D. DeCoursey, Bornholm, in Chester Whites, sold to R. Miller, Stoddardville, 1 sow and sow; E. Wright, Glanworth, sold to R. Miller to go to Mexico, 1 sow; to J. Nichol, O'Sullivan, 1 sow.

Mr. David Birrell, Claremont, Ont., can show the casual visitor a herd of Shorthorns that will compare favorably with anything that he may find elsewhere. His Crimson Fuchsia 21st is an animal of exceptionally good breeding and conformation, and fully the equal of her sister, who won the first place at Toronto last year. A calf from his cow "Duchess of Gloster" was recently sold in Texas for the neat little sum of \$1,000. Mr. Birrell has a lot of fine, young stock of the choicest breeding and quality.

#### Entry Dates for St. Louis

Entries on prescribed forms for the several divisions must be filed with the Chief of the Department of Live Stock as follows: Horses, asses and mules, by July 10, 1904; cattle, July 30; sheep, August 20; swine, August 30; poultry, pigeons, pet stock and dogs, September 10. In divisions for horses, cattle, sheep and swine, exhibitors will be restricted to the entry of not more than two animals in each section or ring.

The dates for exhibition of live stock in the several divisions will be as follows: Horses, asses and mules, Monday, August 22, to Saturday, September 3, 1904, inclusive; cattle, Monday, September 12, to Saturday, September 24, inclusive; sheep and swine, Monday, October 3, to Saturday, October 15, inclusive; poultry and dogs, Monday, October 24, to Saturday, November 5, inclusive.

Guelph, July, '03.

JAMES MILLS, M.A., President.

## Why is the Magnet like a Paper of Needles?

That is easy—because it has so many fine points. Yes, it has many fine points, and all are readily recognized by dairymen when compared with other cream separators. The principal points are: Its close skimming, its ease of operation, the quick and easy manner in which it can be cleaned, its strength and durability.

Professor Dean, of the Dairy Department of the Ontario Agricultural College, in speaking of the Magnet Cream Separator, says its chief points are: "Its minimum need of power according to its capacity, general close skimming, steadiness of motion, durability, ease in cleaning, and general convenience." They use a Magnet at the college dairy. That is why the Magnet Cream Separator is like a paper of needles—its points are many and conspicuous.

KEEP YOUR MONEY  
IN CANADA

In referring to foreign machines, brought into Canada in places, put together, and sold to dairymen and farmers as first-class separators, Professor Dean says: "We are pleased that such a good machine as the Magnet has been designed and made in Canada. Canadian dairymen would do well to enquire into the merits of Canadian-made Separators before purchasing."

Write for Illustrated catalogue, or ask our local agent in your locality to show you the Magnet.

Agents wanted in unrepresented districts.
