COMMISSION IS GIVEN EXTRAORDINARY POWER

Will Compel Corporations to Give Safe and Adequate Service—Prohibits Free Passes.

ALBANY, June 28.—Powers of the most extraordinary and sweeping character have been given the public utilities commission, appointed by Governor Hughes to-day. The bill creating the commissions, which was earnestly advocated by Governor Hughes, marked what was probably one of the most important steps to meet the present demand thruout the country for stricter and more detailed supervision of corporations. The commission will have a free-handed control, and will be required to enforce the regulations provided for in the measure for the conduct of public service plants, except telephone and telegraph plants.

It will be their duty to compel all corporations to give safe and adequate service at just and reasonable rates; to prevent all rebates and discriminations in rates between different classes of shippers or passengers or kinds of traffic to compel all common carriers to have sufficient cars and motive power to meet all requirements for the transportation of passengers and property which may be reasonably anticipated, and to see that common carriers are held liable for loss or damage due to delay in transit occasioned by negligence.

The bill prohibits free passes, except in a few limited instances. It provides that no franchise shall be capitalized in excess of the amount actually paid to the state as consideration for granting the franchise; that the capital stock of a corporation formed by the merger or consolidation of two or more corporations shall not exceed the sum of the capital stock of the corporation so consolidated at their par value, or such sums and any additional sums actually paid in cash; that no contract for consolidation or lease shall becapitalized in the stock of any corporation whatever; and that no corporation shall hereafter issue any bonds against or as a lien upon any contract for consolidation or merger; and that no corporation shall purchase or hold stock in another such corporation or common carrier unless authorized by the commission.

German Yachts for Boston.

KIEL, Germany, June 28.—The Witelsbach II., Tilly X. and Angela IV. are the three small raters which probably will be chosen by the Imperial Yacht Club to race the three boats of the Eastern Yacht Club of Boston, Mass., in these waters, beginning Aug. 15, as they showed up best in the four races, which ended yesterday, in which there were 24 German, two Belgian and two Spanish entries. The Wittelsbach II. was first in the races June 22 and 24. The Tilly X. also won two races, one June 20 and the other yesterday, when Prince Henry of Prussia sailed her. Crown Prince Frederick William came in second with the Angela IV.

All three of the German contestants are new boats. The Tilly X. is owned in Hamburg, but Prince Henry will probably sail her in the races with the American boats. The Angela IV. is owned by the crown prince.

Two other yachts are under consideration—the Seehund and the Wannsee. All the German competitors were built on ideas and plans brought from the United States, after the races in 1906. Their sails are also from American models. German yachtsmen doubt whether the German boats will win, but look forward to learning much from the American visitors.
