LEARN DRESSMAKING IN TWO WEEKS

We teach a complete course of lessons on Dress-making. You cannot afford to go to a shop, where you hem, baste, overcast all day, then after serving there 6 months, you will know no more about cutting out a dress than the first day you went there...When in a couple of weeks we can give you a knowledge in cutting, fitting and putting together of waist to most elaborate dress...If you do not want to learn to be a professional dress-maker, then even if its only for your own home-sewing, it will pay you to learn as the cost is so small. A few days' trial given free. No pay in advance.

Next class begins Dec. 1st. Terms are $14.00 including charts, to be paid when through.

For full information call at our residence on Nov. 29th.

G.T.R. Roundhouse and Two Locomotives Burn
The action of the crew of the United States steamer Commodore Perry in coupling the ship's hose to that of the village hand fire pump and fighting fire for several hours, assisted in preventing what would have been a more serious conflagration at Port Dover was completely destroyed, with two locomotives.

A large pile of kindling, kept handy for starting fresh fires in the engines, caught fire and threatened to wipe out two passenger trains and several freight cars standing near.

Both locomotives in the roundhouse were supposed to be "dead," as their fire boxes had been cleaned out at the pit some distance away, and the cause of the fire is not known.
