

Buy a MOGUL or TITAN for Real Every-Day Economy--And Do It NOW!

NO matter what you may hear or read to the contrary, you can buy a real Kerosene Tractor—one that saves you half the cost of a gallon of gasoline for every gallon of kerosene it uses. A real kerosene tractor is one that does as much work on kerosene as the best tractor does on gasoline, using not over 8 to 10 per cent more fuel to do it.

The True Kerosene Economy Tractors are:

Mogul 8-16 Titan 10-20 Mogul 12-25 Titan 15-30 Titan 30-60

To realize the importance of this feature to you, you must know the comparative local costs of gasoline and kerosene, and the amount of fuel your tractor will probably burn during the season.

About the smallest quantity of fuel that any tractor will use in a working season is 1,000 gallons in 500 hours of work. On this low basis the smallest I H C tractor will save you from \$80 to \$100 a year, according to the local difference in the prices of kerosene and gasoline.

Do not let anyone tell you there is no such thing as a real kerosene tractor. A man who says that does not know what he is talking about. Take the first opportunity to see a Mogul or Titan at work. Then you will know which tractor of them all it will pay you best to buy. Or, a postcard to the nearest address below will bring you complete information.

Mogul 12-25

Titan 15-30

Titan 30-60

Mogul 8-16

Titan 10-20
