—CURES—
CHAPPED HANDS, SORE LIPS, SUN-BURN, CHAFING, TENDER FACE AFTER SHAVING, &C., &C.
PHILODERMA owes its immense success to the fact that it is radically different from any preparation in the market. It is a bland and soothing liquid, nicely perfumed, and when applied to the hands and face produce a delicious sense of coolness and comfort, exercising also a direct curative action. It is entirely free from the sticky quality of glycerine and the greasy nature of camphor, ice, or cold cream. It contains nothing injurious or unpleasant to the most delicate skin, neither will it soil the finest cambric—which qualities make it the most popular and saleable article in the market.

MINISTERS sometimes make it hot for their congregations. Sackville congregations have recently turned the tables on their pastors most completely. The last one served this way was the Rev. Mr. Corey; on Tuesday, teams from the woods filled up his back yard with appliances for eternal fires for one year.

HORSE TRADE.—Much sympathy is extended to a legal luminary of of Moncton who made a disastrous horse trade in this innocent village a few days ago. Repenting of his bargain, he invoked the aid of Commissioner Wortman's Court to complete the transaction in a profitable way, and the case was called on Monday, but was adjourned for one week.

FROM WESTMORLAND.—We understand that the M. I. Society, at Point de Bute, is prospering beyond expectation. The public entertainment on Monday last, at which a paper edited by Mr. J. Wells, called —— was read by that gentleman, and made the most side splitting laughter of the season.—Rev. Mr. Chappell, of Shediac, lectured in the Methodist church in Point de Bute on Tuesday evening. The subject, "British Columbia," was well handled.

HANINGTON SALE.—The steam mill and lands belonging to the estate of the late W. J. M. Hanington, Shediac, as advertised in the Post, were sold at auction yesterday to Charles H. Hanington, Esq., C. E., of British Columbia, for $11,800. Logs and lumber about the mill, belonging to Patterson, McCully & Co., of Liverpool, G. B., were also sold to Mr. Hanington for about $3,000. It is understood that Mr. Hanington returns from British Columbia to carry on lumber operations at Shediac.

GREAT FALL IN DRY GOODS.—On Saturday a team containing a party of ladies, driven by a young philosopher, fresh from our academic groves, dashed down Bovine Avenue At Crane's Corner the co-relation of forces impinging on one of the runners gave the sleigh a sudden dip, and the gallant driver glancing back, beheld in the middle of the street a miscellaneous and struggling mass of heads arms, snow boots, redingotes, skirts etcetera, and there was a look of wild despair in his eye. Finally, reining in his fiery mustangs, he returned to the Corner, by which time things had got sorted up, and he loaded up again and made a second start, to the entire satisfaction of every occupied pane of glass in the vicinity of the Corner.

When, a few minutes later, the tea was sent up, he was found dead on the floor. Doctors were summoned, and pronounced the death the result of apoplexy.

—The following is clipped from an Irvin, Col., paper, and will interest Mr. Muncey's friends in Nova Scotia: "Another rich and extensive coal field lies in the northwest part of the county in the neighborhood of Ragged mountain and Mount Marcellina. The best known of the coal banks in that region are what is known as the Muncey banks. These include about two thousand acres and cover a vein of the finest anthracite, which is seven feet thick and crops for nearly three miles. A half interest in these banks was sold during the past year to Halifax parties for $25,000, and they have since been surveyed and entered for patent."

—At Bendville, Ohio, Peter Clifford was awakened late on Saturday night by two men, who asked him to come to the door a second. As the door was opened one of the men put a pistol to Clifford's breast and fired. Clifford fell into the arms of his wife saying: "The Hickeys have killed me" and died in a few minutes. The Hickeys, four in number, and Joe Reddy, brother-in-law of Richard Hickey, were arrested. A mob of several hundred surrounded the jail and took Richard Hickey and Reddy to a grove near by, where Hickey was hung. Reddy was also strung up but the rope broke, and he protested innocence and begged so piteously that the crowd spared him for trial.

—Proceedings have been taken to recover a penalty of $200 from Rev. W. G. Lane, Methodist minister of Halifax, for marrying a soldier to a city girl without banns or license, and the writ has already been issued. The history of the case is an interesting and curious one. The girl's name is Miss Alice E. Farrel, and she is respectably connected. Sergt. Hanfield, of the 19th Regiment, is the man. After staying with his quondam wife for several weeks he left her on the pretext that they were not legally married. The minister appears to have been victimized by the sergeant who told him he would bring around the license the next day. The young lady's friends are conducting the proceedings against him.

Blood Relations.
The best blood relations consist of a perfect circulation of healthy, vital fluid—pure blood and proper circulation may be established in the system by the use of that grand blood purifier, Burdock Blood Bitters.

Liver, Kidney and Bright's Disease.
A medicine that destroys the germ or cause of Bright's Disease, Diabetes, Kidney and Liver Complaints, and has power to root them out of the system, is above all price. Such a medicine is Hop Bitters, and positive proof of this can be found by one trial, or by asking your neighbors, who have been cured by it.

Cape Bald Items.

—Frank Comeau, Esq., of Cape Bald, has just returned home from a visit to Judge Savary, of Digby, N. S., concerning property said to have been left by one Charles LeBlanc, in Philadelphia, for his heirs in Nova Scotia and New Brunswick. This LeBlanc having died in 1816, left quite a fortune. Mr. Comeau has already gone to a good deal of trouble and expense and has been to Philadelphia. When the fortune comes I hope he will be amply rewarded as he is not one of the heirs.

—Beef packing at Cape Bald is closed for the season, and preparations are made for the next summer's lobster fishing, which it is rumored will be carried on heavily.

—There is quite a sensation at Rockland Station to know who has the agency for the spring Hill coal. Several claim to have the agency, yet, there is not agents enough to get coal to supply the demand, The one that claims to have the agency lives about one mile from the station, which is very inconvenient. If you want a ton or half ton of coal you have to go a mile from the station to get a man to deliver you the coal, when it might be given to some one at the station.

Cumberland Items.

FROM AMHERST.

—A very decidedly colored young man, who came a year or two ago from the city of Halifax, where he received his moral education, was tried on Wednesday morning for assaulting a young girl from Sheffield, England, when returning from church Sunday evening. The evidence of the girl was very explicit, and the character of the accused was portrayed by two other girls who stated that he had several times followed them with his person exposed, and had assaulted them on the streets. He was given three months close confinement and five dollars fine or one month longer.

—A number of men have been employed cutting the ice away from the railway bridge piling to save the structure from destruction.

—On Friday last, while Simon Chisholm, of Gulf Shore, was coming to Redmond's ship yard with a load of timber, the sled upset, throwing the timber on Mr. Chisholm. His legs and ankles were badly bruised; no bones broken. He is recovering as fast as can be expected. When discovered three heavy sticks of timber lay across his ankles, legs and hips. He could not have survived long if relief had not arrived.

Shediac Items.

Maximilien F. Poirier has been fined $50 and costs. Martin McDonald has agreed to pay costs and close until March if other parties do the same. All others have received notice from the Alliance that unless they close they will immediately be dealt with. On Monday morning J. McKennon was fined $50 for violation of the Scott Act. This, with the conviction of M. McDonald and M. Poirier, has produced a wholesome effect upon the order and behavior in the village.—The subject for debate before the Shediac Debating Society for Tuesday, 11th inst., will be, "Is Free Trade or Protection best for Canada?"—Rev. B. Chappell, on Sunday, preached a red-hot temperance discourse.—The schools have closed owing to diphtheria.—The ice carnival at the Point was rather spoiled by the rains and it was postponed till Thursday, when a gay time is expected.

Dorchester Items.

—Major Howell has left for the West.

—The lawyers are at Fredericton attending the Supreme Court.

—The Willow Farm contains within its bounds a mineral spring possessing valuable hygienic qualities, bottles and jugs and barrels of this are in constant requisition, and those who come once come again.

—Mr. F. C. Palmer, one of our ablest young business men, has of late found a necessity for more assistance and has been making numerous trips across the River. He succeeded in getting a daughter of 'Squire William Dobson's to look favorably on the matter, and last evening the the copartnership papers were signed and certified to by the Rev. Mr. Harrison, at Mr. Dobson's, in the presence of many friends of both parties. Congratulations and good luck.

—There are twenty-three woollen mills in Nova Scotia, not including mills where only carding is done.

—McDonald, Hanrahan & Co., Sydney, have failed; liabilities $20,000. They assigned to George Anderson, of Anderson, Billing & Co., Halifax.

—The Nova Scotia sugar refinery has enjoyed twelve months of marked prosperity, and, notwithstanding a great many drawbacks, over $50,000 has been earned over all expenses. Out of 17½ per cent. netted, the directors have declared a dividend of five per cent. on the capital of $350,000. A year ago the refinery was over $600,000 in debt; to-day the amount is less than $200,000.

—The following are the products of the lobster canning establishment in Cumberland County during the past season:

	Cans.	Value.
Z. McKay, Gulf Shore	28,800	$ 2,700

At the close of the lobster season Messrs. McKay and McInnis canned 60 head of cattle and 450 carcasses of mutton, which would be worth, when put up, about $2,500.

Not Content With Being the Best.
Whatever may be said in regard to the propensity of the management of great railway lines to provide for the public only what is actually demanded in the way of accommodations and comfort, can in no way apply to the management of the Chicago, Rock Island & Pacific Railway, or as it is more familiarly known, "The Great Rock Island Route." This line has for years been recognized as the best and most comfortable route between Chicago and Kansas City and the Southwest, and has been abundantly able on this account to successfully cope with its competitors. But not satisfied with this success and its already elegant equipment, its managers have caused to be turned out of its shops at Chicago, a magnificent line of Dining Cars which go into immediate service on the Kansas City Line. These cars contain all the conveniences of well furnished dining rooms, are elegant in design and finish, and models of the advanced railway art of the day. Within them meals are furnished equal to those of any first-class hotel in the land at the low rate of seventy-five cents. Travellers on this line now find on its trains all the comforts and conveniences of first-class hotels. Besides the best of first and second-class coaches there are Parlor Chair Cars, (which are free to all passengers holding through first-class tickets), Pullman Palace Sleeping Cars and Dining Cars.
This Company's lines—all of which are equally well equipped—also extend to Council Bluffs and the West, and Minneapolis and St. Paul and the Northwest; and the deserved praises bestowed upon it by returned travellers who speak from experience, make it noted throughout the land.
We bespeak for the owners and managers of this magnificent Railway ample returns for their generous provisions for the wants of the public, which is, as has already been proven by the patronage extended to this line, quick to appreciate and patronize those who prove by their deeds and generous treatment that they are devoted to its comfort and welfare.

A Card.
To all who are suffering from the errors and indiscretions of youth, nervous weakness, early decay, loss of manhood, &c., I will send a recipe that will cure you, FREE OF CHARGE. This great remedy was discovered by a missionary in South America, Send a self-addressed envelope to the REV. JOSEPH T. INMAN, *Station D, New York City.*

—Hall's Vegetable Sicilian Hair Renewer imparts a fine gloss and freshness to the hair, and is highly recommended by physicians, clergymen and scientists as a preparation accomplishing wonderful results. It is a certain remedy for removing dandruff, making the scalp white and clean, and restoring gray hair to its youthful color.

From Mr. James McGrath, 6th Tier, Jacksontown For a year and a half I was troubled with a severe pain in my side, which the greater part of the time Prevented me from going about. I tried everything to be had without effect, until I was advised to use W. T. BAIRD'S CURE-ALL LINIMENT, which I did, and was well repaid, for two bottles made a complete cure.

Baker's Defeat.

He Attempts to Fight his way from Trinikital and his Troops are Cut to Pieces.—The Egyptians Show the White Feather.

LONDON, Feb. 5.—Later despatches reiterate the previous report that Baker Pacha has met with a serious defeat. Baker Pacha had 3,500 men, and was advancing when attacked. His losses in killed and wounded amount to 2,000 men, four Krupp cannons, and two Gatling guns. The Turks and Europeans fought well. Baker, with the remnant of his force, succeeded in reaching Trinikital, where the gunboat "Ranger" is lying. He will return to Suakim. The Khedive has received a telegram from Baker Pacha deploring his defeat near Tokat. The disaster was rather expected, as his force consisted of raw and badly equipped recruits, some of whom were sent to the front without arms and some with only old muskets. The gloomiest rumors have prevailed since the start of the expedition.

THE EYE.—Numbers of all classes here have reasons to congratulate themselves on the vigor of their sight now first made manifest by the admirable manner in which their eyes have been examined and suited with Dr. Franks famous Uniform Focus Spectacles, and others having diseases of the eye have much to be thankful for, for the improvements the Dr. has made in their case, by his scientific treatment. Many having defects in their hearing are now rejoicing in the possession of good sound aural organs, who, no doubt, in time would have been entirely deaf. That Dr. Franks visit to this place has been a public benefit, there is no doubt, as all speak of his spectacles and medical treatment of their eyes and ears in the highest praise, and many have given him testimonials of great commendation. His stay in Sackville is now limited to three days, therefore, all who not consulted him have this time to do so and no longer, as he is engaged to lecture in another place. No. time is now to be lost, or many will regret missing so excellent an opportunity of visiting so competent end well known a gentleman. *

Every Spring.
HOW AN AFFLICTING ANNUAL VISITOR WAS DRIVEN FROM A WEARY WOMAN.
Pain and simple mechanisms are not liable to get out of order. Complicated watches, intended not only to keep the time of day, but to mark the movements of the moon and stars, are certain to need frequent repairs. Husbands and fathers often fail to see their wives and daughters are more delicately organized than themselves, requiring corresponding care when they are well and assistance when they are ill. Yet much better for woman's fine system is a trustworthy medicine, ready at all times for use, than a deal of tinkering by semi-educated local practitioners.
"Every spring," said the wife of a well known employee of the Grand Trunk Railway, Montreal, "I have been for some years past troubled with nervous debility and weakness. It was the burden which so many women are called upon to bear, although none the lighter for that.
"Advice and dosing, to be sure, I had in plenty; still, on each returning spring my sickness came as regularly as the buds and blossoms.
"'You seem better now.'
"Oh yes; I consider myself almost or quite well, and it came about in this way: A lady living on St. Catherine street, this city, commended to my attention *Sulphur and Iron Bitters*, and it gave me strength and life. My sister, living in Brockville, whose disease was nearly the same as mine, was equally benefited by the same thing."
Sulphur and Iron Bitters, prepared by the Climax Chemical Co., Montreal, is for sale by all druggists. Price, 50 cents.

By Universal Accord,
AYER'S CATHARTIC PILLS are the best of all purgatives for family use. They are the product of long, laborious, and successful chemical investigation, and their extensive use, by physicians in their practice, and by all civilized nations, proves them the best and most effectual purgative Pill that medical science can devise. Being purely vegetable no harm can arise from their use, and being sugar-coated, they are pleasant to take. In intrinsic value and curative powers no other Pills can be compared with them; and every person, knowing their virtues, will employ them, when needed. They keep the system in perfect order, and maintain in healthy action the whole machinery of life. Mild, searching and effectual, they are especially adapted to the needs of the digestive apparatus, derangements of which they prevent and cure, if timely taken. They are the best and safest physic to employ for children and weakened constitutions, where a mild but effectual cathartic is required.
For sale by all druggists.

Mr. James Sharp, Northampton, N. B., says—"Having sold a large quantity of your W. T. Baird's Cure-All Liniment throughout the Counties of Carleton and York, my customers speak of it in terms of unqualified praise, and call it the 'best of Liniments.'"

A Good Cosmetic.
The best cosmetics are good soap and water, to obtain purity of the skin; while for boils, blotches, obstinate humors and impurities of the blood, Burdock Blood Bitters is the best of all purifiers.

A Long Time.
Fifteen years of suffering from the tortures of Dyspepsia is indeed a long time. A. Burns, blacksmith, of Cobourg, was thus afflicted, but it only required four bottles of Burdock Blood Bitters to completely cure him.
