GRATEFUL—COMFORTING.
EPPS'S COCOA.
BREAKFAST.

"By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well-selected Cocoa, Mr. Epps has provided our breakfast tables with a delicately flavored beverage which may save us many heavy doctors' bills. It is by the judicious use of such articles of diet that a constitution may be gradually built up until strong enough to resist every tendency to disease. Hundreds of subtle maladies are floating around us ready to attack wherever there is a weak point. We may escape many a fatal shaft by keeping ourselves well fortified with pure blood and a properly nourished frame."—Civil Service Gazette.

Made simply with boiling water or milk. Sold only in packets, by grocers, labelled thus:

OFFER FOR SALE ALL GRADES OF REFINED SUGARS AND SYRUPS OF THE WELL-KNOWN BRAND OF
Redpath
CERTIFICATES OF STRENGTH AND PURITY.

OFFICE OF THE PUBLIC ANALYST,
MONTREAL, September 9th, 1887.
To the Canada Sugar Refining Co'y, Montreal:
Gentlemen,—I have personally taken samples from a large stock of your Granulated Sugar, "REDPATH" brand, and carefully tested them by the Polariscope, and I find these samples to be as near to absolute purity as can be obtained by any process of Sugar Refining.
The test by the Polariscope showed in yesterday's yield 99.90 per cent. of Pure Cane Sugar, which may be considered commercially, as ABSOLUTELY PURE SUGAR.

FACTS
CONCERNING THE POPULAR
BELL PIANO

Ontario Agricultural College,
Guelph, June 4, 1889.
Messrs. W. Bell & Co., Guelph, Ont.:
Dear Sirs:—Pianoforte Style B, purchased from you last September, has, I am very pleased to be able to say, given us every satisfaction. The tone is particularly good, so much so that the instrument is a favorite with all who have tried it, and I can assure you it has been tested by a number of very excellent judges. The style of the instrument and finish of the workmanship would do credit to any country. It should be a matter of congratulation to Canadians to know that our country produces an instrument that, I am satisfied, will compare very favorably with those produced in any part of the world.
Yours truly,
THOMAS SHAW,
Professor of Agriculture.

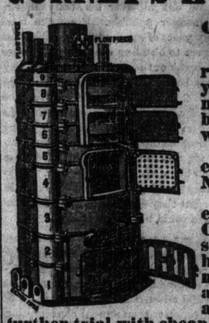
BRACONDALE, Aug. 20th, 1889.
GURNEY'S HOT WATER SYSTEM



GENTLEMEN,—
I am in receipt of your inquiry respecting the No. 126 Gurney Boiler you furnished me with last Winter for my Forcing-houses, and in reply would beg to give you the following items which the Boiler is doing.
3 houses (standing in very exposed position) (14 ft. x 60 span roofed) North and South.
3 rows of 3 inch pipe, 450 feet in each house, or total of 1350 feet in all. Cost of fuel for eight days' trial during severest part of winter with Egg Coal, houses ranging from 50 degrees at night to 65 or 70 degrees in the day, amounted to 51 cents per day, or an average of 17 cents each house, and a further trial with cheap fuel gave good results at a much less cost. The Boiler would run a fourth house and then have power to spare. For Greenhouse work as an independent Boiler without brick work, notwithstanding any assertion which may be made to the contrary, the Gurney Heater is all that can be desired. Give it a good long draft and it will far surpass all expectations.
I may add that the Boiler standing inside the centre house and not being troubled in any way with the gas the whole of the heat generated is economized.
I am more than pleased with it. Yours truly,
F. C. MILLER.
