He Was One of Our Best Marksmen!

AT THE RANGES AGAIN THIS YEAR!

Canada, for a young nation can justly boast of a well conducted Volunteer force, which for the advantages they have had in drill, field exercises, and rifle shooting, are second to none in the world. Our volunteers have always more than held their own as expert marksmen at home and in England.

Our Wimbledon and Bisley teams have always acquitted themselves creditably; and these annual contests have always been productive of great good.

Jack ——, is one of our best marksmen, and for several years was a member of our Canadian team at the Wimbledon contests, always coming out with good scores both in team and individual competions. His grand work for two seasons helped Canada to win the Kolapore cup, and he came back each trip considerably enriched with money prizes.

For over eighteen months our friend Jack was unable to take part in any of the local rifle matches.

His daily occupation was close and confining and his steady attention to heavy office work over-taxed his bodily strength, and he became weak and irritable, as well as very despondent. His physician wisely recommended quiet and rest for a time, and prescribed for his illness.

Jack missed his rifle shooting very much, and often spoke of it; but he knew well that an unsteady eye, a trembling hand, and unstrung nerves were not aids to good shooting.

Jack who had been looking over the evening papers, read with astonishment about a remarkable cure affected by Paine's Celery Compound, and at once decided to give it a trial, more especially as it was a nerve tonic.

He manfully and honorably informed his physician of his determination, and would listen to no remonstrances from any quarter. He paid his physician for past services, and at once commenced the use of Paine's Celery Compound.

The first bottle produced a great change; he was able to eat fairly well, and slept better. After he had used the third bottle he was able to resume his office work, and felt almost as well as ever before. He continued the use of the compound for some weeks longer, and became as steady as a rock, and resumed his rifle shooting practice, and is making remarkable scores once more.

He says his condition is such as will enable him to compete for a place on the team that will go to Bisley next year, and that he thanks Paine's Celery Compound for it.

A love-letter written by some great man 400 years ago was recently sold in England for $750. A love-letter recently read in court in a divorce case was worth $5,000—to the "fair plaintiff." And its writer is still living, and comparatively unknown, too.

Love-light's High Candle Power.—"Kitty," said the lover, as they sat in the dark corner of the piazza—"Kitty, close your eyes." "Why so, George?" "If you don't everybody will be able to see us."

PARKDALE, Ont., Feb. 27, 1888.—Gentlemen, It gives me pleasure to let you know I have derived great benefit from the use of Nerviline. I have been a great sufferer from Neuralgia in the face, and last two years was quite a martyr to the malady. So soon as I observed the Nerviline advertised I obtained a bottle from our druggists, Messrs. John Gray & Co., Parkdale, and the effect was marvelous; pain ceased and I can enjoy sound sleep at night and rise refreshed. I cannot speak too highly of it and heartily recommend it. ALEXANDER STEEN.

A curious prize at a progressive euchre party in a New York town was a 50-pound watermelon.

No one need fear cholera or any summer complaint if they have a bottle of Dr. J. D. Kellogg's Dysentery Cordial ready for use. It corrects all looseness of the bowels promptly and cause a healthy and natural action. This is a medicine adapted for the young and old, rich and poor, and is rapidly becoming the most popular medicine for cholera, dysentery, etc., in the market.

Massachusetts has a surplus of 60,000 marriageable girls, and yet one woman had seven husbands in court the other day. She brought suit for desertion, and her latest acquisition also brought in a baker's half-dozen of conjugal disappointers to confront her. She failed to appear, and the unfortunates drank to her health.

And thousands of others.

What The Recamier Preparations Are and Why They Are To Be Used.

RECAMIER CREAM which is the first of these world-famous preparations, is made from the recipe used by Julie Recamier. It is not a cosmetic, but an emollient to be applied at night just before retiring, and to be removed in the morning by bathing freely. It will remove tan and sunburn, pimples, red spots or blotches, and make your face and hands as smooth, as white, and as soft as an infant's. Price, $1 50.

RECAMIER BALM is a beautifier, pure and simple. It is not a whitewash, and unlike most liquids Recamier Balm is exceedingly beneficial, and is absolutely imperceptible except in the delicate freshness and youthfulness which it imparts to the skin. Price, $1 50.

RECAMIER LOTION will remove freckles and moth patches, is soothing and efficacious for any irritation of the cuticle, and is the most delightful of washes for removing the dust from the face after traveling, and is also invaluable to gentlemen to be used after shaving. Price, $1 50.

RECAMIER POWDER is in three shades—white, flesh and cream. It is the finest powder ever manufactured, and is delightful in the nursery, for gentlemen after shaving, and for the toilet generally. Large boxes, $1; small boxes, 50c.

RECAMIER SOAP is a perfectly pure article, guaranteed free from animal fat. This soap contains many of the healing ingredients used in compounding Recamier Cream and Lotion. Scented, 50c.; unscented, 25c.

Read the following quotation from a certificate signed by three of the most eminent chemists in America:

"The constituents of the Recamier Cream are well-known remedial agents, and their properties are fully described and authorized in the American and French pharmacopœias. They are combined in a way which, while novel, is chemically correct, the resulting preparation being perfectly safe and beneficial for the uses specified. In the proper sense of the word, Recamier Cream is not a cosmetic, but a remedial agent for the skin."

OFFICE OF THE PUBLIC ANALYST.
MONTREAL, Sept. 9, 1887.

To the Canada Sugar Refining Co., Montreal.

GENTLEMEN,—I have personally taken samples from a large stock of your Granulated Sugar, "REDPATH" brand, and carefully tested them by the Polariscope, and I find these samples to be as near to absolute purity as can be obtained by any process of Sugar Refining.

The test by the Polariscope showed in yesday's yield 99.90 per cent. of Pure Cane Sugar, which may be considered commercially as ABSOLUTELY PURE SUGAR.
