NO SCHOOLING FOR BEACH CHILDREN

Unless Parents Defer to M.O.H.'s Order Concerning Vaccination.

TWENTY TEACHERS ILL

Confined to Their Beds Following Application of the Act.

"It is high time that kaiserism at the city hall was put an end to," said E. A. Hall, of the Hall Carburetor Company, West Dundas street, to The World yesterday, who complained that his two children were among one-half the number of children in the room at Balmy Beach School told not to come to school on Wednesday unless vaccinated or bearing a doctor's certificate of exemption, according to the mandate issued by Dr. Hastings, M.O.H. "I shall not allow my children to be infected with impure vaccine," declared Mr. Hall, who added that a medical man in the Beaches district nearly lost his son thru bad vaccine recently.

Miss Yoke, principal of Balmy Beach School, stated to The World that she merely carried out the instructions of the M. O. H., and refused to comment on the matter.

R. G. Elliott, principal, Earl Grey School, said that between ten and twenty per cent. of the children attending the school are still unvaccinated, and what action will be taken by the medical officer of health and the board of education, he is unable to state.

Teachers in Bed.

Twenty teachers in the separate schools are confined to their beds as a result of the vaccination, was reported by Rev. Bro. Rogatian, inspector of separate schools, yesterday.

The following is a copy of the letter of instructions issued by Dr. Hastings, M. O. H., to the principals of public and separate schools and collegiate institutes, etc.:

The Letter of the Law.

To the Principal:

Dear Sir,—Inasmuch as there appears to be some misunderstanding amongst the principals as to whose responsibility it is to exclude pupils from school, under the vaccination act, I beg to again submit the following extract from the act, which makes perfectly clear where the responsibility belongs.

"As you are aware, the following sections of the act come into force on Wednesday, Nov. 26, 1919:

"Chapter 219, R.S.O. 1914, section 13: (1) Where it is deemed necessary by the medical officer of health of any municipality, owing to the presence or threatened presence of smallpox, he may, with the approval of the local board of health, require certificates of successful vaccination or of insusceptibility on re-vaccination within seven years, of all pupils or students of a public, separate, continuation or high school or collegiate institute, and of a college or university, or of any other public or private institution of learning within the municipality, to be presented to the proper authorities of the institution, and no pupil or student refusing to produce such certificate on demand shall be admitted to further attendance in the institution until the certificate is furnished.

"(2) Any principal, teacher, superintendent or officer of any such institution who commits or is party or privy to any contravention of sub-section 1 shall incur a penalty not exceeding $20, 2 Geo. V. c. 59, s. 13.

"It must be apparent, therefore, to you that it is the function of the school authorities under the act, to receive the certificates, and exclude such children as fail to present such certificates.

Rules for Certificates.

"This department is anxious to do all it can in the matter and has taken such steps as seemed necessary to facilitate obtaining the required certificates. Free vaccination centres have been established in different places and free vaccination has been conducted in the schools. For those children who previously have been successfully vaccinated, the school physicians and nurses stand ready to issue certificates in order that the children need not be put to the expense of obtaining certificates from their private physicians. Children recently vaccinated by private physicians will obtain certificates from their own physicians.

"You will observe that the law requires a certificate of successful vaccination or of insusceptibility to vaccination. However, children who furnish a certificate showing that they have been recently vaccinated are allowed a period of 30 days from the time of vaccination in which to produce a certificate of successful vaccination. During this period they need not be excluded from school.

"Children who show evidence of previous successful vaccination, but not within seven years, and who have been recently re-vaccinated unsuccessfully will be assumed to be insusceptible to re-vaccination and will be granted a certificate admitting them to school.

"A certificate from the family physician, stating that a child is not in a fit and proper state to be successfully vaccinated shall be sufficient authority to allow of the admission of the child to school.

"Trusting that I have made myself clear to you and assuring you of our fullest co-operation, I am, sincerely yours,

"Chas. J. Hastings,
"Medical Officer of Health."

NOBODY BLAMED

Driver Held for Manslaughter Not Even Mentioned in Verdict of Coroner's Jury.

"We find that George Sims came to his death as a result of a fractured skull, sustained on Nov. 12, when the ambulance in which he was riding struck a telephone pole and overturned at the corner of Christie street and Tyrell avenue."

The foregoing verdict was returned by a coroner's jury at the morgue last night, and attached no blame to anyone connected with the death of Sims, who was one of a number of patients riding in the ambulance at the time. Thos. Hitchcock, driver of the ambulance, is awaiting trial on a charge of manslaughter. It was revealed at the former sitting of the court that another motor car had collided with the ambulance, driving it against the Hydro pole and precipitating the accident.

JUDGMENT RESERVED BY PRIVY COUNCIL

London, Nov. 25.—The privy council today reserved judgment in the case of the Toronto Railway versus Toronto Corporation regarding the contribution to the cost of the Queen street high level bridge.

The other case between the same parties in regard to the removal of snow will not be taken up until next week.

CORONER CANNOT FIND SMALLPOX

Dr. R. H. Fleming Diagnoses Outbreak as Bad Form of Chickenpox.

"I have yet to find a case of smallpox in the eastern section of York township," said Dr. R. H. Fleming, county coroner to The World yesterday. "In my opinion the cases stated to be smallpox should be diagnosed as serious cases of chickenpox, which is a very different disease from the former. Children contracting chickenpox are around in a short time, recovered from its affects.

"I believe in infant vaccination," declared Dr. Fleming, "but I fail to see the necessity at present for wholesale vaccination.

"The children are going to school as usual thruout the township, and I do not believe in the drastic methods attempted in the city," said Dr. Fleming.

VACCINATION ORDER GOES INTO EFFECT

(Continued From Page 1.)

all classes of travelers, even trainmen, actors and the like. Chester Martin, American resident consul, declared yesterday that there would be absolutely no exceptions made and transients would be watched from a vaccination bureau at Buffalo, where a certificate had to be presented, showing the date of recent vaccination, or they would have to undergo the operation at once.

The first effect of application of the order on Toronto's theatrical circles is the cancellation of the engagement of the Detroit Symphony Orchestra, which was scheduled to play in Massey Hall this evening. Norman Withrow, manager of Massey Hall, said yesterday that immediately upon receipt of the news of the United States government regulation he had wired the aggregation, which consisted of 96 men. "I wanted to give them time to decide," said Mr. Withrow, as I knew that once they got in the country they would be unable to leave until they were vaccinated."

Rush Across Border.

The order has resulted too in a great rush of travelers and others who are at present in the city across the border before the new regulation becomes effective. The various theatrical companies at present filling engagements in the city will, however, fill in their week's engagement before leaving for the other side.

According to the manager of the Royal Alexandra Theatre the company at that theatre this week will all be vaccinated by a Toronto physician at the end of the week. George White, the Torontonian who is at present in the city with his company at the Princess Theatre, was quite resigned about the new order yesterday. "If we can't get out of Canada without getting vaccinated I guess we will have to go thru with it," said Mr. White yesterday.

The company at the Grand Opera House are all ready for vaccination at the end of the week was the statement made by S. Pearsall, manager of the company, altho he feared that many dancers and musicians were averse to having their limbs impaired. No theatres, however, have as yet heard of cancellation of engagements, while the Alexandra management has received word from the Sothern-Marlowe Company, expected next week, that the members of the company who have not been vaccinated during the past year would be operated on before coming to the city.

Will Affect Ocean Travel.

The order will also affect ocean travel, and a number of intending passengers have already been vaccinated, according to statements by local steamship offices. One hundred Toronto Shrinerss, who are intending to go to Buffalo on Dec. 12 to attend the fall ceremonial of the Ishmallan Temple, are prepared to be vaccinated, was the statement made by A. J. Brown yesterday. L. S. Muldoon, manager of the King Edward Hotel, said that the order is bound to hurt traffic between the United States and Canada, and many reservations had already been cancelled by pleasure-seekers. Business men, however, cannot be held up, and they will therefore submit themselves to vaccination.

The report of the medical health department of the city shows:

New cases in past 24 hours	40
New cases sent to hospital	5
New cases quarantined at home	35
Exposed persons quarantined	148
Discharged patients	38
Grand Totals for City.	
Total cases in hospital	26
Cases quarantined at home	530
Cases reported in city	661
Cases discharged	113
Homes quarantined	471
Total number of individuals quarantined	1862

Smallpox at "Y."

A resident at the Central Y.M.C.A. was found to be suffering from smallpox yesterday. Others in the institution who had not been vaccinated were at once notified of the necessity for undergoing the operation and all readily consented. The patient was removed to the isolation hospital.

Boy Dies of Meningitis Two Weeks After Vaccination

Arthur Smith, nine years old, 8 Dynevor road, who died at the Sick Children's Hospital on Saturday last, two weeks after being vaccinated, according to authoritative information, was vaccinated at Fairbank School on Nov. 7, and exactly two weeks later suffered convulsions, becoming unconscious, and dying two days later. His father states that he had no idea his son was going to be vaccinated until the child came home after it was over.

Dr. Gordon McCormack, 110 Boon avenue, was called in after the little one had become unconscious. He had not vaccinated him, neither had he diagnosed his case, speed being essential at the moment he saw the condition of the little patient, whom he had rushed off to the hospital. Dr. Alan Brown, who attended the child at the hospital, on the other hand, characterized the case as one of acute spinal meningitis, absolutely unconnected with vaccination. Miss Florence Polts, superintendent of the hospital, holds the same view.

The wise man tries to avoid rubbing. To be able to rub shoulders successfully, you must be worth rubbing shoulders with.

MEDICAL ACADEMY UPHOLD HASTINGS

Profession of Toronto Take Definite Stand on Vaccination.

The Academy of Medicine, Toronto, appreciates that, owing to false and unwarranted statements made regarding the present epidemic and the subject of vaccination, it is due to the public that the position of the profession of Toronto should be stated:

Any irresponsible person or technically uneducated layman may make statements about the most serious public health matters that may cause great unrest in the public mind, without having any foundation other than reiterating statements made previously by just as irresponsible but personally prejudiced persons.

1. The epidemic that is at present developing in Ontario is smallpox. The majority of the cases are mild, but there are some severe.

2. Most epidemics develop from mild form to those of grave severity. Notably the one in 1885 may be taken as an example.

3. Vaccination is the only known protection against the disease, and is universally recognized as such.

Not Dangerous.

4. Vaccination, properly performed, is not a dangerous operation, but in some cases the reaction is quite severe, indicating the susceptibility of the individual to the virus.

5. There is no possible risk of transmitting any such disease as tuberculosis, syphilis or other blood contagion from vaccination, as the lymph is collected from the host (calf), sealed in tubes and placed on scratch without coming in contact with any human.

6. There is no vaccinating from one human to another.

Vaccination is recognized as an operation and must be done under the strictest cleanliness, and care must be exercised in attending the after-results.

The above statements are made by the authority of the council of the Academy of Medicine, Toronto.

Edmund E. King, M.D., President.
F. C. Harrison, M.D., Hon. Secretary.

MENINGITIS TWICE FOLLOWS VACCINE

Curious Coincidences Are Deaths of Little Boy and Little Girl.

In another column is reported the case of a nine-year-old boy, Arthur Smith, 8 Dynevor road, who died in the Sick Children's Hospital from a clear case of acute meningitis, which was ascribed by his parents, tho not by the doctors, to be due to vaccination a fortnight previously. It comes as a curious coincidence that from West Toronto is reported a similar case, also a fortnight after vaccination.

Beatrice Hugh Nicholls, ten years old, 57 Fairview avenue, died last Friday from what the physicians, also puzzled, attributed to meningitis. Beatrice was vaccinated two weeks ago last Thursday and on Tuesday night she fell into a comatose condition and never recovered consciousness. The parents attribute death to vaccination as do Arthur Smith's parents.

BROTHERHOODS ACCEPT AWAY-FROM-HOME RULE

Cleveland, Nov. 25.—The five hundred general chairmen of the four great railroad brotherhoods called in conference here by the four chief executives to consider the offer of Director General of Railroads Hines granting time and one-half for overtime in slow freight service and a uniform 16-hour rule for crews held away from home terminals today voted to accept the "away-from-home rule," but did not reach a vote on the overtime proposition.

Discussion of the overtime prohibition occupied most of the two days' session, many delegates bitterly opposing the overtime prohibition.

From an authoritative source tonight it was learned that in all probability the delegates will reject the offer of time and one-half for overtime in slow freight service at tomorrow's meeting.

Rumania's Reply Awaits Ferdinand's Sanction

London, Nov. 25.—The text of Rumania's reply to the entente awaits King Ferdinand's sanction and will be despatched to Paris Wednesday, according to a wireless despatch received tonight from Berlin, quoting Budapest advices reaching the German capital.

The wireless despatch says the Budapest report declares the Rumanian government is not in a position to carry out all the demands of the supreme council in Paris. It adds that public opinion protests against the demand that the left bank of the Theiss shall be evacuated, and that no Rumanian government could possibly consent to renounce claim to this region. Hence the government can not comply with this demand, but it is willing to comply in other respects and sign the peace treaty with German-Austria and Bulgaria.

BILL TO RELIEVE ASTOR OF TITLE

London, Nov. 24.—James Henry Thomas, labor member of parliament, will introduce a bill in the house of commons next Wednesday to empower the King to accept the surrender of any peerage. The desire of the new Viscount Astor to remain a member of the house of commons and give up his title is the reason for the Thomas bill.

Leading lawyers express the opinion that it will be impossible to nullify a peerage by legislation, declaring that because, while an individual might be released from his title, his successor have rights to the peerage of which the peer would have no authority to deprive them. Even if Viscount Astor's eldest son were willing to join his father in a step looking to the relinquishment of his title, it is asserted that the fact that he is a minor further complicates the situation.

YORK COUNTY AND SUBURBS

NORTH RIVERDALE RATEPAYERS MEET

Hospital Committee Render Report Based on Inspection at Hamilton.

A well attended meeting of the North Riverdale Ratepayers' executive committee was held at the residence of the president, Dr. E. A. McDonald, Broadview avenue, last night, when the report of the hospital committee, who were instructed to visit the Hamilton City Hospital, was submitted. Dr. E. A. McDonald said the committee were in favor of a civic hospital for Riverdale, to be on the basis of a public utility, to be financed by the city and not by philanthropists. The buildings to be erected with the proceeds of debentures and that the difference between the actual cost of running the hospital and the receipts to be met directly by the city. The governing body should be a board of directors, five in number, one of each to be returned each year. The appointment to be in the hands of the city council, with the mayor and finance commissioner, members of the directorate. The report was favorably received.

Other matters discussed were the erection of equipment for a children's playground in Withrow Park with a wading pool in the gully. The amount to be placed in the estimates of the board of control for 1920.

To Write Council.

It was decided to write the city council asking why the lavatory at the corner of Danforth and Broadview was not erected this year; also requesting that extra cars be placed on Danforth avenue civic car line during rush hours to avoid overcrowding.

W. Tyler pointed to the insufficient lighting along the business section of Danforth avenue from Broadview to Jones avenue. A strong letter was ordered to be sent the city council insisting that "acorn" 250 watt lights be installed on both sides similar to the ten trial lights already installed east of Jones on Danforth avenue.

It is expected that the mayor and board of control will be present at the regular meeting in Frankland School, Logan avenue, on Tuesday evening next.

LEAGUE ASKS HEARING

Liberty Advocates Tell Premier They Will Oppose Enforcement of Prohibition.

The following letter has been sent to Hon. E. C. Drury, Prime Minister of Ontario, by the Citizens' Liberty League, requesting the favor of a hearing, and pointing out the large membership of the organization. The letter reads:

"We appreciate your statements that the party now in power in this province should be known as the 'People's Party.' We trust and hope that the legislation which you may bring forward from time to time will be in the interests of the 'people,' and not only for one section of the people.

"If you are correctly reported, you stated that 'prohibition would be sympathetically and effectively enforced. On behalf of this league, representing 80,000 members, and numerous adherents, I would say that such legislation would be interpreted by us as being for one section of the people, and in opposition to the wishes of probably a large section of the people, and in consequence would receive our opposition.

"In a short time we will be in a position to place our views before you in a more concrete form, and trust that you will extend to us the favor of a hearing."

ALD. JOHNSTON BETTER.

Ald. Frank M. Johnston's condition was reported as favorable yesterday by the doctor in attendance at Wellesley Hospital, where the alderman is a patient. It will be some time before he will be able to return to his home.

MAY RUN AS CONTROLLER.

Ald. R. D. Honeyford, Ward One, has been approached by a number of his constituents to run for the board of control. The alderman promised to give the matter his earnest consideration.

PASTOR FORWARDS MOVEMENT.

Rev. A. P. Brace, East Gerrard Street Methodist Church, is devoting his energies for the next two months to the inter-church movement in various parts of the province. Rev. J. Rankin will supply at East Gerrard Street Church during the pastor's absence.

JURYMEN ASK MORE

York County Council Receive Petition Seeking Increase to $5 Per Diem.

York County Council, which held a 15-minute session yesterday afternoon, before adjourning to attend the meeting of school trustees in the Normal building, received a petition from jurymen now in session, asking for an increase of payment to jurors to $5 per day. The matter will be debated at a later session.

A communication was received from the Fairbank Soldiers' & Sailors' Political Association, asking that no expenditure of county funds be made for soldiers' memorials until the dependents of soldiers have been adequately provided for.

The date of the banquet in honor of the warden was changed from Thursday evening to Friday evening of this week.

North Toronto Deputation Has Fears Regarding Yonge Street

A deputation from the North Toronto Ratepayers' Association, headed by the president, R. L. Baker, waited upon Premier Drury at parliament buildings yesterday, when the Metropolitan situation was discussed. They told the premier that they feared Yonge street, the main artery of North Toronto, "was in danger of being turned into a freight yard" and asked that some steps be taken to prevent this.

The premier asked the members of the deputation to put their request in writing, when he would see what could be done. The secession of North Toronto was mentioned, but not discussed.

CONTROL GUELPH'S FUEL.

Guelph, Nov. 25.—(Special.)—Mayor Carter received a wire this morning from H. A. Harrington, Ontario fuel administrator, which stated: "In view of outlook of anthracite supplies would ask that you immediately appoint a fuel controller for your city, advising me of name and address." Mayor Carter said he would bring the matter to the attention of the city council at the meeting on Monday evening and it was likely an appointment would be made at that time.

MUDDY ROADWAYS IMPEDE BUSINESS

East Danforth Ratepayers Comment on Streets East of Coxwell Avenue.

The annual meeting and election of officers in connection with the East Danforth Ratepayers' Association was held in Gledhill School, Gledhill avenue, last evening. B. C. Stone, president, occupied the chair. The following were the officers elected: D. Hawkin, president; R. Hardy, vice-president; B. C. Stone, secretary-treasurer; D. Hawken, R. Hardy and E. J. Birks, delegates to Central Council of Ratepayers; R. D. Hughes, G. T. Turner and B. C. Stone were appointed a social committee.

Many matters of live interest to the district were discussed, and the work of the preceding half-year reviewed. The neglected condition of the streets east of Coxwell avenue was the subject of severe comment. The chairman pointed out that the roadways in the county were in far better condition than the city roadways in the section, and the fault lay solely with the works department. The mud lies six inches thick along Woodbine avenue, Cedarvale and Ethelwyn avenues, and is a detriment to business. It was further pointed out that the city council refused to carry Coleridge avenue northward to the city limits, because the people of York Township would benefit at the citizens' expense.

The secretary will communicate with Works Commissioner R. C. Harris regarding the roadways in question.

The crowded condition of Gledhill Avenue School was also discussed, and it was pointed out that city children were prevented from attending owing to two rooms being used by the township children. It was decided to write the board of education requesting an explanation of the matter.

Hydro lights for the Cedarvale district were also discussed, and laid over to next meeting.

TO EDUCATE VOTERS

British Imperial Association Suggest $10,000 be Raised for Publicity Campaign.

Ten thousand dollars for a publicity campaign to educate voters on municipal questions was urged by speakers at the meeting of the British Imperial Association, held in Earlscourt. The management of the Toronto Street Railway, entrance of the Hydro radials from the eastern part of the city, and a commission of five to manage the board of education were included in the items. A resolution was passed in favor of same. The question of compulsory vaccination was discussed again, A. Craig being the champion of the people's side of the question. Another meeting is to be called for Saturday night for further discussion. Messrs. Bert Linds, H. Partrey, George Wills and others were the speakers.

EXCAVATING BANK BASEMENT...

The excavation for the new branch of the Dominion Bank at the corner of Dufferin and Eglinton has been delayed because of the quicksand found on this spot. A cement foundation has now been laid, and the building is expected to be completed by March of next year. Walter C. Scott, acting manager of the temporary office, will have charge.

SEVERAL DOCTORS LOCATING.

Several doctors are locating in the northwest district, the latest being Dr. D. G. McKay, who has recently returned from the front. He enlisted in 1916, and was attached to the 26th Battalion as medical officer, and went thru some thrilling experiences at the front. Dr. McKay is making his home with Rev. Mr. Clugston, pastor of Fairbank Presbyterian Church.

BEREAN BOYS WIN.

The Berean boys' football team, in connection with the Earlscourt Central Methodist Church, were victors in the Inter-Church Football League, when they won the game from Leslie Grove Football Club, who were the winners of the Playground League, the score being 4 to 3. The Berean boys are jubilant over their success.

HUMBERSIDE HOLDS MEMORIAL SERVICE

Buglers Sound "Last Post" for Collegiate Heroes Slain in War.

In memory of the students of Humberside Collegiate Institute, who gave their lives in the great war, the staff and pupils of the institute held a special memorial service in the Victoria Presbyteran Church last night. Many of the friends and relatives of the students were in attendance, and the Venerable Archdeacon Cody preached. The organist played the "Marche Funebre," by Chopin, as a prelude, and "The Dead March in Saul" as a post-lude. The roll-call was read, and "The Last Post" was played by buglers while the congregation stood to attention. The hymns, "O God, Our Help in Ages Past" and "For All the Saints" were sung.

The following were the students who lost their lives: Morrow Alexander, Harry S. Bridgett, Albert E. Bright, Percy Brooks, Albert Q. Bryant, Oliver L. Cameron, J. Milton Clayton, Norman Cliff, Drue Cook, Walter J. Coutts, J. Winfield Downey, Howard Dudley, Archibald Ford, R. Stewart Foster, Donald Gibson, Mons W. Gardiner, Alexander Hain, Norman O. Hain, Ira M. Hathaway, Hermann Heintzman, R. F. Jones, H. Bruce Lillew, Charles McBurnie, Alexander McDonald, Robert McLaughlin, George A. McLean, Harold Masson, Ronald S. Murray, Allan A. Parker, William Pears, Frank O. Riddell, Allan Rogers, Clifford Ryder, Earlby E. Shannon, Stanley Stark, William Telford, John A. Thompson, Sydney Tonkin, Edward Townsend, Charles Wakefield, Cecil R. Weaver, Ronald Wedgwood, William Willard.

LUMBER YARD CHANGES HANDS.

The O. & W. R. Smith lumber yard, Drayton avenue, East Tronto, has been taken over by Sheppard & Gill, who propose to enlarge the plant and carry out extensive alterations. The site covers nearly one acre of ground.

COUNCILLORS PASS BYLAW FOR RADIALS

Sir A. Beck and Engineer Gaby Present—No Clash With C. N. R.

Hamilton, Ont., Nov. 25.—Sir Adam Beck wasted a perfectly good night in Hamilton, when he might have been enjoying an earned rest. He came to the city council meeting to explain the Hamilton-Elmira radial railway bylaw to a council that was overwhelmingly in support of the measure. In fact, the bylaw for the taking of the votes of the electors on the $607,173, bond guarantee, which is to be Hamilton's portion, would have been carried before Sir Adam and Engineer F. A. Gaby arrived, had not Controller Halford pointed out that it might be wise to wait until the Hydro chairman had a chance to state his case.

Little that was new was brought out in the discussion that followed Sir Adam's arrival, but the council was assured that there would be no duplication, of the existing line, where these could be avoided. Sir Adam said he had had a conference in the afternoon with a high official of the national railways and had been assured that the Hydro radials enterprise would be co-operated with.

Acquirement of Power Co.

Asked by Alderman O'Heir if it was right that the Hydro commission was trying to acquire the Dominion Power and Transmission Company's lines, Sir Adam said he could not be "buyer and seller, too."

"We'd have bought this company out long ago if we could have done so at our own price, but I've been swapping horses long enough to know that the other fellow has a say in the deal," he said.

Asked about the proposed route thru the city, Engineer Gaby said that the radials would come in on a common entrance with the Grand Trunk, but terminal locations for this city had not been definitely decided upon.

Following Sir Adam's visit, the bylaw to submit the $607,000 bylaw to the city was given its third reading without opposition.

Form of Commission.

The resolution, calling for a new form of appointing members of the Hydro-Electric Commission of Ontario, was rejected, and an amendment substituted by Ald. Davis, seconded by Ald. Aitcheson, carried. This was that the term of office be for three years, and that the commission consist of Sir Adam Beck, and two commissioners, one appointed by the municipalities and the other by the government, it not being necessary for these appointees to be approved by Sir Adam. Controller Halcrow and Ald. McQuesten fought, with the support of Controller Jutten, mayor pro tem, to have the original resolution go thru unchanged, but the council held it was too drastic. Six-year terms were too long, and the rider that appointees must be approved by Sir Adam turned the commission into Sir Adam Beck and two rubber stamps, they said.

SEATS TOMORROW FOR SOTHERN AND MARLOWE

The seat sale for the engagement of E. H. Sothern and Julia Marlowe, who will be seen at the Royal Alexandra Theatre next week, will open at the box office tomorrow morning. "Twelfth Night" will be played on Monday and Friday nights, "Hamlet" on Tuesday and Saturday nights, and "The Taming of the Shrew" on Wednesday and Thursday nights and at the Saturday matinee.

Mr. Sothern inherited his histrionic ability from his distinguished father, E. A. Sothern, the English actor, who was bitterly opposed to his son's adopting the stage as a profession. At the age of five, young Sothern was sent to England and there he later studied painting, but the lure of the footlights was too strong to be resisted, and in September, 1879, he made his unpropitious debut in New York city, as the cabman in "Sam," unpropitious, because the young player was seized with stage fright when he faced the elder Sothern in front of the footlights, and collapsed utterly. Mr. Sothern had a long and bitter struggle for recognition, but with "Lord Chumley" in 1888, the turning point in his career was reached. Mr. Sothern and Miss Marlowe first acted together in 1904.

CAPT. LAING LECTURES ON NAVY.

An interesting lecture on the British Navy and the war, illustrated with 100 lantern views, was given before a packed audience in St. Cuthbert's Parish Hall, Leaside, last night, by Capt. Geo. B. Laing, R.N.

The proceedings were on behalf of the Junior Army and Navy League, and the story of Britain's battles and battleships and heroic deeds of her navy, was enthusiastically applauded.

Rev. J. M. Lamb, rector, presided.

REGULAR BUS SERVICE.

Under arrangement jointly entered into for the benefit of the town by the Leaside Town Council and the Canada Wire & Cable Co., a regular hourly auto bus service will commence running between Yonge street (Farnham avenue) and Leaside, by the Leaside Bus Co., commencing Dec. 1.

Stylish Furs at Dineen's

We have prepared a number of very stylish Neck Pieces and Muffs, specially priced for holiday presents. Christmas is just four weeks away. If you are interested in FURS to make your Christmas gift, you should call into Dineen's as early as possible and look over this choice lot of Neck Pieces and Muffs direct from our workrooms:

SQUIRREL
SABLE
OPOSSUM
MOLESKIN
FOX
WOLF and
HUDSON SEAL

Many different styles in the above, all at very moderate prices.

The W. & D. DINEEN Co., Ltd.
140 YONGE STREET,
Cor. Temperance Street.
TORONTO.

HOPE ABANDONED FOR MYRON'S CREW

Sufficient Time Has Elapsed to Allow Hearing if Men Were Picked Up.

Sault Ste. Marie, Mich., Nov. 25.—Owners of the lake steamer Myron, lost in the storm that swept Lake Superior Saturday, had practically given up hope tonight of rescuing any of the 16 members of the crew who were taking to the boats just as the vessel went down ten miles off White Fish Point.

The submarine chaser 438 searched the region of the Parisian Islands today without finding trace of the crew or the lifeboats. In was in that vicinity that Captain Walter Neal, apparently the sole survivor, was picked up by the steamer Franz and it was thought some of the boats might have drifted in that direction with the wreckage, to which the commander clung for 20 hours before being rescued. It is generally conceded by marine men that enough time has elapsed to hear from members of the crew had they been picked up by passing vessels.

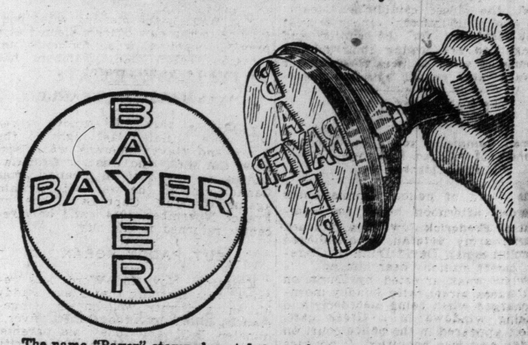
Rough weather continued today and resulted in the disabling of two other vessels. The ore carrier Kotcher grounded on Cedar Point reef in St. Mary's river during a blinding snow storm and it is said it may be necessary to jettison her cargo before she can be released. Tugs have been sent to her assistance. The steamer Richardson broke her propeller while seeking shelter from the gale, but is said to be in no danger. Tugs have been sent to bring her to this port.

SUBSCRIBE TO IRON MOLDERS

Sam Garland, William Fordham, William Collins and F. R. Buckley were last night elected deegates from the Builders' Laborers' Union to the Toronto Trades Council. The union also subscribed $25 to the cause of the striking iron molders, and initiated four new members.

ONLY TABLETS MARKED "BAYER" ARE ASPIRIN

Not Aspirin at All without the "Bayer Cross"



The name "Bayer" stamped on tablets positively identifies the only genuine Aspirin,—the Aspirin prescribed by physicians for over nineteen years and now made in Canada.

Always buy an unbroken package of "Bayer Tablets of Aspirin" which contains proper directions for Colds, Headache, Toothache, Earache, Neuralgia, Lumbago, Rheumatism, Neuritis, Joint Pains, and Pain generally.

Handy tin boxes containing 12 tablets cost but a few cents. Druggists also sell larger "Bayer" packages.

There is only one Aspirin—"Bayer"—You must say "Bayer"

Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monoaceticacidester of Salicylicacid. While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."
