disaster which has befallen the United
and said he could not see that harmony
be restored either by surrender or by subja-
of the South. The English Government

BOSTON, Oct. 29.—The *Tribune's* correspondent writing from the great Naval Expedition states that Commodore Dupont's private secretary had absconded, taking with him the maps, charts and sealed orders of the Commodore.

It is stated Gen. Scott will voluntarily retire from his rank and duties this week.

An order has been sent to Gen. Fremont requesting him to surrender his command to Genl. Hunter.

A number of Western Senators are at Washington urging the necessity of a forward movement of the army, and representing the sentiment of the people as impatient at the present delay.

The great Naval Expedition has been detained at Fortress Munroe on account of the weather.

The rebels have sent large reinforcements to Leesburg, and an immense force has been sent to Norfolk in anticipation of attack from the great Naval Expedition.

Reports from Missouri state that several severe skirmishes have resulted favorably to the Federalists. The rebels are concentrating their forces to give battle to Freemont. The rebels are preparing for a desperate campaign in Kentucky.

BOSTON, Oct. 30.—The N. Y. *World's* despatch says that Lieut. Scott has been arrested for disobeying orders in bringing the *Keystone State* to Philadelphia, after being ordered to pursue the privateer *Sumpter* until he had found her.

Gen Stone's official report of the recent fight at Edward Ferry is published. He thinks if the infantry force had first crossed the river, a difference of 1000 men would have been in the infantry line at time of attack, probably enough to have given us victory.

Gen. Rosencranz's despatches from Western Virginia state that he is preparing to make another advance movement, with view to drive the rebels from that section of the country.

Washington despatches state that Federal scouts entered Fairfax Court House; no rebels were seen. Federal vessels fired into Acquia Creek batteries; fire returned by rebels—result not stated.

COMPLETED AT LAST.—The Telegraph is now in operation across the Continent to San Francisco. The price for the transmission of ten words from this city to the former place is $7 15 and 55 cents for each additional word.

THE FRENCH PRINCES.—The French Princes on Gen. McClellan's staff were not required to take the oath of allegiance—only an oath to be faithful during service. Col. Rankin, now engaged in raising a regiment of Lancers, is understood to have taken a similar oath.—*N. Y. Tribune.*

Mr. Lindsay has been making another speech in which he said he had reason to believe that the Provost Marshall of the Southern Army buried over 5000 Federals at Bull's Run, and even this large number was not the total of those killed!

The momentry articles of the *Times* has the following diabolical statement relative to our affairs:

"There is considered now to be little prospect of peace, except as the result of a finicial convulsion. That such a convulsion must take place, and that a depreciated currency and national bankruptcy will supposing the war to be continued, be witnessed before the laps of many months it is stated to the firm conviction of leading American bankers. If this consumation presents the only means by which the ferocity and folly of the people are likely to be stayed, every friend of the country must earnestly desire its speedy arrival."—*Boston Journal.*

It is to be presumed that Mr. Tilley will not bring forward the large amount of valuable ungranted public land in New Brunswick as a reason why Imperial aid should be given, that it may afford "hearths and homes" to the many who desire them in England, Ireland and Scotland. Nor that Mr. Tilley will endeavour to circulate very extensively the report of the Land Jobbing Committee of last winter, or be at great pains to exhibit to the Colonel Minister a statement of the amount that has been added to the revenue of the Province from the sales of the best lands along, and near, the line of the St. John and Shediac Railway. Neither can it be supposed that Mr. Tilley will be anxious to point out the wide difference between the estimate of the cost of that Railway, as propounded by the Chief Engineer and Chief Commission, and its actual cost, now that it is, or is supposed to be, quite complete.

The "huge" efforts made by the Government of the Province since their advent to office, to promote emigration and advance the settlement of the country, are not likely to be put forward very prominently in England by Mr. Tilley; and in short, it will be to Mr. Tilley's own policy to say as little as possible about what has been done, but to gloss over, in his own silky manner the numerous back-slidings and short comings of the Government of which he has become the head by throwing overboard a leader far less guilty than himself, and to vaunt, in his most pompous style of what will be done hereafter. If nothing advantageous or creditable to the Government can be drawn from the past, it will not require any great exertion of Mr. Tilley's art and sophistry to promise largely for the future.—*Empire.*

CRISTADORO'S EXCELSIOR DYE is unrivalled in the world

No other dye has been analyzed.
No other dyer produces such faultless colors.
No other dye can be applied so rapidly.
No other dye is so lasting in its effects.
No other dye improves the texture of the hair. It has been ANALYZED BY DR. CHILTON, Chemist, to the Croton Water Board of New-York, and certified by him to be as harmless as Croton Water. His certificate may be at the establishment of the proprietor. Sold everywhere, and applied by all hair dressers. CRISTADORO, No. 6 Astor House, New-York. y8 n12

TO RESTORE THE SICK TO HEALTH.—The blood must be purified, and all medicines are useless which do not possess the quality of stimulating the blood to discharge its impurities into the bowels. BRANDRETH'S PILLS possess this quality in a high degree, and should be in every family. They are equally useful for children, and adults; adapted to both sexes, and are as innocent as bread, yet most effective as a medicine.

The Hon. Jacob Beyers, of Springville, Ind. writes to Dr. Brandreth under date of May 11, 1861.

"I have used your Invaluable Vegetable Universal Pills in my family since 1838; they have always cured, even when other medicines were of no avail. I have been the means of my neighbors using hundreds of dollars worth and I am satisfied they have received a thousand per cent in blessed health through their use. They are used in this region for Bilious and Liver Diseases, Fever and Ague, and in all rheumatic cases with the most perfect success. In fact, they are the great reliance in sickness, and I trust your venerable life may be long spared to prepare so excellent a medicine for the use of man
