A CANADIAN MEDICINE

Which Has Made a Wonderful Reputation Throughout the World.

Every Cure Published Is Investigated by a Responsible Newspaper—The Advertiser Has Looked Into and Gives Below the Particulars of One of These Cures.

From The Advertiser, Hartland, N.B.

The Advertiser has come across still another instance of the remarkable curative powers of the famous Canadian remedy, Dr. Williams' Pink Pills for Pale People. Mr. William Tedlie of Lower Brighton, a prominent lumberman and farmer, came very near being a cripple from rheumatism, the dread disease so prevalent along the St. John River. Mr. Tedlie is now 65 years of age. Five years ago he was taken with the first symptoms of rheumatism—over exposure, the stream drives and the general hard life of the lumberman, paved the way for the lodgement of the excruciating disease. The symptoms first manifest were pains through the legs, arms and hands. Gradually conditions grew worse. At intervals there would be an abatement of the malady, but for months each year he was very nearly helpless. The pain was so agonizing that sleep was out of the question, and to work was impossible. The afflicted man had so often read of the wonderful efficacy of Dr. Williams' Pink Pills in cases similar to his own, that he resolved to try them. He says, however, that he was not hopeful of receiving much benefit, as he had tried many medicines without any good result following. He began the use of the Pills and by the time a couple of boxes were used he found they were helping him. Thus encouraged he continued the use of the medicine and gradually the pains and soreness left him, he was able to sleep soundly, and enjoyed an excellent appetite. In fact after using Dr. Williams' Pink Pills for less than two months Mr. Tedlie says he found himself in the best of health. He is now a warm friend of this great medicine, and urges similar sufferers not to experiment with other medicines but at once begin the use of Dr. Williams' Pink Pills.

Rheumatism, sciatica, neuralgia, partial paralysis, locomotor ataxia, nervous headache, nervous prostration and disease depending upon humors in the blood, such as scrofula, chronic erysipelas, etc., all disappear before a fair treatment with Dr. Williams' Pink Pills. They give a healthy glow to pale and sallow complexions. Sold by all dealers and post paid at 50c. a box or six boxes for $2.50 by addressing the Dr. Williams' Medicine Co., Brockville, Ont. Do not be persuaded to take some substitute.

MISS WIGGINS GOT MARRIED.

The Boys Went to Charivari the Couple and One Was Shot.

Orangeville, Oct. 7.—Crown Attorney McKay has just been advised of a shooting affair that occurred at lot 31 on the Centre-road in the Township of Mulmur one night last week.

It appear that a daughter of Mr. Robert Wiggins, a member of Dufferin County Council, was married on the day in question, and that night the young men of the neighborhood gathered to treat the happy couple to the customary tin-pan concert. The charivari gang kept up their persecution until they were ordered off the premises, and finally Mr. Wiggins' son, Alexander, discharged a shotgun in the direction of the disturbers.

The result was disastrous. The charge lodged in the neck and shoulders of Charles Hare, a young Nottawasaga farmer, who was one of the charivari party, and the wounded man is now in a precarious condition at his home at Lavender.

Young Wiggins will be prosecuted, together with his father, who is said to have incited the son to do the shooting.

High Constable Marshall has gone north to investigate the case.

EPWORTH LEAGUE CONVENTION.

Seventh Annual Session Begun at Oswego Yesterday.

Oswego, N.Y., Oct. 7.—The Northern New York Conference Epworth League convention began its seventh annual session here this afternoon and will continue three days. The territory reported includes 15,000 enrolled members of the league and 35,000 Methodist Church members, who are represented here by nearly one thousand delegates.

SALT LAKE CHOIR WINNERS

In the Contest for $500 and a Gold Medal.

Salt Lake City, Oct. 7.—The grand choir contest of the Eisteddfod for the $500 prize and gold medal was participated in by five choirs of 125 voices, the selections being "All men, all things" by Mendelssohn, and the "Night songs" by Stephens. The prize was awarded to the Salt Lake choir under the leadership of Prof. Stephens.

The Wabash Railroad.

With its superb and magnificent train service, is now acknowledged to be the most perfect railway system in America. The great winter tourist route to the south and west, including the famous Hot Springs, Arkansas, Old Mexico (the Egypt of the new world), Texas and California (the land of sunshine and flowers). Passengers going by the Wabash reach their destination in advance of other routes. Wabash trains reach more large cities than any other railroad in the world. Detailed information will be cheerfully furnished by any railroad agent, or J. A. Richardson, District Passenger Agent, northeast corner King and Yonge-sts., Toronto, and St. Thomas, Ont. ed

The Demon Dyspepsia.—In olden time it was a popular belief that demons moved invisibly through the abient air, seeking to enter into men and trouble them. At the present day the demon, dyspepsia, is at large in the same way, seeking habitation in those who by careless or unwise living invite him. And once he enters a man it is difficult to dislodge him. He that finds himself so possessed should know that a valiant friend to do battle for him with the unseen foe is Parmelee's Vegetable Pills, which are ever ready for the trial. ed

Telegraphic Competition Out West.

An extension of the Great Northwestern Telegraph Company's lines to Vancouver, B.C., has just been completed and an office opened at that point. As previously announced, the company has also an office in Victoria, and other extensions into different parts of the Province are under consideration. A very large amount has been expended in these extensions, and the company's facilities for handling business between these points and Eastern Canada are now unsurpassed.

William Johnston, the burly negro arrested at the Woodbine for picking pockets, was sent to the Central Prison for six months by Magistrate Denison yesterday.

OBSOLETE STATUTE LABOR.

A Bright Interview With A. W. Campbell, Ontario's Boss Road-maker—Progressive Views.

Mr. A. W. Campbell, Provincial Instructor in Road-Making, is busy compiling his annual report, which will be issued at the end of this year. His jurisdiction is the whole Province, and it is Mr. Campbell's ambition to have every road in the Province fit to play billiards on. He has very decided ideas about statute labor. The first reform must be its abolition, he says. Wherever statute labor is performed, it is done on the road in front of the property taxed; in that way labor amounting to 6000 days is scattered, and we have 1,000,000 days of statute labor, and nothing but temporary work undertaken. If a tax were collected the council could take hold of the more important roads, plan their work and let it out by contract.

The work thus done would be finished in a substantial and permanent manner, and could be extended from year to year.

Obsolete Labor.

"As a matter of fact, though, statute labor is obsolete, effete and belongs to the period when a man had to first clear the ground to build his house. As a matter of fact, farmers nowadays have no time for anything but their farms, and if statute labor were replaced by a tax the systematic work accomplished would be worth much more to him than results attained at present."

However, Mr. Campbell says: "This year is a marked one in road-making. Each municipality has this year expended on an average $5000 on its roads, outside of labor, an exceptional expenditure. But the people are awaking to the fact that to make good roads they must employ modern machinery. Heretofore, they have used no implements but the spade; they found the gravel in the raw state and put it on the road. But at present they realize that machinery is important in road-making, as in harvesting. Many municipalities have now four grading machines, each taking two teams, and good work is the result.

Some System Now.

"Also, this year, for the first time, many municipalities have prepared a proper plan of the township classifying the roads according to their importance in traffic, preparing specifications showing what the width should be, and how the road should be crowned or shaped, how drained, and the kind of gravel to be employed. It is a simple matter to lay out a plan and build a road, if the plan is followed, and reducing the work to a system by placing the plans in the hands of one man appointed and paid by the council. There is more work being done in Western Ontario than any other part just now.

Enter, a New Idea.

"No," said Mr. Campbell, "statute labor has served its purpose, and must go. It formerly was part of the plan of utility. To-day it is simply the working off of a tax, and the same with the pathmaster—he has half a dozen neighbors, and if they don't want to do their work he is not going to make enemies by forcing them to do it. An evidence of the up-to-date methods that are being now adopted is to be seen in the culverts and sluice-ways on the roads. These used to be made of timber, and cost each municipality about $2000 a year to keep in repair. However, now the method I have so long advocated is being followed; gravel is being mixed with cement, and of the concrete thus made, the culverts are being made. The first cost is in excess of the timber, but the result is permanent, and leaves an extra balance to be applied to road-making."

It may be borne in mind that Mr. Campbell is busily engaged going from place to place, educating the people as to what a road really should be, and condemning temporary and wasteful work, and the good results shown are largely due to his efforts.

COUNTERFEIT IN THE KLONDIKE.

Readily Exchanged for Gold Dust, But Returning Miners Detected the Queer.

San Francisco, Oct. 7.—It is stated that the United States secret service officers, aided by Chief Lees, have discovered that large numbers of counterfeit $100 silver certificates have been purchased in this city. The operators are reported to be under police surveillance.

The Call asserts that 5000 of these spurious bills were sent into the Klondike region. They were readily exchanged for gold dust, and their falsity was not discovered until the returning miners tried to pass them in Portland. The banks of this city, following the precedent of the institutions in the north, have refused to handle any bills of that denomination. The paper is said to be of Government make, as are also the various inks, with the exception of that with which the numbers are printed. This is of an ordinary quality and cannot withstand the action of acid.

FORTUNE HUNTER WATERLOGGED.

Picked Up in a Sinking Condition—Passengers and Crew Rescued—Deep Channel a Myth.

Seattle, Wash., Oct. 7.—The steamers Brixham and Tillamook have arrived from St. Michael's with 150 passengers, about 50 of whom were from Dawson.

On Sept. 20 the Tillamook picked up the small steam schooner Fortune Hunter of San Francisco, about 55 miles south of St. Michael's. The Fortune Hunter was waterlogged, and in a serious condition. Besides her crew, she had 10 passengers aboard, members of the Alaska and Bonanza Mining and Transportation Company of Chicago. The Fortune Hunter left St. Michael's Sept. 16 for Golovin Bay, with a barge in tow, and was caught in a storm that recently swept along the coast. The barge was beached, and the schooner stood out to sea. She became unmanageable, and was drifting south when picked up by the Tillamook, which towed her to Golovin Bay, where she was beached. An unsuccessful search was made for the barge. Sterling Martin of Chicago was left on the barge when the Fortune Hunter abandoned it.

The United States surveying party in command of Captain Pratt, which has been surveying the mouth of the Yukon, has returned to St. Michael's. Captain Pratt says the supposed deep-water channel at the mouth of the Yukon for large ships is a myth, although the party surveyed an eight-foot course through the Kisslinck Channel.

The excitement over the reported riches of Golovin Bay continues, and people are leaving St. Michael's every day in small boats.

GEN. COLLIS DENIES THE LETTER.

Says Some "Wag" Wrote It, Imitating His Chirography—Van Wyck Gets Another Letter.

New York, Oct. 7.—General Charles H. T. Collis wrote another letter to Mayor Van Wyck to-day, threatening to chastise His Honor publicly at the first opportunity. The Mayor produced the letter just as he was about to take his seat at the meeting of the Board of Estimates.

"I have here," he said, "another letter from the former Commissioner of Public Works, General Collis. I will say of it, as I have said of the last letter he sent, that I will continue to investigate any department I see fit, regardless of who may be hit, and disregarding threats of any kind."

General Collis emphatically characterizes the note received by Mayor Van Wyck, signed by him, as a forgery. He denies having written the letter or knowing anything about it, and says that some wag wrote the letter imitating his chirography.

Rope Drives Put in by Dodge Manufacturing Co. of Toronto Are Well Spoken of.

Office of the Globe File Manufacturing Co., Port Hope, Ont., Oct. 3, '98.

Copy of letter sent from the Globe File Manufacturing Company:

The Dodge Manufacturing Co., Toronto:

Gentlemen,—We are reminded by your Mr. Hass that we have not told you how we like the last rope drive. We may say immense. We put it up as per your plans, started it to run and it went off so well we have only adjusted one pulley since. You may refer persons to us when talking rope drives. We would not return to gears again for four times what the four drives cost us. We feel you have used us well; we wish you made the ropes too, as we have faith in your ability. Yours truly,

Globe File Manufacturing Company,
F. Outram, Manager.

High-Class Art Sale.

The sale of paintings which is advertised in another column to take place at the art gallery of Roberts & Son, King-street west, on Tuesday and Wednesday next, should be well attended, as some excellent examples of the different artists will be sold. The paintings are on view to-day up to 10 p.m. Mr. Wm. Dickson will conduct the sale and the pictures will be sold without reserve.

In Union There's Strength.

A quiet wedding took place Thursday evening, Oct. 6, at the residence of Mr. Burkholder, 54 Bellevue-place, where Mr. W. Hamilton, a popular salesman in John Macdonald & Co.'s gents' furnishing department, was married to Miss Esther Cook. After the ceremony the happy couple left for a short trip through the Western States.

Mr. S. J. McLeod of the Standard Life Assurance Company, who is about to leave for Winnipeg, has been presented with an elegant Bible by the Queen-street East Presbyterian Church.

THEY'LL work while you sleep without a grip or gripe, curing Biliousness, Sick Headache, Constipation and Dyspepsia, and make you feel better in the morning.

"I have had Dyspepsia and Stomach Trouble for the past two years," said Miss Ellen Whalen, Niagara Falls, Ont., "and took various remedies. Nothing did me any good except Laxa-Liver Pills, which cured me promptly and effectually."

PRICE 25c. A BOTTLE AT ALL DRUGGISTS.

CO-BO

The greatest blood tonic in the world, 25 cents a bottle. Also Female weakness and irregularities promptly relieved and permanently cured.

37 1-2 QUEEN W.

RUPTURE

Two more extraordinarily bad cases, one after vainly trying Trusses on the side, went home to London, but the truss makers there failed also. After returning home he was advised by two of his medical brethren to come to us, a distance of over 1200 miles. The other was a gentleman in this city, and, although a desperate case, we succeeded with both parties. If those who are ruptured would only get a suitable truss in the commencement they would save themselves much suffering, and many more would get cured. We warrant all our trusses.

AUTHORS & COX,
135 Church St., Toronto,
Manufacturers of Trusses and Artificial Legs.
