MADE IN ST. JOHN.

A new extension cover on the motor boat owned by T. S. Simms Co. is being much admired. It was constructed by Chestnutt & Son, of Union street, and is sixteen foot long, six feet wide, and held in place by six steel standards. The whole top is made of rubber, with curtains of flexible glass, and the whole thing may be folded back into the stern of the boat if desired. It is the latest in this kind of work in New Brunswick, and about the largest top ever made in St. John.

Since the establishment of the coal and steel industries in Cape Breton the population has increased rapidly, consequently Electricity is a constant demand.

. The . Cape Breton Electric Co.

serves without competition Sydney, North Sydney, Glace Bay and Sydney Mines.

The COMMON STOCK selling at $60.00 a share, offers an investment yielding 6.66 per cent. with a good prospect of increase in dividend and value.
