Northern Navigation and Dominion Steel Higher on Local Exchange.

Dominion Coal and Nova Scotia Steel With Some Others Close Lower—New York Stocks Dull—Markets and Gossip.

World Office,
Tuesday Evening, March 11.

There was a somewhat quieter tone to the local market to-day, and prices as a rule were a trifle easier. There does not seem to be any reason to expect materially lower prices, however, as any weakening in values of the speculative favorites finds ready support from those looking to get in at more advantageous points. Dominion Steel common was comparatively strong to-day, and, after opening over a point higher, at 35, reached 35½. The closing sale was made at 34⅞. The strength of this stock is attributed to the option the company has on Dominion Coal, but it is thought by some that Dominion Coal will be able to evade the restrictions said to be contained in the agreement. Northern Navigation was another stock to work against the general market to-day, and small buying brought the price up to 150⅝, a gain of over 8 points from yesterday. This stock has remained quiet for some weeks now, but the prospect of increased earnings by the company during the present season has developed new buying, and the price is expected to ultimately reach 175. Dominion Coal opened steady at 106, but profit-taking eased the price to 105½ at the close. Nova Scotia Steel was similarly affected, and sold down from 94½ at the opening to 93¼ at the close. Sao Paulo opened fractionally higher at 80, but closed nearly three points off, at 77½. C.P.R. was active and fairly firm, closing at 111¼, or ¼ below the day's high point. Toronto Railway was quiet and easier at 118⅝ to 118⅜. Twin City lost ⅝ during the day, selling down from 116 to 115⅜. General Electric brought 220½ to 221. London Electric 103, Cable 154½, Carter-Crume 106½, and Dominion Steel bonds 87½. In the banks, Ontario sold at 128⅞, Commerce at 153½ to 153⅞, and Dominion at 241. Canada Landed brought 166½, Canada Permanent 169, Hamilton Provident 113, and London Loan 112.

Montreal stocks were very active again to-day, with very heavy trading in the Dominion Steel securities. The common stock sold as high as 48 early, but fell off, closing at 45⅞. The preferred was dealt in between 94⅞ and 94, and bonds 87 to 86. C.P.R. sold at 110¾ to 111¼, closing at 111. Twin City brought 115¾, Nova Scotia Steel 94 to 93½, the close; Toronto Railway 119½ to 118½, Richelieu 110, and Dominion Coal 106½ to 105¾.

General support was lent to the New York stocks this morning, and prices held steady to firm. An increase in the call loan rate weakened prices later in the day, and the close was dull and easy. A traders' market is still thought to be the best that can be expected for some little time yet.

American Ice Meeting.

New York, March 11.—The stockholders of the American Ice Company held their annual meeting at Jersey City to-day. President Schoomaker said that the company had 30 artificial ice plants, had housed a 500,000 tons of ice, and organized distributing agencies in different cities. The old Board of Directors was re-elected.

Pennsylvanian Annual Meeting.

Philadelphia, March 11.—The annual meeting of the stockholders of the Pennsylvania Railroad was held to-day. The approval of the annual report and the adoption of a resolution increasing the appropriation for the pension fund from $230,000 to $300,000 composed the principal business for the session. A resolution was adopted authorizing the appointment of a committee of seven shareholders to select a Board of Directors, to be voted for at the annual election on March 25.

Railway Earnings.

Duluth, S.S. & A., first week March, $55,613; increase, $8147.

Mexican National, first week March, $153,152; increase, $3611.

Mexican Central, first week March, $381,887; increase, $34,907.

Hocking Valley, first week March, increase, $1446; from July 1, increase, $239,043.

Forty-four roads, fourth week February, increased 5.26 per cent.

Missouri Pacific report shows an increase in gross earnings for the year of $6,150,000. Operating expenses increased $2,565,000. Total surplus, $7,477,000, an increase of $2,543,000.

G.T.R. Earnings.

Montreal, March 11.—Grand Trunk Railway earnings, 1st to 7th March, 1902, $507,014; 1901, $480,281; increase, $26,733.

Wall Street Pointers.

The sub-Treasury has gained $4,581,000 from the banks since Friday.

Recent storm serious affected Western Union earnings.

General Electric earned 34 per cent. last year. Stock dividend expected end of April.

The regular quarterly dividend of 2 per cent. was declared on American General Electric common, payable April 25.

Secretary Shaw is meeting the anticipated tight money market in New York by increasing almost daily the amount of government money held in national bank depositaries. It is now $110,901,226, an increase since Feb. 1, when Secretary Shaw assumed charge of the treasury, of $4,300,000.

Joseph: A feverish and spotty market is to be looked for; tangible evidence of inside support will not be lacking in Northwest, Rock Island, Pennsylvania and St. Paul. The Gates contingent is very bullish on Union Pacific. Holders of Steel preferred should average around 94. There is considerable short interest in Atchison, Readings and Eries, and these should be bought for a turn on any dip. Nothing yet decided on Amalgamated Copper dividend, but insiders are selling on all firm spots. North American, Mexican Central and Colorado Fuel & Iron will sell higher.

New York Tribune: There were no changes in the conditions immediately affecting the market. There was less money offering on call and higher rates were asked. Increased rates for money will keep gold from leaving this country, but they will also interfere more or less with operations on the stock market. The speculative community was restrained in its transactions to a considerable measure by the uncertainty as to money, and that may continue to be the case for a spell. It is a question, however, if the outlook for the crop does not soon overshadow other considerations. The first regular government crop report will be issued April 10, and in the meantime there will be an abundance of private reports, the value of which will depend on the sources from which they emanate.

On Wall Street.

Messrs. Ladenburg, Thalmann & Co. wired J. J. Dixon at the close of the market to-day:

London market showed surprising steadiness, as indicated by quotations for American stocks this morning, in view of the reverses in South Africa and the confidence shown there was reflected to an extent in our foreignon market. The trading was to a large extent professional, however, and confined to specialties. In the afternoon the tone weakened, and prices declined all around. Apprehension of higher money rates was the chief factor. There was a drive against the ice stocks, following the announcement that the surplus had decreased $300,000 during the past year. Virginia and Carolina issues were among the strongest features. It is thought that the stiffening of the money rates will prevent any further shipments of gold this week, as the foreign exchange market is somewhat easier. The market to-day did not indicate a disposition on the part of the bulls to begin an aggressive campaign just yet.

J. G. Beaty, 21 Melinda-street, received the following from McIntyre & Marshall at the close of the market to-day:

Speculation in the stock market relapsed into comparative dulness to-day, with nothing better indicated for the balance of the week at least than a narrow traders' market. The panicky feeling which was expected to develop in South African stocks in London did not materialize to-day, owing to that department being strongly supported by the syndicate of London capitalists organized last evening; as a consequence there was little selling pressure or weakness in our stocks there. This gave local bull interests an opportunity to bid up prices here on the opening, but, beyond a covering movement among the shorts and some moderate rebuying by locals and Western interests, who were sellers late yesterday, there was not much demand later to stimulate sentiment and hold market. Pool operations and manipulation in low-priced specialties were resumed, being especially prominent in connection with the advance in A.C.O., Iowa Central, Wis. Central, C.G.W. and Mexican stocks. Advance in P.O. and R.I. was on moderate inside buying. On the other hand, American Ice securities broke sharply about four points on its unexpected favorable statement, showing a loss of $357,000 for the year, it being inferred from this that there were no future dividends on common. The coal stocks, particularly Erie, and Readings, continue depressed on possibility of labor trouble developing among the miners. There are no particularly new developments in local money or foreign exchange situation, or in the winter wheat crop outlook.

Money Markets.

The Bank of England discount rate is 3 per cent. Rate of discount in the open market is 2¼ to 3 per cent., and for three months' bills 2 9-16 to 2⅝ per cent. Local money market is steady. Money on call, 5 per cent.

Money on call in New York, actual transactions from 3½ to 4½ per cent.; last loan, 3½ per cent.

ASTHMA IN ENGLAND.
Mr. H. T. Holland, 28 Ewart Road, London, Eng., writes on Jan. 26, 1902. For three years I suffered with Asthma. Had to leave my bed every night, gasping for breath. No doctors could give me relief. I got a bottle of Clarke's Kola Compound. One bottle cured me. I am sending to Canada for some for a friend. It's the kind that cures.

GRAIN MARKETS IRREGULAR

Wheat Closed Lower and Corn and Oats Higher at Chicago Yesterday.

Bradstreet's Estimate — Liverpool Cables Lower Yesterday—General Markets With Notes and Gossip.

World Office,
Tuesday Evening, March 11.

Liverpool wheat futures closed ¼d lower to-day, and corn futures declined a similar amount.

Paris quotations are 15 to 25 centimes lower to-day.

Wheat was easier at Chicago to-day, closing ⅜c below yesterday. May corn gained ⅛c and May oats ⅛c.

Northwest receipts, 256 cars; last week, 280; last year, 384. At Chicago: Wheat, 82, 1, 90; corn, 185, 2, 170; oats, 179, 46, 180.

Receipts of wheat at Liverpool the past three days, 182,000 centals, including 110,000 centals American. Corn receipts, 15,000 centals American.

Bradstreet reports a decrease of 1,000,000 bushels in the world's visible supply of wheat this week, as against an increase of 362,000 bushels last week.

Late reports from Topeka say that winter wheat has been injured. Experts say present prospects cut the probable yield very much.
