CITIZENS OF ST. JOHN ARE TO BE CONGRATULATED

Seldom Does any City Reach .. Such a Standard.

A stranger in town the other day dropped into the "Uptown Tea Shop" for lunch. He describes it thus.

Upon entering a feeling of restfulness came over me induced by the soft mellow shades of the panels and draperies. In this mood I studied the menu and was surprised at the various choices spread before me. After finishing the meal which was very tasty and served appetisingly, I prevailed upon the management to print a sample menu for the benefit of all who wish to know where they can get a deliciously home cooked meal for only 35c. This is only a sample of what is served there daily and has helped to earn the slogan of "The Tea shop with the reputation for home cooking"

THE RAILWAYS

Ottawa, Oct. 4—(Canadian Press)—Requirements of the Canadian National and Grand Trunk Railways for the ensuing year were fully discussed at a lengthy conference yesterday by D. B. Hanna, president of the Canadian National lines, W. D. Robb, vice-president and general manager of the Grand Trunk system and Hon. George P. Graham, acting minister of railways and canals. Work necessary for the betterment of the joint system, as well as steps to be taken in bringing about further co-ordination of the two wings of the national system were, it is understood, gone over fully and carefully by the executive heads of the two units.

Railway matters, it is believed, are likely to be to the fore at this afternoon's meeting of the cabinet council.

"SHOOTING" SCENES DOWN THE BAY

They're Getting on With the Motion Picture Work — The Schooner Thomas and Robert Being Used.

A genuine Bank fishing schooner with skipper and crew has been secured by David M. Hartford in his task of directing the film production of Frederick William Wallace's novel of the deep-sea fishermen, "Blue Water." Captain Ansel Snow of Digby, N. S., has placed himself, his schooner, the Thomas & Robert, and his crew at the disposal of Mr. Hartford.

The author of "Blue Water" and Captain Snow are old shipmates, and the two men have shared in incidents as exciting as any that Wallace has incorporated in fiction. It was upon Capt. Snow's schooner that Mr. Wallace journed to the Banks one winter with a motion picture camera and filmed the work of the Bank fishermen in desperate weather.

A party of twelve, including seven actors and five of the staff, left at 8.30 this morning for Dipper Harbor to "shoot" some more scenes. It is hoped to finish there today and to move to Chance Harbor tomorrow. POTATO MEN WANT CHANGE

Conference in Woodstock Over Railway Rates—Continue it in Montreal.

(Special to Telegraph.)

Woodstock, N. B., Oct. 4—A meeting of potato shippers was held today to discuss freight rates with railway representatives, as particularly affecting potatoes and hay. Messrs. Elliott, Boules and Gray were present in the interests of their respective railways. The speakers indicated that it was necessary for all concerned that the railways come to the relief of the farmer. Potatoes were selling at 75 cents a barrel and costing the farmer $1.50 to raise and unless relief was granted from big corporations all must go out of business. A rate of 22 cents on potatoes and 4.50 a ton on hay was declared prohibitive. There was danger of losing the potato industry in New Brunswick owing to excessive rates.

The railway representatives, while not offering any concessions, agreed to discuss the matter further with their head offices and B. F. Smith, G. C. Porter and T. W. Caldwell, M.P., were appointed to meet the railway officials in Montreal on next Tuesday.

W. C. Robinson of Sackville was appointed special representative of the potato interests at southern points on the recommendation of the department of trade and commence whose agent, Mr. Palmer, is now on that ground.

REFUSE PLACE FOR WOMEN IN THE MINISTRY

Methodist Conference Discipline Committee Contra, 17 Votes to 16.

Toronto, Oct. 4—At the opening of the Methodist conference today notices of motion were submitted in relation to the election of delegates to the general conference and the election of general superintendents. One set provided that at the election of general conference delegates by the annual conferences, both ministers and laymen should vote together alike for the ministeral and lay delegates.

The other set of notices of motion would make provision for two or more general superintendents. It is also urged that nominations be presented before the superintendents are elected.

There seems to be no doubt that Rev. Dr. Chown will be again the unanimous choice as general superintendent, and if the conference decided to have more than one he will be the senior.

Once again the women have lost in their efforts to gain admittance to the Methodist ministry. By a vote of 17 to 16, the discipline committee has decided against recommending their admission to the pulpits of the Methodist church.

FURTHER ADVANCE IN WALL STREET

(Continued from page 1.)

Noon Report.

New York, Oct. 4—(noon)—Bullish operations were aggressively conducted throughout the morning. Cable dispatches stating that an armistice had been agreed upon between the allied and Turkish commanders in the Near East contributed to the more cheerful sentiment. Trading was largely of a professional character, but the volume of business indicated the reappearance of an investment demand on the part of small interests. The buoyancy of the Standard Oil group exercised a dominant influence on prices, but the resumption of active bidding for public utilities, food, merchandising and standard railroad shares also accelerated the upward swing. National Biscuit extended its gains to twelve points and Standard Oil of New Jersey to six, while gains of three to 3½ were made by Fisher Body, May Department Stores, Dupont, National Lead, Mexican Petroleum and United States Reality. Call money opened at 4½ per cent.

Of the other papers, Abitibi was down half at 59 1-2 as was also Price Bros., at forty-four. Laurentide was unchanged at ninety-five. Other leaders were quiet.

Still at Premium.

New York, Oct. 4—Sterling exchange steady. Great Britain, 4.41½; France, 7.61; Italy, 4.26½; Germany, .04⅝. Canadian dollar 1-32 of one per cent premium.

G. T. P. STOCK UP

London, Oct. 4—(By Canadian Press)—Grand Trunk Pacific Railway four per cent. debenture stock was quoted at 47 1-2 here yesterday, an advance of eight points in two days. Seemingly the rise has been in consequence of reports of a reduction in the operating expenses of the railway. Some financial commentators are skeptical as to whether the debenture holders are justified in anticipating an early resumption of the payment of dividends.
