DANIEL SHEA'S BODY FOUND.

The Old Pensioner Has Been Missing Since Thanksgiving Day.

Hamilton, April 16.—The body of Daniel Shea, an old British pensioner, who has been missing since last Thanksgiving Day, Nov. 22, was found in the west end of the Bay this morning, opposite Harvey Park. Shea accompanied the 13th Battalion to Toronto on Thanksgiving Day as a private, to take part in the sham-battle, and after the return of the regiment to Hamilton, the same night, Shea was seen in a Stuart-street hotel, under the influence of liquor. It is supposed that he wandered over to the Grand Trunk dock alone and fell into the bay.

Train Robber Perry Recaptured.

New York, April 16.—The police of Weehawken have arrested Oliver Curtis Perry, the escaped train robber. He was captured on the River-road, near the West Shore Railroad yards. He was only captured after a severe struggle.

Perry said this afternoon that after his escape he managed to get two or three changes of clothing, all of which he wore. His idea in doing this was that if he happened to be seen he would immediately take off a suit and throw it away, thereby changing his appearance altogether. Since his escape he spent the nights among the hills and walking as best he could in the daytime. He denounced his treatment at the asylum. Perry arrived at the Hudson County jail, Jersey City, in the afternoon. The prisoner is in a very weak and broken up condition, and has confessed all, including his experience since his escape.

The Valise Thief Pleads Guilty.

When Alfred Curtis, the young sneak thief who made a specialty of stealing valises, was arraigned in the Police Court yesterday, his nerve failed him completely, and he pleaded guilty to all charges. These were of stealing a valise from Charles Cameron, stealing a valise from the parcel room of the G.T.R. and of stealing a sample case from F. R. Nicholls, 71 York-street. It is thought by the police that Curtis is no novice in the art of stealing, and a remand was given until the 23rd to allow of enquiries being made into his previous record. Several of the valises are yet unidentified.

With the exception of the members of the Cabinet, who were there in a body, the general attendance of members was very slim. HEART-BEATS.

The Reason Why the Heart Flutters, Palpitates and Is Oppressed, and How to Relieve It.

The heart has a hard old time of it, and within itself does not excite much disease, but is very often called upon to display the troubling symptoms of palpitation, fluttering, labored breathing, oppression, etc., on account of diseased kidneys offering increased resistance to the passage of the blood through their defective secretive structures, causing a morbid change in the blood, unsuited to nourish the tissues, and noxious to them. The minute arteries resist the passage of the foul blood, resulting in the muscular walls of the arteries and the ventricle of the heart becoming partially paralyzed, and from this cause results much of the so-called heart disease, which is owing to wasting kidneys not being able to perform their functions. In order to relieve heart trouble remove the cause in the kidneys with Chase's Kidney-Liver Pills. They relieve the blood of poisonous deposits, it goes on its way a stream of health, relieving the heart and imparting strength to every tissue of the body. When your heart is in trouble Chase's Pills quickly remove the causing condition, no matter whether it exists on account of disorder of the kidneys, liver, stomach or of nervous affection. Sold by dealers, or by mail by addressing Edmanson, Bates & Co., Toronto.

THE SAME OLD STORY.

They had been lovers now for over a year. The time had come when the question should be popped. As he sat by her side that evening, he hesitated. Somehow or other the words would not come. She waited expectantly, anxiously, would he ever speak? Suddenly a happy idea struck him. "I'm all right now," he murmured. "Mary," said he, "Where will we buy our coal and wood—when? when! ah! when we are married?" "The People's," she answered exultantly. "Right," said he, and as they embraced each other lovingly they were the happiest couple on earth. Tips From Wall-street.

The market closed steady.

London sold Atchison bonds to-day.

Sugar is a purchase on re-actions.

Tobacco shows up better than expected. The report shows earnings of 22.42 per cent. on the stock and there is no floating debt.

The most active stocks to-day were St. Paul 13,600, N.W. 4000, Erie 2000, J.C. 1600, N.Q. 2000, Reading 1900, Manhattan 2100, Mo. P. 1000, L. & N. 4100, B. & Q. 5600, N.E. 1400, G.E. 15,000.

Henry A. King & Co.'s special wire from Ladenburg, Thalmann & Co., New York: London's re-opening showed a certain degree of response to the bullish tendencies of the last few days in this market. It would, indeed, seem that the foreign professionals, loaded with the profits of the mining excitement and apprehensive of a break-down in that quarter, were turning their attention to the American stock market and the bright prospects which the rising tendency in most American commodities opened up to them. There was some local buying to supplement this tendency at the opening, but our market unfortunately did not show any wide expansion of public interest. Hence, though there was a generally strong tone at the opening and measurable advances in such international securities as St. Paul and Louisville and Nashville, supplemented later on by an upward move in Sugar, the market hesitated and in the late hours showed a slight reactionary tendency.

McIntyre & Wardwell (John J. Dixon) received the following despatch from Messrs. Schwartz, Dupee & Co., Chicago: There was nothing in the outside news to cause any advance in wheat, but on the contrary it was rather in favor of lower prices. The advance of yesterday, as well as to-day, was due to a sudden impulse of shorts to cover on the over-sold market. The world's visible decreased only 1,047,000 bushels, and the shipments for the week from Argentina and Russia were nearly 5,000,000 bushels. Export clearances to-day were about 200,000 bushels, with practically no new business reported for shipment at the seaboard. Crop conditions, except in Kansas, were favorable, rain having again fallen in Nebraska and Iowa. As we have said of late, the legitimate situation in wheat warrants a better level of prices than have prevailed for some time past, but bulges having nothing more back of them than that of yesterday and to-day are usually of short duration.

Provisions, on receipts of hogs, 6000 under the estimate, opened strong, with fair buying by commission houses, the sellers being chiefly scalpers. The market ruled steady, and shortly after noon traders took advantage of the absence of orders to depress prices, the closing being heavy and spiritless, at about the lowest prices of the day.

Henry A. King & Co.'s special wire from Frank G. Logan & Co., Chicago: The wheat market opened firm with very light offerings. The volume of business was light on local and for outside account. The small decrease of 1,000,000 bushels in the world's supply acted as a damper, and the selling was heavy. The present sentiment is in favor of a further advance. Our elevator interests are giving it all the aid they can. Corn—There is absolutely no speculative interest in corn, and the daily arrivals are sufficient to supply all the demand. May is nominally 45 5-8c. The future value, we believe, depends as much on the weather as on supply and demand. With seasonable weather prices will go lower, as green feed will supply the feeding wants. Provisions—Fairly steady; business in them is light. The small receipts of hogs had no influence on the market. It will do to buy on any sharp decline.

EGGS LOWER at 11c to 12c; butter fair at 13 to 14c for large rolls; onions $1.50 to $2; bush.; cheese 10c to 11c; poultry in extra good demand; potatoes 60c to 75c. Orders and consignments solicited. A. Paxton & Co., 72 Colborne-street, Toronto. 246
