being of India rubber mixed with iron filings and saw dust, to the depth of several inches.

UNITED STATES.

NEW-ORLEANS.—There seems to be quite a derangement in the New-Orleans Money market. The Bulletin of the 11th says—"We learn that the Union, City, Mechanics' and Traders', Canal, and the Carrollton Banks, have resolved to adhere to the system of weekly settlements of balances in specie, according to the compact entered into by all the banks. The following, viz: the Citizens', Consolidated, Louisiana State, Bank of Louisiana, and Commercial Bank, have withdrawn their assent, which they had given to the arrangement for weekly settlements in specie.'

The papers and private advices mention a great want of confidence amongst the banks of each other The notes of the withdrawing banks were offering at one per cent. discount. Sight exchange on New-York was 1 to 2. and bankable funds 6¼ to 7½ discount, in consequence of the prevailing distrust.

General Jackson, according to the Lexington (Ky.) Observer, is very ill of an attack of hemorrhage, and doubts are entertained of his recovery.

The Cincinnati Chronicle estimates the wheat crop of the United States for 1842, at one hundred and twenty millions of bushels, or thirty millions more than in 1839, as ascertained by the last census. The conclusion is that the price of wheat and flour will be quite low, even less than $2 00 or $3 per barrel, the price at that place in 1839.

The Louisville Journal of the 18th observes:—The steamboat Diana burst her steam-pipe, fifteen miles above Princeton, on the morning of the 12th instant, and scalded some eight or ten negroes, and about forty head of cattle. Four or five of the negroes had died or were dying when the Sultana left Lake Providence. Twenty or thirty-five head of the cattle were immediately thrown overboard. The officers and passengers escaped uninjured.

Ice is in good demand at Baltimore at $6 per ton and it is stated that several cargoes would command ready sale.

The N. Y. Commercial says, that the Narragansett arrived at New York on Sunday morning, via Stonington, with her passengers, in 12 hours and 5 minutes from Boston. This is believed to have been the shortest trip ever made between the two cities.

House of Representatives, Augusta, May 18, 1842.

Resolves in relation to the North Eastern Boundary of the State of Maine.

Whereas the preceding Legislatures of this State, in conformity with the well settled conviction of all the People thereof, and with incontrovertible evidence before them on the subject, have uniformly declared that the Boundary of Maine, on its North-ern and North Eastern frontiers, as designated in the Treaty of 1783, can be laid down and fixed according to the terms of that Treaty; and that such line embraces all the Territory over which this State claims property, sovereignty and jurisdiction; and the Executive and Congress of the United States having recognized the validity of that claim in its full extent, this Legislature renews such declarations in the most solemn manner; and

Whereas, for a series of years, every attempt to adjust the vexed questions in regard to the establishment of the said Boundary having proved ineffectual, it has been represented to the Government of this State that the Minister Plenipotentiary and Special of Her Britannic Majesty, at Washington, has officially announced to the Government of the United States that he has authority to treat for a conventional line, or line by agreement, on such terms and conditions, and with such considerations and equivalents as may be thought just and equitable; and that he is ready to enter upon a negotiation for such conventional line as soon as the Government of the United States shall say that it is authorized, and ready on its part, to commence such negotiation; and

Whereas the Government of the United States, not possessing the constitutional power to conclude any such negotiation without the assent of Maine, has invited the Government of this State to co-operate to a certain extent, and in a certain form, in an endeavor to terminate a controversy of so long duration:

Now, considering the premises, and believing that the People of this State, after having already manifested a forbearance, honorable to their character, under long continued violations of their rights by a foreign Nation; and, though not disposed to yield to unfounded pretensions, are still willing, in regard to the proposal now made by the General Government, to give additional evidence to their Fellow Citizens throughout the United States of their desire to preserve the peace of this Union, by taking measures to discuss and conclude, if possible, the subject in controversy in a manner that will secure the honor and interests of the State, this Legislature adopts the following Resolutions: with the understanding, however, that in the event of a failure in such endeavour towards an arrangement, no proceedings thereunder shall be so constructed as to prejudice in any manner the rights of the state as they have been herein asserted to exist:

Resolved, That there shall be chosen, by ballot, in Convention of both branches of the Legislature, four Persons, who are hereby constituted and appointed Commissioners, on the part of this state, to repair to the seat of Government of the United States, and to confer with the Authorities of that Government touching a Conventional line, or line by agreement, between the state of Maine and the British Provinces, and to give the assent of this state to any such line, with such terms, considerations and equivalents as they shall deem consistent with the honor and interest of the state: with the understanding that no such line be agreed upon without the assent of such Commissioners.

Resolved, That the said Commissioners be furnished by the Governor with evidence of their appointment, under the seal of the state.

Resolved, That the Governor by and with the advice and consent of the Council, have power to fill any vacancy that may occur in said Commission by death, resignation, or otherwise.

Resolved, That the said Commissioners make return of their doings herein to the Governor, to be by him presented to the Legislature at its next session.

Capt. Gay of the Bark Craiton of Castine under date of Liverpool March 15, writes that on the 2d of March, in lat. 42 17, long 41 55, he fell in with an English Bark from Halifax bound to Cork, in Ireland, in a sinking condition, and took from her the Captain and his lady with 10 others, and took them to Liverpool. It was blowing a heavy gale from the N. W. at the time and he was more than four hours in getting them on board.

PICTOU, May 25—LOSS OF THE BARQUE ISABELLA.—The barque Isabella, Capt. A. Thomas, from Glasgow, for Pictou, with 54 passengers and a large quantity of dry goods, iron, books, &c. was lost at Cape North, on the North side of Cape Breton, on the 11th inst. She sailed from Glasgow on the 1st April and made St. Paul's Island on the 28th. She then became enmangled in the ice, and continued in that perilous condition for 11 days. The Captain seeing the imminent danger the ship was in, landed the passengers on the 9th, with much difficulty, over fields of ice, when the vessel was three quarters of a mile from the shore, and riding at anchor among icebergs. On the following day she slipped her anchor and when turning she struck a rock and began to fill with water. She was then run into Aspy Bay, a distance of eight miles, where she now lies a total wreck.—We are glad to learn that though the vessel has become a total wreck and the cargo materially damaged, no lives have been lost. Nearly all of the passengers lost a portion of their wearing apparel and other property. The passengers arrived here in a small schooner on Monday morning, all in good health.

WRECK OF THE BARK KENT.—Captain Gairdner, of the bark *Kent*, 24 April from Greenock for Montreal, with a general cargo, arrived here on Friday afternoon, and reports the *Kent* a total wreck at Seven Islands, on the 8th inst. in a snow storm. She had on board twelve cabin and 60 steerage passengers, who were all safely landed.—*Quebec Gazette.*

Cloth Manufactory.

THE subscriber informs the Public, that he carries on the business of making CLOTH, at Kingston, King's County. It being late last season before the machinery could be put in successful operation, in consequence of having to overcome many difficulties, he has in the meantime made the necessary alterations, and will now be enabled to do the work in a more expeditious and better style.

Wool that is sent clean washed and sorted, the prices are as follows:—For oiling, carding and spinning, 1s. 1d. per lb.; for warps, filling or stocking yarn, for carding, spinning and weaving, 1s. 6d. per yard, 5-4 wide—twilled 1d. more. For fulling, coloring, shearing and finishing all off, 1s. 2d. per yard.

To accommodate customers on the River St John the subscriber has made arrangements for wool to be taken in at the following places, viz: Wm. Segee's, Fredericton, (Fredericton Hotel,) J. H. DeVeber, Gagetown; Robert Golding, opposite Long Island; at which places it will be put on board the steam boat and landed at Capt. S. Gorum's, whence it will be taken, manufactured according to order, and returned to their respective places.

Particular directions must be written and put inside the bundle, with a card outside, shewing the person's name and place of abode, that there may be no mistakes.

People's own make of cloth dressed at reduced prices: White cloth full'd at 3d. per yard; full'd, colored and pressed, 1½d.; full'd, colored, sheared and finished off, 1s 2d. per yard: Women's wear pressed at 3d. per yard; Rolls carded at the usual prices. Persons wishing their cloth full'd stout will please send directions accordingly.
