GENERAL NEWS.

Guiseppe Ignatus Dulnea, who killed Edward Cunningham, the millionaire, of Milton, Mass., while poaching on the latter's estate, was on the 3rd inst., sentenced in Boston to fifteen years in the State prison. Dulnea's indictment was for manslaughter, and self-defence was claimed in extenuation.

About two hundred feet of track of the Delaware, Lackawana & Western Railway caved in at Plymouth, Penn., on the 2nd inst. The cave-in extended to the Episcopal Church building, which was not damaged. The entire territory surrounding it was undermined. Large gangs of men were at work propping the interior of the mine. All miners quit work.

A collision near Kokomo Indiana, on the 31st ult., on the Pan-Handle railway caused the death of two train men one engineer cannot live, four men were seriously hurt and a number of passengers badly shaken up. The baggage car and coaches on one train were burned. It is thought the engineer on one train was trying to reach Jewell to pass the other train, which was slightly behind time.

The dead body of Mrs Kniffin, wife of Dr. Kniffin, of Trenton, New Jersey, was found on the floor of her bedroom on the morning of the 3rd inst., and near by lay the unconscious figure of a young lady visitor. Dr. Kniffin is away on a visit, and no one but a child was with the women in the house. Miss Purcell, the young woman, was finally revived by physicians. She states that two burglars entered the room, and when Mrs. Kniffin and herself cried for help they were seized by the men who applied chloroform to them. The whole house was in great confusion. Every drawer was emptied and the furniture scattered about.

The coal mine owners at Charleroi, Belgium are unable to fulfil their contract with the government to supply 30,000 tons for the state. The stock in hand for use on the railway is nearly exhausted. Amicable overtures made to the strikers had no good result. Notices have been placarded at Mons, in which the miners insist upon an increase of 15 per cent. in wages with a minimum of 88 cents per day for any day and recognition of the nine hours as a day's work. The striking miners at Charleroi are starving. A bread riot is threatened if shopkeepers refuse the men further credit. Governor Hainault has advised the government to interfere.

The Royal palace at Laeken a suburb of Brussels, Belgium, was burned on the 1st inst. Princess Clementine daughter of the king, had a narrow escape from being burned to death. Her Governess was burned. All the royal art collection was destroyed. The fire was prevented from reaching the King's private rooms. As soon as the fire at Laeken was reported the king and queen suspended their New Year's day reception, hastened thither and witnessed the total destruction of this magnificent palace their usual summer residence. It is said the fire was caused by a defective stove in the officers quarters. The loss is immense as to money value and as to the destruction of art treasures that cannot be replaced.

Captain Jacob Garrett of Springfield, Ohio, received a telegram on Saturday of last week announcing the sudden death of his father at Sandusky. The cause assigned for his death was an epileptic fit. Mr. Garrett left at once for Columbus, where the funeral was to be held, and awaited the arrival of the remains. He and other relatives received the body, which had been shipped in care of a relative. The coffin was opened for a last look, when signs of life were perceived. Restoratives were brought and physicians summoned, and in a short time the supposed dead man was able to speak. He was taken to a bed, and now lies there very weak and ill, but still alive, and his relatives are not without hope that that he may yet be wrested from death's grip.

The first of a series of skating matches between Axel Paulsen, of Minneapolis, and Hugh J. McCormack, of St. John, N. B., came off in Minneapolis on the 2nd, before a large audience. McCormack trailed Paulsen the entire distance until the last lap. Then he spurted, gaining ten yards, when a chair thrown across the track caused him to sustain a terrible fall. He regained his feet and attempted to overtake Paulsen, but the latter won by a couple of feet. A protest was entered against paying over the stake money, $250, but is was understood the following night that the protest had been withdrawn and the money will be paid over to Paulsen. Time for five miles 20 min. 16 secs; ten miles, 40 min. 55 secs., fifteen miles, 1 hr. 1 m. 37 secs.

The boys section of the paupers school in the district of Forest Gate in connection with White Chaple and Poplar unions London took fire on the night of the 31st ult., while the inmates were asleep. 22 boys who were in the upper stories suffocated: 56 other boys were safely taken out. There were 600 inmates in the institution. The bodies of those who were suffocated were carried to the main hall of the building, which was still profusely decorated with Christmas greens. The boys retired the previous evening in the highest of spirits, having been promised presents and a New Year fete on the following day. The scenes in main hall, where bodies of the dead boys lay, were harrowing. Relatives and school fellows of those who perished were loud in their lamentations. Fire orginated in clothing room, beneath the boys dormitory. The cries of boys unable to escape were terrible. Ages of death range from 7 to 12.

PUBLIC MEETING AT ROCK BARRA, KING'S COUNTY.

A public meeting was held at Rock Barra schoolhouse for the purpose of discussing the necessity of having an act passed by Parliament to prevent the setting of nets and seines in the waters of this coast.

The meeting was a large one, and was organized by appointing Ronald McDonald as Chairman and the undersigned as Secretary.

After the chairman had stated the object of the meeting several gentlemen addressed the meeting. They all seemed unanimous on one and the same point, viz; The restriction of seining or netting mackerel in the coast waters of this Province.

The following resolutions were then moved and carried without a dissenting voice:

Whereas, The fishermen of this province are begining to notice the injury that netting and seining is causing to our mackerel fishery. It is noticed that in localities where the catch of mackerel was formely large, this year was very small, and no other cause than the use of nets this year can be given for the change,

Whereas, Before seining was resorted to in the waters of this coast, great numbers of shoals of mackerel could be seen almost every day during the fishing season, and so tame that large hauls were often, if not generally, taken out of them by hook and line, whereas of late years a shoal of mackerel is quite a novel sight, and the hook and line fisherman must be content to see them go down at the slightest provocation: therefore it is the opinion of this meeting that if these two evil methods of taking mackerel resorted to in the waters of this coast be not prohibited, one of our most important industries, and on which many depend,—the mackerel fishery,—will soon be a thing of the past.

Therefore resolved, that our representatives in parliament be requested to bring the matter before the proper authorities with the view of having it discussed, and if possible to arrive at some regulation or law which will prohibit the setting of nets in the coast waters of this province after the 15th June in each year, and abolishing seining altogether.

Also resolved, That a copy of the proceeding be forwarded to the Examiner for publication, requesting the Patriot and Herald to copy.

John A. McDonald,
Rock Barra, Dec 30, 1889. Secy.

Went Over a Thirty-Foot Bank.

The west bound Northern Pacific passenger train when rounding a curve, Wednesday night, the 1st inst., fifteen miles east of Thompson's Falls, Montana, jumped the track. The baggage and emigrant cars and smoker went down a thirty-foot embankment into the river. The emigrant car was filled with women and children, but all escaped serious injury.

A Baby Killed by a Little Nurse Girl.

The infant child of W. C. Bradley, of Columbia, South Carolina, died in agony a few nights ago. It was suspected that the child had been poisoned, and an inquest was held. It was found that concentrated lye had been given the baby by a Negro girl, nine years old, who was minding it at the time. She wished to go out and play, and was kept in the house to mind the baby. She became enraged and gave her little charge the lye. On account of the youth of the girl the parents of the murdered child will not prosecute her

PANIC IN A CHURCH.

There were fully one thousand people in the Immaculate Conception church, Salem, Mass., on the night of the 1st inst., when an altar boy's torch set fire to the evergreen which was wreathed above the grand altar. The flames leaped up the wall and a panic became imminent. The choir stopped in the midst of the "dixit dominus," but organist Quinn kept right on, while Father Hally, aided by several other cool-headed men, tore down the flaming stuff and extinguished the fire. The great congregation was thrilled. Many received mental shocks which they will not easily recover, but no one was hurt, and the high altar was not damaged.

A Bold Thief.

One day last week, says a Montreal despatch, a well-dressed Frenchman entered the priest's house, at Chester, Quebec, and stole $400. In hurriedly escaping, he opened the wrong door and was confronted by the priest himself, whom he frightened into silence by a revolver. The priest's servant was soon in pursuit, and hearing that the stranger had hired a rig from a farmer to drive to St. Patrick's hill, the servant got there first and mustered a posse of thirty men. They attacked the team on arrival, and after several shots on each side he obeyed the order "hands up," and was "roped up" by a local merchant till an officer arrived and took him to Arthabaskaville for trial. All the money was found on the prisoner.

THE ATLANTIC'S FURY.

Capt. Lord, of the British steamer Croma, which arrived at New York on the 2nd inst., from Middleboro, reports: We experienced the roughest weather I have ever known. Up to December 17th we had a succession of furious gales. The ship was thrown off into the trough of the sea, although going at full speed, and became unmanageable. We stopped the engines and used a plentiful supply of oil, which aided in breaking the crests of the waves. We, however, shipped one fearful sea, which carried everything before it, smashing one boat and damaging others, washing away part of the flying bridge, and injuring several of the crew. Part of this sea went down the funnel, the top of which is 56 feet above the water. The water rushed through the tubes in such volume as nearly to put the fires out and caused a great commotion among the men below. On the 18th it blew a heavy gale, and on the 20th the wind again became a hurricane. During the night we shipped a tremendous sea over the bows. It swept away everything in its way, carrying wreckage from the main deck over the upper bridge about 25 feet high and finally making the exit over the stern. This sea washed a fireman from the foremast on to the main bridge, lifting him about twenty feet and sending him among the debris under the starboard deck. He was picked up insensible and dangerously injured.

A PERILOUS FEAT.

Capt. Cove, and, with one exception, the entire crew of the British barquentine Juan were safe and sound on board the Red Star steamer Pennland when she arrived at New York on the 1st inst., from Antwerp. The Juan was abandoned at sea on Dec. 20, after she had been reduced by wind and wave to a waterlogged wreck. One of the Pennland's lifeboats was sacrificed in transferring the men to the steamer. It was so badly damaged that it was sent adrift. The Juan left St. John's, Nfld, on Nov. 30 with a cargo of fish oil for Glasgow. The first mishap was on Dec. 3, when the standing jibstay was carried away. On the 6th a heavy gale from the west-south-west compelled the vessel to heave to under close reefed mainsail. A sea stove the forward starboard bulwarks and started the topgallant rail. On Dec. 12 a south-west gale set in, and the Juan lay until the 16th. She was then in latitude 50 degrees, longitude 26 degrees. At noon of that day an enormous sea rolled over the little vessel, and C. Pierre, a French sailor, was carried overboard by it. Capt. Cove ordered the fore and main rigging cut away, and also the foremast. The billow had split the mainsail and swept everything movable from the decks. The vessel's seams had parted and she was leaking two inches per hour. On the night of the 17th a steamer passed, but ignored the Juan's distress signals. There was another southwest gale on the 19th, and oil was thrown over until night, when the crew were exhausted. The Pennland hove to in sight at 8 o'clock next morning. The men had to be drawn aboard the Pennland's lifeboat through the water with lines. Warm food and drinks and dry clothing were given to them on the Pennland, and Capt. Buschman was warmly thanked for his kindness. The Juan registered 130 tons and was owned at Salcombe. She was partly insured.

THE DARTMOUTH ROPE WORKS COMPANY.

The Dartmouth Rope Works Company, of Halifax, N. S., was established in 1868, for the purpose of manufacturing every description of Manilla and Russian rope, with which the far-famed ships of Nova Scotia are equipped, and for many years this was the only class of Goods turned out by them. But with the introduction of self binding harvesting machines this Company with their usual enterprise built and equipped what is still the largest Twine Factory in the Dominion, meeting with such phenomenal success that consumers to-day acknowledge the superiority of their Twines. Again, the use of trade marks for binder twine, first introduced by this Company, has materially assisted consumers in obtaining the best value, nor need they now be in any doubt when purchasing, as the name and trade marks of this Company are on all, sufficient guarantee of excellence. For the last few years from various causes Manilla hemp has been held so high that it became imperatively necessary to furnish a binder twine from some cheaper material, and with this end in view they built and equipped, with machinery adapted for the purpose, still another immense factory, and now have under contract for the harvest of 1890 a thousand tons of their patent composite silver twine that caused so much discussion and received such a number of the most satisfactory tests last harvest and which, owing to its cheapness, bids fair to supersede to a great measure the Manilla twines until now so generally used. The firm is composed of William Stairs, John F. Stairs, George S. Stairs, its original founders.—*Toronto Empire.*

Local and Special News.

The Lungs and Streets of a city are like the veins and arteries of the body; if foul of impure, disease results. Cleanse the blood from the foul humors by using Burdock Blood Bitters, the best blood medicine ever devised to cure all blood disorders from a common pimple to the worst scrofulous sore.

Truth is like cheese. Truth is mighty.

Prevailing Sickness.—The most prevalent complaints at this season are rheumatism, neuralgia, sore throat, inflamation and congestion. For all these and other painful troubles Hagyard's Yellow Oil is the best internal and external remedy.

It is proper to speak dis-pair-agingly of divorce.

Worn Out and Run Down.—By disease and debility the human system becomes worn out and run down before its time. Keep the head clear, the bowels regular, the blood pure, the kidneys and liver active by the use of Burdock Blood Bitters, nature's great tonic and regulator, and disease cannot exist.

Miss Adipose refers to her slim lover as a bean and narrow.

If You Have a Cough, do not neglect it. It should be loosened as soon as possible, and to do this nothing equals Hagyard's Pectoral Balsam. Obstinate coughs yield at once to its expectorant, soothing and healing properties, while colds, hoarseness, whooping cough, asthma, etc., are promptly relieved by its perfect action on the throat and bronchal tubes.

The decanter is by no means a do won't-er with most men.

Sudden Change.—Mrs. George Flewelling, St. John, N. B., writes: "I suffered from weakness and nervousness, so I bought a bottle of Burdock Blood Bitters, and before I finished it, noticed a change. After using three bottles I am now entirely cured, and recommend B. B. B. as a positive cure for costiveness."

Falling off—"Do you think bicycle-riding is falling off?" "Yes, mostly."

Well Pleased.—Dear Sirs, I recommend Hagyard's Yellow Oil as a sure cure for rheumatism. I had it for some time and was cured by two bottles, and I must say it is the best thing I can get for general use as a pain reliever. J. Mustard, Strathavon, Ont.

NOTICE.

Owing to a mistake of our bottle manufacturers, their works shut down for the summer without a sufficient quantity of our special bottles on hand to keep us going, so we were compelled to substitute a square bottle without MINARD'S LINIMENT blown in the glass, for our full trade on P. E. I., and part of N. S. The label and wrapper are the same as heretofore and each bottle has a white strip around it explaining reason for the change.

AN INTERESTING REPORT.

The Inland Revenue Department has recently issued a bulletin of about thirty pages, which is devoted exclusively to the subject of baking powder, and which shows that the majority of the goods in the market are adulterated and unfit for use. Prof. A. McGill, who had had charge of this important work for the Government, says that "imperial baking powder is an excellent powder." A word to the sensible housekeeper should be sufficient.

ELOPED WITH HIS NEIGHBOR'S COOK.

Philip Swan has eloped with his neighbor's cook. He was so delighted with the bread, biscuits and cake she made with Imperial Cream Tartar Baking Powder that he fell desperately in love with her. He has promised however to return to his wife if she will use the same which she will use the same which she will now do as it is the only reliable.

Horsemen everywhere are speaking in the highest terms of The Breeder's Gazette, and those of our people who are interested either in draft or trotting-bred stock will be interested in learning that the subscription price of this popular and old-established weekly has been reduced from $3 to $2, and can be had even as low as $1.50 per year in clubs of five or more. The Gazette's department is in the capable hands of Mr. H. T. White of the *Chicago Daily News*, the editor of John Splan's "Life with the Trotters" and its draft-horse matter is confessedly far ahead of that obtainable from any other source. The Gazette is a thoroughly good "all-round" live-stock paper—cattle, sheep and swine, all coming in for good attention—and should be largely read in this country. Sample copies and terms to agents on application to the J. H. Sanders's Pub. Co., La Salle Street, Chicago, Ill.

They call it Russian influenza because a man talks so like a Russian when he has it.

A great reduction in subscription rates is announced by the publishers of The Breeder's Gazette. This beautifully printed and handsomely illustrated periodical is so generally conceded to stand at the head of all papers of its class that we need only say that it is regarded as an absolute necessity by all who are making a study of the breeding, feeding and management of any description of live-stock. It has heretofore cost $3 per year, but can now be had, under a special offer just announced, at $2 for single subscriptions, and at $1.50 where five names or more are obtained. Send for sample copy and terms and list of prizes to agents, to the publishers, the J. H. Sanders Pub. Co., 225 La Salle Street, Chicago, Ill.

Marriage and Birth notices inserted at 50 cents each. Poetry accompanying Death notices will be charged for at the rate of 10 cents per line.

The Old Doctors

Drew blood, modern doctors cleanse it; hence the increased demand for Alteratives. It is now well known that most diseases are due, not to over-abundance, but to impurity, of the Blood; and it is equally well attested that no blood medicine is so efficacious as Ayer's Sarsaparilla.

"One of my children had a large sore break out on the leg. We applied simple remedies, for a while, thinking the sore would shortly heal. But it grew worse. We sought medical advice, and were told that an alterative medicine was necessary. Ayer's Sarsaparilla being

above all others, we used it with marvelous results. The sore healed and health and strength rapidly returned." —J. J. Armstrong, Weimar, Texas.

"I find Ayer's Sarsaparilla to be an admirable remedy for the cure of blood diseases. I prescribe it, and it does the work every time." — E. L. Pater, M. D., Manhattan, Kansas.

"We have sold Ayer's Sarsaparilla here for over thirty years and always recommend it when asked to name the best blood-purifier." — W. T. McLean, Druggist, Augusta, Ohio.

"Ayer's medicines continue to be the standard remedies in spite of all competition." — T. W. Richmond, Beaver Lake, Mich.

THE LADIES!

A New and Distinct Form of Disease which is afflicting Canadian Women.

How some of Them Regained Fresh Complexion, Perfect Health and Superb Physical Beauty.

A great London Physician says that he notes a new and distinct form of nervous disease produced in Canadian women by worry about servants and overwork in caring for the home. This is only too true. It is why we see so many ladies pale, weak, languid, and suffering from headaches and innumerable weaknesses. They cannot stand the strain upon their nervous system. Many of them have found the means to sustain their failing strength, to give color to the cheeks, and new life and vigor to the body, in Paine's Celery Compound. This pure and scientific remedy is especially adapted to the needs of woman, and is daily making the most remarkable cures. Mrs. W. E. Cooper, 60 St. Hypolite St., Montreal, was for a long time troubled with nervous headaches, loss of appetite, low spirits, etc. After using the Compound, her headaches disappeared, appetite was good, and her spirits revived.

Annie Gourley, of River Beaudette, P.Q., found the Compound a certain cure for weakness, and now feels as well as she ever did.

Many a Canadian lady has the same reason to be grateful.

Paine's Celery Compound can be purchased at any druggist's for one dollar a bottle. If he should not have it on hand, order direct from Wells, Richardson & Co., Montreal.

"WE ARE THE PEOPLE!"

Who Knocked High Prices out of the Field.

We knocked them out the first strike. It was a regular WALK OVER, but it makes us the

CHAMPION OF LOW PRICES.

OVERCOATS from $1.90 to $14.00. REEFERS from $1.75 to $12 00. SUITS from 95c. to $12 00.

LADIES' ULSTER CLOTH and LADIES' DRESS GOODS at from ten to 20 per cent less the regular prices.

HOW WE DID IT.—The whole secret of our success lies in the fact that we offer what the people want, and having purchased our stock at prices that defy the competition of the world, we can sell better goods at less money than any other house. Try us and be satisfied.

Land Office Again!

THE people are LANDING daily in crowds at PROWSE BROS' Store. The excitement is running high over the tremendous stock of OVERCOATS AND REEFERS they are selling at prices never heard tell of before.

Big Profit Merchants say PROWSE BROS. TAKE THE MONEY for Clothing while they Puff and Blow. In fact the Wonderful Cheap Men say they are guilty of taking $5.00 for an Overcoat worth $8 00, and will do it again.

They want every man in P. E. Island to come and Audit their immense stock of Clothing and see if what they say is not correct.
