Awaken The Liver

AND YOU REMOVE THE CAUSE OF INDIGESTION, BILIOUSNESS AND CONSTIPATION.

DR. CHASE'S KIDNEY-LIVER PILLS.

The liver, when in health, filters bile from the blood, where it is poison, and pours it into the intestines, where it is necessary to digestion and a proper working of the bowels.

Once the liver becomes torpid and sluggish in action the "bile poison" is left in the blood, where it causes biliousness, jaundice, indigestion and headache.

The tongue is coated.

The breath bad.

The stomach sour.

The complexion muddy.

The bowels irregular.

The kidneys clogged.

Besides the pains and aches consequent on the poisoned condition of the system, there is the greatest danger from such diseases as Bright's disease and appendicitis.

Dr. Chase's Kidney-Liver Pills thoroughly cleanse the kidneys, liver and bowels, and by their direct action on the liver cause a healthful flow of new bile to aid digestion and ensure the natural and healthful action of the bowels.

There is no means known by which indigestion, biliousness and constipation can be so promptly and thoroughly cured as by Dr. Chase's Kidney-Liver Pills.

Dr. Chase's Kidney-Liver Pills, one pill a dose, 25 cents a box, at all dealers, or Edmanson, Bates & Co., Toronto. The portrait and signature of Dr. A. W. Chase, the famous recipe-book author, are on every box.

When one of the city ministers of Glasgow was travelling one day by the subway he got into conversation with a fellow-passenger, who had the appearance of being an artisan. The latter was very communicative, and in the course of conversation stated that he was a coupler on the railway. "Oh," said the minister, "I myself have been in that line of business for the last thirty-five years." Looking up, and perceiving from his clerical collar the profession to which his fellow-traveller belonged, the railway coupler joined: "Oh, but I can beat you, sir." "How can you beat me?" "Well, sir, I can uncouple, and ye canna; ye couple yours for better or for worse!"

THERE IS NOW A MASS OF PROOF

That Lumbago is Always Cured by Dodd's Kidney Pills.

Quebec Man Cured His Kidneys with Dodd's Kidney Pills, and His Lumbago Vanished.

Quebec, P. Q., May 22nd.—(Special).—John Ball, a bricklayer, residing at 57 Little Champlain Street, this city, has added his statement to the great mass of proof that Lumbago is caused by disordered kidneys, and consequently easily cured by Dodd's Kidney Pills. Mr. Ball says:

"I was troubled with Lumbago for two years. I could not work. I had to get up at nights to urinate so often that my rest was broken. I read of cures by Dodd's Kidney Pills, and made up my mind to try them. After the first box I could see and feel a change. Three boxes cured me completely."

Lumbago, like Rheumatism, is caused by uric acid in the blood. Uric acid cannot stay in the blood if the kidneys are working right. Dodd's Kidney Pills make the kidneys work right.

QUESTIONS AND ANSWERS. Miscellaneous.

THE CANNING BUSINESS.

Enquirer.—During the past two or three years, we understand, the canning business in Ontario has paid well. It is largely in the hands of the Consolidated Cannery Association, which controls some 21 or 22 factories.

POULTRY BOOKS.

Would you please mention in your paper if you know of any good work on poultry-raising? H. & Co.

Ans.—Poultry Craft, by John H. Robinson, \$2; Farm Poultry, Watson, \$1.25. The former is most highly recommended. Order through this office.

BRAN IN CONSTANT SUPPLY.

Would there be any danger of over-feeding in keeping dry bran constantly before calves and pigs, provided a constant supply had always been before them from birth? SUBSCRIBER.

Ans.—No; but the supply should be renewed every day so as to have the feed fresh. If allowed to be long in the manger, it would become musty and unpalatable after being breathed upon.

PLAN OF BENT FOR PLANK-FRAME BARN WANTED.

Can you give me a plan of a center and an end bent of a plank barn 36 x 50? I want to use a fork or slings. Can you tell me where I can get plans of a plank frame? J. L.

Ans.—Up to date, we have failed in our efforts to get satisfactory bent plans of the kind desired. Can any reader favor us with drawing and description?

BREEDING YOUNG BULL.

I have a fine Hereford bull, dropped Sept. 24th, 1904, weighs about 600 lbs. now. How many cows should he be bred to this summer? C. H. W.

Ans.—He should not be bred to any cows before he is one year old, and then to not more than two in a week for a month or two. Twenty-five to 30 cows should be about the limit for the first six months after he is a year old, and 50 to 60 in the same space of time after he is two years old, and only one service in each case should be allowed.

BEST WAY TO GET RID OF GROUND HOGS.

I have a field of fall wheat that is almost destroyed by ground hogs. Would you be kind enough to give me the quickest way of destroying them as soon as possible? J. H.

Peterboro Co., Ont.

Ans.—Poisoning, by placing in the burrows cloths dipped in carbon bisulphide, an inflammable poisonous liquid which volatilizes readily, forming a vapor that is heavier than air and hence sinks to the bottom of the burrow, killing the ground hogs, is a remedy that has been recommended in these columns, and is worth trying, though we are not optimistic as to the results. Perhaps shooting is as good as anything. It is the only expedient we have ever tried. If any reader knows of a better way, his experience will be welcomed.

A NOVEL BILL.

The American Veterinary Review quotes from the N. Y. Phil. Medical Journal, of April 1st, as follows:

"The Legislature of the State of Pennsylvania passed a bill on March 21st, by 105 yeas to 28 nays, providing that it shall be compulsory for institutions in the State, interested exclusively or especially with the care of idiots and imbecile children to appoint upon their staffs at least one skilled neurologist and one skilled surgeon of recognized ability, whose duty it shall be, in conjunction with the chief physician of the institution, to examine the mental and physical condition of the inmates. If in their judgment deemed advisable, it shall be lawful for the surgeon to perform such operation as shall be decided safest and most effective to prevent procreation. The operation shall not be performed except in cases that have been pronounced non-improvable after one year's residence in the institution."

Promoter—"I hope you don't think me dishonest?" Shorn Lamb—"Not at all, you only made a grammatical error. You told me I should have a beautiful little dividend at the end of six months; what you intended to say was 'beautifully little.'"

Fistula and Poll Evil

Do yourself what horse doctors charge big prices for trying to do. Cure Fistula or Poll Evil in 15 to 30 days.

Fleming's
Fistula and Poll Evil Cure
is a wonder—guaranteed to cure any case—money back if it fails. No cutting—no scar. Leaves the horse sound and smooth. Free Book tells all about it—a good book for any horse owner to have. Write for it.
