WALL-STREET GOSSIP.

Robt. Cochran received the following despatch by private wire from New York to-day: The feeling among brokers and operators at the close of business and at up-town resorts was decidedly mixed as to immediate course of the market. Room traders who are regarded as representative were in the main bearish. They said they had not changed their positions and were short of stocks and the condition pointed to lower prices. Good observers thought that a drive had been made at Vanderbilt's to complete covering of shorts. In Grangers a remarkable strength in St. Paul gave rise to rumors which have been current for several days that a pool had been formed in the stock, and Mr. Armour was credited with being a member and private advices from Chicago were of a character that rather lent color to these reports. The bears were inclined to make a great deal capital out of the revival of the project to build South Pennsylvania road. Some of the more conservative commission houses think it a mistake to put so many lands upon the market at this time and record unfavorably the listing of upwards of $14,000,000 additional securities. But foreign bankers say there has been a huge stock absorption by Europe of bonds than in any period within 20 years.

A FEW CHOICE LOTS, beautifully situated, are placed in my hands for sale. The supply of good lots is limited on account of the situation of the town. The town has almost unlimited advantages in the way of position, water power, railway and waterway accommodation and mineral resources. The tide of Western commerce, diverted now in that direction, has brought its unsurpassed advantages to notice, and the place has doubled in population in six months. An official of the C.P.R. said at a banquet there that the C.P.R. shops and roundhouses now being built would be the largest on the whole C.P.R. system. Prices and particulars at my office.
