DETROIT LINE OF CANADIAN NORTHERN

Preliminary Survey Work Starts at Brantford For Line to Boundary.

Brantford, July 12. — With the arrival at Brantford today of a survey party for the Canadian Northern Railway, the first step in the company's projected line from Hamilton westward to Detroit seems to have been taken. The party, which came here from Dundas, includes engineers and will begin at once to locate the route throughout this district.

It will be remembered that Sir William Mackenzie, some time ago, stated quite definitely that it was in his mind to build through to the boundary at Detroit in the future, but the railway president then said that the matter had not proceeded beyond the embryo stage. Things have evidently moved quickly during the last few weeks, as the surveyors who are here today clearly mean business, though they are not communicative as to the scope of the work they have come to carry through.

The latest published map of the Ontario lines of the Canadian Northern shows the projected extension from Hamilton to Brantford, but it has not generally been understood that active location would be made for some months to come, at least. Brantford people are naturally delighted at the prospect of a competing railway in the near future.

WATCH YOUR CHILDREN'S HEALTH

If any of your children seem to be pale and anaemic, growing too fast or too slowly, don't start doctoring them. Food is the keynote of a child's growth and health. Some children owing to constitutional weakness, or as a result of children's diseases, will not thrive on food from which stronger ones benefit. In such cases the addition of Bovril to the diet will produce marked results.

Bovril is concentrated beef in its best and most palatable form. Stringent scientific tests have shown that it is a great body-builder. It is in itself a highly condensed food but it possesses the remarkable power of enabling the system to draw the full store of nutriment from ordinary food. Give your child between meals once a day, a cup of warm milk, in which you have stirred a spoonful of Bovril, and try a dash of Bovril in your gravies, sauces and soups. It will be not only the delicate ones who will appreciate the added zest, all will benefit from the increased nutrition. 3-7-12

HEAVY DOWNPOURS CHEER OF THE WEST

Disposes of Anxiety as to the Drouth and Hot Weather.

Winnipeg, July 12. — In Manitoba reports from all Canadian Pacific Company agents for the past week show that in almost every district heavy rains have fallen, which have entirely relieved any anxiety that had been felt on account of drought and hot weather. The rains of Wednesday and Thursday nights covered the whole province, not in one continuous rain, but falling in showers, and every district was touched. In some parts of Southern Manitoba, the dry weather of June affected probably 25 per cent of the crop, and in the Rosenfield district fifteen farmers were hailed out, and some hail is reported in other parts of the province, but the losses will affect the total very slightly, the individual alone being the sufferer. Since the rain the grain has made very rapid progress, and all points report very rapid growth. On the lighter land some "tipburn" is in evidence, and will slightly reduce the yield.

In Saskatchewan the crop is reported all over the province to be in very good condition. In a number of districts wheat is headed out, and while the straw is short the plant is in very healthy condition. This is especially true on the Battle River, Kerrobert, and Outlook sections. There has been an abundance of rain and some sections report not enough sunshine. Early flax is out in bloom. It is expected that the harvest will begin early in August, and will be general by the 15th.

Alberta conditions are also very favorable; the winter wheat particularly suffered less damage this year than in any previous year. In the Crow's Nest and Lethbridge sections more rain would do no harm. It is estimated that fall wheat harvesting will start about Aug. 1 and spring wheat about Aug. 10, which is considerably earlier than usual.

QUAKE IN MEXICO.

Guadalajara, Mexico, July 12.—Guadalajara was shaken by earth tremors early today. Four shocks followed in rapid succession. Several persons were injured.

WM. KAVANAGH DEAD.

Hamilton, July 12.—William Kavanagh, one of the most prominent Catholic laymen in Hamilton, died today, aged 81 years. Deceased was for nine years an alderman, several years a member of the parks board, separate school board and Holy Sepulchre Cemetery board of trustees. He is survived by a widow, two sons and four daughters.

COOK MISSING.

Brockville, July 12.—It is now believed that a cook named Peters was burned in the fire which destroyed the Hotel Columbian, Thousand Islands, as he was seen to enter the building for his effects, and has not been heard of since.

HER LAST SMOKE.

Montreal, July 12.—Mrs. Elizabeth Boudreau, an old Habitant woman, who last night set fire to her clothing while smoking, died this morning.

THIS IS THE LIMIT.

Niagara Falls, July 12.—Here is the champion hot weather story. Michael House brought back with him from Muskoka two loon eggs. He put them on the sideboard. A few days later he heard a supicious noise in the eggs and found them chipped. Shortly after two little loonettes appeared. They are still alive and thriving. Neighbors vouch for the truth of this story.

Labatt's Ale is the choice of critical tastes. The secret of its popularity is its delicate quality and flavor, the result of the special brewing process by which Labatt's is made. Labatt's flavor cannot be described in words; you will appreciate it only when you have tasted it. Then you will understand why everybody likes Labatt's Order from the brewery or through your dealers.
