LISTOWEL STANDARD.

FRIDAY, JUNE 20, 1879.

TOWN AND COUNTRY.

To-morrow will be the longest day in 1879.

Winnipeg has the measles and a lager beer brewery.

Bean & Gee pay the highest price for farmer's produce.

Fresh fish from the lake every morning at Barnes' fruit store.

A large assortment of Bird Cages, at low prices, at Smith Bros.

S. BRICKER & Co. make a specialty of milk cans and dairy utensils.

LOST.—Mr. W. H. Moore advertises a pocket book, containing cash, notes, etc.

The luscious strawberry has arrived, and is putting up at the green grocers round the corner.

MR. WM. LOWE, has been appointed caretaker of the C. M. Church. Lowe understands his business.

P. D. & L. H. R.—The travelling public should remember that the south bound train leaves Listowel at 12.45 p. m. instead of 1.10 p. m. as formerly.

ANOTHER cold wave this week. Jack Frost is an altogether too frequent visitor this season to retain the respect of the man who owns a garden.

MR. B. F. BROOK has made arrangements to have his wool carding and spinning done at his brother's factory in Simcoe until the Listowel Woolen Mills are rebuilt.

The *Canada School Journal* for June contains a variety of information anent educational matters. It should be read by all interested in the profession, and especially by teachers.

Something that is wanted, which you will find at your doors every morning—fresh picked Strawberries, the lowest in town, constantly on hand at Barnes' fruit store. Wait till he calls.

The Rev. John Kay was unanimously received by the General Assembly of the Presbyterian Church in Canada, and his induction into the charges of Milverton and North Mornington will take place in due course.

SOME of our piscatorially inclined citizens have lately been indulging in fishing expeditions to the trout streams that are to be found a few miles from here. Sometimes they catch something and sometimes they don't.

PEDESTRIANISM.—Another walking match is to take place in the skating rink this evening, the contestants being Will. A. Damer and Robt. M. Kay. Damer is to cover ten miles, while Kay walks nine and a half miles. The Band will be present.

KNOX CHURCH.—Rev. Mr. Jones of Brussels, occupied the pulpit of Knox Church on Sabbath last, Rev. Mr. Bell being in Ottawa attending the General Assembly. There will be no service in the Church next Sabbath owing to the pastor's absence.

DEAD BEATS.—The Wingham *Times* publishes a "black list" of its delinquent subscribers. The man who is mean enough to cheat the printer out of his hard earned dues richly deserves the exposure which the press is capable of making of him.

EXCURSION TO ERIE.—On Tuesday 24th inst., the masons of Stratford and representatives of the corporation will have an excursion via. the P.D. & L. H.R. and steamer Gazelle, to Erie, Pa. The train will leave Stratford at 6 a. m. Fare for the round trip, $2.50.

HANLAN.—News of the Hanlan-Elliott boat race was received at the Montreal Telegraph Office here, some time before eight o'clock on Monday morning. Considerable interest had been taken in the race by our townspeople, and the result was hailed with general satisfaction.

A GANG of G. W. R. wood sawers (colored) arrived in Listowel last Saturday and commenced operations on a 500 cord pile of maple at the depot. The darkies have walked through those 500 cords at the rate of considerable over a hundered cords a day.

A TEAM of horses ran away from in front of the Dominion hotel, on Wednesday, and wheeled up Main street at a terrific pace. In turning the corner they nearly ran over a lady who was crossing the street at the time. The horses belonged to a Mr. Clippardt.

SUICIDE.—James Carpenter, a shoemaker who has lived in Dublin for a number of years past, committed suicide on Sunday morning by cutting his throat with a razor. He died in a few minutes after committing the deed. Excessive dissipation is said to have been the cause. He leaves a large and respected family.

SYNOD.—Rev. H. Cooper and Mr. Robert Martin are in London attending the meeting of the synod of the Diocese of Huron, which was opened on Tuesday last. His Lordship Bishop Sweatman, of Toronto, was present at the opening and assisted in the ordination of thirteen ministers. Several topics of more than ordinary importance have been brought up in the Synod this session.

RUNAWAY.—On Friday last as Thomas Jackson, accompanied by his mother, was driving up Main street, near the railway crossing, his team took fright, and becoming unmanageable, upset the wagon and threw both its occupants to the ground. Mrs Jackson was considerably bruised on one arm and side. The tongue and coupling of the wagon were broken. Neither Mr Jackson nor the team received any serious injury.

SURVEYING PARTY.—The party of surveyors engaged in locating the line of the S. & H. Ry. between this place and Wiarton, reached Listowel on their return journey last Friday. The line is now located through to the Georgian Bay. We understand that the company will wait until bonus by-laws have been submitted in those municipalities north which have not as yet granted aid to the road before the work of construction is commenced.

THE Colorado Tourist and Illustrated Guide to the Rocky Mountain Resorts is the finest specimen of Railway literature that we have yet seen. It is profusely illustrated with the picturesque scenes of the "Golden Belt Route," and is a model of typographic neatness. A copy of this elegant guide book will be mailed free to any address by applying to Harris Graffen, Buffalo, N. Y., traveling agent for the Kansas Pacific Railway.

Fresh fish from the lake every morning at Barnes' fruit store.

THE RE-COUNT.—Owing to the business of the County Court not having been completed in time, His Honor Judge Lizars was obliged to postpone the recount of ballots cast in the recent election in the North Riding of Perth. The count was consequently adjourned until Thursday, 19th inst., at 10 o'clock. Mr. Robert Smith and Mr. Idington are acting as agents on behalf of Mr. McDermott and Mr. Hay, respectively. It was expected that the recount would occupy fully two days, it is therefore not probable that the result will be known before Saturday.

Something that is wanted, which you will find at your doors every morning—fresh picked Strawberries, the lowest in town, constantly on hand at Barnes' fruit store. Wait till he calls.

STORM.—The storm on Sunday last was the most severe that has visited this section this season. Rain fell in such torrents as to render the water courses along the streets inadequate to carry off the water, and for a time cellers in the business centre of the town were in imminent danger of being submerged. The rain was accompanied with a shower of hail, which fortunately did not fall in sufficient quantity or in such force as to do much injury. Low lands may have suffered somewhat by the rise if the Maitland, otherwise the storm did but little damage hereabouts. At Toronto and other places, we notice that its effect was more severely felt, the lightning damaging several buildings; the rain fall in the city way also very great.

BETTER prices have been paid for wool in Listowel this season than in any other market in this section. Our buyers have kept up to, and at times even been in advance of Toronto quotations. The farming community evidently appreciate the benefit of this, as wool is being brought to Listowel from a much larger area of territory than during any previous season.

GOING TO HAMILTON.—By the revised list of stations of the London Conference we notice that Rev. J. G. Scott, pastor of the C. M. Church here, has been appointed to Zion Tabernacle, Hamilton. While his loss will be felt in this town beyond the limits of his congregation, the Ambitious City is to be congratulated upon the acquisition to its roll of talented ministers which it will gain by the transfer. On Sunday week Mr. Scott will probably bid farewell to the congregation to whom he has ministered with great acceptance during the past two years. His successor is Rev. R. Fowler, M. D., lately stationed at Clinton, who is well spoken of.

CONGREGATIONAL UNION.—The following is the abstract of the statistical report read at the annual meeting of the Congregational Union at Kingston recently: average attendance at all services, 9,935; total number under pastoral care, 17,711; additions to membership, 697; losses by death 80; losses by letter, 154; losses by excision 188; total number of members reported, 5,365; number of Sunday school scholars, 6,523; teachers, 1,000; baptisms, 380; number of church sittings, 21,275; value of church property, $455,875; value of parsonages, $23,525; for local church objects, $72,623; denominational, $44,424; foreign, $1,163. The next session is to be held at Montreal in June, 1880.

"It is greatly to be regretted," says the Galt *Reporter*, "that we have no mill in Canada with machinery to use our long wools. To export year after year the long wools and then import the merino goods into which these long wools are manufactured seems scarcely in consonance with the objects of the policy we have just inaugurated. Are there not capitalists enough in our country to form a joint stock company to fit up a mill? The consumption of such a mill as Rand all, Farr & Co's now of Holyoke, but once of Hespeler, would materially aid in disposing of our long wools. To export all our long wools allows other countries to fix the price."

DO NOT KILL THE TOADS.—Many gardeners already appreciate valuable services of the common toad, and afford them protection for their insect destroying propensities, while as many more, perhaps, are ignorant of their usefulness. To the latter class it may be interesting to know that toads live almost wholly upon slugs, caterpillars, beetles and other insects, making their rounds at night when the farmer is asleep—and the birds too—and the insects are supposed to be having it all their own way. English farmers understand these facts so well that toads are purchased at so much a dozen and turned loose, and the best of it is the toads generally stay at home, so the gardener is not troubled with buying his toads over again every few days.

THE N. P. AND THE SUGAR TRADE.—In a letter to the papers Mr. J. J. Bremner of Halifax says:—"Since the 1st of April there have been imported into Halifax sixteen cargoes of refining sugar, comprising 2,469 hhds., 54 tierces, 141 bags and 166 bbls., all of which pay full freight; whereas if sent to the United States there would be no profit left to the owners after paying commissions, etc.; and but for the much abused Montreal refinery these sugars could not have been brought here at all, for they are all refining sugars and unfit for grocery purposes." The *Reporter* ventures the assertion that the West India merchants have made more money since the new tariff came into operation than they did in all the five years of Mr. Cartwright's management of the country.

ANOTHER FIRE.—Between three and four o'clock on Saturday morning last the residence of James Maneer, a short distance from the G. W. R. station, was discovered to be on fire. The house, one and a-half story brick, was deserted at the time, its owner and sole occupant of late having locked it up and left it on the Thursday evening previous, he returning to Edwardsville, where he has lately been employed. The fire commenced in the vicinity of the kitchen, and was discovered by the neighbors in time to permit them to remove most of the contents, including an organ. The steamer, which arrived some time after the fire had spread to the main building, was got to work; but there being no water of any account near by, it was of little use. The building was totally destroyed. The loss is estimated at about $800. The building was insured for $400 in the Waterloo Mutual; the contents were also insured. There can be little if any doubt that the fire was the work of an incendiary.

LAWN SOCIAL.—There was a very respectable gathering of people at the lawn social given by the young men of Christ Church on Wednesday evening, and the affair was altogether very successful. During the early part of the evening the grounds presented a highly animated appearance, out door amusements such as croquet, archery, and other lawn games being heartily indulged in. After refreshments had been served, and darkness preventing the continuance of amusement outside, all present assembled in the church, when a musical and literary programme was announced by the chairman, Mr. T. G Fennell, Warden of the church. The programme consisted of the chairman's address, an anthem by the choir, solos by Misses Cousins and Smith, which were very finely rendered and elicited warm appreciation; an address by Mr. F. W. Gearing, and readings by Messrs. Dingnan, Martin and Hawkins. The choir sang the doxology at the close. Between $15 and $20 were realized by the social, which is to be devoted to church purposes. The young men desire to convey their thanks to the ladies who so generously lent their assistance towards making the social a success. No doubt the young men will take pleasure in returning the compliment at the proper time.

WALKING MATCHES.—On Thursday night of last week a walking match came off in the Skating Rink, between Messrs. Moncur of Woodstock and Will A. Damer, of this town. The distance assigned the walkists was 20 miles. For the first ten miles or so they were pretty evenly matched, Damer having taken the lead for a time by one lap, which was subsequently regained by Moncur, who continued to gain upon his opponent, until at the end of the fifteenth mile he was better than three laps in advance of Damer. At this stage the latter strained his ankle and was compelled to retire from the course, leaving the Woodstock boy the victor. The contestants are both excellent walkers, but the "terrible strides" of Moncur, who is a long limbed and powerful fellow, gave him a decided advantage over his opponent. There was a large number of people present, who seemed to take much interest in the match. On the following evening the rink was again occupied by a considerable number of people, who had collected to witness a ten mile walk between George Deverall, a Woodstock lad, and Robt. M. Kay, a local walkist. Kay made the ten miles in one hour and fifty minutes, beating his opponent's time by three minutes. When some four or five miles had been accomplished, Deverall permitted Kay to gain considerable headway, owing to a "foul" which he claimed had been committed. The match, however, was decided in favor of the first man in. While the match was in progress, considerable favoritism was manifested, which, for the good name of the youths of this town had much better have been restrained. It is to be regretted that anything in the shape of rowdyism should mar the otherwise healthy amusement which these walking exhibitions affords.

He Rather Liked it.

One of our well known citizens was sitting in his parlor the other evening surrounded by his wife and children when the conversation turned upon likes and dislikes, and taste and flavor of various condiments. One person preferred this, another that, when a little blue-eyed, four year old spoke up and said she rather liked Castor Oil! This seemed singular; but it is not surprising, when we know that she, that very morning, had been taking some of **Scott & Bowne's Palatable Castor Oil.**

While passing through this vale of tears,
Though oft beset with care,
May many long and happy years
Attend this youthful pair.

And may their life as on the day
When wedded they have been,
Be a sunshine without a cloud
Through all this mortal scene.

United both in heart and hand,
May they find many a friend,
And peace and love without alloy
Their life-long course attend,

And when, if heaven so decree
That household blossoms come,
May they be sunshine round their hearth
And not a source of gloom.

The Tonic Tinge of Iodine.

Chemists say the wonderful restoring and recreating power of **Cod Liver Oil** is to be traced to the subtle secretion of Iodine, which they find in it. Whatever the principle may be the fact is indisputable, that this product is the only known nutrient of the digestive and nervous system that under the administration of other remedies seemed to be hopelessly debilitated. Yet no one likes to take it. Now however it has in, **Scott's Emulsion**, been divested of all its unpleasant qualities by its union with the **Hypophosphites of Lime and Soda**, as to become one of the most agreeable, as will as nourishing remedies, ever offered to consumptive, Scrofulous or debilitated patients. Physicians universally admit its superiority over any combination they have used. 20
