GRAIN AND PRODUCE.

Following the lower prices for wheat options on the Winnipeg and American exchanges local quotations for Manitobas were off ½c all round on Thursday. The market here was decidedly quiet with bids on wheat for export still a couple of cents out of line, trading in every section of the list being restricted in consequence.

The Chicago pit acted rather strained, closing at a loss of ⅝c for May and July futures. The weakness was due to extreme dulness, a disposition to liquidate under more reassuring crop advices and indifferent support. Winnipeg sold off from the opening figures, but rallied later, closing ¼c below previous day.

Local grain dealers' quotations are as follows:

Manitoba wheat—No. 1 northern, $1.12½, No. 2 northern, $1.10½ track, lake ports; ½c over these prices with winter storage.

Oats—Canadian western oats, No. 2, 41½c, lake ports; No. 3, 40½c; ½c over these prices with winter storage. Ontario, No. 2, 38c, at points of shipment.

Buckwheat—No. 2, 53c outside.

Mill feed—Manitoba bran, $22.50 per ton; shorts, $24, track, Toronto; Ontario bran, $23.50 in bags. Shorts, $1 more.

Chicago Gossip.

J. P Bickell & Co. say at the close:

Wheat—Dulness in foreign markets and desire to secure profits were factors for a good reaction early in session, but good support on decline closed market on a rally ⅝c lower than previous session. Crop advices continue unfavorable and cash demand fair. Situation is strong and material decline unlikely. On all declines we continue to advise purchase.

Erickson Perkins & Co. had the following at the close:

Wheat—Crop reports from the southwest were of the same tenor as during the past few days and none of them show any improvement in conditions. We look for the market to continue a nervous one and until reports on the growing crop assume a more satisfactory aspect we do not look for any material or lasting decline in prices.

Corn—We believe corn prices have had reaction enough and until the load of cash property becomes lighter we favor sales on strong spots.

Oats—Prices were firm early, but had a sinking spell during the middle of the session, rallying again towards the close. We believe oats will sell lower.

FRUIT EXPORTS TO GERMANY.

Editor World: If you will allow me a small space in your valuable paper I will be glad to express the views of the fruit exporters of Canada regarding the temporary agreement recently arranged between Canada and Germany.

I am one of the largest exporters of green and dried fruits in Canada, and I firmly believe that my views are those of every fruit exporter in the country.

I have been a life long Conservative so that my views are not those of a reform partyman.

But I believe in giving credit where credit is due, and in arranging the present agreement with Germany, I honestly believe that the Ottawa Government has performed a far greater service to Canada than by the building of war vessels either Dreadnoughts or other kinds.

Allow me to give you the true conditions of the export fruit business in Canada during the past four years.

Four years ago the German markets were open to our fruits and we shipped upwards of 135,000 bbls. of apples to Germany and received splendid prices. Besides these the buyers from Germany came to Liverpool, Manchester and Glasgow and purchased Canadian apples there, thus creating competition in the English markets. That was a banner year for Canadian shippers, and we all made money.

In March of that year the Germans placed a prohibitive duty on Canadian fruits, and what has been the result? The Canadian fruit exporter has been compelled to ship his fruits to English markets. There has been no competition in buying and the English buyer has taken a decided advantage of the situation with the result that during the last three years Canadian exporters in fruits have met with nothing but serious losses.

In fact the situation has become so serious that unless there is a remedy the Canadian fruit exporter must either quit business or become utterly ruined.

The remedy lies in the opening of the German markets to Canadian fruits and it is the earnest wish of every Canadian fruit exporter that the present agreement be made permanent.

Already German firms are writing re next season's business in fruits, so that even the temporary agreement has already brought good results.

Preference.—I would like to know what England is giving us in return for the preference we are giving to English goods entering Canada. I am a loyal citizen, but I believe in fair play, and I think we should discontinue the preference to exports from England until such time as England will give our exports a like preference in the English markets.

Will Speak on "Chantecler."

Paul Balbaud will deliver an address in French on Rostand's famous play, "Chantecler," before the University Women's Club, on Saturday, March 12, at 8.15 p.m., in Queen's Hall.

Her Daughter Took Very Sick As Result Of Catching Cold.

Mrs. Dennis Delaney, Friar's Head, N.S., writes: "At the close of the year 1907, our youngest daughter, five years old, took very sick as the result of catching cold. She became very weak and could not move around at all. We consulted doctors and gave her various kinds of medicine but they did not seem to relieve her any. On the advice of a friend I procured a bottle of your valuable remedy, Dr. Wood's Norway Pine Syrup, and after using the first bottle noticeable improvement was the result and after using three bottles she was entirely cured. I can certify that it was through your valuable remedy that she regained her strength and would advise every mother having young ones similarly afflicted to obtain your valuable remedy. For myself I would not be without a bottle in the house."

Dr. Wood's Norway Pine Syrup contains all the lung healing virtues of the Norway pine tree combined with Wild Cherry bark and other pectoral remedies. It has stood the test for many years, and is now more generally used than ever. Price 25 cents at all dealers. Manufactured only by The T. Milburn Co., Limited, Toronto, Ont.

102 CARS AT CITY YARDS QUALITY CATTLE MEDIUM

Few Choice Cattle—Prices Firm But No Advance Over Tuesday—Hogs Firm At $9.50

The railways reported 102 car loads of live stock as the receipts for Wednesday and Thursday, consisting of 1217 cattle, 2669 hogs, 201 sheep and lambs, 125 calves and 2 horses.

The quality of cattle was unchanged from what it has been for the past two weeks, a few finished lots, with a large number of half finished common rough lots.

Trade was good at firm prices, but not any higher than Tuesday's quotations.

Exporters

We did not hear of any cattle being offered or sold for export purposes on this market, but 5 car loads of the best cattle picked from amongst the best loads of butchers sold here on Tuesday and Wednesday, were sent up to the Union Market on Wednesday, when the exporters were selling at high figures. Bulls of export weights sold at $4.75 to $5.25 per cwt.

There were a few sales of prime picked lots quoted at $5.90 to $6, but as will be seen by sales given below, they were few in number, not more than a dozen out of 1200 cattle on sale.

Stockers and Feeders.

Milkers and Springers.

There was a good supply of milkers and springers. There was a moderate demand, but prices were reported to be about $5 to $8 per head lower than a week ago. Prices ranged from $35 to $60 each.

Veal Calves.

The supply of veal calves was not large and prices were firm at $3 to $8 per cwt.

Hogs.

Receipts from all sources for the two days were reported by the railways to be 2669. Prices have advanced steadily all week, closing firm at $9.50 for selects, fed and watered, at the market, and $8.25, f.o.b., cars at country points.

CHARITY TO COVER A SIN?

Rockefeller's "Foundation" Would Exempt Securities From Taxation.

NEW YORK, March 10.—When John D. Rockefeller announced a week ago his plan to devote his vast fortune to the good of mankind, thru the "Rockefeller Foundation," Standard Oil stock was selling at $618 a share. Since then the stock has been steadily rising. Yesterday it advanced 15 points, touching $660, a total advance in a week of $42 a share.

The reason for this extraordinary advance was not generally understood until yesterday, when George W. Da Cunha, an architect, of Upper Montclair, N. J., called attention to it in a circular letter addressed to the senior senator from each state in the United States.

Mr. Da Cunha makes it clear that if the Gallinger bill, granting a federal charter to the Rockefelled Foundation, passes, neither the state nor the United States can collect.

Thus the entire Rockefeller fortune, which is represented in Standard Oil and that company's subsidiary interests is freed fro mthe obligations by which great wealth is bound by law as death passes it from hand to hand.

Estimate of 200 Millions Realizes Less Than One-Tenth.

PARIS, March 10.—The Journal gives some interesting figures regarding the deterioration of the property of non-authorized congregations and teaching orders, which former Premier Waldeck-Rousseau originally estimated would realize $200,000,000 for the state. After inventories had been made, the estimated figures were reduced to $100,000,000, and subsequently to $50,000,000, when the church issued a decree of excommunication against the purchasers.

As a matter of fact, the gross receipts thus far from this property amount to only $19,000,000, of which latter sum $13,200,000 has been expended in the adjudication of claims against the property and in other costs, including attorney fees, expenditures and commissioners to the liquidators.
