$1600, and two or three more than $100,—all of which has been paid over to them.—Some portion of the $15 660 was used for the protection of the wives and children being in other quarters. In some instances the slaves have appropriated their earnings to free their mothers from bondage.—*Boston Journal.*

SIR JOHN FRANKLIN.—The New York Express says:

"We hear that Sir Henry Bulwer, the British Minister, has brought out with him letters from Lady Franklin, in reference to the painful absence of her husband, which were addressed for the President, and have been duly presented. What they contain has not transpired; but Sir Henry (so the story goes) will shortly enter into negotiations with the State Department in relation to this matter, which may tend soon to end quites us."

THE ATLANTIC AND PACIFIC CANAL.—The N. Y. Tribune says:

"We are assured that the Ocean Ship Canal Company have not decided to terminate their Canal at the Gulf of Fonseca, but at *Realejo* in Nicaragua, one hundred miles south of the Gulf of Fonseca, which is in Honduras. They consider their route better and cheaper, as well as much shorter than that by Fonseca."

FATHER MATTHEW lately paid a visit to President Taylor at Washington. The National Intelligencer states that the health of the Reverend Father is so delicate, that it is his purpose to hasten to the South with all convenient speed, intending, however, to return North next Spring or Summer, and afford the citizens of Washington the happiness of a longer visit.

A serious fire occurred at Akron, Ohio, on the 27th ult., destroying 13 buildings, including the bank, the funds and books of which were saved. The Post-office was also nearly consumed. Loss about $50,000.

GEORGIA.—The following resolution has been reported to the Legislature of Georgia, by a joint committee of that body:—

Resolved, That in the event of the passage of the Wilmot proviso by Congress, the abolition of slavery in the District of Columbia, the admission of California as a State, or its pretended organization, or the continued refusal of the non-slaveholding States to deliver up fugitive slaves as provided in the Constitution, it will become the immediate imperative duty of the people of this State to meet in Convention, to take into consideration the mode and measure of redress.

A TELEGRAPHIC FEAT.—The telegraphic line from New York to Boston, under *House's printing patent*, last week transmitted from New York and printed at Boston, three thousand words in two hours!

MISCELLANEOUS.

NOTICE TO MARINERS.—A new Light House has been built upon the Rock called "Ship of Saulx," at the mouth of the Frith of Clyde.—The light will be known to mariners as a fixed Red Light, and will be visible in a South-Westerly direction from N. W. ¼ W. round to S. E. by E ½ E. The Lantern is elevated 135 feet above the level of the sea; but the light being *red*, will not be seen at a greater distance than about five leagues, and at lesser distances according to the state of the atmosphere.

IMPORTANT TO THE BRITISH WEST INDIES.—The London Journal of Commerce contains the following:—

"In the sugar market yesterday there was a report current of a most important character.—Its truth was vouched for by several of the most influential merchants in Mincing-lane, and was to this effect:—That government had determined to abandon the blockade of the Coast of Africa; and, in order to show its sincerity in the cause of the abolition of the slave trade, had resolved to retrace its steps by *retaining permanently* the present differential duties on the produce of slave labour. If this report be well founded, our sugar colonies will have reason to rejoice, while the public at large will still reap the advantage of cheap sugar."

LATE AND IMPORTANT FROM BRAZIL.—A private letter to the Courier announces the intention of the Brazilian government, combined with that of Paraguay, to commence war on Buenos Ayres.—Transports for the Paraguay troops had already been forwarded. A large body of Brazilian troops had been there for some time past at Corrientes.

NICARAGUA.—Further intelligence from Jamaica confirms the importance. It appears that the English Government has decided [illegible] Mosquito territory.

ERUPTION OF A VOLCANO IN JAVA.—A letter from Batavia (Java) of the 27th Sept. gives some account of a late eruption of Mount Merapis, a volcano in the island of Java, believed to be extinct. The eruption began on the morning of the 11th Sept. [illegible] a violent hurricane, and lasted till the evening of the 13th—more than three days. The ashes in some places were [illegible] flames and large quantities of stones and ashes. This matter, impelled by the action of the wind, was spread through the whole district of Kedoe, and also those of Djokjakarta and Surakarta. At several points the soil was covered with ashes to the depth of three inches. The rising of Blongas was almost wholly filled up, and it is feared that its waters must overflow in the rainy season. The inhabitants fled, and no life was lost, but the loss of property, including coffee, tobacco, and rice, with whole fields of corn, was immense.—*London Times.*

And on two Policies at this agency on which three annual premiums only had been paid, the Bonus added was over 62 per cent, on the amount paid in, the mortality among the lives assured by this Society were 2 and 10 per cent less than had been calculated. The above are facts in favour of the "Star" which recommend it to the favorable consideration of all parties intending to insure. It is admitted by all that it is the duty of every person having relatives dependent on them to provide for them while they have it in their power so to do, and in no way can this be done so effectually or cheaply as by assuring according to their means a sum annually on a Life Policy, of which often been proved even here to be of much benefit to widows and orphans, and in very many instances in the life and health, of which we have recently had many sad proofs, that delay in these matters is exceedingly dangerous, the only time to apply is while in Health. Applicants will receive every information and attention to their requests by the Agent in Halifax, who furnishes all necessary Blanks, and Medical Examiner attends free of expense to the applicant. The great success which has attended Settlers in Upper Canada, is abundantly evidenced by the prosperous condition of the Farmers throughout the Country, and is also shown by the success of many Natives of New Brunswick and *Nova Scotia* who have settled in many Townships of the Country;—and the individual progress made by several thousands of people who have taken Lands from the Company, corroborates the success which has attended settlement in Upper Canada.

DR. S. P. TOWNSEND'S

COMPOUND EXTRACT OF

SARSAPARILLA

33, HOLLIS STREET

GENERAL AGENY—Halifax, N. S.

Wonder and Blessing of the Age.

The most extraordinary Medicine in the World.

This Extract is put up in Quart Bottles; it is cheaper, pleasanter, and warranted superior to any sold. It cures disease without vomiting, purging, sickening, or debilitating the Patient.

The great beauty and superiority of this Sarsaparilla over all other Medicines is, while it eradicates disease, it invigorates the body. It is one of the very best

SPRING AND SUMMER MEDICINES

ever known; it not only purifies the whole system and strengthens the person, but it creates new, pure and rich blood; a power possessed by no other Medicine. And in this lies the grand secret of its wonderful success. It has performed within the last two years, more than one hundred thousand cures of severe cases of disease, at least, 50,000 were considered incurable. It has saved the lives of more than 10,000 children the three past seasons.

300,000 cases of General Debility and want of Nervous Energy.

DR S P. Townsend's Sarsaparilla invigorates the whole system permanently. To those who have lost their muscular energy, by the effects of medicine, or indiscretion committed in youth, or the excessive indulgence of the passions, and brought on by physical prostration of the nervous system, lassitude, want of ambition, fainting sensations, premature decay and decline, hastening toward that fatal disease, Consumption, can be entirely restored by this pleasant remedy. This Sarsaparilla is far superior to any

INVIGORATING CORDIAL.

As it renews and invigorates the system, gives activity to the limbs, and strength to the muscular system in a most extraordinary degree.

Consumption Cured.

Cleanse and Strengthen. Consumption can be cured *Bronchitis, Consumption, Liver Complaint, Colds, Catarrh, Coughs Asthma, Spitting of Blood, Soreness in the Chest, Hectic Flush, Night Sweats, Difficult or Profuse Expectoration, Pain in the Side, &c., have been and can be cured.*

Spitting Blood.

DR S P Townsend—I verily believe your Sarsaparilla has been the means, through Providence, of saving my life. I have for several years had a bad Cough. It became worse and worse. At last I raised huge quantities of blood, had night sweats, and was greatly debilitated and reduced, and did not expect to live. I have only used your Sarsaparilla a short time, and there has a wonderful change been wrought in me. I am now able to walk all over the city. I raise no blood, and my cough has left me. You can well imagine that I am thankful for these results.

Your obedient servant,
WM. RUSSEL, 65 Catherine-st.

Fits! Fits!! Fits!!!

DR. S P Townsend, not having tested his Sarsaparilla in case of Fits, of course, never recommended it, and was surprised to receive the following from an intelligent and respectable Farmer in Westchester County:

Fordham, August 18, 1847.

DR. S P. Townsend—Dear Sir: I have a little girl, seven years of age, who has been several years afflicted with Fits; we tried almost every thing for her, but without success; at last, although we could find no recommendation in your circulars for cases like hers, we thought, as she was in very delicate health, we would give her some of your Sarsaparilla, and are glad we did, for it not only restored her strength, but she has had no return of the Fits, to our very great pleasure and surprise. She is fast becoming rugged and healthy for which we feel grateful.

Yours respectfully, JOHN BUTLER, Jr.

Female Medicines.

DR. S. P. Townsend's Sarsaparilla is a sovereign and speedy cure for Incipient Consumption, Barrenness, Prolapsus Uteri, or Falling of the Womb, Leucorrhœa, Piles, Leucorrhœa, or Whites, obstructed or difficult Menstruation, Incontinence of Urine, or involuntary discharge thereof, and for the general prostration of the system—no matter whether the result of inherent cause or causes, produced by irregularity, illness or accident. Nothing can be more surprising than its invigorating effects on the human frame. Persons all weakness and lassitude, from taking it, at once become robust and full of energy under its influence. It immediately counteracts the nervousness of the female frame, which is the great cause of Barrenness. It will not be expected of us, in cases of so delicate a nature, to exhibit certificates of cures performed, but we can assure the afflicted, that hundreds of cases have been reported to us. Thousands of cases where families have been without children, after using a few bottles of this invaluable Medicine, have been blessed with fine, healthy offspring.

Great Blessing to Mothers and Children.

It is the safest and most effectual medicine for purifying the system, and relieving the sufferings attendant upon childbirth ever discovered. It strengthens both the mother and the child, prevents pain and disease, increases and enriches the food; those who have used it, think it is indispensable. It is highly useful both before and after confinement, as it prevents diseases attendant upon childbirth—in Confinement, Piles, Cramps, Swelling of the Feet, Dependency, Heartburn, Vomiting, Pain in the Back and Loins, False Pains, Hemorrhage, and in regulating the secretions and equalizing the circulation, it has no equal. The great beauty of this medicine is, it is always safe, and the most delicate use it most successfully, very few cases require any other medicine, in some a little Castor Oil, or Magnesia is useful. Exercise in the open air, and light food with this medicine, will always secure a safe and easy confinement.
