THE PRINCIPAL begs to inform his Friends, and the Public generally, that the School House will be opened for the reception of the Pupils on Wednesday, the 3rd instant.

The Play Ground has been greatly enlarged, and the Pupils will now be under constant surveillance during the hour of recreation.

The Building is undergoing a thorough repair, and will shortly be ready for the reception of the Boarders. There will be a few vacancies, at moderate terms.

The character of the School, for efficient instruction, is well known as being superior to that of any other Educational Establishment in Montreal. The Principal is engaged in making arrangements for further improvements. Parents who have been disappointed in securing an education for their children, and have been spending their money to no purpose, have an opportunity of redeeming lost time, by placing their sons at the St. Urbain Street Academy.

The Winter Quarter will commence November 1st, but Pupils can enter at any time, and will be charged from the time of entrance.

In consequence of the loss sustained by the late fire, the Principal respectfully requests his Friends to forward the amount of Quarterly Fees as early as possible.

Principal.

PROSPECTUS
OF THE
CANADIAN INDEPENDENT;
A NEW PAPER,

To be published simultaneously in the Cities of Hamilton and Toronto, chiefly designed to promote, by peaceable means, Separation from the Mother Country.

THE Undersigned, having secured the assistance of several gentlemen of experience and ability; and made the necessary arrangements, will publish simultaneously in this City and Toronto, on or before the First Day of October next, a Paper under the above designation, intended, mainly, to promote the object referred to.

In making this announcement, he begs, most emphatically and distinctly, to disclaim all connection with either of the great political Parties at present existing in the Province, and will confine himself, as closely as possible, to the question of *Canadian Independence*, which, in his opinion, must hereafter take precedence in importance over all others.

The necessity of an organ to represent the views, and advocate the principles, of that portion of the people of Upper Canada, who have already come to the conclusion that the time has arrived when the connection between the North American Provinces and Britain is injurious to the interests of both, and ought to be terminated, has induced the Subscriber to undertake the onerous task of becoming chief Editor of the INDEPENDENT. In Lower Canada, with two or three exceptions, the entire Press, both French and English, has declared for the cause of Independence. In this section of the Province, however, the virulence of party, and the complete subserviency of nearly the whole Press to party purposes, have been such as to deter even the Conductors of those Journals, whose opinions are known to be favorable, from espousing the cause.

When so large a proportion of the Press in the other section of the Province, and so many individuals of respectability and intelligence in this, entertain principles and views similar to those which this Paper is intended to advocate, the Undersigned considers it unnecessary, in a mere Prospectus, to enter into the reasons which may seem to justify the advocacy of such a measure. It will be sufficient to state, that these reasons are of both a Political and Commercial nature, and the measure will be advocated on the broad grounds of Political and Commercial necessity.

From the sentiments distinctly enunciated on various occasions during the last few years, by English Statesmen and Writers of eminence, no reasonable doubt can be entertained that, whenever a majority of the people of the Colonies shall, through their Representatives in Parliament, ask to be freed from Imperial connection, their request will be conceded. Indeed, those who have attentively noted the sentiments propounded by the leading politicians in Britain, of the present day, must have noticed a growing desire to be relieved from the government of these Colonies, so soon as it can be done with honor and safety; whilst others, whose influence has already effected one of the greatest changes in the Commercial policy of the Empire which the world has witnessed, do not hesitate to express an opinion that the Colonies should be abandoned without delay. It is believed that a great majority of the people of Canada, influenced by the opinion that the Province would be permanently and materially benefited by the attainment of this end, are already favorably inclined.

In Lower Canada, which contains considerably more than one-half of the entire population of the Province, and where the Press has taken the initiative, the feeling amounts almost to unanimity; and in Upper Canada, a very large proportion, if not an actual majority of the people, may be regarded as entertaining similar sentiments.

It is quite unnecessary to enter into an explanation of the causes which have led to this desire—mutually entertained in Britain and Canada—for separation. They are known to all. The measures adopted recently by the Imperial Government, have not only placed these Provinces on the same footing as strangers, but they are actually kept, by barriers and restrictions, to which they can exercise no control, from a participation, on favorable terms, in the trade of any country in the world.

As the British Provinces are so geographically situated, in relation to the United States, as to render them commercially dependent upon each other to a very large degree, the attainment of Canadian Independence can only be regarded as a necessary preliminary to admission into the American Union. The advocacy of the one necessarily involves that of the other. The subject is, therefore, one of equal interest to our neighbors on the other side the lines, who will always find, in this Journal, a reflex of public opinion on this and other subjects interesting to them as well as to us.

In order to render the INDEPENDENT in every way worthy of public support, a considerable portion of its columns will be devoted to AGRICULTURE, COMMERCE, MANUFACTURES, MINING INTELLIGENCE, RAILWAYS, FOREIGN and DOMESTIC NEWS, and general LITERATURE. It will be published weekly, until a sufficient amount of circulation can be obtained to warrant a semi-weekly issue—as a large quarto sheet—similar in size and appearance to the New York *Albion*.

The terms will be FOUR DOLLARS per annum, payable in advance.

Persons desirous of promoting the views above expressed, are earnestly requested to exert themselves in procuring Subscribers and Advertising.

Agents will also be sent through the country, for the purpose of extending the circulation.

As very large editions of the first few numbers will be printed, Advertisements will obtain a wide and general circulation.

Letters on business to be addressed (post paid) to the Subscriber, at Hamilton.

IMPORTANT TESTIMONIALS.

Copy of a letter from "COLONEL HAWKER," (the well known Author of "GUNS & SHOOTING.") *Longparish House, near Whitchurch, Hants October 21st, 1846.*

SIR,—I cannot resist informing you of the extraordinary effect that I have experienced by taking only a few of your LOZENGES. I had a cough for several weeks, that denied all that had been prescribed for me; and yet I got completely rid of it by taking about half a small box of your Lozenges, which I find are the only ones that relieve the cough without deranging the stomach or digestive organs.

I am, Sir, your humble servant,
P. HAWKER.

ANOTHER INSTANCE OF THE GOOD EFFECTS OF KEATING'S COUGH LOZENGES, UPWARDS OF TWENTY-ONE YEARS' STANDING.

LIVERPOOL, 6, Bold Place, Jan. 26, 1848.

MY DEAR SIR,—I have great pleasure in informing you that my wife has received great benefit from the use of Keating's Cough Lozenges, you recommended her a short time since. Previous to this she had been troubled with a severe cough, and was under some of our first medical men here without experiencing any relief; however, Keating's Lozenges have done wonders.

With respects, believe me, your's faithfully,
THOS. MAYOR.

RESTORATION OF VOICE BY KEATING'S COUGH LOZENGES.

GLASGOW, 12th January, 1847.

SIR,—I have great pleasure in informing you of the great good your excellent COUGH LOZENGES have done me. In December, 1845, I caught a severe cold from riding two or three miles, one very wet night, which settled in my lungs, and quite took away my voice, so that I could not speak above a whisper from that time until December last. I tried all kinds of medicines, but they were of no avail. I was then advised to try your Lozenges, which I did only to please my friends; but before I had finished a 2s. 9d. tin, my voice, to my great joy, came back as strong as ever.

I am, Sir, your's respectfully,
JAMES MARTIN.

ANOTHER VOLUNTARY TRIBUTE TO WISTAR'S BALSAM.

WINTHROP, Kennebec County, Maine, August 12, 1845.

DEAR SIR,—If my testimony in favour of your valuable medicine will do you any good, or be of any service to the sick and afflicted, you are welcome to make such use of it as you please. For seven or eight years I have not enjoyed perfect health. In the spring of 1844 I had some cough; I was then in Worcester County, Mass., and applied to a physician, who gave me some medicine, but it did not relieve me. I was not able to work during the summer. Last fall I was much worse, so reduced by coughing, and sweating nights, that I was obliged to take my room. My physician tried in vain to remove my cough, and restore me to health, but I did not expect to recover; I however concluded to try Wistar's Balsam of Wild Cherry; I was then troubled with very frequent spells of coughing, night and day; before I had taken one bottle, my cough was easier; I continued to take the medicine until I was able to leave my room. I have taken several bottles, and I think Wistar's Balsam of Wild Cherry has cured me; at least, I feel as well and as strong as I have for twelve years.

TURKISH BLACK SALVE

UNDER THE PATRONAGE OF THE HONORABLE THE EAST INDIA COMPANY.

THIS SALVE, prepared from the original recipe procured from a celebrated Turkish Hakim, (physician) of Smyrna, in Asia Minor, and which has obtained an unprecedented celebrity in Great Britain and the East Indies, from the astonishing Cures performed by it in both these countries, has lately been introduced into Montreal. As might be expected, its popularity has followed it, and its use is becoming general among all classes. The Proprietors, prompted by the very flattering reception it has met with in the Metropolis, have determined on extending its usefulness to all other parts of Canada; and, for that purpose, have established agencies in all the principal Cities. They flatter themselves that when its wonderful properties shall become more generally known, they will meet with that encouragement which the introduction of such a valuable medicament into a country justly entitles them. The contracted limits of an advertisement necessarily precludes their entering into any adequate detail of its merits, but, for the information of the public, they intend to publish, from time to time, such statements of cures as have or may occur, and for the present will content themselves with merely enumerating some of the complaints for which it has been used with the most complete success—Soft as Swollen Glands, Broken Breasts, White Swellings, Cuts, Whitlows, Scalds from 8 months' explosions, or other causes, Burns, Scrofulous Sores, Sore Nipples, Carbuncles, Scald Head, Gun-shot Wounds, Bruises, Bites of Snakes, Wasps, Chilblains, Ulcerated Legs, Quinsy Sore Throats and Bunions. If used in time, it will prevent or cure Cancers, also, Swellings arising from a blow on the Breast, Ring Worm, Pains in the Back, Rheumatism, Gout, Pains in the Chest, Palpitation of the Heart, Complaints in the Liver, Spine, Heart and Hip, Rushing of Blood to the Head, Swelled Face and Toothache. Its benefits are by no means confined to the Human race, but it extends its healing qualities to the Brute creation. It is an excellent application for Saddle and Harness Galls, Broken Knees, Cracked Hoofs, &c., &c.—In fact, it is impossible to enumerate half the complaints that have been cured by the application of this Salve. It is very portable—will keep in any climate, and requires little or no care in its application, as it may be spread with a knife on any substance, such as chamois leather, linen, or brown paper.

Sold in Montreal by J. S. LYMAN, Place d'Armes; SAVAGE & Co., Notre Dame Street; URQUHART & Co., Great St. James Street, and LYMAN & Co., St. Paul Street, and by all the principal Cities in Canada.

All Letters must be addressed, and addressed to Messrs. SOMERVILLE & Co., Post-Office, Montreal.

REDUCED RATES OF PREMIUM—HALF CREDIT RATES OF PREMIUM.

THE great and decided success which has attended this Institution has induced the Directors to REDUCE the RATES originally required in British North America to the ordinary European Rates. The result of such Reduction is to enable parties to avail themselves of the important benefits of Life Assurance at much lower Rates of Premium than those of any other Assurance Company transacting business in Canada.

The Directors have also resolved to extend to British North America the advantages afforded by the HALF CREDIT RATES of PREMIUM which have been so highly approved and are so generally adopted by Policy Holders in the United Kingdom. The most liberal conditions are likewise offered to the Assured in the limits to which they may proceed by sea or land, to other parts of North America without affecting their Interest in their respective Policies.

HOLLOWAY'S PILLS.

CURE OF ASTHMA.

Extract of a Letter from Mr. Benjamin Mackie, a respectable Quaker, dated Creenagh, near Loughall, Ireland, dated September 11th, 1848.

To Professor HOLLOWAY:

RESPECTED FRIEND,—Thy excellent Pills have effectually cured me of an Asthma, which afflicted me for three years to such an extent, that I was obliged to walk my room at night for air, afraid of being suffocated if I went to bed by cough and phlegm. Besides taking the Pills, I rubbed plenty of the Ointment into my chest night and morning.

CURE OF TYPHUS FEVER, WHEN SUPPOSED TO BE AT THE POINT OF DEATH.

A respectable female, in the neighborhood of Loughall, was attacked with Typhus Fever, and lay for five days without taking any description of food. She was given over by the Surgeon, and preparations were made for her demise. Mr. Benjamin Mackie, the Quaker, whose case is referred to above, heard of the circumstance, and knowing the immense benefit that he himself had derived from Holloway's Pills, recommended an immediate trial, and eight were given to her, and the same number was continued night and morning for three days, and in a very short time she was completely cured.

N. B.—From advice just received, it appears that Colonel Dear, who is with his Regiment in India, the 21st Fusileers, cured himself of a very bad attack of Fever by these celebrated Pills. There is no doubt that any Fever, however malignant, may be cured by taking night and morning, copious doses of this fine medicine. The patient should be induced to drink plentifully of warm linseed tea or barley water.

CURE OF DROPSY IN THE CHEST.

Extract of a Letter from J. B. Mundy, Esq., dated Kennington, near Oxford, Dec. 2nd, 1848.

To Professor HOLLOWAY:

SIR,—My Shepherd for some time was afflicted with Water on the Chest, when I heard of it, I immediately advised him to try your Pills, which he did, and was perfectly cured, and is now as well as ever he was in his life. As I myself received so astonishing a cure last year from your Pills and Ointment, it has ever since been my earnest endeavor to make known their excellent qualities

THE EARL OF ALDBOROUGH CURED OF A LIVER AND STOMACH COMPLAINT.

Extract of a Letter from His Lordship, dated Villa Nevina, Leghorn, 21st February, 1845.

To Professor HOLLOWAY:

SIR,—Various circumstances prevented the possibility of my thanking you before this time for your politeness in sending me your Pills as you did. I now take the liberty of sending you an order for the amount, and, at the same time, to add that your Pills have effected a cure of a disorder in my Liver and Stomach, which all the most eminent of the Faculty at home, and all over the Continent, had not been able to effect; nay, not even the waters of Carlsbad and Marienbad. I wish you another Box and a Pot of the Ointment, in case any of my family should ever require either.

Your most obliged and obedient servant,
(Signed) ALDBOROUGH.

Mr. Mate, a Storekeeper of Gundegai, New South Wales, had been for some time in a most delicate state of health, his constitution was so debilitated that his death was shortly looked upon by himself and friends as certain; but as a forlorn hope, he was induced to try Holloway's Pills, which had an immediate and surprising effect upon his system, and the result was to restore him in a few weeks to perfect health and strength, which he enjoyed ever since. He considered his case so extraordinary that he, in gratitude, sent it for publication, to the "Sydney Morning Herald," in which paper it appeared on the 2nd January, 1849. HOLLOWAY'S OINTMENT

CURE OF RHEUMATISM AND RHEUMATIC GOUT.

Extract of a Letter from Mr. Thomas Brown, Landlord of the Waterloo Tavern, Cockermouth, Yorkshire, late of the Life Guards, dated September 28th, 1848.

To Professor HOLLOWAY,

SIR,—For a long time I was a Martyr to Rheumatism and Rheumatic Gout, and for ten weeks previous to using your medicines I was so bad as to be unable to walk. I had tried dreaming any medicine of every kind, but all to no avail, indeed I thought I should never feel that I must shortly die. From seeing your remedies advertised in the paper I take it, I thought I would give them a trial. I did so. I rubbed the Ointment in as directed, and kept cabbage leaves on the parts thickly spread with it, and had to do so for a fortnight and more. In three weeks I was enabled to walk about for an hour or two in the day, with a stick, and in seven weeks I could go any where without one. I am now, by the blessing of God and your medicines, quite well, and have been able to follow my business for more than seven months, without any symptoms of the return of my old complaint.

Because my case of Rheumatic Gout, I have long had proof that your Pills and Ointment will heal an old wound or ulcer, as a married woman, living near me, had had a bad leg for four years, which she could cure, and I gave her some of your Pills and Ointment, which soundly healed it, when nothing else would do it. For your information, I list the time I served my country for twenty-five years in the Regiment of Life Guards, and was righteous Corporal. I was two year in the Peninsula, and was at the Battle of Waterloo. I was discharged with a pension, on the 2nd September, 1833. The Commanding Officer at the time was Lieut.-Gen. Ingoldsby, who is now a General. I belonged to his troop, Captain the Honorable Henry Baring.

CURE OF A BAD LEG OF TWENTY-ONE YEARS' STANDING.

Extract of a Letter from Mr. Andrew Brock, Blacksmith, Eyemouth, near Berwick, dated the 10th of August, 1848.

To Professor HOLLOWAY.

SIR,—With pleasure and gratitude I have to inform you that after suffering for twenty-one years with a bad leg, which yielded to no kind of treatment, although I consulted, at different times, every medical man of eminence in this part of the country, but to no purpose. I was frequently unable to work, and the pain and agony I often endured no one can tell. My leg is now as sound as ever it was in my life by means of your Pills and Ointment, which I purchased from Mr. I. Davidson, Druggist, Berwick upon-Tweed, who knows my case well, and will I am sure, be happy to certify with me, if necessary, as to the truth of this wonderful cure.

(Signed) ANDREW BRACK.

AMPUTATION OF TWO TOES PREVENTED.

Extract of a Letter from Mr. Oliver Smith Jenkins, dated Falkirk, August 13th, 1848.

To Professor HOLLOWAY,

SIR,—I was superintending, about six months ago, the erection of one of our Railway Bridges, and of the fall of a large stone my right foot was grievously bruised, which ultimately got so bad, that I was advised to go to Edinburgh to consult some of the eminent Surgeons, which I did, and was told that in order to save my foot, two of my toes must be taken off.—In despair, I returned home to implore the mercy of my wife, who tought to persuade me to try your Pills and Ointment, which I did, and was by them in three weeks enabled to resume my usual occupation, and at the time my toes are perfectly cured.
