AIR RAID IN CHAMPAGNE BY THE FRENCH

SIXTY-FIVE FRENCH AEROPLANES BOMBARD ENEMY'S POSITIONS AT VAUZIERY

Biggest Enterprise of Kind Ever Undertaken — Hundreds of Shells Dropped on German Positions and Station and Aviation Base Struck—Moving Train Cut in Two by Bombs From French Aircraft — Germans Using Poison Gas Shells in West.

Paris, Oct. 2.—A squadron of sixty-five French aeroplanes, today bombarded the railway station at Vouziery, and the station grounds near Challerange, according to the official statement issued tonight by the war office. No additional progress is recorded for the Allies.

The text of the communication follows:

"Our heavy artillery has co-operated with the British fleet in the bombardment of the German batteries at Westende, Belgium.

"In Artois the enemy directed, on our entire front, between Neuville-St. Vaast and the wood to the north of Souchez, a violent cannonade to which we very energetically replied.

"An intense bombardment by both sides has occurred to the north Berry-Au-Bac, in the direction of the Cholera Farm, and to the south in the direction of Sapignewl.

"On the Champagne front there has been cannonading on all sides, in which the enemy has again made use of shells containing suffocating gases.

"Between the Meuse and the Moselle, to the north of Flirey, there has been several outbursts from the German artillery against our trenches, but our batteries put a stop to this.

"In Lorraine a new and strong reconnaissance of the enemy was repulsed and dispersed to the south of the forest of Parroy.

"In Champagne one of our gun aeroplanes hit a hostile captive balloon, which dropped to the earth in flames.

"A squadron of sixty-five aeroplanes today bombarded the railway station at Vouziers, the aviation ground near the town and the station at Challerange. More than three hundred shells were dropped on the objects aimed at, which were struck. Another bombardment cut in two a moving train near the station at Laon."

DORCHESTER BOARD OF HEALTH CENSURED BY CITIZENS MASS MEETING

Undue delay in coping with typhoid epidemic — Strong resolution unanimously adopted by meeting.

Special to The Standard.

Dorchester, Oct. 3.—At a very largely attended mass meeting of the citizens of Dorchester this afternoon the whole situation as it stands regarding the epidemic which has overtaken the town was frankly and earnestly discussed. Great dissatisfaction was expressed over the attitude of the County Board of Health and their apparent unwillingness to act within their rights and promptly. It was stated on the best of authority that ten days were allowed to elapse before an analysis of the milk could be obtained. Reference was also made to the entire absence on the part of the Board of Health of anything resembling a general inspection of the sanitary conditions of the community. The board for reasons entirely known to themselves, have failed to provide a physician, the citizens have taken the matter in hand and secured Dr. Atkinson who was unanimously requested by the citizens to remain in Dorchester and grapple with the situation, the citizens pledging themselves to stand by him. The following resolutions were passed unanimously, and are self-explanatory:

"Resolved whereas there now prevails in this locality an epidemic pronounced by the members of the local board of health to be typhoid fever, which has assumed alarming proportions and is attended by lamentable mortality. And whereas Dr. W. A. Cameron has succumbed to the disease and the only other resident medical doctor has been forbidden by the department of justice to administer to the sick.

"And whereas in the opinion of this public meeting the measures taken by the Board of Health for the county has been attended by unnecessary delay and are still inadequate to cope with the disease or stamp it out and further steps are possible and immediately necessary.

"Therefore resolved, by this meeting that the local board of health be requested and required to exercise its power in taking steps to cause at once a duly qualified medical doctor to be provided, who shall remain constantly in the affected district while the epidemic lasts, and also to procure additional nurses and other necessary aid forthwith, and that a copy of this resolution be communicated at once to the chairman of the local Board of Health, the secretary of the Provincial Board of Health and to the Attorney General of the province.

"Moved by Hon. Chief Justice Landry and seconded by M. G. Teed, K. C., that the chairman of the Board of Health be notified by telephone of the passing of the first resolution and that Dr. Atkinson is now here at our request and that it is the desire of the meeting that he remain here until the disease is stamped out. And further that Dr. Atkinson be requested to remain and continue his services and to visit the patients."

It was also moved, seconded and passed unanimously "That a committee of three be appointed to lay the last resolution before the Board of Health, and also the Attorney General of the province and to co-operate with the board in regard to other matters, especially to see that a careful inspection of all places complained of be made.

Messrs. J. H. Hickman, C. L. Hannington and James Friel were appointed such committee.

The general situation tonight is considered hopeful. There are some cases that cause unusual anxiety. Inoculation has become quite general and but one new case is reported today.

EVEN CROSS, SICK CHILDREN LOVE SYRUP OF FIGS

If feverish, bilious, constipated, give fruit laxative at once.

Don't scold your fretful, peevish child. See if tongue is coated; this is a sure sign its little stomach, liver and bowels are clogged with sour waste.

When listless, pale, feverish, full of cold, breath bad, throat sore doesn't eat, sleep or act naturally, has stomach-ache, indigestion, diarrhoea, give a teaspoonful of "California Syrup of Figs," and in a few hours all the foul waste, the sour bile and fermenting food passes out of the bowels and you have a well and playful child again. Children love this harmless "fruit laxative," and mothers can rest easy after giving it, because it never fails to make their little "insides" clean and sweet.

Keep it handy, Mother! A little given today saves a sick child tomorrow, but get the genuine. Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which has directions for babies, children of all ages and for grown-ups plainly on the bottle. Remember there are counterfeits sold here, so surely look and see that yours is made by the "California Fig Syrup Company." Hand back with contempt any other fig syrup.

Berlin, Oct. 2 (by wireless to Tuckerton, N. J.)—Field Marshal Von Hindenburg's 68th birthday today was celebrated here in a notable way.
