THEY WANT TO SEE A FORFEIT.

McCall and Currie, the Middlesex Athletes, Accept Harrison's Challenge.

Messrs. J. D. McCall and Charles Currie of the Franklin House, Parkhill, the well-known all-round athletes, write as follows from Parkhill: In reply to a challenge appearing in your issue wherein Mr. R. N. Harson states his willingness to meet any man in America in the following series of events: Throwing 21-lb. shot, 9-lb. hammer, 12 and 16-lb. hammer, tossing the caber, throwing the 56-lb. weight, the series to end with a wrestling bout, catch-as-catch-can, we desire to say that we will accept the challenge, but it must take place under some recognized rules. N.A.U.C. rules usually govern athletic contests. Surely Mr. Harrison does not intend to formulate a set of rules to suit his case. If so, his assurance is sublime, almost as sublime as his challenge, "to any man in America." He need not go further than Middlesex, in Canada, and in that county no farther than the flourishing town of Parkhill to meet several men, among whom are ourselves. If Mr. Harrison will only post a forfeit, and agree on some recognized standard rules for heavyweight contests, we will immediately cover the forfeit for stakes to any amount, either one of us.

Your medicine does not require any longer a sponsor, but if you wish me to act as such, I shall be only too happy to have my name connected with your prosperous child."

SNATCHED FROM THE JAWS

OF DEATH AT

The Old Surgical Butcher Shop on Gerrard-street East.

TORONTO, June 16, 1892.

DEAR DR. MCCULLY,

About twelve weeks ago I came to you to be treated.

I may say here that I came from the Toronto General Hospital and under the following circumstances.

I was suffering from a large Uterine Tumor. My friends in this city advised me and, in fact, insisted on me going to the hospital to have the tumor removed.

While there I found out the hospital experimenters intended removing my womb and all its appendages. I told a friend, not a relation, of this, whereupon the friend became alarmed, called on Dr. McCully, found out that many of these operations were done in the interests of the students, and for surgical glory, and were wholly unwarranted. This friend gave me these facts, and then I concluded to get out of the Old Butcher Shop as soon as possible.

Here again I ran up against the autocratic authority of the attendants and house surgeons and was told I could not go out.

I then sent per my friend to Dr. McCully a power of attorney to get me out, whereupon Dr. McCully wrote Dr. O'Reilly that he would hand the case to his solicitors and issue a writ of habeas corpus if I was not immediately let out. When this notice came I was hustled out amid some strong, if not violent, language.

Well, I have treated with Dr. McCully about 12 weeks, my size has been reduced from 42 inches to 31 inches and I am once more well.

Dr. McCully permits me to say no knife was used, and that with a long needle and hypodermic syringe he pierced the walls of the abdomen and injected remedies into it twice a week till the tumor shrunk up. My residence is Cobourg, Ont.

I cannot thank Dr. McCully too much for his kindness, and as I am a poor woman and was deserted by my rich relations in this city, who would not give me a dollar because I left the hospital and went to him rather than be butchered, he did all this for me without money, fee or reward. He also found me employment while in the city, so I could earn my board while under treatment, and I shall ever gratefully remember his goodness of heart.

DELIA DYAS,
Cobourg, Ont.

Reader, these facts hardly need any comment, no massive intellect is needed to measure up the methods and wisdom that hold the fort at the Garrard-street Golgotha.

There can be but little doubt in the mind of any unbiased reader that we cheated the grave in this case of one more intended victim.

In any case we prevented what proved to be unnecessary butchering in the name of gynecology.

So, at last, the Medical Council is to open up a sitting of the Star Chamber Discipline Committee, and medical heads are to drop in the basket. S. H. Blake has said that the Medical Act of Ontario is not worth the paper it is printed on. No doubt he will have a chance to vindicate his opinions.

Diseases of Women.

Such as falling of womb, painful menstruation, retroversions or any other of the versions, painful ovaries, chronic enlargement of the ovaries, without the knife. Ladies, keep clear of medical butchers. Health does not come by perversion of nature and nature's laws in taking away the female organs. These men are conscienceless inhuman experimenters.

Our field is Curable Chronic Diseases.

The regular Ethical Medical Man who scorns the advertising doctor occupies the whole field from the cradle to the grave; especially does he figure in the latter end. He has just medical sense enough to figure in any case, and then when in the last ditch of despair he usually stuffs his victim with Quinine, Cod liver oil (simply a nauseous grease).

Syphilis, Syphilitic ulcers of skin, glands and bones. Dr. McCully treats successfully all classes of these cases. We do not publish any of this work.

Cancer.

We remove and cure cancer by plasters and knife, as is best.

Diseases of the Skin.

We treat and cure every form, including every form of syphilitic rash, scaly or ulcer lupus.

Acne, or Face Pimples.

We remove these without medicines, without electricity, no marks or scars, and leave skin smooth and velvety.

The Follies of Youth.
