OXO IN CUBES

EVERY day, some clever woman discovers a new use for OXO Cubes. Every day, clever women are adopting OXO Cubes in place of "extract of beef" and "fluid Beef".

OXO Cubes have proved their superior quality—their convenience—their economy.

The OXO way is the quick and easy way of making surprises in meat dishes—of enriching soups, sauces and stews—and in making possible a constant variety to the daily menu.

Meagre Fare for Losers.

The membership contest of the Y. M. C. A. closed last Saturday, but the results will not be disclosed till Tuesday evening when the various teams meet for a dinner. The lucky boys who have secured the necessary number of points will dine on turkey, the others will be provided with biscuits and cheese.

CHARACTER BUILDING SUBJECT OF LECTURE

A. R. Pixley of the Y. M. C. A., Delivered Views on Subject, in Stone Church, Yesterday.

A. R. Pixley, boy's secretary of the Y. M. C. A., in this city delivered a lecture on Character Building in the Stone Church yesterday morning at 10 o'clock. He took his text from the third chapter of First Corinthians. He, however, spoke chiefly from the eleventh verse, which says, "For there is no foundation which a man can lay than that which is laid which is Christ Jesus." He went on to say that on this foundation a man can build gold, silver, costly stones, wood, hay and stubble. The testing power is fire which brings out the good quality of gold and at the same time burning away the inferior substances.

In our characters which we are quietly building day by day, we are putting in like substances, good friends, good books, likewise many evil things. In pointing out the difference between character and reputation, he said that reputation is what men think of us and character is what God knows about us. Reputation is the thing that passes away, while character is the thing that stands. When illustrating character he gave as an example Lord Nelson citing his last message, "England expects every man to do his duty," as clearly showing the great character that that admiral had. He also pointed out some of the events in Lincoln's life in illustration.

REMINISCENCES OF EARLY DAYS OF BONAR LAW

Continued from page one

"As a boy Bonar Law was full of animal spirits, very frank and open in his demeanor and inclined to be rather boisterous, but he gave no indication of those powers he has since developed. His mother I do not remember very well personally, but she had, I know, the reputation of being the most beloved woman in the County of Kent. Of his aunt who brought him up I have many vivid memories; she was one of the finest characters on the North Shore.

A Remarkable Man.

"His father was a remarkable man, and from him Bonar no doubt, inherited his ability. A man of fine presence and striking personality, Rev. Mr. Law probably exercised a greater influence over his flock than any minister in the province. He was a great orator; his voice was said to be the equal of that of O'Connell's or Chatham's, and he had a marvellous command of it. His form gave you the impression of colossal energy; his strong features indicated the greatness of his will and soul. The late John Livingstone, founder of the St. John Telegraph, talking to me on one occasion, said he considered Mr. Law the greatest preacher he ever heard. An extempore speaker, Mr. Law's sermons varied in excellence, but I have even yet a most distinct and vivid recollection of a sermon on "The Well of Living Waters," which in my judgment was the equal of any sermon I ever heard.

"Bonar, the boy, was himself quite a declaimer and frequently recited in public. One piece I remember hearing him recite a number of times was the Irish Ballad, 'Frederick Cohere was a broth of a boy.'

"At the time Bonar Law lived there Richibucto was one of the most thriving towns in the province. Ships were being built and large quantities of lumber exported. In the shipyards it was a common thing to see four or five big vessels on the stocks at once, and in the river almost any day in the season you could see 40 or 50 square-riggers loading lumber. At that time too, the town was remarkable for the vigor and splendor of its intellectual life, and perhaps the stimulating atmosphere which surrounded his early years, had something to do with developing those qualities which have lifted Bonar Law in reach of one of the most important positions which it is given men to fill.

Other Celebrities.

"That little community of Richibucto has produced an unusual number of notable men. David Jardine, who became one of the great merchant princes of Liverpool, was born there. Robert Hutchinson, probably the greatest bar orator ever heard in Canada, nursed the fires of his eloquence there. John Livingstone, the noted journalist, came from there. The late Charles W. Weldon, M. P., K. C., was a native of that little place. So was the late Geo. McLeod and the late Geo. V. McInerney. James D. Phinney, K. C., of Fredericton, and Dr. Murray MacLaren came from there, too. Rev. Mr. Mooney and John McPhalen, both men of extraordinary abilities, also belonged to the town."

Mr. Powell met Bonar Law when he was in England five or six years ago, and was much impressed with his personality as well as his wide knowledge of Imperial politics.

PERSONAL.

E. A. March, who spent Sunday at his home, left for Digby this morning.

Lecture Tonight.

E. M. Slater will deliver a lecture in the school room of the St. John Presbyterian church this evening to a meeting to be held under the auspices of the Senior Acorn League.

St. Peter's Y. M. A.

An interesting and instructive lecture was given yesterday afternoon in St. Peter's Y. M. A. rooms by Joseph Harrington. The lecturer took as the subject for his interesting address "Talks to Young Men."

CENTRAL BLISSVILLE NEWS JOTTINGS.

Central Blissville, Nov. 11.—On Thursday evening a large number of friends of L. B. Smith assembled at the home of A. Banks and tendered Mr. Smith an address and presented him with a gold headed cane and umbrella. After an oyster supper, served by Mr. and Mrs. Banks, the address was read and the presentation made. Mr. Smith replied warmly thanking the donors for their handsome and useful gifts. Dr. Murray from Gladstone followed, speaking of the pleasure it gave him to be present. Music and games occupied the rest of the evening.

WAS TROUBLED WITH

Weakness and Palpitation OF THE HEART.

Through one cause or another a large majority of people are troubled, more or less, with some form of heart trouble.

Little attention is paid to the slight weakness of the heart, but when it starts to beat irregularly or intermittently, palpitate and throb, skip beats, beats fast for a time, then so slow as to seem almost to stop, then it causes great anxiety and alarm.

To all such sufferers Milburn's Heart and Nerve Pills can and will give prompt and permanent relief.

They do this by their restorative influence on every organ and tissue of the body.

Mrs. John J. Downey, New Glasgow, N.S., writes:—"Just a few lines to let you know what your Milburn's Heart and Nerve Pills have done for me. I was troubled with weakness and palpitation of the heart, would have severe choking spells, and could scarcely lie down at all. I tried many remedies, but got none to answer my case like your Pills. I can recommend them highly to all having heart or nerve troubles."

Price 50 cents per box, or 3 boxes for $1.25, at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

C.M.B.A. HEARS LECTURE ON SHAKESPEARE

The second lecture of the C. M. B. A. fall and winter course was given last evening, when Rev. Dr. O'Reilly, in the presence of a large gathering delivered his lecture on Shakespeare and His Relation to Religion. The lecture delighted the large audience, the eloquence and forcible logic of the speaker captivating his hearers.

After dealing with the early life of the bard of Avon, his education, Rev. Dr. O'Reilly next took up the study of the poet and his relation to humanity, in the course of which he showed that while Shakespeare as a man is obscure in general history, as a dramatist the four quarters of the globe re-echo his praise.

The lecturer then devoted himself to a brief critical analysis of a number of the works of Shakespeare, for the creation of which he had spent 30 years of his life in London. The effect of his dramas on the London in which he lived, may be gauged by the fact that to this day, even after three hundred years, the plays of the bard of Avon still hold the stage, and Shakespeare is as much Shakespeare in the 20th Century as he was in the sixteenth.

One great moral quality belongs to Shakespeare. He must have been a man of tremendous mental energy and of tremendous industry. The inventive genius of the dramatist was then touched upon, after which by means of excerpts from several works of Shakespeare, the relationship between the poet and religion was dealt with

Y. M. C. A. Notes.

The Beaver patrol of Boy Scouts left the association building Saturday afternoon at 2.15. They explored Howe's cave and from there went to the scout cabin at Long Lake, where they spent the night and returned to the city yesterday morning. During this week a class for prayer will be held in the Y. M. C. A. from 9.45 to 10.15 every evening. There will be a home topic and a foreign topic each evening, and the senior class will form an orchestra to assist at these meetings. The boys' department will hold meetings during the week along the same lines.

Died in Detroit.

The very many friends will learn with regret of the death of Dr. Alexander S. Berryman, which took place at Detroit, Mich., yesterday after having been ill about six months. Dr. Berryman was the eldest son of the late Dr. John Berryman, and left St. John about 15 years ago, and was one of the best known veterinary surgeons in the country. The funeral will take place on Wednesday next and interment will be made in Syracuse, N. Y. Dr. Berryman's wife survives him. Dr. D. E. Berryman of this city is an uncle of the deceased, while Miss Berryman is an aunt. Lorimer Berryman of this city, and George, of London, Eng., are brothers and Mrs. Perry, of London, Eng., is a sister. The deceased is very widely known here and was about 45 years of age.

Concert at Industrial School.

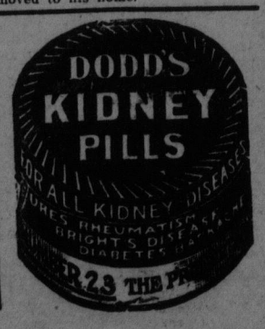
The following boys of the Y. M. C. A. went to the Industrial Home last evening to conduct a musical concert: A. M. Gregg, Eldin Merritt, Kenneth Robb, Harold Manning, Arthur Willet and A. R. Pixley. About seventeen of the boys attended and a very pleasant evening was spent.

To Relieve Jail Conditions.

It is probable that as a result of the visit of the committee of the county council to the jail on Friday, a special meeting of the building committee will be called to see if some arrangements can be made to relieve the overcrowded state of the jail. It is said that it will take some time to establish the proposed prison farm, and that in the meantime something should be done. The regular meeting of the council does not take place till January, but it is not likely a special meeting of the council will be called to deal with the matter, as it is hoped some temporary arrangements may be made.

Sergeant Caples Ill.

Police Sergeant Caples was taken ill on the street yesterday. He was taken into a drug store and later removed to his home.



NEW FACTORY WILL BE TWICE PRESENT SIZE

T. S. Simms & Co. will Erect a Structure in Fairville to Accomodate Increased Business.

Messrs. T. S. Simms and Co. Ltd., have secured a site for their new factory in Fairville, and as soon as the frost is out of the ground next spring, will begin the construction of a building at least double the size of that they now occupy, and so designed as to permit of extensions being made at any time. Louis Simms, president of the company, will leave next week on a tour of American and Canadian cities for the purpose of inspecting brush and broom factories, and getting information in regard to the most up to date plans for such factories.

In an interview with The Standard last evening he said that the company had not worked out any details as yet, but that the new building would be about twice the size of the present factory, and would be four stories in height.

"The structure," he added, "will be long and narrow, so as to provide for extensions without interfering with the lighting arrangements. We may put up a concrete building, but that is not decided definitely.

"The plans will be worked out this winter and construction work will be started as soon as possible in the spring. We hope to have the new building ready for occupancy in the fall. In addition to the main factory which will be as up to date as possible, there will be a number of other buildings for storing material and other purposes."

"How many hands will you employ in the new factory?"

"We can hardly tell that just yet. We are now employing 230 hands, and expect to take them to Fairville with us. As the business increases we will, no doubt, increase the staff.

"We have added a number of new departments, and as circumstances warrant, will increase them. We used to buy all our metal; now we manufacture our own metal holders, and do our nickel plating on the premises. Our aim is to make the industry as self contained as possible.

"We hope the new site will meet all needs for a lifetime. We will have a spur track connecting us with the railway, and that will prove a great advantage."

The new site comprises the large block of land opposite the provincial hospital between the Suspension bridge road, the Union Point road and the C. P. R. tracks, with the exception of a few lots which had been sold previously. The land belonged to the provincial government, and was vested in the commissioners of the provincial hospital, Lancaster.

In order to prevent the land being bought for speculative purposes, the terms of the sale required the purchaser to commence the erection of buildings for a manufacturing industry to employ at least 100 hands, within eight months, and its completion within two years on penalty of the forfeiture of one-third of the purchase price.

The property was sold at auction at Chubb's corner, by Auctioneer F. L. Potts. There were only two bids—the first was at $5,000 and the property was sold on the second bid of $5,100 to T. S. Simms and Co., Ltd.

The Simms Company have been looking for a site for some time, and as they had difficulty in fulfilling all their requirements and as attractive offers for the industry were received from other places in the provinces, there was some fear that they might possibly move away. The fact that they have settled upon this site and will be able to go ahead with the necessary expansion to their plant, will be a matter of considerable gratification to the citizens.

The White Candy Company will take over the present large building of the Simms Company, as their own plant in Union street is not big enough for their business.

To the St. John Ladies:

Just a word regarding our marvelous Dry Cleaning process.

No doubt you have many articles of wear on which you place but little value. It may be a costume, skirt, waist, gown, etc., which has become soiled or stained.

We wish to state that this Dry Cleaning process will give any of these garments a new lease of life and usefulness. It will beautifully renew the old colors, brighten up the materials, and give such articles every appearance of new goods.

By availing yourself of this process you can substantially cut down your dress bills and at the same time dress right in style.

Articles that have become faded can be dyed any new shade desired.

We ask for a single trial to demonstrate the possibilities of our Dry Cleaning and Dyeing processes. All orders executed in a very short time. Come to our office and get the advice of our expert.

Ungar's Laundry and Dye Works

W. TREMAINE GARD, Goldsmith, Jeweler and Optician, 77 Charlotte St.

THE HOME PHYSICIAN

Dr. Morse's Indian Root Pills Cure Most of the Family's Ills.

Perhaps if the children, and the "grown-ups" too, always ate exactly the right quantities of exactly the right things, at just the proper times, and in every other way obeyed the rules of health, there would be no sickness in the family, and no need of medicine.

This Little Box is Mother's Stand-by.

But they never have and probably never will, so in every family there are sure to be more or less frequent attacks of sick headache, biliousness, indigestion, constipation, and kidney and liver troubles, and occasionally some one is "sick in bed".

It is worth a good deal to the mother, then, to have on hand that perfectly safe and reliable remedy for these ills —

Dr. Morse's Indian Root Pills.

They invigorate those organs which cleanse the body of waste and impurities, regulating the bowels, stimulating the kidneys and opening the pores of the skin.

Thus *Dr. Morse's Indian Root Pills* cure the common ailments and keep the family healthy. This they have been doing for over half a century in every part of the world.
