FREDERICTON, JUNE 30, 1894.

FREDERICTON'S CELEBRATION.

Fredericton will loyally welcome Lord and Lady Aberdeen, on the occasion of their visit here in August, not only because of their official position, but also on their own account. Since their arrival in Canada, they have shown strong sympathy with all classes of the people, and have given their countenance and aid to everything of a character likely to benefit the country. It was a happy idea in Prof. Robertson, to utilize Lord Aberdeen's visit to give the agricultural interests of New Brunswick a boom, and doubtless the farmers of the province will be present by the thousands at the grand picnic to be held under their auspices. But the citizens of Fredericton, besides assisting to make the picnic a success, will doubtless add other interesting features to the Governor General's visit, and THE HERALD understands that a move in that direction will be made at the City Council, Tuesday evening. Lord and Lady Aberdeen will probably remain here at least two or three days, and will receive a welcome not only from the civic authorities and farmers, but also from the local government, and when all these bodies cooperate, the celebration ought to be the biggest one seen in Fredericton for many a year.

A PUBLIC NUISANCE.

The number of serious accidents which have occurred in this city by bicycles ridden on the sidewalks, ought to arouse the authorities to a sense of their duty in the matter. There is a strict bye-law against any such invasion of pedestrian rights, and it applies to the back streets as well as the front. Bicyclists should be given to understand in a striking way that they have no right to ride their machines on the sidewalks of Fredericton. The Herald is informed that an officer has more than once called the attention of the Police Magistrate to the breach of the bye-law, but no action has been taken against the offenders. Perhaps Col. Marsh has an explanation to offer, and if so, the public would like to hear it. The HERALD, in its crusade against the law breakers, is in dead earnest, and it demands that the authorities do their duty. It may be your child, reader, who will next be knocked down and injured by the reckless riders, and you will have good ground for asking punishment for the offender, and damages from the corporation. If the law does not protect pedestrians on the sidewalk from probable collision with a bicycle, then the pedestrians will have to protect themselves. The HERALD believes in the bicycle as a means for rational enjoyment, but there is plenty of room on Fredericton's level streets for those who ride the wheel. Let them be warned that riding on the sidewalks will mean prosecution every time.

MOWATT WILL NOT GO.

The Ontarion general election Tuesday, resulted in the Liberal premier, Sir Oliver Mowatt and his party being sustained by a clear majority over the Conservatives and all other elements in the field. The revised figures give the standing of parties as follows:

Straight Liberals	49
Conservatives	28
Patrons of Husbandry	14
Independent and P. P. A.	3

The Patrons mostly, if not all, are Liberals, and will support the government on their general policy, so that Sir Oliver, while able to run the administration without their assistance, will in affiliation with them, have two-thirds of the new legislature. His victory over the Conservatives, was a most decisive one. The Patrons appear to have made a fair stand, but the Protestant Protective Association candidates, with their sectarian cries, were buried by an avalanche of ballots.

All the members of the government were reelected by substantial majorities, except Hon. W. Harty, the Roman Catholic commissioner of public works, who was defeated in Kingston, by five votes. His friends attribute his defeat to the foolish attack made on Mr. Meredith, the opposition leader, by Archbishop Cleary.

Some notable incidents of the election may be worth mentioning. Sol. White, the Conservative annexationist, was defeated in North Essex. He had held that seat with the exception of one year, since 1879.

The Conservatives had thirty-one representatives in the late House. They have only twenty-eight in the new.

Hon. Mr. Ballantyne, speaker of the last House, was defeated in South Perth.

Hon. Mr. Bronson, member of the government without portfolio, and his colleague O'Keefe, carried the Conservative city of Ottawa, with a majority of eight hundred.

Toronto elected four Conservatives by large majorities. One of the successful candidates was O. A. Howland, brother of the late ex-Mayor Howland, who was well known in Fredericton.

Charles McKenzie, brother of the late Hon. Alex. MacKenzie, was defeated in West Lambton.

Mr. Meredith's majority in London was 135. It was 202 in the last contest.

Sir Oliver had 700 majority in North Oxford.

The P. P. A.'s only elected one candidate, McCallum, who was a member of the last House.

Sir Oliver Mowatt, whom the people of Ontario have again returned to power for four years, has had a remarkably successful career. Before Confederation, he was a member of the old Canadian Assembly for seven years, and sat in the government of that day. He accepted a judgship in 1864, but returned to political life in 1872, when he succeeded Hon. Edward Blake as premier of Ontario, and he has occupied that position ever since, a period of twenty two years. He has won six general elections, and is apparently as strong with the people as at any time during his long career. The recent contest was probably the bitterest he ever faced, but he has come out of the struggle with flying colors, und his success is not a pleasing thing for the federal Conservatives to contemplate. Sir Oliver is seventy-four years old.

The rallying cry of Sir Oliver's enemies has been, in recent years, "Mowat must go," but it has lost whatever force it may have had by his successive victories. The The Toronto World, a Conservative newspaper, hit off the mouldy sentiment very nicely in an issue since the election. Says our contemporary:—

"Those people who have been drumming it into our ears for weeks back that Mowat was going, don't know what they are talking about. Mowat didn't go yesterday. He had no intention of going. He never had any such intention. He doesn't propose to go in the immediate future either. Mowat is a fixture. It is all very well for men to get up and shout, "Mowat must go," but how in the dickens are you going to make him go? It avails nothing for Meredith and the Empire to rage like the heathen against Mowat and to tell the people that they've got him on the run and that he's going this time, dead sure. What are the facts? When the game is over we find the old man seated at ease on his own verandah, smoking his pipe of contentment, and wearing in exaggerated form the bland and guileless smile that is wont to characterize the Mowat profile. Mowat must go! It is the other man who has to do all the "going." Mowat at least won't go. That's settled. Men may come and men may go, but he stays on forever. There's no use running against a brick wall."

HEIR TO THE BRITISH THRONE.

All England and her Colonies rejoice at the interesting domestic event which occurred at White Lodge, Saturday night, when the Duchess of York presented her husband with a son, who is in the direct line of succession to the British throne. The little prince is reported as a lively youth, and his arrival disposes of the fear that the succession might revert to the daughter of the Duke of Fife, who is not of exclusively royal blood. The Queen is a very old lady, the Prince of Wales is getting up in years, and the Duke of York is not in the best of health. The removal of these three august personages would leave the throne open to the youngster who put in an appearance on this planet Saturday night. For these reasons the princeling is an infant of more than ordinary importance, and will dovbtless be very tenderly watched over.

Sir John Thompson is pushing through parliament a bill providing that a judge of the Supreme Court of Canada when he reaches seventy years of age, and has served fifteen years on the bench, five of which must be in the Supreme Court of Canada, may retire on full pay; that is to say, $7,000 per year. Probably the Premier is preparing for his own old age, but the people of Canada will side with Mr. Laurier, who moved, of course unsuccessfully, that the pernicious measure be given the three months' hoist.

THE Minister of Militia has officially announced that no camps of instruction will be held this year, reducing the militia expenses $159,800. The department intends purchasing 8,000 Martini-Metford rifles at a cost of $122,640, the payment to extend over five years. Five thousand Martini-Henri rifles are also to be converted into Martini-Metfords at a cost of $58,000. These, with the 1,000 purchased last year, will make 14,000 stand of the new rifles.

France mourns the loss of an honored son, President Carnot, who was foully assassinated by an Italian anarchist, Saturday night, on the public streets of Lyons. He was a model ruler whose influence for good was felt in every part of the republic. The new ruler, M. Casimir-Perier, elected by a joint vote of the two houses of parliament, Wednesday, has had an honorable career.

The fate of the P. P. A. in Ontario ought to be a warning to New Brunswick bigots. The soil of Canada is not suited to the growth of sectarianism.

The Record is authority for the statement that Fred. Moore, the popular lumberman of Woodstock, will be the government candidate in the Carleton local election.

Provincial Teachers Meet in Annual Session at St. John.

Nearly three hundred New Brunswick teachers attended the fifteenth annual institute meeting at St. John this week, and the discussions were of an unusully interesting character.

Dr. Inch, who has won the warm esteem of the teachers and other school officials throughout the province, presided, and delivered an eloquent address at the opening of the Institute, which we hope to publish later.

John Brittain, of the Normal School, was elected secretary for the ensuing year, succeeding J. M. Palmer.

Wednesday evening there was a public meeting under the Institute's auspices, and happy addresses were delivered by Mayor Robertson of St. John, Dr. Inch, C. W. Weldon, ex-M. P., Dr. Rand, Chancellor of McMaster University, formerly Chief Supt. of N. B., Prof. Andrews of Sackville, and Rev. W. O. Raymond of St. John.

Dr. Rand said it did him good to observe the rapid progress New Brunswick was making in educational matters. The province in its educational standing would compare most favorably with any other province or state on the continent. In no other country did the teachers possess a higher social standing, and the manner in which the public men of New Brunswick had interested themselves in educational matters had not only surprised him, but had been very gratifying.

A musical program was included in the evening's exercises, among the contributors being Inspector Bridges of Fredericton.

At subsequent sessions of the Institute, Dr. H. S. Bridges of the University of N. B., read an able paper on the study of Latin, and Principal Mullin of the Normal School, discussed New Brunswick names.

The Institute members were given a reception at the Natural History Society rooms, Thursday evening, when addresses were given by Sir Leonard Tilley, Dr. Inch and Dr. Mathew.

The Institute, by a large majority, decided against the proposition to change the school terms back to the old arrangement.

Inspector Bridges was elected the teachers' representative in the University Senate, defeating Principal Mullin by a vote of 161 to 109.

The members of the Children's Hospital Aid Society had an unfavorable evening Wednesday for their sale and social at the rink, but they succeeded in realizing $70. The 71st Batt. band furnished music.

Mrs. Geo. McFarlane, of Nashwaaksis, and Miss McKee, have been appointed delegates from the Women's Foreign Missionary Society of St. Paul's church, to attend the Provincial Convention at Woodstock.

John Robertson, dairy commissioner, who visited the cheese factories at Douglas and Bright, Burtts Corner, Millville, Southampton and Prince William last week, reports the supply of milk larger than last year.

Rev. Dr. McKay, the distinguished Presbyterian missionary from Formosa, will speak in St. Paul's church next Thursday evening, and no doubt he will be greeted by a large congregation. All denominations will be welcome.

Judge Steadman and Edgar Hanson left for the S. W. Miramichi fishing grounds, Monday, but yesterday the Judge was compelled to return home by a recurrence of his old bronchial trouble. He is under the care of Dr. Bridges.

The rector of St. Marys has informed THE HERALD of the facts connected with the recent death of a child in his parish, which he says can be fully proved. He gives the most complete contradiction to the report in last Wednesday's Reporter. A full statement of the case will be made in St. Marys church to-morrow evening.

B., were married at Halifax on Wednesday, and after the ceremony the happy couple, together with twenty-five guests, sat down to a wedding breakfast at the Halifax Hotel.

Arrangements have been nearly concluded at London to provide for the necessary capital to finish the Chignecto ship railway connecting the Bay of Fundy with the Gulf of St. Lawrence. The promoters are sanguine that the railway will soon be in operation and will shortly submit a proposal regarding it to the Dominion Government,

As the down train on the Salisbury & Harvey railway yesterday afternoon, was crossing the Shepody river bridge, near Albert, on the Harvey branch line, the bridge fell, precipitating the train, consiting of baggage and postal and passenger car, into the bottom of the river, a distance of twenty-five or thirty feet. Fortunately no fatalities occured, but Miss Aletha Coonan of Harvey, one of the passengers, was very seriously injured.

The causes which led up to the recent floods in British Columbia are these: The snow last summer had never melted on account of the cold season. Snow to the depth of thirty feet lay all last summer in the gulches throughout the Albert Canon. Along the Illecillewaet River snow fell early and plentifully last winter, and to the depth of forty-three feet in the mountains of Selkirk Range and proportionately all through the province. And as no slides happened this spring and but a few last summer to bring it down to the level and thus give it a chance to melt and run off the early part of the spring, as heretofore, it lay where it fell till the hot weather set in. The heat came all at once .The spring had been very cold.

Ladies Costumes

Ladies have a great deal of trouble in selecting dress goods. The variety is great. The quality is various and the merit claimed is sometimes more than the possession. When ladies are desirous of obtaining the finest grade of Black Dress Goods, they should ask to see Priestley's dress fabrics. These, as is well known, are the *ne plus ultra* of durability, beauty and delicacy of texture. They have long been the favorite dress goods of well dressed Englishwomen. The Americans prefer them to French goods. Canadian ladies can obtain them from reliable dealers. Ladies should always ask for Priestley's Dress Goods.
