DYSPEPSIA causes depraved blood, which, in time, affects every organ and function of the body. As a remedy for these troubles, nothing can approach Ayer's Sarsaparilla. It vitalizes the blood, strengthens the stomach, and corrects all disorders of the liver and kidneys.

OPPOSITION.—The Salvation army appears to be meeting with opposition in Hillsboro. Last Monday a number of the boys of this village paraded the principal streets, carrying colors, beating a drum, blowing whistles, playing jewsharps etc. They made a very creditable appearance and the music was pronounced fully equal to that of the grown up army.

IMPORTANT OMISSION.—The time table for the sailings of the steamer Arbutus, as published in the Moncton *Times*, fails to give the hours for the return trips from Moncton to Dorchester. Passengers are as much interested in knowing when the steamer is expected to leave Moncton as they are in the time of her arrival there.

His Honor ordered that Ellen Wright of Moncton an aunt of the children and Amasa Tingley of the Parish of Westmorland an uncle, be such guardians to give security in the sum of $3,000 to the satisfaction of Hon. D. L. Hanington.

Interesting Items.

HOW HE WAS CURED.—A curious result of being hit with a base ball is reported from Philadelphia. A stuttering man was struck in the mouth and when he got well the impediment in his speech had disappeared. But this is not guaranteed to work every time.

FEMALE M. D's.—There are 3000 women doctors in the United States, each earning an income of from $4000 to $10,000 a year.

WOMAN'S WORK.—Ella S. Leonard and Caroline Lingle, two Vassar girls, are doing a flourishing newspaper business in Atlantic Highlands, N. Y. They do all the literary work of the paper and manage a large job printing establishment. They have a delightfully comfortable and clean office.

FEMALE FARMERS.—Miss Jane Smith and her sister, two Georgia women, have worked their 100 acre farm near Shiloh for the past twenty years. They do not know what sickness is and their farm compares favorably with many in the same region.

STRUCK IT RICH.—A Halifax despatch says: Sandy McGuire struck a rich pocket in the new Albion mines and brought to the city to-night a box of quartz of extraordinary richness, valued at $3,000 to $4,000. Competent judges say this is the richest specimen ever seen in this part of the world. The mine is owned by Charles Annand, proprietor of the Halifax *Chronicle*.

SCOTT ACT.—Since the decision in the supreme court last month, about $800 of Scott Act fines have been received by the police magistrate at St. Stephen with more to come.

The St. John Presbytery met at Moncton last week and transacted some important business. Died at a Dance.

The Melancholy Termination of a Merry Gathering at Blackville.

Passengers by the Northren & Western yesterday afternoon brought news of a sad occurrence, which took place in the vicinity of Blackville on Tuesday night, and which has cast a gloom over the whole community. A section man named McGregor, belonging in that neighborhood, was one of a merry company of young people, who had gathered at the house of a friend to enjoy a dance, and, when the festivities were begun, was apparently in the best of health and spirits. After the first dance had been gone through, however, McGregor complained to one of the company of feeling unwell, and said that he felt as if he were dying in his clothes. Suddenly becoming weaker, he went up stairs to lie down in one of the bedrooms, and was followed in a few minutes by a lady friend, who went to see what she could do for him. Entering the room she found the young man stretched out on the floor. On examination he was found to be dead. The company were terrified and a melancholy scene followed. Heart disease caused the young man's death, it is supposed.—*Fredericton Gleaner.*

How Did it Come About?

The reporter of the temperance meeting held in the 1st. Baptist Church on the 6th inst., studiously careful not to omit anything of importance from that report, but one, the name of the 1st. speaker of the evening, Rev. Mr. Pierce. Why this omission?

S. T.

The editor of THE OBSERVER is alone to blame for the omission referred to in the above communication. Not being present at the temperance meeting the editor enquired of the corresponding secretary (Mrs. C. T. Wood) about the meeting. Mrs. Wood mentioned the names of the speakers and referred him to another person who would probably be able to give a summary of the addresses. In naming the speakers Mrs. Wood mentioned Rev. Mr. Pierce as the the first speaker and said he gave an "excellent address." She said she thought the addresses were all above the average and very interesting. The editor, not getting a summary of the speeches in time for publication, briefly noted the meeting, giving from memory a list of the speakers. He was not aware he had ommitted the name of Rev. Mr. Pierce until the above communication was received. He regrets the ommission which was purely accidental and the fault of no one but himself. He had no intention of doing any injustice to Rev. Mr. Pierce whom he esteems very highly. It has always been the aim of THE OBSERVER to treat all religious denominations alike and we think no one can accuse its editor of showing partiality in his treatment of them.
