FROM ALL OVER THE MARITIME PROVINCES

ROTHESAY

Rothesay, July 18.—For the information of many people who are inquiring when the ferryboat Premier will be on the river it may be stated that the Union Iron Works of Carleton has the work of placing the machinery in hand and will forward it to completion as soon as possible. The big upright boiler has been in position for some time.

F. C. Bogart is in possession of the mill formerly owned by Greer Bros. & Co., having bought it from the assignee. The logs and other material go with the mill. Steam has been up once or twice lately but no regular cutting has been done.

There is little complaint about the weather from the farmers who are elated over the crop prospect. Three weeks ago the grass looked anything but promising but today the chances are that the crop will be a fine one wherever the soil has any richness. The grain fields are looking as well as they have in years. The vegetables are luxuriant, though the potato bug is just as active and busy as ever. In Clifton the season is very late and the strawberries just beginning to ripen. There will be an abundance of them and well along in next week, before the season for this fruit is at its height.

If the farmer is calmly happy the summer visitor is climatic mad. The mornings are foggy, the evenings cold with a little sunshine between. Yet there are plenty here and in this vicinity and all seem to be having a pleasant time. In Fairleigh there is unusual life this summer. The addition built to Hillhurst gives Mr. Roberts plenty of room for transient and permanent guests. In addition to the families of Jas. A. Russell and F. J. G. Knowlton, who are there, P. Humphrey and his wife and children and Mrs. Gideon Prescott and Miss Berryman are expected today. Mr. Roberts' mother and niece are also with them.

Mrs. Wetmore, Mrs. Seaton's mother, is the latter's guest at Willowdale with two sons and a daughter.

Miss Edith Drake, of St. John, is visiting Mrs. E. S. Carter.

Mrs. James Domville, jr., who is spending the summer with her family at Kennedy's, is in Montreal for a few days.

Among those visiting friends here are the Messrs. Ritchie, from England, who are with Mrs. D. D. Robertson, and Samuel Scovil, who is visiting his mother, Mrs. W. E. Scovil, at Dr. Fairweather's. Mr. Scovil has been in the United States for some years in a large financial office but he always finds time to make an annual trip here.

Mrs. Katherine Steeves is visiting Duck Cove, where she has two inviting cottages of her own, built this spring for rental purposes. Her mother, Mrs. Murphy, is occupying the Steeves cottage there and Mrs. Avery is a tenant of her sister, Mrs. Steeves.

Mr. and Mrs. I. E. Moore did not arrive home from the Island until Saturday. They were at Alberton and enjoyed the trip greatly.

The interest the owners of automobiles have shown in the roads is bearing fruit for now that the weather is drier the newly made roads between Rothesay and St. John are getting into shape. The auto owners had a special grant of $500 to spend on this road and the work has been done by Messrs. Saunders and McGuire, the former being the Rothesay superintendent and the latter for Simonds, in St. John county. Both have done their work well and the roads are expected to be in first class shape for the run of autos when the governor general starts for Ellinor Home Farm about the middle of August. Near Model Farm and Hammond River the work done has made a great improvement.

HAMPTON

Hampton, Kings county, July 17.—At a meeting of the shareholders of the Hampton Cheese and Butter Factory, held in Agricultural Hall, last evening, James A. Schofield, decided to recommend the Maritime Dairy Company, who held a controlling amount of the stock, to buy and take over the remaining shares to the amount of $605, together with the interest due at 6 per cent for 1906.

The maritime company was represented by R. E. Archibald, of Sussex, who stated he would lay the matter before the company and report at a subsequent meeting. The Hampton shareholders present are James A. Floyd, Jas. E. Hoyt, E. A. Schofield, T. Wm. Barnes, J. M. Scovil, Edwin Fairweather, Arnold Fairweather, Wm. Fowler, Hamill Warnsford, E. R. Demill, Marshall Crabbe, Leonard Floyd and John Raymond. No operations have been carried on at the Hampton factory for the past two seasons.

Tingley, Alexander Rogers, Rev. Thos. Hicks and Principal Geo. J. Trueman; readings by F. L. Estabrooks and Miss Carter and music by the division choir.

Moncton, N. B., July 18—(Special)—The police are after the parties who burglarized the city market on Tuesday night. An entrance was effected through the back door, which had apparently been left so that it could be pushed open. Cash drawers in different stalls were rifled, but only $15 in all obtained; $13 from J. W. Soper's stall and $2 from G. C. Matthews' cash register. The burglars tampered with E. A. Fryers & Co's safe, but were unable to get in. Had they tried the cash registers they could have added $5 to their booty. The burglary of the market has been of frequent occurrence. About once a year, on an average, the place is entered and all loose change left behind by stall holders scooped.

Chief Rideout has taken the matter in hand and his good record in rounding up crooks leads the market men to hope he will put a stop to this final burglary. The robberies are apparently committed by a party familiar with the place.

Miss Gertie Richardson, of Sackville, who is visiting friends at Lewisville, met with a painful accident at the Baptist picnic at Point Du Chene yesterday. While passing between the cars the jolt of the train caused her to get her foot between the platform and her toes were badly crushed. It is thought they will be saved from amputation.

Members of the local club are preparing to give the visitors a good time during their stay here.

There was a wreck on the Canada Eastern branch of the Intercolonial railway yesterday. The mixed train which left here in the morning only got as far as two miles this side of Boiestown when three of the cars left the rails. Two of the cars turned turtle and were quite badly damaged, while the third did not turn over.

District Superintendent Price and Assistant Superintendent Thomas A. Hoben were passengers on the train, and while they were pretty badly shaken up they were not injured, neither were the train crew.

It is thought the accident was caused by a broken rail or a broken wheel. The road bed was badly torn up and the passengers of the express from Chatham to this city, with their baggage, had to be transferred to a train which had been sent out from Gibson and arrived here about four hours late.

An auxiliary train was also sent out from Gibson and shortly after 6 o'clock last evening the line was cleared. Today trains are running as usual.

The chairman gave a short address of welcome to the conference, and expressed the regret of the bishop at his inability to be present with them, at the conclusion of which Canon Montgomery read his annual report, after which reports from various deaneries were read by the respective delegates.

The conference then proceeded with the appointment of a committee on questions and after this had been done the chairman called upon Rev. J. E. Hand, rector of St. James' church, St. John, to read his paper on The Object and Work of the Sunday School, and How Accomplished.

Miss Connor, of St. John, read a very instructive paper on How Jesus Taught, which was listened to with great interest and heartily applauded.

Rev. Canon Cowie, of this city, read a well conducted paper on The Rector's Responsibility for the Young People of His Parish.

As many of the delegates came up from St. John by boat there was not a large attendance at the afternoon meeting. The public meeting this evening was presided over by the co-adjutor bishop and the hall was comfortably filled. Able and instructive addresses dealing with Sunday school work were delivered by Rev. W. B. Sisam, of Moncton, and Rev. Dr. Raymond, of St. John. The former gave some interesting information in regard to missionary work in Bermuda, Australia and New Zealand.

Rev. J. H. MacDonald, pastor of Brunswick street Baptist church, in response to a call from the chairman, briskly addressed the conference and his remarks were well received. The meeting closed with music and prayer by the chairman.

Safest Medicine for Women's Complaints

Women certainly do neglect themselves. They work too hard—over-tax their strength—and then wonder why they suffer with diseases peculiar to their sex.

Most cases of female trouble start when the bowels become inactive—the kidneys strained—and the skin not cared for. Poisons, which should leave the system by these organs, are taken up by the blood and inflame the delicate female organs.

Fruit-a-tives (FRUIT LIVER TABLETS.) remove the CAUSE of these diseases. "Fruit-a-tives" sweeten the stomach—make the bowels move regularly every day—strengthen the kidneys—improve the action of the skin—and *thus purify the blood.*

"Fruit-a-tives" take away those distressing headaches, backaches and bearing-down pains, and make women well and strong. "Fruit-a-tives" are fruit juices, intensified, with tonics and antiseptics added. 50c. a-box—6 for $2.50. At all druggists—or from Fruit-a-tives Limited, Ottawa. 116

SACKVILLE.

Sackville, N. B., July 18—The Christian Guardian, Toronto, for July 10, contains an illustrated account of the jubilee exercises, in connection with Albert College, Belleville, Ontario, held during the latter part of June. At one of the meetings which was open for short addresses by alumnae, Miss Emma Baker, vice-principal of the Mt. Allison Ladies' College, took part. Miss Baker is now taking a five weeks' summer course in "The Literature of the Bible," at Toronto University.

Word has been recently received from Mrs. Marny-Treble, of Toronto, that she is prepared to grant a scholarship of $80 to any Mt. Allison student at her school of household science in Toronto during the year 1907-8. The student must have graduated from the household science department at Mt. Allison and must be recommended to the appointment by the Ladies' College faculty. The scholarship covers all expenses of tuition.

Last year the scholarship was awarded to Miss Patterson, of Aylesford (N. S.), who finished her two year normal course at Sackville in 1906. Her work at Toronto was of a very high order. This was emphasized by the fact that she was employed during the month of June by the Ontario government, to hold women's institutes in Southern Ontario. Her work consisted in lecturing and demonstrating in connection with some branch of household science.

The Ladies' College for 1907-8 has just been issued. Miss Ada Florine Ayer is there announced to take the place of Dr. R. C. Archibald as director of the violin department. This position was held by Miss Ayer previously, from 1891 to 1894.

John Gee, who is now the Methodist minister at Berwick (N.S.)

TWO GOOD RACES ON MOOSEPATH

Dr. Band Captured the 2.15, and the 2.21 Went to Northern Spy

SPORT ENJOYED BY 600 PEOPLE

Three Heats Decided the 2.21 Race, But Four Were Necessary to Give the Massachusetts Horse the 2.15—Three Races Today.

The 500 or 600 people who attended the horse races on Moosepath Park Wednesday, held under the direction of the Gentlemen's Driving Club, of St. John, saw two good races, a couple of the best, in fact, that have been seen here in some years. The 2.15 class was a very prettily contested race, and the result was in doubt until the last. Dr. Band, owned by M. L. Brison, of West Newton (Mass.), and driven by P. Colline, was successful in landing first money in this event, although Lady Bingen and Estill Boy looked like winners several times. The 2.21 class was landed by Northern Spy, one of C. S. Jackson's string, driven by E. Ireland, in straight heats.

Although the crowd was not as large as might have been desired, it was a fairly good attendance considering the number that have patronized horse races here in late years. A goodly number drove out in private rigs and barouches, and two trains, one at 2 o'clock and the other at 2.30, had good passenger lists. It is estimated that a considerable sum of money was wagered on the two races.

The 2.21 Class.

It was about 2.30 o'clock when the first heat of the 2.21 class was called on. In answer to the starter, C. S. Dorrity, of Lewiston (Me.), the horses were sent away in the following order: Ruth Wilkes, pole; Daisy Wilkes, 2; Nellie Bangs, 3; Northern Spy, 4; Meadowvale, 5; Regal Pandect, 6, and Miss Littia, 7. Kremont, Etta Mae, Little Egypt and Joe Hal were drawn.

The horses were pretty well bunched all through the heat, although Northern Spy who took the lead quite early in the game, appeared to have little or no trouble to hold the position and finished first with Daisy Wilkes second.

In the second heat Northern Spy held first place from the start, although Miss Littia and Ruth Wilkes made a hard fight to overtake him. At no time in this heat or in the third did the driver of the Jackson horse seem to be urging his steed.

The third heat was almost a repetition of the second. Northern Spy held the lead from the first, closely followed by Miss Littia and Ruth Wilkes in their fight for second place.

First money was awarded Northern Spy, second to Miss Littia, third to Daisy Wilkes and fourth to Ruth Wilkes.

The 2.15.

The 2.15 race was not so easily settled, four heats being necessary to decide it. Dr. Band, after finishing fourth in the first heat, took the next three, though it was nip and tuck on several occasions, and Estill Boy and Lady Bingen were thought likely winners until the finish.

In the first heat Ada Mac drew the pole with Dr. Band second, Lady Bingen third and Estill Boy fourth. They got away well together on the first trial and Ada Mac held first postion until the last quarter pole, when Lady Bingen and Estill Boy, which had been going almost neck and neck in second place, took the lead and they came down the stretch together, Lady Bingen winning by about a foot amid the applause of the crowd. Dr. Band went off his feet at the first turn, but soon steadied down, too late, however, to make a showing. Estili Boy was set back to third place for a repetition of breaks.

In the second heat the horses were given a fine start, and at the quarter pole were going two and two, Ada Mac and Lady Bingen in the lead. It was a very pretty race, with each horse apparently straining every muscle. On the last quarter, Dr. Band drew into second place and on the turn into the stretch took the lead, when Lady Bingen broke, and romped in with a good margin. Estill Boy, which had been trailing in the rear, closed up into second place, with Ada Mac third and Lady Bingen in the rear.

In the third heat Dr. Band and Lady Bingen took the lead, but Ada Mac had secured second place at the quarter, with Dr. Band still leading. They passed the half mile post in the following order: Dr. Band, Ada Mac, Lady Bingen and Estill Boy. On the last half there were some interesting changes. Lady Bingen crawled up to second place and in turn was succeeded in that position by Estill Boy on the stretch. Driver Warren dropped one of his reins on the last turn in this heat, which caused his horse to swerve. Had it not been for that, it is thought he would have won the heat, as he was coming along finely.

The fourth, and what proved to be the final heat, saw Dr. Band and Lady Bingen in a close fight from start to finish. Ada Mac was in third place and Estill Boy trailing. They held these positions until near the last turn, when Estill Boy was seen to be coming along very fast. He passed the third horse and was up with the two leaders when he broke, and when he got his gait again the best he could do was third place, Dr. Band finishing a winner, closely pressed by Lady Bingen. This heat was watched with close attention and there were frequent bursts of applause and words of encouragement for the drivers.

Dr. Band won first money, Lady Bingen second, Estill Boy third, and Ada Mac fourth.

The officials were: C. S. Dorrity, Lewiston (Me.), starter; E. L. Jewett, St. John; George Wilson, Moncton, and Charles Day, Parrsboro, judges; John E. Wilson and S. T. Golding, timers; James McGivern, clerk of the course.

BELFRY CHIMES, FAST ONE, DEAD

Thomas Hayes Loses His Speedy Racing Horse—Promised Great Things.

General regret was expressed by horsemen throughout the city when it was learned that Belfry Chimes (2.18¼), the fast stallion owned by Thomas Hayes, of Marsh road, died Tuesday in Mr. Hayes' stable. The news will be heard by horsemen throughout the provinces and the eastern States with sorrow. Belfry Chimes was well known on maritime tracks. He was a horse possessing abundance of speed and for which a bright track future was dawning. The loss will be a big blow to Mr. Hayes, who refused an offer of some $2,000 for him only recently.

The end came very unexpectedly. It is understood that a short time ago Belfry was taken sick and that the fatal illness was a relapse. Mr. Hayes, besides being the owner, was also driver and trainer, and on Monday afternoon had his favorite at Moosepath getting in some practice in readiness for the meet which will be opened today. Belfry went three fast miles, and appeared to be in fine shape. He did one half in 1.06.

Late Monday night, after being stabled, he developed sickness. Dr. T. Fred. Johnson attended but the end came about 8.30 o'clock Tuesday night.

Belfry Chimes was by Chimes (2.30), and was raised on the Village Farm, Boston, by the Hamlins. This year saw his sixth birthday. When a two-year-old he was purchased by Mr. Hayes and brought to St. John, where he has since been. His first track appearance was last year. In July, 1906, in a match race, he defeated Flood's Black Diamond on Moosepath and he next started in Sussex, where he lowered his mark of 2.30 to 2.21¼. In Fredericton soon afterwards he secured a mark of 2.18¼, and next appeared at Moosepath, winning the 2.22 class and taking third money in the 2.19 event. He also did well in the Halifax exhibition races last fall and since then had been in the stud.

He was entered in the 2.18 event at Moosepath, also in the coming Fredericton races.

Belfry Chimes was considered to be the fastest of his class in the maritime provinces, and was developed so that his admirers predicted a 2.10 mark for him in the not distant future. His mark of 2.18¼ was only two and a quarter seconds behind the Moosepath pacing record.

Mr. Hayes will have the sympathy of all hors
