WAGES ARE HIGH.

So Also Are Living Expenses in the Transvaal—An Interesting Letter.

H. E. T. Haultain, writing from the Transvaal to a British Columbia paper, says:

"I see that several Slocan people are talking of coming here. Don't. Negroes do all the hard work in this country, while white men act as superintendents, so that a miner is a negro driver, which is a soft job for those who like it.

Carpenters, masons, and mechanics generally have no difficulty in procuring employment. They get from $125 to $150 per month, but expenses are very high.

"All plain drinks are two bits, and the climate makes you very thirsty. We have it from 107 to 117 in the shade already, and I have not seen the hot weather yet.

"When in London I told some city men about the Slocan Star and similar properties. They were astonished, and said if it were only in South Africa they could float such properties a dozen times over, but in Canada, no! the public would not look at mining ventures in Canada. This state of affairs will probably soon change, and London will be only too glad to take anything British Columbia offers. Meanwhile, what you want are prospectors and prospecting companies or syndicates to open up the country, and you couldn't possibly have a better man than the Western American for this kind of work."

There are certain little duties which we owe to those who reside near us, and certain little daily services that we may render them which add much to the sweetness and smoothness of life. Neighborliness is oftenest seen, perhaps among the poor, who are usually more familiar with each other, and are not kept apart by an elaborate etiquette.

A Dinner Pill.—Many persons suffer excruciating agony after partaking of a hearty dinner. The food partaken of is like a ball of lead upon the stomach, and instead of being a healthy nutriment it becomes a poison to the system. They correct acidity, open the secretions and convert the food partaken of into healthy nutriment. They are just the medicine to take if troubled with **Indigestion or Dyspepsia.**

—Another of those skating parties is to be held at the Central rink on Friday next, weather permitting, at which about 35 young people from the country will participate.

—The special services at the Grosvenor Street Baptist Church, conducted by Evangelist J.C. Appel, are growing in attendance and interest. The meetings are bright and hearty, and in addition to this are marked by great earnestness and spiritual power.

—Tuesday evening at the Central rink a popular skating party was held, at which about 40 young people took part, a great number of them from John H. Chapman & Co.'s establishment. After skating to the strains of music from Huzzars band till closing time, the ice being excellent, they adjourned to Alderman Garratt's residence, Princess avenue, and spent a few hours in social conversation and games.

—James Durdle was arraigned at the St. Thomas Police Court yesterday morning, and pleaded guilty to a charge of manufacturing illicit whisky and to making malt. He however said the malt was to be used for yeast, and not for any purpose in connection with the still. The accused was remanded till Monday for sentence, and in the meantime Collector Alexander, of London, will be communicated with in regard to the pressing of the charge of making malt.

THE TOBACCO HABIT CURED.

In the interest of the masses, for whom these reports are compiled, the United States Health Reports have examined and investigated many preparations having for their object the cure of the tobacco habit, but among them all we have no hesitancy in giving the editorial and official endorsement of these reports to the remedy known as **"Uncle Sam's Tobacco Cure,"** manufactured by the Keystone Remedy Company, at 218 La Salle street, Chicago. They are distributing literature this week all through the city, and in the light of our examinations and tests of **"Uncle Sam's Tobacco Cure,"** we are but performing a duty we owe the public when we indorse the same, and stamp it as the crowning achievement of the nineteenth century, in the way of destroying a habit as disgusting as it is common (**For Only $1**) hence we earnestly advise you to read full particulars, and if you have not seen circulars to call at **W. S. Bryers Bark-well's**, wholesale and retail agents for Canada, 268 Dundas street, London. zyw

Ald. Douglass Turns Up at No. 3 Committee.

Registers a Mild Protest Against the Legality of the Meeting, But Takes His Seat—Business Transacted.

Ald. Douglass rather surprised the Liberal members of No. 3 committee by turning up at the initial meeting last night and taking part in the proceedings. He registered a mild protest just before the minutes were read against the legality of the meeting.

"I would like to object to the meeting," said he, "because I don't think the committees were appointed legally. Still, if you are going to do business I am going to remain in the interests of my ward."

"Of course, we contend that the committees were appointed legally," said Chairman John Heaman.

"Yes," said Mr. Douglass.

"And, of course, we are going to go on and do business as far as we possibly can," continued the chairman. "Everything done will be acted upon by the Council, but there are matters in the fire hall requiring immediate attention."

"All right," assented Mr. Douglass, and the meeting proceeded.

George Nixon complained that he had been overcharged in the matter of weighing hogs on the market. He claimed to have been charged 35 cents for weighing 1,260 pounds, also that two pounds were deducted from each hog for shrinkage. Under the bylaw he held that he had been charged three times too much.

The chairman will investigate and report.

Engineer Graydon advised that a bylaw be passed to eliminate some of the difficulties experienced in apportioning street watering rates. He recommended that when a man was assessed for a corner lot that he be exempted on the smallest side, and that vacant lots, where owners are not directly benefited, be exempted.

This idea was allowed to lie over.

The communication of Weekes & Scandrett, respecting the establishment of a public abattoir was read and action deferred, to give the communicants a chance to appear.

All the aldermen present expressed themselves in regard to the matter.

"I think it will raise the price of beef," said Ald. Douglass.

"Do these people want a monopoly?" asked Ald. Nutkins.

"If they want a monopoly we will be against it," said Ald. Heaman.

"We don't want an abattoir very close to the city," said Ald. McCallum.

"They don't say where they propose to build," said the chairman.

"It won't be allowed inside the city limits, anyhow," said Ald. Douglass.

"Of course we should not ask them where they are going to build it," said Ald. Nutkins, "because it would raise the price of land in the neighborhood where land is available."

"I would advise them to build very close to where the sewers are going to empty," added Ald. McCallum.

The question of buying two new street sprinklers, and having the present ones overhauled, came up on a report of the engineer.

"Will the new sprinklers be necessary if the street railway sprinkling scheme materializes?" asked Ald. McCallum.

"We want the new carts, anyhow," said Mr. Graydon. "We are paying a dreat deal for repairs that could be better expended for new carts. Most of the watering by the street railway will be on new streets if done at all. They desire to water all streets traversed by the system to make it pay."

"There is one thing I am going to object to," said Ald. McCallum, "and that is the sprinkling of streets just before noon hour, when 300 or more bicyclists desire to ride home to their dinners."

Tenders will be called for the repairs, and the question of new carts will be settled later.

Edward Burns, Frank D. Robertson and A. Sutherland applied for positions on the fire brigade.

The four horses at the central station will be sold, and the chief, Ald. Douglass and the chairman will be a committee to purchase fresh animals.

Chief Roe's report, which appears elsewhere, was received and a number of accounts passed.

153 and 155 Dundas St. and Market Square,

LONDON'S ❋ GREATEST ❋ STORE

A REVELATION!

153 and 155 Dundas Street, Feb. 25, 1896.

THERE'S more to this business than most people think. Every day in the week, year in and year out, we print facts concerning its usefulness, and yet some never know and never seem to understand. They're usually the ones who profess to know nothing about "trade," and who assume never to mix with people "in trade." Some things here would surprise them if they knew, but of course they don't. To those who haven't studied it this store is a revelation—the business we do and the systematical way it is carried out. No pains or expense is spared to make the store indispensable to shoppers, and yet some would rather stay away and confine their impressions of the business to what they hear.

Home Comforts.

Enough of them to crowd one acre of selling space, with the impetus of a February Sale to make things lively. What we're doing this month is important enough to crowd the store. House Furnishings of every sort are selling cheaper than you expect, and dividends are declared on every investment. Here is the pith of the whole matter.

House Furnishing Sale.

Enough has been printed about each to show the trend of values. All month long we have been busy—unusually busy—on the second floor, and next week is the last chance to buy at present prices. Later on you'll have to pay more because we'll have to. Selling as we buy means handing bargains directly over to you. The special chances come and go, and the time to come for things is when they're advertised.

New Dress Goods, New Print Wrappers.

Our Gauntlet—Dress Goods. For years this stock has been the best in Canada, and this season we intend to more than hold our own. Direct importations of new goods come to us stripped of all extravagance, and the distribution has begun already. You can't order too soon now. Those who can't get to the store can shop by mail and get any of these they send for
