ALL the Estate, Right, Title, and Interest which the said Charles Hobin, in his lifetime, had of, in, and to ALL THAT LOT OF LAND situate, lying, and being near the settlement of Diligent River in the said county, and known as part of the north end of lot numbered seventy—it being the same lot of land which was conveyed to Cyrus Cannon by one Ephraim Lamb and wife by a certain Deed, bearing date the ninth day of February, A. D. 1852, and described as follows, viz: Commencing at a birch stump on the north side of the south bank of Glasgow Brook, thence running easterly till it strikes John Cannon's land, thence northerly along the west side of said John Cannon's land until it strikes the division line of lots, thence westerly till it comes to a corner stone marked E.L.I., thence southerly along the line of Rowe Salter's land till it comes to the place of beginning—containing, by estimation, fifty acres, more or less, with the appurtenances thereto belonging.

Premiums.

THE WILSON SHUTTLE

SEWING MACHINES

Received the Grand

Prize Medal

AND MEDAL OF HONOR

FOR THE

BEST SEWING MACHINE,

The Best Made Sewing Machine,

AND THREE

COOPERATIVE MEDALS

FOR

The Best Made Set of Harness,
The Best Made Side Saddle,
The Best Boot and Shoe Work,
And the Best Samples of Cloth Sewing.

No other Sewing Machines received Premiums on their merits, which we will prove by evidence at our office, and that all reports relating to the contrary are false.

Vienna Premiums Again, and the American Sewing Machines.

By reference to the General Regulations of the Vienna Universal Exhibition, published by Archduke Rainer, President of the Imperial Commission, we find medals were to be awarded, in the Mechanical Department, in two classes—one for Money, and one for Favorable. The medal for merit was for the article possessing the greatest merit of its kind and class, and the medal for progress for the article or thing which had made the greatest progress towards perfection in its line, simply, the award of progress would be in no a great distinction. Hence it is evident that, as the Wheeler Sewing Machine was the only sewing machine that received the Grand Medal of Merit, which is the highest honor, it must have been the best sewing machine on exhibition, and that the Wilson Shuttle Sewing Machine received the greatest merit of its class and kind, and must have been the best sewing machine on exhibition, and that the Wilson Shuttle Sewing Machine received the medal for progress, which, of course, implies that it was the most improved Sewing Machine. See Scientific American, New York Tribune, Sept. 26, 1873.

These Machines are all sold by the subscriber, who is General Agents for the Sale of Sewing Machines in Nova Scotia, and are now offered to Agents, and to purchasers on very monthly payments.
