Life of Gen. Andrew Jackson.
New edition, revised and enlarged, with Bancroft's Eulogy. Steel Portrait—400 pages, cloth or sheep—$1 25.
Of the work before us, we think we may safely say, that its editor has striven to divest his mind of all other considerations than the one which should possess it—the consideration that he was writing the life of a great man, whose deeds were the property of the nation to which he belonged, and not of any sect or class.—*Buffalo Courier.*

Young's Science of Government.
New and improved edition, 370 pp., in morocco binding—price $1.25.
Questions of public policy, not merely affecting the interests of our country, but involving constitutional principles, and even liberty itself, are not unfrequently decided at the ballot box. Yet multitudes of our citizens presume to exercise the prerogative of freemen without knowing what the duties and responsibilities of freemen are. The poll lists of our State are annually swelled by thousands of new voters, who have never given the Constitution so much as a single reading.

OREGON!

Its HISTORY, CONDITION, PROSPECTS, Geography, Climate, and Productions, with personal adventures among the Indians during a residence on the Plains bordering the Pacific while connected with the Oregon Mission, embracing extended notes of a voyage around the world.—By Rev. Gustavus Hines. 535 pp. 12 mo., sheep or cloth binding—price $1.25.
In Oregon, the Author's first employment was an exploratory tour among the Indians of the Umpqua River, which empties into the Pacific. The tour supplies us with some geographical information and a mixed account of the Indians of that country. Mr. Hines has the advantage of a comparatively unstudied field, and his book will be of interest beyond the limits of his missionary friends as a contribution to the local history of Oregon.—*Literary World.*
