres of land in the vicinity of the Canadian Northern Station, was granted yesterday afternoon at a sitting of the board in Toronto. The board's decision is looked upon as a big victory for the town and the event was celebrated last night in dry fashion.

The Markham Township property which will be taken into the corporation consists of the road to the C. N. R. station and the station grounds. For a long time the Richmond Hill Council has been determined to incorporate the land within its area, and the final success of the undertaking is in a large measure due to the tireless energy of W. H. Pugsley, the reeve. Mr. Pugsley appeared before the board yesterday, claiming that the land was absolutely necessary to round out the town and that civic improvements would be held back if the town failed in its application.

In opposition to Mr. Pugsley were J. W. Curry, K. C., and Reeve Nich, who headed the Markham Township delegation. In the opinion of the township delegation, Richmond Hill's prime object in demanding the night to annex the property was to secure the taxes which will almost meet the interest on the good roads' debenture debt. The Canadian Northern was opposed to the appeal. So also were a number of business men holding elevators and stores on the land. It is said that their interest was also mercenary, as their taxes will now be a little higher than before.

On Wednesday the railway board visited the land in question, and it is likely that what they saw on that occasion convinced them of the justice of the town's appeal.

The award of the board has caused quite a stir, and it is predicted that a boom is on its way.

C.P.R. RIGHT-OF-WAY.

In order to facilitate settlements of right of way thru the Townships of Whitby and Pickering on the new branch of the Canadian Pacific Railway, an agreement has been reached by the company and several of the land owners in order to do away with the heavy costs and expenses connected with legal arbitrations. Two local men have been agreed upon viz.: Messrs. Wm. Smith, M.P., and John Bright, and in event of their not being able to reach an agreement ,they have power to choose an umpire, and if they cannot agree upon one, His Honor Judge McGillivray, the county judge, or someone selected by him is to act.

There still remains a great deal of right of way to settle between Cobourg and Agincourt, and as this procedure will bring prompt results with very slight costs, it will likely be adopted thru the other townships, in most of the cases where the land owner and the company fail to reach an understanding.

Ward Seven

While trying to alight from a moving Dundas street car, in charge of Conductor 527 and Motorman 1948, which was backing around the "Y" at Keele street about 5.30 yesterday afternoon, Mrs. Vasiliki Ponas, a Greek woman, living at 14 Walton street, slipped from the rear platform and fell to the pavement. She was carried into No. 9 police station, where her injuries, which were chiefly about the hips and rather severe, were attended to by Doctors Gilmour, Mason and Mavety. The injured woman was then take in the police ambulance to her sister's home at 1726 Dundas street.

The Annette Street School senior soccer football team, by defeating Essex School yesterday afternoon by the score of 3 to 0 on the latter's grounds, won the semi-final round in the senior inter-school league.

Winter activities are recommencing at the Humberside Collegiate Institute. Last night a meeting of the senior students was held for the purpose of discussing the organization of a monthly school magazine. The meeting was most enthusiastic and another will be held shortly to make definite arrangements. The principal, F. C. Colbeck, B.A., and Miss C. Stewart, B.A., are interested in the movement. The magazine will probably be called "The Humberside Herald."

[illegible] Literary society officers for the ensuing year will be held in the auditorium of the school this afternoon. The annual elections take place on Wednesday next.

Wallace Preceptory of the Black Knights of Ireland held their annual election of officers in St. James' Hall last evening with a record attendance of knights present. The following are the newly-elected: Preceptor, W. Irwin; deputy preceptor, W. A. Baird; registrar, W. T. Thompson; treasurer, A. K. Moffatt; 1st censor, W. McKittrick; 2nd censor, Geo. Bigham; 1st lecturer, O. Elliott; 2nd lecturer, A. Grinnade; standard bearers, Messrs. W. J. Goodwin and J. Bigham; purcuivant, O. Davis; committeemen, Messrs. Johnston, Jackson, McClure, Davis, Linton, Dr. Hopkins and — Flintoff. The installations will be held at the next regular meeting when it is expected the county officers will be present.

No $2,000,000 Building For This Property

A. G. C. Dinnick, seen yesterday regarding a report that appeared in an evening paper, that a two million dollar office building was to be erected by New York interests on the property he purchased two weeks ago at 267 to 273 Yonge street, said that the news was decidedly more rumor than fact.

"A Toronto broker, who declared he represented New York and Buffalo people, was in to see me this week for the acquisition of the site. But I am holding the property for investment. Undoubtedly some day the present buildings will be torn down in order to put up buildings that will give revenue adequate to the purchase price, but I have not the slightest intention of doing that in the near future, nor are there any plans formed with my consent for new buildings to be erected on the property."

The Sunday World first published the fact of Mr. Dinnick's purchase of the property in its issue of Oct. 27.

A horse recently passed fourteen days in a cave in Oklahoma without food or water, and altho it lost 300 pounds in weight thru the fast, it quickly recovered after it was rescued. The cave was concealed by planks, and these broke as the horse walked across. The owner supposed that the horse had been stolen, and its presence in the cave was discovered quite by chance.

BOURASSA AT M'GILL

Nationalist Leader Deplores Tendency of Canada Towards Jingoism.

MONTREAL, Nov. 7.—(Can. Press.)—Before a crowd, mainly composed of McGill students, Henri Bourassa expressed his views on the naval policy and defended his attitude of opposition towards any Canadian contribution to the imperial authorities. The occasion was the reorganization of the McGill Canadian Club, and the speaker pleaded with his hearers for the development of a greater spirit of Canadian unity rather than the following of those who fanned the flames of what he termed "false sentiment" for their own ends.

Besides explaining his own views, Mr. Bourassa attacked what he termed the jingo journals, and his sarcastic sallies elicited much laughter.

The Effects of Tobacco Smoke on Plants.

Professor Molisch, the plant physiologist of the University of Prague, has been making some experiments to discover what the effect of tobacco smoke has on plants. The results reported are interesting. Some of the older plants used in his experiments, says The Scientific American, including species of spiderwort, echeveria, eupatorium, selaginella and others, showed no ill effects from the treatment, altho exposed for a long time to an atmosphere filled with tobacco smoke. Other plants, however, responded in various striking ways.

Brehmeria utilis and Splitgerbera bilaba changed their manner of growth. When placed in a large bell jar and a few puffs of smoke from a cigar or cigaret were blown in, the leaves of these plants, ordinarily growing at right angles to the stem—that is, in a horizontal position—began to turn on their stalks, in the course of from twenty-four to forty-eight hours, until they were in a vertical plane.

In the case of the brehmeria they continued their rotations beyond this point, describing a spiral. Similar disturbances were produced upon these two plants by illuminating gas. But other plants used in the experiments showed similar effects of tobacco smoke, but did not respond to the illuminating gas.

Earlier experiments showed that various narcotics provoke abnormal developments of the breathing holes on the shoot of the potato. Experiments with tobacco smoke on the potato and on other plants led to the same results, often with the accumulation of masses of liquid under the swollen area.

In some plants of the bean family the tobacco smoke caused the leaves to drop off in a very short time. The sensitive plant (Mimosa pudica) and the black locust (Robina pseudacacia) and others lost all of their leaves in from twenty-four to forty-eight hours after being placed in an atmosphere containing tobacco smoke. To a smaller degree smoke from wood and paper and illuminating gas produced similar results. The fumes of nicotine had very little influence.
