Arrival of the North American.

FOUR DAYS LATER.

HALIFAX, Jan. 6.

The North American, from Liverpool on the 22nd, for Portland, put into this port yesterday, short of coals. She experienced boisterous weather throughout the entire passage. On the night of the 1st, off Cape Race, struck a rock which caused her to leak considerably, and filled fore compartment with water.

The President's message is published in full in the English papers, with various comments upon it.

Liverpool Albion characterises message as dishonest in tone, and filled with spirit of braggadocio and filibustering.

Times in an article on the submarine cable says that since the laying of the cable at least eight or nine fresh plans have been put forth and draws attention to the Great Ocean Telegraph Company which proposes to submerge a cable direct to Halifax from Land's End in England, by the Allen system, which entirely dose away with the outside covering wire, and makes conductor of cable its main strength, thereby reducing weight to 10 cwt. per mile.

Excitement in Ireland as to arrest of members of Phoenix Club dying out.

VERY LATEST.—*London*, Wednesday morning.—Daily News City Article, Tuesday evening—Funds to day heavy, closed at reduction of 1-8 per cent.

Portion new season's Tea, ex Robin Hood, been sold at 1s 7d to 2s 4d. Common Congou firm—11d.

FRANCE.—It stated that contract has been signed between Marine Department and firm at Marseilles to supply Islands of Guadaloupe and Martinique with 20,000 Africans suited for agricultural labor. Similar contracts entered into with other powers.

Paris correspondent Daily News says it was confidently reported that French squadron on Western coast of Africa, was about to be increased by several ships.

London Advertizer's Paris correspondent writes that French Foreign Office has heard with much surprise of Buchanan's notification of the desire of the American Government to purchase Cuba. This part of the Message is considered more strange as French Government had previously notified to American Minister its determination in conjunction with England, not tolerate the cession of Cuba to the United States, even were Spain to consent to such arrangement.

ITALY.—Stated that King of Naples was likely soon to grant amnesty which has been so strongly insisted upon by England and France.

INDIA.—Bombay Mail, Nov. 25, reached England 18th Dec. Nothing of striking importance additional to news already telegraphed.

Tantia Topee and his followers were making towards Guzerat, where it was feared they might do much mischief.

MARKETS.—Flour and Wheat—advancing tendency on good qualities.

A MEDICAL REVOLUTION!

THE WORLD UNANIMOUS.

HOLLOWAY'S OINTMENT.

THE GREAT COUNTER IRRITANT!

The virus of disease often makes its way to the internal organs through the pores of the skin. This penetrating Ointment, melting under the hand as it is rubbed in, is absorbed through the same channels, and, reaching the seat of inflammation, promptly and invariably subdues it, whether located in the kidneys, the liver, the lungs, or any other important organ. It penetrates the surface to the interior, through the countless tubes that communicate with the skin as summer rain passes into the fevered earth diffusing its cool and regenerating influence.

SKIN DISEASES & GLANDULAR SWELLINGS.

Every species of exterior irritation is quickly reduced by the anti-inflamatory action of this Ointment, Angry Eruptions, such as SALT RHEUM, ERYSIPELAS, TETTER, RINGWORM, SCALD HEAD, NETTLE RASH, SCABIES (or Itch) &c., die out, to return no more under its application. Hospital experience in all parts of the world proves its infallibility in diseases of the skin, the muscles, the joints and the glands.

ULCERS, SORES, AND TUMORS.

The effect of this unrivaled external remedy upon Scrofula, and other virulent ulcers and sores, is almost miraculous. It first discharges the poison which produces suppuration and proud flesh, and thus the cures which its healing properties afterward complete are safe as well as permanent.

WOUNDS, BRUISES, BURNS, AND SCALDS.

In cases of the fracture of the bones, injuries caused by steam explosions, BRUISES, BURNS, SCALDS, RHEUMATISM, STIFFNESS OF THE JOINTS, and contraction of the sinews, it is employed and warmly recommended by the faculty. This marvellous remedy has been introduced by its inventor in person into all the leading Hospitals of Europe, and no private household should be without it.

UNDENIABLE TESTIMONY.

The Medical Staff of the French and English Armies in the Crimea have officially signed their approval of Holloway's Ointment, as the most reliable dressing for sabre cuts, stabs, and gun-shot wounds. It is also used by the surgeons of the Allied Navies.
