CHERRY PECTORAL
For the rapid Cure of
COUGHS, COLDS, HOARSENESS, BRONCHITIS, WHOOPING-COUGH, CROUP, ASTHMA, AND CONSUMPTION.

TO CURE A COLD WITH HEADACHE AND SORENESS OF THE BODY—take the Cherry Pectoral on going to bed, and wrap up warm to sweat during the night.

FOR A COLD AND COUGH take in morning, noon and evening, according to directions on the bottle, a dose sufficient to will be soon removed. None will long suffer from this trouble when they find it so readily cured. Persons afflicted with a settled cough, which breaks them of their rest at nights, will find by taking the Cherry Pectoral on going to bed, they may be sure of sound, unbroken sleep, and consequent refreshing rest. Great relief from suffering, and an ultimate cure, is offered to thousands who are thus afflicted by this invaluable remedy.

From its agreeable effects in these cases, many find themselves unwilling to forego its use when the necessity for it has ceased.

TO SINGERS AND PUBLIC SPEAKERS this remedy is invaluable, as by its action on the throat and lungs, when taken in small quantities, it removes all hoarseness in a few hours, and wonderfully increases the power and flexibility of the voice.

ASTHMA is generally much relieved, and often wholly cured by Cherry Pectoral. But there are some cases so obstinate as to yield entirely to no medicine. Cherry Pectoral will cure them if they can be cured.

BRONCHITIS, or irritation of the throat and upper portion of the lungs, may be cured by taking Cherry Pectoral in small and frequent doses. The uncomfortable oppression is soon relieved.

FOR CROUP—Give an emetic of antimony, to be followed by large and frequent doses of the Cherry Pectoral, until it subdues the disease. If taken in season, it will not fail to cure.

WHOOPING COUGH may be broken up and is cured by the use of Cherry Pectoral.

THE INFLUENZA is speedily removed by this remedy.—Numerous instances have been noticed where whole families were protected from any serious consequences while their neighbors without the Cherry Pectoral, were suffering from the disease.

Repeated instances are reported here of patients who have been cured from

LIVER COMPLAINTS by this remedy, so many that there can be no question of its healing power in these diseases. It should be perseveringly used until all pain in the side and other unpleasant symptoms cease.

FOR CONSUMPTION in its earliest stages, it should be taken under the advice of a good Physician if possible, and in every case with a careful regard to the printed *directions* on the bottle. If judiciously used, and the patient is carefully nursed meantime, it will seldom fail to subdue the disease.

For settled CONSUMPTION in its worst form, the Cherry Pectoral should be given in doses adapted to what the patient requires and can bear. It always affords some relief, and not unfrequently cures those who are considered past all cure—The records of many thousands collected all over the country who testify and say that they owe their lives and present health to the Cherry Pectoral.

Many years of trial, instead of impairing the public confidence in this medicine, has won for it an appreciation and notoriety by far exceeding the most sanguine expectations of its friends. No long but its intrinsic virtues and the numerous valuable benefits conferred on thousands of sufferers, could originate and maintain the reputation it enjoys. While many inferior remedies thrust upon the community have fallen and been discarded this has gained from its every trial, confirmed benefits on those who they can never forget and produced cures too numerous and too remarkable to be to gotten.

While it is a fraud on the public to pretend that any one medicine will infallibly cure—still there is abundant proof that the Cherry Pectoral does not only as a general thing but almost invariably cure the maladies for which it is employed.

As time makes these facts wider and better known the medicine has gradually become the best reliance of the afflicted from the large sales of the American Peasant to the colonies of Rev. JAMES C. AYER, Practical and Analytical Chemist, Lowell, Mass.

LIFE and FIRE
INSURANCE COMPANY,
INSTITUTED IN 1836.
Incorporated by Special Act of Parliament.
CAPITAL—TWO MILLIONS STERLING.

Unlimited Liability of the Stockholders of the Company.

Subscribed Capital, £1,500,000.

Instalments called in,	£197,197	10	0
Accumulated Funds,	346,972	4	9
	£544,169	14	9

THE 18th Annual General Meeting of this Company was held at Liverpool on the 16th February last, when the following Report of the business of the Company during the past year was submitted:—

"The increase in the Fire Insurance Business must be satisfactory to the Proprietors, as shewing the rapid and safe progress which the Company is making. The receipts for the past year have increased considerably over those of 1852, while the losses have materially diminished.

	1852.	1853.
Receipts,	£98,654	£113,612
Losses,	59,091	42,846
Profits,	£39,563	£70,766

These results show, notwithstanding the very numerous and destructive fires that have occurred both in this country and especially in America, that great caution has been exercised in taking risks, on the part of those on whose judgment the Directors must necessarily in a great measure rely. The reserved surplus fund now amounts to £143,712.

Having been for several years engaged in the business, and having on hand materials of the best quality, the Subscribers flatter themselves that all instruments (upright and horizontal) made in their establishment will equal, in tone, finish, and durability, those of any Manufacturer in America.
