"The Coming School of Medicine"—The Histogenetic System.

Chicago, Jan. 1, 1888.

This is to certify that I have made a thorough investigation of the Histogenetic Medicines, prepared by Dr. J. Eugene Jordan, and of his unique methods of research, and am therefore competent to form a correct judgment. I pronounce them marvelous products of the highest skill, showing an acquaintance with the natural sciences far in advance of any savant with whose works the world is acquainted. The amount of time and painstaking which the doctor has expended upon the single branch of stereoscopy is enormous, and his discoveries startling. Also having used these medicines in my own practice, I can say that their actual success in curing disease is as great as is their discovery. The revolution of the Medical science of to-day is no dream—it is at hand.

J. R. S. KING, M.D., P.D.

Prof. Chem. and Toxicology, Hahnemann Medical College of Chicago.

The Histogenetic theory of reaching disease is: Rebuilding the diseased cells and tissues of the body, with the same proximate principals and fermenis, organed in the body by the glands. The medicines are prepared by chemical processes, in a perfectly pure condition, and are quite tasteless. Diseases heretofore considered incurable are cured by these medicines. In acute diseases such as La Grippe, Pneumonia, Typhoid, Diphtheria, etc., the patient improves at once.

TESTIMONIALS.

CONSUMPTIVES, ATTENTION.

HISTOGENETIC MEDICINE ASSOCIATION:

Gentlemen,—I now wish to bear my testimony to the magic powers of Histogenetic Medicines in the cure of lung disease. Three years ago I had a severe attack of intermittent fever, which shook my constitution very seriously, especially my lungs, liver and bronchial tubes. A year ago I took la grippe, which left me in a bad condition. I had a very bad cough and profuse expectoration. Could not sleep for coughing and pain in my lungs. I had night sweats and other evidences of a destructive process going on in my system. All I took and did, including cod liver oil and other consumptive remedies, did me no permanent good. I finally became discouraged and realized that consumption would soon carry me off unless some unusual treatment was brought into use in my case. I got worse and still worse, until about the middle of December last when I noticed an advertisement in the Toronto News giving the testimony of a man named Hopcroft having been cured of consumption. Also the testimony of another Toronto citizen named Sinclair cured of bronchitis with Histogenetic Medicines. I consulted Dr. Rear, one of the medical examiners of the association. He was positive, after a careful examination of my condition, that Histogenetic Medicines perseveringly taken would effect at least an arrest of the disease and very probably a radical cure. I commenced treatment at once and began to gain rapidly when, unfortunately, I took a severe cold, but persevered with the treatment and was soon better than usual again. I have rapidly improved till my cough, expectoration, pain and night sweats are entirely gone. I have gained more since commencing the treatment than I had lost during my illness (fifteen pounds.) In fact, I weigh five pounds more than I have for years. I am able now to follow my usual employment all day and feel splendid. The action of these beautifully-prepared, tasteless medicines is miraculous and permanent, and they leave no injurious effects. I wish in this testimony to tender my hearty thanks, and also those of my now happy wife, to the Histogenetic Association for the deep interest they took in my case, which has resulted, through God, in my life being saved when all else failed. I shall gladly answer any inquiries concerning the facts in my case. Yours truly,

THOS. WILLIAMS,
100 Robert street, Toronto.

SPRINGFIELD ON THE CREDIT, Ont.
March 18, 1891.

Histogenetic Medicine Association:

GENTLEMEN,—

Wishing to testify to the superior merits of Histogenetic Medicine for the cure of lung diseases, I submit the following statement: Two years ago I found myself, as a result of exposure to cold and wet weather, taking frequent colds. I took a severe cough and got run down in vitality and had several spells of hemorrhage of the lungs. I coughed a great deal in the morning and some during the night. I consulted two or three physicians, one very clever Toronto physician. He treated me without medicine, by hand rubbing, and did me considerable good, but in the course of time the hemorrhage returned.

Two of the physicians I consulted considered mine a serious case, and one of them gave me to understand it was hopeless, and I have no doubt that consumption would soon have caused my death. I heard about the new system of medicine, and consulted Dr. Rear at the head office for Canada, 19 Yonge street Market, who examined me and thought Histogenetic remedies would cure me in about six weeks. I commenced taking the medicine about Jan. 1. In two weeks the cough and breathing were better. The amount of sputa rapidly lessened. There was considerable bronchitis and it soon disappeared. My strength came again with astonishing rapidity and the rapid breathing disappeared. I have not had any hemorrhage since the first lot of medicine was taken. I have gained steadily in the body generally as well as the lungs, and feel almost as well as I ever did. I can walk fast now or do anything in a hurry and not get rapid breathing or palpitation. I am now following my usual employment and can stand any kind of weather. It is the best treatment for the lungs I have ever known, and I can conscientiously recommend it to my friends and acquaintances who may need lung treatment as far superior to any other system. Sincerely,

T. M. HAMMOND.

Books explaining the system sent free to any address.

PROGRESS IN SCIENCE.

It is well known that vegetable and animal oils are unsuitable for cylinder lubrication, and recently in France where colza oil was used it was found necessary to burn out the deposits in the ports of the locomotive cylinders.

The former idea that a connection exists between an earthquake shock and the height of the barometer has been proved by Prof. Miene to be incorrect. He bases his statement on the observation of 531 earthquakes recorded in Japan.

In Prussia it has been recommended to abolish the use of gunpowder and other slow explosives in fiery mines, but that dynamite should be used, provided the properties of firedamp present does not surpass the safety limit, as shown by the safety lamp.

In France a new "magic mirror" has lately been introduced. It consists essentially of a glass plate coated with a film of platinum so thin as to be transparent to light coming through from behind, while being a true mirror or reflector to light impinging on it from the front.

A new system of house-wiring for electric lighting consists of fitting the building with continuous tubes of insulating material, through which the wires are drawn. The tubes are made of paper soaked in a hot bath of bituminous material, and are said to be hard, strong and tough.

An apparatus called a lactorite has recently been used by French chemists to separate greasy matter from milk. It consists of a steel barrel rapidly revolved, and if a certain temperature is necessary for the reaction, the barrel is placed in hot water until the required degree of heat is attained.

Arguing from the measurement of the 2nd parallel of north latitude, between Valencia, Ireland, and Orsk, Russia, the conclusion is reached that the earth's surface on this parallel is not that of an ellipsoid of revolution. This confirms the conclusions reached in this country when the 42nd parallel was measured, and shows that the earth is not a perfect spheroid.

ONTARIO

Game and Fish Commission

NOTICE.

THE COMMISSIONERS WILL SIT IN the City Hall at London, on Thursday, May 7, for the purpose of receiving evidence relating to the game and fish laws of Ontario.

Sportsmen, guides, game dealers and all others interested are invited to attend.

Witnesses will confer a favor on the commissioners by bringing with them such data as they possess concerning the breeding time, and arrival and departure of such animals, birds and fish as they may know of in their neighborhoods.

The sessions of the commission will commence at 10 a.m. daily.

G. A. MCCALLUM, M.D.,
Chairman.
A. D. STEWART,
Secretary.

N. B.—Persons unable to attend the sessions of the Commission will be furnished on application to the secretary with a list of printed questions relating to the above matter, which can be filled up and sent to

A. D. STEWART,
Secretary Game and Fish Commission, Court House, Hamilton, Ont. 31u zx
