"The cows would bite you, sir," she said.

—There is no trick about lighting a safety match without the box that goes with it. Anyone can light any safety match on a pane of glass, but the sheet of glass should be sufficiently long to give a good sweep of the match along it. Hold the match close to its head, press it firmly on the glass and rub it swiftly along in a single long stroke. It will light unless its head falls off, in which case try another.

—The boy's fishing pole was fastened under the root of a tree on the river bank yesterday and he was sitting in the sun playing with a dog. "Fishing?" inquired a man passing along the road. "Yep," answered the boy as briefly. "Nice dog you've got there. What's his name?" "Fish." "Fish? That's a queer name for a dog. What did you call him that for?" "'Cause he won't bite." Then the man proceeded on his way.

—Bishop O'Connor, at St. Peter's Cathedral Sunday morning, declared himself in favor of the entire abolition of Sunday funerals, which were objectionable from a Catholic point of view, because they left no opportunity for the extra mass desirable on Sunday mornings. If flowers, he said, were emblems of rejoicing, it was hardly in keeping to load them on the coffin on such solemn occasions. He condemned expensive funerals in poor families.

—A capital time was spent by the members and invited friends of Prospect Lodge, No. 10, Knights of Pythias, last evening, at the lodge rooms, Albion block, Richmond street. McIntosh, chancellor-commander, S. A. Webb, D. D. G. C., John Paul, P. C., A. G. McWhinney and Andrew Petrie. The "At Home" was thoroughly successful.

A London Graduate.

At the recent Veterinary College examinations in Toronto Forra L. Botkin, of this city, son of W. T. Botkin, of Unionport, Indiana, took the following: Pathology, first prize, silver medal; anatomy, second prize, McFadyen's Anatomy of the Horse; physiology, third prize, Kline on Micro-organisms; chemistry, first honors. Referring to his success the Winchester (Indiana) Herald says: "Forra had been in the British Dominion two years studying and practicing with the noted veterinary, J. H. Tennant, of London, previous to his matriculation in the college last fall. And now, after one year's work in this institution among 150 students, he shows up with the above record. This is, indeed, an honor to the young man, and complimentary to Randolph county, to be able to furnish material that has coped with English talent on Canadian soil. He will again resume his work and studies at London, and finish the course next year. We predict that he will some day rank among the best veterinaries of the State."

Santley at Chicago.

The Chicago Inter-Ocean of April 24, in referring to the concert given in the Auditorium under the auspices of the famous Apollo Club, says: "It is hardly necessary to remark that the work of last evening so far eclipsed the former efforts under these auspices that the present concert will linger in the memory like the star that stands apart. The audience early had a chance to hear the famous singer Santley, who has pleased so long and pleased so many. Coming as a stranger to this public, save for the enviable artistic reputation that has preceded him, vigorous despite the story of his silver years, he at once stepped into prominence as a favorite with all who love the finished art of song. His voice is a high baritone, smooth throughout an extended range and used with the ease and grace that qualifies the artist. An excellent local authority, who heard Mr. Santley two years ago in England, said that his voice last evening was better than ever; so that this public may readily believe it enjoyed a treat. There was not only finished delicacy in shading, but a spontaneity that was refreshing in all his work. It is difficult to recall a better example of recitation than "Hush, wretched priests, with gory knives," in which dramatic effects were attained with so little apparent effort and moved so strongly; or again in his song of exile:

World's grandest region, thou mighty North!
From thy dominions I am driven forth,
Within thy border I lov'd to dwell,
Midsummer sun farewell, farewell,
Thou mighty North, farewell.

The audience was enthusiastic and it was repeated with equal finish and effect."

A large party intend coming to London from Ingersoll and Woodstock and a carload from St. Thomas, whilst Strathroy and other western towns will be well represented; even as far as Goderich a number are coming to hear the world's great baritone. Londoners cannot afford to miss this great treat. The plan is now open at the box office, where some splendid seats can be obtained. Go at once. Mr. Santley will arrive about noon to-day. It is expected a large party will be at the Grand Trunk depot to welcome the distinguished vocalist.

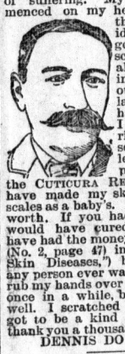
SCRATCHED 28 YEARS

A Scaly, Itching, Skin Disease with Endless Suffering Cured by Cuticura Remedies.



If I had known of the CUTICURA REMEDIES twenty-eight years ago it would have saved me $200 and an immense amount of suffering. My disease (Psoriasis) commenced on my head in a spot not larger than a cent. It spread rapidly all over my body and got under my nails. The scales would drop off of me all the time, and my suffering was endless, and without relief. One thousand dollars would not tempt me to have this disease over again. I am a poor man, but feel rich to be relieved of what some of the doctors said was leprosy, some ringworm, psoriasis, etc. I cannot praise the CUTICURA REMEDIES too much. They have made my skin as clear and free from scales as a baby's. All I used of them was $5 worth. If you had been here and said you would have cured me for $200 you would have had the money. I looked like the picture (No. 2, page 47) in your book "How to Cure Skin Diseases," but now I am as clear as any person ever was. Through force of habit I rub my hands over my arms and legs to scratch once in a while, but to no purpose. I am all well. I scratched twenty-eight years, and it got to be a kind of second nature to me. I thank you a thousand times.

Curative Fluid

The satisfaction of hunger is one of the keenest delights; nature intended it to be so. Yet how many become miserable after eating. A lady called on me and said she was afraid to eat, as directly afterward it made her wretched. I advised her to try the "Curative Fluid," she wanted to know what effect it would have, I explained to her that it would neutralize the excess of acid that prevented the food from digesting; that it would assimilate the food, and make healthy blood, thereby removing the dreadful depression and nervousness she complained of. In three days it affected a complete cure.

Skin Disease

The "Curative Absorbent," used externally, will cure any form of skin disease, eruptive or blotchy face, or money refunded.

Catarrh

The above preparations are the only ones that will effectually remove this loathsome disease. Within 24 hours relief will be felt.
