MEXICANS' OUTLOOK IS BROADENING

What He Formerly Regarded as Luxuries He Now is Beginning to Consider Necessaries

(From Monday's Daily.)

As the time of the inauguration of the Canadian-Mexican Steamship Co. draws near, interest in this new enterprice grows greater. And this is a matter of small wonder when it is considered what this new impetus to trade must mean to Canada in general and British Columbia and Victoria in particular.

"The prospects which the new steamship line will open up are indeed well nigh incalculable. Canada can give to Mexico what Mexico has been long anxiously awaiting. It can give no Mexico the necessaries of life at a cost much below what Mexico has now to pay for them," said Mr. R. B. Swanson, lately arrived from there.

In Mexico high prices prevail on nearly all the necessaries of life. Exorbitant prices for imported merchandise are said to be the rule rather than the exception. Many families visit the United States to purchase their supplies direct. A large quantity of goods is brought in by parcel post. The building up of this parcels post trade with the United States causes the Mexican merchants some alarm which must eventually result in their realization that to be successful in business they must be satisfied with reasonable profits based on larger sales.

To bring this desired result about, the new steamship line will undoubtedly prove a great factor. The march of progress and prosperity in Mexico is indicative that the time is not far distant when the majority of the Mexican people will look upon, as necessaries of life, many commodities now regarded as luxuries.

Furniture, household supplies, clothing, shoes, butter, cheese, smoked, prepared, salted and canned meats; preserved, canned and dried fruits; canned, pickled and salted fish, are used by Mexicans to a very limited extent, owing to the prevailing high prices. With, however, the adoption of the modern commercial system of increasing trade, as instanced by the new steamship line, these and other commodities will be placed within reach of the masses at prices which will benefit alike the producers, merchants and consumers.

That Canada's day has come, is undoubtedly a truism. That Mexico's day is coming is a truism too. As the two countries are drawn closer together by reciprocal commercial bonds, so will an added impetus be forthcoming towards the prosperity of both, and each will reap advantages which such trade bonds are ever known to promote.

The steamer Georgia, which will make the inaugural trip on the Canadian-Mexican Pacific Steamship Company's line, has been reported at Iquique on her way to Victoria.

HAS BEEN RELEASED.

Sheriff Palmer, of Astoria, Ore., was in Vancouver on Wednesday. He came for the purpose of taking back the man Kelly, who admits having stolen a considerable amount of jewellery from a hotel in that place, at which he worked as a bartender. The proprietor of the hotel wired Wednesday that he would not prosecute if Kelly would restore the goods. This Kelly willingly consented to do, and Wednesday afternoon he was released.

The authorized version of the Bible was prepared by 47 scholars, who were divided into 6 companies, to each of which a certain portion of the Scriptures was assigned. The work took three years, from 1607 to 1610.

Among the natives of Central India a marriage ceremony is always attended by a sham fight, and the same practice prevails among the Kalmucks of Siberia.

The Great Restorative Non-Alcoholic TONIC

of the day, made entirely of native medicinal roots and without a drop of alcohol in its composition, is known as

DR. PIERCE'S GOLDEN MEDICAL DISCOVERY.

There are no secrets about its composition — all its ingredients being printed on the bottle-wrappers.

The "Golden Medical Discovery" not only builds up the strength of the feeble, debilitated, languid, nervous and easily fatigued, whether young or aged, but it enriches and purifies the blood, thus making the improvement lasting.

It corrects and overcomes indigestion, dyspepsia, biliousness, torpid liver, chronic diarrhea and kindred derangements of the stomach, liver and bowels.

Bronchial, throat and laryngeal affections, attended with hoarseness, persistent cough, and all manner of catarrhal affections are cured by the "Golden Medical Discovery."

In Chronic Nasal Catarrh, it is well to cleanse the nasal passages out freely with Dr. Sage's Catarrh Remedy fluid while taking the "Golden Medical Discovery" as a constitutional treatment. Old obstinate cases of catarrh yield to this thorough *course* of treatment.

Through enriching and purifying the blood, the "Discovery" cures scrofulous affections, also blotches, pimples, eruptions, and other ugly affections of the skin. Old, open, running sores, or ulcers, are healed by taking the "Golden Medical Discovery" internally and applying Dr. Pierce's All-Healing Salve as a local dressing. The Salve can be had of druggists, or will be sent by return mail on receipt of 50 cents in stamps. Address Doctor Pierce as below for it.

In short "Golden Medical Discovery" regulates, purifies and invigorates *the whole system* and thus cures a very large range of diseases. The reason *Why* it cures such a varied list of diseases is made clear in a little booklet of extracts from the leading medical authorities, compiled by Dr. R. V. Pierce, of Buffalo, N. Y., and which he will be pleased to send post-paid and entirely *free* to any who send him their names and addresses.

You can't afford to accept a substitute of *unknown* composition for this non-secret MEDICINE OF KNOWN COMPOSITION.

Dr. Pierce's Pleasant Pellets cure constipation. Constipation is the cause of many diseases. Cure the cause and you cure the disease. One "Pellet" is a gentle laxative, and two a mild cathartic. Druggists sell them, and nothing is "just as good." They are the *original* Little Liver Pills first put up by old Dr. Pierce over 40 years ago. Much imitated, but never equaled. They are tiny sugar-coated granules — easy to take as candy.

Dr. Pierce's Medical Adviser (1000 pages) is sent *free* on receipt of 31 one-cent stamps (to cover cost of mailing) for paper-covered, or 50 stamps for cloth-bound copy. Address Dr. Pierce as above.

WAGES OF RAILROAD MEN.

Conference of Western Managers in Chicago—Advances in Pay Offered.

St. Paul, March 2.—The managers' committee, representing forty-two railroads west of Chicago, to-day announced an important schedule of advances in pay which has been tendered freight and passenger trainmen on all the railways in the West, and issued the statement that in case the schedule does not prove acceptable to the employees, it will use its influence to throw the entire matter of wage increases open to arbitration. The method of arbitration, should such action prove necessary, is to be determined upon later.

The tender of the railway managers of heavy increases of pay is the result of conferences lasting more than a month in Chicago, participated in by ten general managers, representing the various lines, and general chairmen from each system to the number of 160, representing the employees involved. These conferences have just been adjourned as a reason of the tender of increases from the railroads and the general chairmen are now returning to their various lines to submit the schedule to the men for a decision. Whether the employees will accept the offer of the railroads is not known and will not be determined until the results of the work of the general chairmen are reported, after which the adjourned conferences will be resumed.

The offer of the managers to their men is as follows:

"Conductors in passenger service are to be granted an increase of pay of $10 per month; passenger baggagemen are to be granted an increase of pay of $6 per month; passenger brakemen and flagmen are to be granted an increase of $5 per month; freight conductors and brakemen are to be granted an increase of 10 per cent., based on rates of pay prevailing November 1st, 1906. Proportionate and equal offers of increase in overtime pay are made part of the tender. The trainmen have asked upon an increase of 20 per cent. in both passenger and freight services. The offer of the managers will, if accepted, advance the pay of 55,000 railway employees southwest, West and Northwest. The schedule of advances applies to every railway entering the Northwest and the Pacific Northwest."

EXPLOSIONS IN MINES.

Two Men Killed and Number of Others Injured.

Scranton, Pa., March 2.—Fourteen men are near death in the Taylor hospital, and twelve others are suffering from slight burns as the result of a terrific explosion of gas that swept through a portion of the Clark vein of the mine of the Delaware, Lackawanna & Western Co., at North Taylor to-day. Whether or not thirty other miners at work in the affected section escaped is not known. David Williams felt safe in saying that they would all be taken out of the mine alive.

LONDON ELECTION BITTERLY CONTESTED

Municipal Reformers Reported to Have Gained Forty-Three Seats in the County Council.

London, March 3.—London was in the throes of an election yesterday for membership in the London county council that exceeded in bitterness the parliamentary election of 1905.

The so-called Progressives, who are supported by the Liberals, and who have been in power for the past twenty years, claimed a renewal of their mandate on the ground of the services they had rendered, and declared also that the present was a unique opportunity for further improving the condition of the people of London by effecting equalization in the rates of taxation on the ground landlords.

The self-styled "Municipal Reformers," with whom the Unionists have associated themselves, have been most active in accusing the Progressives of extravagance and Socialistic tendencies that have led to excessive rates and have published cartoons suggesting that the Progressives are the freights of the "trusts."

Mr. John Burns, president of the local government board, who is an ex-county councillor, but who does not seek re-election, issued a manifesto yesterday in which he describes the campaign of the Municipal Reformers as the "most vulgar and most disgraceful that ever has discredited British public life," and in which he exhorted the electors not to surrender London to the greed of monopolists and speculators.

The Municipal Reformers have claimed that the defeat of the Progressives would be a serious blow to the Liberal government. The outgoing council consisted of 83 Progressives, 34 Municipal Reformers and one Independent. The outcome of yesterday's election is not yet fully known, but according to the returns received up to midnight, the Municipal Reformers have gained 43 seats, and the Progressives and Labor party one each.

The Laborites or Socialists played an unprecedented part in the election by fighting for seats against both the Progressives and the Reformers.

POLICEMEN SHOT.

One Instantly Killed While Making Raid on a "Blind Tiger."

Fayetteville, N. C., March 2.—Chief of Police Chason and two policemen, Locamy and Buckingham, while raiding a "blind tiger" to-night, were shot down by Tom Walker, the negro proprietor of the place. Policeman Locamy was instantly killed and Chief Chason was shot through the head and died later. Buckingham was shot in the shoulder and side, and there is little hope of his recovery.

The murderer is a well known character, having been prosecuted before for running a "blind tiger." With him at the time of the shooting was a white man, a stranger in the city, who has been apprehended and is now in the county jail. Walker's wife has been locked up for safe keeping. Walker some time afterward was located at Dunn, N. C., and placed under arrest. He will be taken to Raleigh.

When the news of the shooting became generally known, intense excitement prevailed. Searching parties at once organized, and bloodhounds were brought from Wilmington by special train. The local company of militia was ordered under arms by Governor Glenn.

INJURED BY EXPLOSION.

New York, March 3.—A dynamite magazine containing explosives used in the excavation work for the Pennsylvania railroad's North River tunnel at Homestead, N. J., was blown up early this morning, injuring a score of employees in the vicinity and shaking buildings for miles around. Ambulances removed the injured to hospitals. The shock of the explosion broke probably every window in Homestead, and was felt in this city, where many tall buildings trembled. Thousands
